DAY SCHOOL RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Kateri School for the Quarter

ended June 30 1947

Teacher Mr. M. J. J. of the Cree

P.O. Address Caughnawaga P. Q.

Dated June 30 1947

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the Instructions of the Department.

F. B. B. B.
Indian Agent.

Dated at Caughnawaga

this July 12 1947

Agents should see that full explanations are given by the teacher in the column for "Remarks", if the school was closed during the quarter for other than authorized holidays, and should also themselves make any necessary comments in that column.

INSTRUCTIONS TO TEACHERS

1. Fill up all the columns in this Return.
2. All the columns of the Return must be added and the totals placed at the foot thereof.
3. Number and date of holidays to be inserted in the column for remarks.
4. By the total number of school days in the quarter is meant the number of days in the quarter exclusive of Saturdays and Sundays. All authorized holidays will be allowed.
5. The standing of each pupil must be signified by inserting opposite his or her name the figure 1 in the column designating the particular grade.
6. No names of other than those of Indian children are to be included in this return.
7. The Quarterly Returns must end on the 31st March, 30th June, 30th September, and 31st December respectively, and be immediately thereafter in each case transmitted to the local Indian Agent.
8. When, owing to the number of pupils, the form of Return is not long enough to contain all the names, use another form, paging it as No. 2, and carry forward all totals, placing them in the proper columns. Do not increase the length of the form by pasting another, or portion of one, to it.
9. The average daily attendance during the quarter may be ascertained by dividing the total number of days attendance of all the pupils by the number of days school was open in the quarter.
10. Should the school be closed at any time during the quarter, the reason must be given in the column for remarks for such day or days.
11. The school must be opened and closed punctually at the hours approved of by the Department.
12. This form to be used for Day Schools only.

Form No. I. A. 409
R. 2329

INDIAN DAY SCHOOL REGULATIONS

1. The morning session shall be from 9 a.m. to 12 noon and the afternoon session from 1 p.m. to 4 p.m., with a recess during each session of not less than 15 and not more than 20 minutes. No variation of this regulation should be made without the Department's approval.
2. Salaries of teachers will be paid on a basis of ten teaching months in each school year. Summer holidays are not taken into account in payment of yearly salaries.
3. Regarding the number of days school should be kept open and the holidays allowed, teachers should be guided by the yearly instructions issued by the Department. If a copy of these instructions is not in the school, the teacher should apply immediately to the Indian Agent, or to the Secretary, Indian Affairs Branch, Department of Mines and Resources, Ottawa.
4. All teachers will be required to give at least one month's notice of their intention to resign.
5. All questions relating to the day school should be referred to the local Indian Agent.

DAY SCHOOL RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Grade 3, Kateri School for the Quarter ended June 30 19 47

Teacher Miss Edith Jacobs

P.O. Address Canghnanaga

Dated June 30 19 47

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the Instructions of the Department.

T. B. B. B. B.
Indian Agent.

Dated at Canghnanaga
this July 12 19 47

Agents should see that full explanations are given by the teacher in the column for "Remarks", if the school was closed during the quarter for other than authorized holidays, and should also themselves make any necessary comments in that column.

INSTRUCTIONS TO TEACHERS

1. Fill up all the columns in this Return.
2. All the columns of the Return *must be added* and the totals placed at the foot thereof.
3. Number and date of holidays to be inserted in the column for remarks.
4. By the total number of school days in the quarter is meant the number of days in the quarter exclusive of Saturdays and Sundays. All authorized holidays will be allowed.
5. The standing of each pupil must be signified by inserting opposite his or her name the figure 1 in the column designating the particular grade.
6. No names of other than those of Indian children are to be included in this return.
7. The Quarterly Returns must end on the 31st March, 30th June, 30th September, and 31st December respectively, and be immediately thereafter in each case transmitted to the local Indian Agent.
8. When, owing to the number of pupils, the form of Return is not long enough to contain all the names, use another form, paging it as No. 2, and carry forward all totals, placing them in the proper columns. Do not increase the length of the form by pasting another, or portion of one, to it.
9. The average daily attendance during the quarter may be ascertained by dividing the total number of days attendance of all the pupils by the number of days school was open in the quarter.
10. Should the school be closed at any time during the quarter, the reason must be given in the column for remarks for such day or days.
11. The school must be opened and closed punctually at the hours approved of by the Department.
12. This form to be used for Day Schools only.

Form No. I. A. 409

INDIAN DAY SCHOOL REGULATIONS

1. The morning session shall be from 9 a.m. to 12 noon and the afternoon session from 1 p.m. to 4 p.m., with a recess during each session of not less than 15 and not more than 20 minutes. No variation of this regulation should be made without the Department's approval.
2. Salaries of teachers will be paid on a basis of ten teaching months in each school year. Summer holidays are not taken into account in payment of yearly salaries.
3. Regarding the number of days school should be kept open and the holidays allowed, teachers should be guided by the yearly instructions issued by the Department. If a copy of these instructions is not in the school, the teacher should apply immediately to the Indian Agent, or to the Secretary, Indian Affairs Branch, Department of Mines and Resources, Ottawa.
4. All teachers will be required to give at least one month's notice of their intention to resign.
5. All questions relating to the day school should be referred to the local Indian Agent.

DAY SCHOOL RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Eastern, Grade IV School for the Quarter ended June 30 19 47

Teacher Dr. M. Adeline

P.O. Address Caughnawaga

Dated June 30 19 47

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the Instructions of the Department.

J. H. H. H. H.
Indian Agent.

Dated at Caughnawaga
this July 12 19 47

Agents should see that full explanations are given by the teacher in the column for "Remarks," if the school was closed during the quarter for other than authorized holidays, and should also themselves make any necessary comments in that column.

INSTRUCTIONS TO TEACHERS

1. Fill up all the columns in this Return.
2. All the columns of the Return must be added and the totals placed at the foot thereof.
3. Number and date of holidays to be inserted in the column for remarks.
4. By the total number of school days in the quarter is meant the number of days in the quarter exclusive of Saturdays and Sundays. All authorized holidays will be allowed.
5. The standing of each pupil must be signified by inserting opposite his or her name the figure 1 in the column designating the particular grade.
6. No names of other than those of Indian children are to be included in this return.
7. The Quarterly Returns must end on the 31st March, 30th June, 30th September, and 31st December respectively, and be immediately thereafter in each case transmitted to the local Indian Agent.
8. When, owing to the number of pupils, the form of Return is not long enough to contain all the names, use another form, paging it as No. 2, and carry forward all totals, placing them in the proper columns. Do not increase the length of the form by pasting another, or portion of one, to it.
9. The average daily attendance during the quarter may be ascertained by dividing the total number of days attendance of all the pupils by the number of days school was open in the quarter.
10. Should the school be closed at any time during the quarter, the reason must be given in the column for remarks for such day or days.
11. The school must be opened and closed punctually at the hours approved of by the Department.
12. This form to be used for Day Schools only.

Form No. I. A. 409

Teachers' Residence,

Caughnawaga, July 9, 1934.

Dear Mr. Phelan,

I beg to inform you that Margaret Regis, teacher of Primary Class, in Kateri School, will probably have to give up teaching for at least one year. Her health is very poor.

Should she not be prepared to resume her duties next September, would the Department authorize me to hire Violet Snow to replace her? Violet obtained her Superior Diploma from Montreal University three years ago.

Annie Snow, Violet's sister, teacher of Primary Class in Eastern School for six years, also has her Superior Diploma and receives but \$650 per year, whereas Miss Regis' salary is \$750. Miss Snow often expressed the wish to get as much as Miss Regis, \$750. I submit her request to your consideration.

Please accept kind regards from

Yours sincerely,

L. M. Francis

Principal.

Ottawa, July 12, 1934.

Reverend and Dear Sister:

I have your letter of the 9th instant, with reference to a proposed change in the teaching staff of the Caughnawaga R. C. schools.

As I personally informed you, any change in staff at an Indian day school must now be submitted to the Superintendent General for his approval. I would, therefore, appreciate your advising me as soon as you are certain whether or not Miss Regis intends to give up duties this year. Your letter does not state definitely if she has decided to quit. On receipt of this information, I will submit the matter to the Minister's office, and I do not anticipate there will be any difficulty in having Miss Violet Snow appointed to succeed her.

Owing to present regulations, I regret that it is not possible to make any change in salaries. Consequently, Miss Annie Snow's salary cannot be increased to \$750 a year. For the past two years, very definite instructions have been given that no teacher's salary can be increased. It might be possible, in the event of Miss Violet Snow being appointed, to start her at \$650 and pay Miss Annie Snow \$750. This would not make any change in the total salaries at the Caughnawaga schools, and, at the same time, as Miss Violet Snow is only commencing, she is possibly not entitled to start at the higher salary rate.

As mentioned above, you should let me know definitely your wishes in the matter at as early a date as possible, in order that we may follow the procedure which we are required to do.

With kind personal regards,

Yours sincerely,

Rev. Sister Mary Francis,
Supervising Principal,
R. C. Indian Day Schools,

Ottawa, August 3rd, 1934.

Reverend and Dear Sister,-

I trust that you and Sister Mary Francis reached home safely and was very much pleased to have the opportunity of meeting you.

You will remember that I mentioned to you that, owing to recent regulations, we are endeavouring to regularize the positions held by Mr. Albany Robert, Mr. Joseph Gatien and Mrs. Joseph Gatien.

We have already received cards from the above, but it is necessary for us to have application forms. I enclose three copies in English and three copies in French.

Please arrange to have them complete the form, giving the information requested and return same to the Department as soon as you can conveniently do so. It is not necessary to fill in one form in French and one form in English. Only one form for each is necessary but the two different kinds are sent so that they can reply either in French or in English.

You will note that I have marked the first three questions on each form "do not answer". We will complete the information required in regard to these three questions.

You will, also, note on page 6 that, when either one of them signs, it is necessary to have a statutory declaration taken before a Notary Public or Justice of the Peace. In this connection, I may say that it will be sufficient to have Mr. Letourneau sign each of the three forms.

You understand that it is not a case of written examinations but these forms are required as a matter of record and you should so explain to each of the three concerned. I realize that these forms are not exactly applicable to the positions they hold, but the same question is asked of all applicants and the same form used. Any questions that do not apply to their particular position need not be answered. I am sorry to give you this trouble but I feel that you can explain the form to them fully and assist them in completing same.

With kind personal regards,

Yours sincerely,

Rev. Sister Cleophas,
R. C. Indian Day School,
Caughnawaga, Que.

Dear Madam:

The Department has decided not to re-engage Capt. Champagne as physical instructor for the academic year 1936-37.

You may engage another Reverend Sister to provide a class for the backward children attending the school. Salary will be allowed for this Sister at the rate of \$750 a year. Full particulars regarding her name and qualifications should be submitted to the Department as soon as possible.

At the same time, you should advise if any of the other Sisters at present in the school are being changed. If so, the names of the Sisters who are leaving and the names and qualifications of those who are replacing them should be forwarded at as early a date as possible.

Q The Department will expect that the teachers of the Caughnawaga R. C. School will arrange to teach physical drill to the pupils.

Yours truly,

A. F. MacKenzie,

Memorandum:

REPRESENTATIVE OF THE TREASURY

Re: Caughnawaga R.C. Indian
Day School, No. 305.

Sister M. Leander, a member of the teaching staff at the above-mentioned school was obliged to give up duties on March 31, 1940, and no further payment should be made to her.

She has been succeeded by Sister M. Cecilia whose appointment dates from April 1, 1940, and who will be allowed the same salary as the previous teacher; namely, \$700.00 a year. The name of Sister M. Cecilia should appear on the April and subsequent pay lists until further advised.

Dear Sister Jean de Dieu:

I was advised by the Treasury Branch this morning that several of the Sisters have expressed a willingness to have an amount deducted from their cheques each month in order to purchase war savings certificates.

It may be a mistake on the part of the Treasury Branch but the information they have is that these certificates, when issued, are to be registered in the name of "General Econome". If I am correct this simply means General Treasurer but does not say Treasurer of what organization.

My own suggestion would be to have them registered in the official name of your Order. By so doing there will be no difficulty in establishing ownership whenever the certificates are due for payment. If you wish to follow my suggestion it would be appreciated if you would let me know immediately the name under which your Order holds its charter. Possibly this is Sisters of St. Anne but I thought it preferable to obtain this information from you.

Yours truly,

Rev. Sister Jean de Dieu,
Principal,

Memorandum:

REPRESENTATIVE OF THE TREASURY

Re: Caughnawaga R.C. Indian Day
School, No. 305

In memorandum dated August 16th you were advised of certain changes in the staff of the above mentioned school. One entry read: "Miss Charlotte Bush replaced by Mrs. Joseph Snow". Mrs. Snow did not report for duty on September 1st and has been replaced by Miss Edith Jacobs at a salary of \$70.00 a teaching month, effective from 1st September, 1945.

Miss Jacobs is an Indian teaching on her home reservation and consequently is not liable to Income Tax. The Staff Questionnaire will reach you shortly.

Cheque No. L 093107 issued in favour of Mrs. Snow is being returned to your office and is to be cancelled.

Dear Mr. Phelan:

In reply to yours of the 19th Instant, (5-1-4)
I must say that as we were pressed for the colored pencils or-
dered in the July requisition, I went to Montreal to see what
we could find that would answer the purpose at a reasonable
price.

I found a job lot at Librairie Beauchemin brought
them along and asked that they send the bill to The Department.

May we ask for 2 dozen "Pages from Canada's Story"

Very gratefully yours,

S. M. Clephas

Dear Mr. Phelan:

While checking over the requisition sent in on June 5, we notice that one very important item was omitted. The mistake must have been made when copying the list. We will absolutely need 2000 double ruled scribbers (thin) to be used in the primary grades.

We are sorry that this happened but hope that you can rectify the omission before the requisition is shipped.

May we add that we are looking forward to an early visit from you?

We thank you for your kind attention to this matter and we beg to remain

Madam:

With reference to requisition for school material for the Caughnawaga R. C. Indian Day School, we are today ordering from the Government Stationery Office the supplies requested with the exception of the following:

18 rolls gummed paper, 18 x 24,
50 packages construction paper,
1 Sub. to "Catholic School Journal",
1 " " "Grade Teacher",
1 " " "Young Catholic Messenger",
1 " " "Junior Messenger".

Owing to present conditions every endeavour must be made to keep expenditure as low as possible, and it is felt that the teachers should be able to get along without these articles.

We are advised by the Stationery Office that McVey's Catechism, Part I and Part II, are out of print, as well as Fraser's Drill Arithmetic. Please let us know if you desire to order some other books.

Yours truly,

Philip Phelan,
Chief, Training Division.

Dear Jim:

Re Requisition No. 20784-85-86.

I was in Caughnawaga recently, and the attached account was given to me by the Principal of the Caughnawaga R. C. School.

On reviewing the above requisitions, I find that we ordered 12 Geographies, but I must admit that I cannot find any record of the other two items on any requisition forwarded to you. Possibly you could locate all three items on some of your orders and see if we could get the account straightened out. It may be necessary for us to forward you another requisition.

There is no immediate rush about the matter as I will be out of town until the 10th instant.

Yours very truly,

Philip Phelan,
Chief, Training Division.

Dear Mr. Phelan:

Last night, we received delivery receipt covering the shipment of maps, pictures of the King and the Queen and one hundred (100) exercise books N. 104. We thank you for these.

However, may we bring your attention to the fact that we have not as yet received our requisition for household supplies such as soap, brooms etc.? We are sorely in need of these for our supply is entirely exhausted. Could you help us out by getting in touch with your Purchasing Agent?

Relative to the order for one hundred (100) Catechism (McVey's No. 1) and one hundred Catechisms (No. 2) which was to be sent to Lachine, Sister M. Philippe de Florence, advises us that she has no order from Ottawa as yet. You promised to see to this matter when you were here in September. Most likely, it has slipped your mind. There are so many other things to see to just now, we know.

Dear Madam:

With reference to your requisition dated May 18th for classroom material for the Caughnawaga R. C. Indian Day Schools, please let me know the type of mimeograph stencils which you desire and the make of machine for which they are required.

Owing to present conditions every endeavour must be made to keep expenditure as low as possible, and it is felt that the teachers should be able to get along without the school magazines which you requested.

The other articles on the requisition considered necessary are being ordered from the Government Stationery Office and should reach the school in due course.

Dear Mr. Phelan,

In response to your letter of the 30th of June, I wish to say that we are very grateful to you for the prompt attention given to our requisition.

As to the mimeograph, the A. B. Dick is an ideal machine - furnished by Napoleon Martinian, 1049 Bleusey Montreal or Mimeograph Brand Products 1101 Beaver Hall Hill, Montreal.

Indeed we certainly can get along without the school magazines especially during these hard times. I was unaware of the fact that it did appear upon the school requisition. Sorry for that.

Richard Diabo
George Stalk (not sure)
Hubert Regis -

I was in touch with Charlotte Bush's

this of Charlotte: She is the brightest

tried at teaching and does fine work -
She is a star for Geometry & Latin, having

Ottawa, November 3rd, 1941.

Rev. Sister:

I received your letter of October 24th and delayed the answer till I had some definite information.

The books were ordered some time before I visited your school. They seem to have been held up due to difficulty in obtaining them from the publishers. The last communication received from the Book Bureau indicates that all orders for the books have been filled. If you have not received the books by this time they should not be delayed very long.

Yours sincerely,

A. J. Doucet,
Training Division.

Besides the above articles, we would also need five crucifixes priced at Desmarais-Robitaille, Montreal @ \$9.00 per dozen. ✓

Since there will be no weaving classes from now until the end of the year, Sister M. George will take charge of a regular class. However, if you think it advisable, sister will rework the units that were burnt and prepare another collection of samples. For this, we had thought that probably a 24-inch table loom which we would keep at the convent, could be purchased.

We wish to thank you for your kind attention to all these matters and hope that our classes will reopen with the ~~last~~ possible delay. Mr. Wescott has been here but the work of partitioning the classes has not as yet begun. Many of the desks have been unscrewed from the floor and we are awaiting the building material with anxiety.

Dear Mr. Doucet.

Would it be possible to get
for our boys and girls a few outdoor
amusements... as whatever we had at
the Senior School has been destroyed.

One foot-ball for the Senior boys -
Five soft balls and bats (not too heavy) for
the other boys and girls would serve
the purpose.

Teachers' Residence,

Dear Mr. Hoey:

We wish to take this opportunity to thank you and every member of the Department who in any way, helped in obtaining a new roof for our convent. We certainly appreciate it and we are still hoping that something will be done to the porch. Are we expecting too much?

May we ask you to authorize us to spend \$100.00 for sewing materials for the use of the pupils for the school year 1942-1943?

We have heard nothing about the stocking business since your last letter telling us that someone would get in touch with us. Is the project to be abandoned? We are awaiting further news before purchasing the twisting head for the Spinning Wheel.

Several times we have taken up the matter of having a mimeograph for the R.C.I.S. and every time we were assured that something would be done about it. We are not asking for a new one but we certainly could put a duplicating machine to good use. For example, many hours have been spent in searching records in order to make up a History of Caughnawaga. We had planned to mimeograph these notes and place them in the pupils' hands. Many other projects could be handled in the same way. Could you lend a helping hand in obtaining one for us?

We thank you for your kind attention to all these matters and we beg to remain

My dear Sister:

I have for acknowledgment your letter of the 17th instant, in which you ask for authority to spend a sum of approximately \$100.00 for sewing materials, supplies, etc. for the promotion of vocational instruction at your school.

It will be in order for you to make these purchases from time to time as the need arises, on the understanding that the total expenditure will not exceed the amount stated.

I was glad to learn that you were satisfied with the new roof on the teacherage. A few weeks ago I discussed with the Surveys & Engineering Branch the desirability of undertaking certain repairs to the porch. I regret to state, however, that in view of existing conditions there is not even a remote possibility that these repairs can be undertaken at this date. This applies also to the mimeograph unit referred to in the second last paragraph of your letter. Few people, other than the officials at Ottawa, realize the difficulty we are experiencing these days in securing certain supplies. I have in mind particularly typewriters, furnaces for Indian day schools and repairs for such furnaces. As a matter of fact all of us must realize that this nation is fighting for its existence and that the days ahead will demand the exercise of a great deal of self-sacrifice and the exercise of a great deal of patience on the part of all of us. We are constantly reminded, however, that at the end of the war there are likely to be huge surpluses of supplies that will be, at that date, available for our schools. In the meantime it would appear that we can do nothing, other than to make the best possible use of the limited supplies at our disposal.

Dear Mr. Doucet:

Our classes have begun since September 17 and all our pupils seem very well disposed and ready for hard work.

However, since we have not as yet received the School Arithmetics called for in our requisition, we are somewhat handicapped. Could you obtain 48 copies of Canadian Problem and Practice Arithmetic, Book III (New Edition). If at all possible, we would appreciate receiving the Work Book in Arithmetic (No. 7) to accompany this text book. (Ginn & Company, publishers)

We are also short of one dozen Work Book in English Usage and Composition for Grade 7 as prepared by T. W. Woodhead (New Edition) (J. M. Dent & Sons Ltd., publishers)

We again called for an old mimeograph but we understand that these machines are very much needed by the Department. Since we cannot expect any help from that source, could you furnish us again with twelve Repeater Gelatine Pads. Those we received last year are all gone. These came from the L. A. Reeves Ink Co. Toronto. We will be perfectly satisfied with these pads as since reception of Mr. Hoey's letter, we understand still more how difficult it is to obtain things in these war days. Thank you for your kind attention to this matter.

Reverend and dear Sister:

With reference to your letter of the 27th instant, I wish to advise you that we are today placing an order with the Government Stationery Office for 48 copies of the Canadian Problem & Practice Arithmetic, Book III (New Edition). We do not supply the Workbook in Arithmetic (No. 7) to accompany this text.

We are also ordering for your school 12 Repeater Gelatine Pads.

It is noted that you state you were short 12 Workbooks in English Usage & Composition, Grade VII. We are advised by the Government Stationery Office that 28 Grade VII Workbooks were included in the shipment. If this number did not reach you, I should be glad if you would let me know at once. We are ordering 12 more Grade VII Workbooks to be sent to you, and if the 12 which are missing turn up in the meantime, you may keep them for future use at your school.

Ottawa, August 5th, 1943.

Rev. Sister M. George, Principal, R.C. Indian Day School,
Caughnawaga, P.Q.

With reference to your requisition for classroom material for the Caughnawaga R. C. Day Schools for the academic year 1943-44, it is noted that you request the following Arithmetics:

50	Canadian Problem & Practice Arithmetic, Part I,	
25	" " " " " " , Book 2,	
75	" " " " " " , " 3.	

As you are, no doubt, aware the Canadian Problem and Practice Arithmetics are published in three volumes, - Book I for Grades 3 and 4; Book II for Grades 5 and 6 and Book III for Grades 7 and 8. Please let me know how many of each book you require. We do not supply the Workbooks to accompany these Arithmetics.

The Canadian Individual Arithmetics are supplied for the Primary Grades. These are published in Books, A, B and C. If you require any of these Workbooks, please let me know.

Please let me have more information regarding the "50 Ink Blanks for classroom preparations".

The other articles on the requisition considered necessary have already been ordered.

Philip Phelan,
Chief, Training Division.

Original on 5-1-1

Extract from letter dated August 8, 1943,
received from Sister Mary George.

Answering your letter re file 5-1-4 with
reference to Canadian Problem & Practice Arithmetic,
we would require 50 books for Grades 3 & 4; 25
books for Grades 5 & 6 and 75 books for Grades
7 & 8 or

50	Book I
25	" II
75	" III

We would appreciate receiving 50 copies
each of the Canadian Individual Arithmetics
A, B, and C. We find these work books of great
advantage to the children.

Regarding the 50 Ink Blanks for classroom
preparations, these were black-covered ink books
which the teachers use for their class preparation.
In fact, any ink blank (heavier than the Maple Leaf)
will do for this purpose.

Dear Sister Zita:

I have your letter of the 14th instant, with reference to the typewriter. You say it is an L.C. Smith and No. 8 is marked on it. The latter number refers to the model.

[Handwritten initials]
I feel certain that there is a serial number inscribed on the frame, either at the side or the bottom of the machine. What we want is the serial number. This will probably be a rather large number. I wish you would look over the machine again and see if you can find this number and let me know.

Teachers' Residence,
Caughnawaga, Jan. 16, 1945.

Dear Mr. Phelan:

This letter is to ask your permission that I be allowed to be absent from the Caughnawaga R. C. Indian Day Schools from February 2nd until February 10th so that I may make my annual retreat in Lachine. Provisions will be made so that someone may take up my duties during my absence.

If it is at all possible, would you kind furnish us with seventy five (75) copies of the Canadian Individual Arithmetics Book C published by Ginn & Company, to be used for our Grades I and II? We would appreciate these very much. *In stock.*

Thanking you for your kind attention to these matters, we remain

Yours very respectfully,

GINN AND COMPANY: PUBLISHERS

Toronto, July 9, 1945.

Mr. Paul A. Gay
Controller of Purchases,
Dept. of P. P. & S.
Ottawa, Ont.

Dear Mr. Gay:

Thank you for your order #69984 of July 7th.

We can ship the Workbook for Playmates and Exercises in Arithmetic, Grades 7 and 8 immediately. Exercises in Arithmetic Grade 6, will be ready tomorrow and Exercises in Arithmetic Grade 4, on August 10.

X We do not publish teachers' manuals for these books and believe you mean the Answer Books. The Grade 7 and 8 Answer Books are ready to ship immediately. However, the Answer Books for Grades 4 and 6 will not be ready until September.

X With reference to Exercises in Arithmetic Grade 9 and the Answer book for Grade 9, we do not publish Grade 9 in this series. We are, therefore, cancelling this item from your order. X

X We were wondering if you would like us to ship what we can immediately or if you would rather we delay shipment until August 10th when we would be able to ship the Grade 4 books. This would mean that your order would be complete at that time with the exception of the 2 Answer Books for Grade 4 and the 2 for Grade 6. Please let us know what you would like us to do in this matter.

Yours sincerely,

Dear Mr. Phelan:

While checking school supplies in all classes, we find that there are still many items missing. We are attaching a copy of these articles called for on our requisition for the scholastic year 1945-1946.

Furthermore, we have had a long conference with Mr. Wescott, the Inspector, regarding a programme to be followed by our Ninth Year. This year, we have twelve boys and five girls in this class and if you approve, we would attempt the following programme with them:

Mr. Wescott and we also believe that this programme will be an immediate preparation for our boys going to Loyola in preparation for their technical course later on. Our girls also would thereby be saving one year of High School while training as teachers.

You may be interested to know that one of our war veterans, eighteen years old and wounded overseas, came to beg us to accept him in school. He says he is willing to follow the pupils everywhere as long as he gets the knowledge he refused when he was younger.

Our registration so far is 352 pupils, more than fifty above last year's. Our "store" classroom is coming along well. The pupils' desks and the black-board came in last Saturday. We thank you for all these supplies. Will you kindly tell us if we may count on the additional textbooks mentioned in this letter?

Respectfully yours,

SISTERS OF SAINT ANN

Mr. Wescott and we also believe that this programme will be an immediate preparation for our boys going to Loyola in preparation for their technical course later on. Our girls also would thereby be saving one year of High School while training as teachers.

You may be interested to know that one of our war veterans, eighteen years old and wounded overseas, came to beg us to accept him in school. He says he is willing to follow the pupils everywhere as long as he gets the knowledge he refused when he was younger.

Our registration so far is 352 pupils, more than fifty above last year's. Our "store" classroom is coming along well. The pupils' desks and the black-board came in last Saturday. We thank you for all these supplies. Will you kindly tell us if we may count on the additional textbooks mentioned in this letter?

Respectfully yours,

SISTERS OF SAINT ANN

Mr. F. Brisebois, Indian Agent,
Caughnawaga, P.Q.

I desire to refer to the requisition forwarded by the Principal of the Caughnawaga R.C. School.

Some of the books requested appear different from those supplied in previous years, and, before placing an order for them, I would appreciate further information.

1. 45 General History (Modern World).

Is this a Canadian or an American publication? In what grades is it proposed to use this book? From what firm in Canada can the book be secured?

2. 6 Language Work Books (1-2-3)
6 " " " (#4 - 5)

The different publishing firms have different books of this kind. Please let me know the name of the publisher whose books the Sisters prefer.

3. 40 Directed Language Practice Workbook Grade 7
38 " " " " " 8

Similar information should be given regarding these books as has been requested regarding the Language Workbooks.

4. 30 Dominion High School Arithmetic
18 School Arithmetic - Interim.

The number of High School Arithmetics requested appears large. Will there be 30 children in this school taking

high school work next year? The name of the publisher of the Interim Arithmetic should also be given.

5. 45 Junior Science for Secondary Schools, Part I. (Pitman & Sons)

I am under the impression that this is an American publication. Several Canadian publishers have excellent Science series. Would it not be possible for the Principal to select books published by a Canadian publisher?

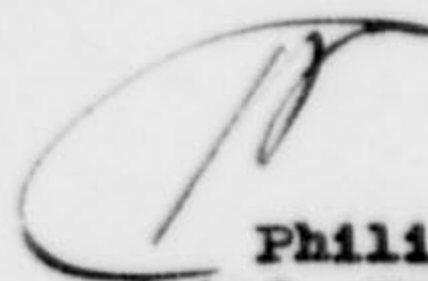

6. 700 sheets construction paper 22 x 28.

The approximate cost of these would be \$58.00. Would it be possible for the Principal to reduce her request?

7. We have recently been informed that the Philips Atlas is out of print.

You may purchase 24 rug needles and 40 loose-leaf binders.

Please show this letter to the Principal as soon as possible and let me have her reply.

Caughnawaga, Que.,
August 3, 1946.

The Indian Affairs Branch, Dept. of Mines and Resources, Ottawa,
Ont.

I wish to acknowledge the receipt of your letter of the 13th ultimo dealing with the requisition forwarded by the Principal of the local R.C. Schools. In reply I beg to say that the delay in replying to same was due to the fact that the Superior who has been transferred to Alaska was away in the United States, visiting relatives, when this letter was received.

1. 45 General History (Modern World)
These are by Betten and Kaufmann, published by Allen and Bacon, Boston. The Sister does not know of any firm publishing this book in Canada. If impossible cancel for this year.
2. 6 Language Work Books (1-2-3) on St-Isidore School
6 " " # (4-5) Dent & Sons, Toronto
3. 40 Directed Language Practice Workbook Grade 7
38 " " " " " 8
Available at Dent & Sons, Toronto, Ont.
4. 30 Dominion High School Arithmetic. N.J. Gage & Company
18 School " E. Robert C.S.V. Montreal
5. 45 Junior Science for Sec. Schools, Pt. 1, (Pitman & Sons)
(Published 381, 3 Church st. Toronto.)
6. 700 sheets construction paper 22 x 28. Reduced to 500 sheets.

The above is copied from notes remitted me by one of the teachers who received them from the former Superior.

Dear Sir: Re: Requisition No. 26613.

With reference to your letter of the 21st instant requesting the name of the publisher of the Loyola Book of Verse, you might try either Librairie Beauchemin Ltee. or Granger Frere Ltee., in Montreal, if the Copp-Clark Company is not able to supply this book.

Yours truly,

Bernard F. Neary,
Supt. of Welfare and Training.

Referring to requisition 26755 which includes copies of "Directed Language Practice Work Books, Grades 7 and 8," I would ask you to kindly let me know publisher's name and address, as this publication cannot be located.

On the above requisition you also ordered six "Language Workbooks" for Grades 1 to 5.

Kindly let me know if it is "Nature and Language Work Books" that you require. The Agents have three Work Books in this Series: Junior - Grades 2 and 3; Book 1 - Grades 3 and 4; Book 2 - Grades 5 and 6. Evidently the Company does not publish a book for Grade 1 in this Series.

Kindly advise what action you wish taken.

Ottawa, October 2, 1946.

Dear Sir:

Re: Requisition No. 26755,
Caughnawaga R.C. Day School.

We have your letter of September 23rd regarding Language Workbooks for the above school.

If "Directed Language Workbooks" for Grades Seven and Eight, cannot be obtained from Dent and Sons, we would ask you to cancel these two items on the above requisition.

If Dent and Sons cannot supply the six Language Workbooks (1, 2, 3) and the six Language Workbooks (4, 5), we would also ask you to cancel these two items.

Please supply Nature and Language Workbooks as follows:

50 copies Junior,
50 " Book 1,
75 " " 2.

These workbooks are carried in stock for our Department.

Yours truly,

Mr. J. W. Driscoll,
Supt. of Stationery,

Ottawa, July 26, 1947.

Dear Sister Albertus:

We have received your requisition dated June 15th and are arranging to supply your requirements in most of the items. However, there are several items which we do not find in the list of Textbooks approved for English Catholic Schools for 1947-48, and these are not being ordered. These are as follows:

History of Canada Elem. (CSV)
Lessons in English Elem. (BCS)
Reading Development for Grade VI
Reading Tests for above
Play Workbooks for Juniors
" " for Older Children
Directed Language Practice Workbook
Canadian Practice and Testing Workbooks
New Progress Arithmetic Workbooks
Geography Workbooks
History Workbooks.

The school Bulletin for September will contain a list of workbooks in Language which will be available shortly.

With reference to your request for pictures for class study, it is noted that you list a catalogue number but neglect to state the name of the company who supplies these pictures.

We also note that you have requested a set of the Book of Knowledge, although two sets have just recently been sent to you.

In your requisition of June 17th you ask for large quantities of library books which we are making available to our schools. I would refer you to the June issue of the Bulletin, Item No. 60, in which we clearly lay down the scale of issue for these books. From the quantities ordered, it would seem evident that the Sisters who prepared this requisition have not read this item very carefully. As we are endeavouring to supply not only our large schools, but also our smaller schools with library books, you will realize that it would be impossible to provide the quantities which you have requested.

Before we can order a Gestetner Duplicating Machine for your school, I would ask you to let me know what type of hectograph or duplicating machine, if any, you are at present using at the Caughnawaga School.

The Rh,thm Band outfit is not being allowed.

A decision has not yet been reached regarding the Catechisms to be used in future in Roman Catholic schools throughout Canada, and we are, therefore, not supplying the catechisms which you request.

Yours truly,

Philip Phelan,

Teachers' Residence,
Caughnawaga, P.Q.
Aug. 6, 1947.

Dear Mr. Phelan,

We wish to express our deep appreciation for the very interesting books, issued by the Canadian Legion Educational Services, and sent to us by the Department a few weeks ago, also for the items called for in our requisition and which have already begun to come in.

*send 12
for St
wkbs*

Yes, Mr. Phelan, we are aware that some of the books which we ordered are not now approved for English Catholic Schools; however these books have already been in the list of textbooks and they still are of such great help to the teachers and pupils that we thought we could call for them again. We accept your decision in the matter but feel sorry about the "Canadian Practice and Testing Workbooks". May we call your attention to the fact that these workbooks form part of the text book "Canadian Problem and Practice by Smith, etc." which is actually the Arithmetic text book approved for English Catholic Schools? Would it be possible also to receive a dozen or so of the Geography and History Workbooks for the use of the teachers in the classroom?

With reference to our request for pictures for class study, we stated the name of the company from which these may be had on page eight of our requisition. It is "Moyer's School Supplies."

We made out our requisition in April; then we were not aware that we were to receive two lovely sets of "The Book of Knowledge" in the following month. The pupils and teachers love them.

*revised
list
OK*

Now I must offer my apologies for the "large quantities" of library books published in the June bulletin *and ordered by me.* I am the one who made the blunder and not our teachers here. I am enclosing a new list for these books and trust your customary kindness will find a way to obtain these attractive books for our classes.

11

We have no hectograph or duplicating machine of any kind in our schools. We use the simple repeater pads or "Ditto Duplicating Film" sent us by you with our school supplies. We should find it very useful to get a Gestetner Duplicating Machine for the schools.

I wish to express our sincere thanks, once more, for giving authorization for the painting of our house. We have just heard that Mr. Lanctot's prices for the paint have been accepted so we hope the work will soon begin. It is no luxury, I assure you, Mr. Phelan.

I have just given Reverend Father Lalonde the names of the pupils who wish to obtain a grant to continue their education in some college or convent in Sept. The parents and teachers will be very grateful to you for what you will kindly do to allow our pupils to continue their education.

With renewed thanks, we remain,

Yours sincerely,

Miss Daves

Teachers' Residence,
Caughnawaga, P.Q.
Oct. 24, 1947.

Mr. Bernard Neary,
Superintendent of Welfare and Training,
Ottawa.

Dear Sir,

We wish to extend our sincere thanks, once more, to you and the members of the Department for the increases in salary we have recently received.

You must be aware that many of the school articles asked in our requisition of last April have not yet been received. We have already mentioned this point in our letter of Sept. 8th, stating the urgent need we had of pencils, rulers, etc. We also asked authorization to order Latin and French books. May we hope to receive these articles and books soon? There are also cleaning articles for our residence and for the schools which we are also hoping you will grant authorization to Mr. Lanctot of St. Isidore to purchase for us as in former years.

Dear Sir, we are taking the liberty of enclosing a list of books which we would very much need for our classes. Most of these books were also requisitioned in April. We are sending you, too, a copy of the much needed articles mentioned above.

Owing to our small classrooms in our two schools, our physical culture teacher suggests to combine two or three groups together and give her lessons in the Parish Hall. We often use this Parish Hall for school purposes. Do you think, Sir, that a rent could be paid by the Department to Father Lalonde?

Our Domestic Science Teacher finds it very hard to buy all the material she needs for her sewing class with One Hundred and Thirty Dollars. She asks whether this allowance could be increased.

I believe that during one of the last visits of the Delegation of Caughnawaga to the Members of the Department that it was asked that the grounds of our old Senior School be levelled. May I be allowed to stress the need of this when we wish our pupils to meet together for field days and for sports matches of all kinds. We are trying to put into effect the House System for games and school activities as suggested in the splendid Indian Bulletins which we receive. We have already expressed our praise for these bulletins in the past school year. We still find them enlightning, valuable and interesting.

Speaking of our Senior School, at this time last year we were most certain that our new school would be well on its way during this Fall of 1947. May we still cherish the hope of seeing its walls rise very soon?

We derived much benefit from the conferences given in Montreal on the 18th and 19th of Sept. and which you kindly allowed us to attend. Our Inspector, Mr. Wescott gave us splendid talks.

With renewed thanks for this privilege and much hope of receiving a favorable reply to the above requests, we remain,

Yours sincerely,

Sr. M. Albertus
Principal

N.B. We realize that the books we wish to get from the Montreal Book Room amounts to a high sum, about \$416.00. Would it be easier for you and for us if we made four or five bills of between \$80.00 to \$90.00 worth of books at a time?

Dear Sister Albertus:

With reference to your letter of the 24th instant enclosing a supplementary requisition for classroom supplies for the Caughnawaga R. C. Indian Day School, I wish to advise you that we have requested the Government Stationery Office to order the pictures, text-books, etc., shown on the attached list.

You will note that we have ordered only three copies "Europe Before Modern Times", as fourteen copies were requested by you in June, last, and these were ordered at that time. If they have not been received by you, please let me know.

We have not ordered Junior Science, Book 2, as we do not find it listed in the pamphlet entitled "Textbooks approved for English Catholic Schools (1947-48)".

The McLean Writing Books have not been ordered, as we have already ordered 80 Bailey Writing Books, Part I, and 200 copies Bailey Writing Books, Part II, and ten Teachers' Manuals. These Writing Books were ordered by you in June, last.

An order has been placed with the Sport Shop, 98 Bank St., Ottawa, for the playground balls, bats, footballs and basket ball requested by you.

Dear Sir,

We are deeply grateful for the attention given
our supplementary requisition.

Yes, we did notice you have ordered only three copies
of "Europe Before Modern Times" but though we made a request
of fourteen of these in our requisition of last April, we have
not received them. During Mr. Doucet's last visit to us, we
spoke to him about this, also about the "Junior Science",
Book 11, listed in the program of books for the Catholic High
Schools of Que. May we hope that you will have these fourteen
"Europe etc." and 38 "Junior Science, Part 11" ordered soon
from the Montreal Book Room?

We thank you very much for the copy of the list of pic-
tures to be ordered from Moyer's and the other books from the
Montreal Book Room. We have begun to receive a few from the
latter place and I assure you that our teachers and pupils
are very happy.

We are still anxiously awaiting for the 80 Bailey Writing
Books, Part 1, and the 200 copies of Part 11. Our pupils of the
lower grades are in need of them.

The basket ball, bats, etc. have been received and
every one is much pleased with them. We shall take much care
of these sports object.

Dear Sir, has any decision been taken about the rent to

Dear Sister Albertus:

I have your requisition
for Science Equipment for the Senior pupils.

Please be advised that it
will be in order for you to buy this equipment
locally except the microscope and slides. These
items can be bought later when the new school is
built.

You may spend up to \$25.00
for the purchase of this equipment.

Yours truly,

Bernard F. Neary,
Supt. of Indian Education.

Reverend Sister Superior
St. Ann's Convent
Caughnawaga, Quebec

Dear Sister Superior,

You no doubt have heard that we are closing the English Course here next year. This naturally necessitates a removal of all that pertains to the Course. For this reason, I am enclosing a list of the Library Books we have with second hand prices. If you should care to buy some of them, it would help us out very much and would at the same time help to cover some of the expenses for the opening of the Normal School.

The books are not new and most of these listed \$0.10 are very old. If you wish to buy any kindly check them and return the lists as soon as possible. I shall forward your order as quickly as possible.

Thank you for whatever help you may be able to give us.

Sincerely yours in Christ

Sister Mary Caroline

Teachers' Residence,
Caughnawaga, P.Q.
April 26, 1948.

Dear Mr. Neary,

May we presume upon your kindness to look over the enclosed papers? We find it would be a great advantage for our classes to possess many of these books. We hope, also, to open a circulating library next Fall. Would the Department allow us a certain amount of money for the purchase of these books?

We shall look upon a favorable reply as a great favor done to our pupils and to us.

Yours sincerely,

Sr. Mary Albertus

Reverend Sister:

The Department authorizes an expenditure of \$15.00 for the purchase of Library Books from the St. Ann's Convent at Rigaud, P.Q. It is understood that these are used library books and that they will be very valuable for use in the senior grades at Caughnawaga.

Sincerely yours,

Bernard F. Neary,
Superintendent of Education.

Caughnawaga, P.Q.,

We have obtained two 45"
looms but we are very restrained as to
storage space.

We are, therefore, sending
these looms to Caughnawaga. They are to be
stored until required for the new school.

We hope that this will not
cause you any undue difficulty.

The eight maps desired are:
North America, South America, Europe, Africa, Asia, Australia, Word-Mercator, Canada and the United States.

Would you kindly send me particulars and prices on any such sets that you might have available.

Yours sincerely,

Bernard F. Neary,
Supt. of Indian Education.

Mr. Bernard F. Neary,
Supt. of Indian Education.
Department of Mines and Resources,
Ottawa, Ont.

Dear Sir:

We have your letter of June 24, 1949, inquiring about three map cases complete with eight maps on rollers, for one of your large schools. We would like very much to take care of this order, but we find that map cases presently available are not built strongly enough to withstand the rigours of school use. We would suggest that you purchase our maps in our S.R.B.D. mounting, that is, with spring rollers and dust-proof protectors and if necessary have these mounted in banks of four or eight as desired.

These maps in the titles shown by you can be supplied in our large series at \$17.00 (seventeen dollars), per map. We are sending you under separate cover a copy of our Catalogue No. 65, which shows these maps on page 229, with the exception of the map of the United States.

This latter map can be secured and supplied in a similar scale. I hope this is the information you require, and we will look forward to hearing from you at an early date.

Very truly yours,

MOYER SCHOOL SUPPLIES LIMITED.

Attention: Department of Public Printing and Stationery

Gentlemen:

According to the December, 1948 Indian School Bulletin which allows for this late requisition, due to anticipated changes in text-books, we are forwarding the order of the new books adopted for the new school term of Grades VIII and IX.

Seeing that we still have a sufficient supply of a few of the old books on hand, we are asking for only a "reference" quantity so that the teachers may select the suitable exercises and thus still follow the approved program. That explains the difference in the number. (This refers only to a few of the approved books.)

The greater part of the first requisition has been delivered...a blessing which we have not enjoyed for years. No doubt the remainder will reach us before the opening of school--especially the readers for the Primary Grades.

Since our letter of August 5 addressed to Col. Neary has not yet been acknowledged, we presume he is busy on the road.... Consequently, you have not received the well-deserved 'Honorable Mention' we requested him to pass on to you. WE take this opportunity to offer your Staff our personal "Thank you" and "Congratulations!"

Very truly yours,

Dear Sister Mary Mediatrix:-

I have your letter and requisition for books,
dated August 24th and I am pleased to hear that you have
received most of your supplies. I expect you will be
receiving the remainder shortly.

I am sending your requisition to the Department of
Public Printing and Stationery, except for the request for
"Elementary Art" by R.W. Hedly, where you show need for
three sets of each grade. This information is not clear.
Could you advise whether there is an individual book for
each grade or whether one book covers more than one grade,
and whether each set is called a grade, book or set.

Yours sincerely,

Gentlemen:

It is our understanding that the building and equipping of a new Indian Reserve School at Caughnawaga is in your hands. We wonder if the plans for this building include the installation of basic maps, globes and charts that will enable the faculty to carry on the teaching and learning program desired.

If the installation of this equipment is part of the total job of your department, and we can be of service to you, we will be pleased to cooperate with you. Copy of our Catalog #49 listing basic material will gladly be sent to you, and we are sure that our local representative would be glad to show actual samples of material if that would be helpful.

Re: Our Requisition 30404

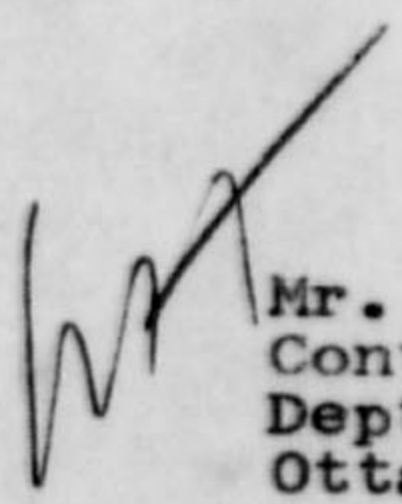

I have your letter of October 22nd in reference to the two sets of Maps for the Caughnawaga Indian Day School.

As the suppliers are unable to instal nine maps in one case, it will be in order for you to cancel the request for the Map of Canada as we can supply this Map individually.

This will leave eight maps to be mounted in one tilting case.

Dear Sir:-

The R.C. Teachers have not yet received the books ordered at the beginning of the year. This would mean that geometry, French and Literature text books are lacking.

The Superior tells me that she can obtain the geometry books immediately and the others within a week from the Montreal Book Room, located at 1455 McGill College Street, Montreal.

She would like authority to purchase those books locally and have the previous order cancelled.

It might be better for us to have the stationery office check up on this. I did not feel inclined to authorize the purchase.

If you think we should do it by local purchase you should write to Sister Superior and authorize her to purchase locally.

Yours truly,

A.J. Doucet.

CHIEF, EDUCATION DIVISION
SUPERVISOR OF VOCATIONAL TRAINING
Caughnawaga R.C. Indian Day School

During the past few days while visiting the school my attention was invited to various requests and requirements.

I attach the following documents:

(1) A Purchase Order for 120 copies of Catechisms dated June 21, 1949 and not yet received.

(2) A list of requirements for the primary grades.

I was requested to remind you of the following items, some of which are said to have been promised or at least previously discussed.

- ✓ (1) A new typewriter. *sent*
(2) An electric floor polisher. (I note that the hard-wood floor in one room is already beginning to heave.)
(3) Map cases. *sent*
(4) Cork board for the classroom walls.
→ (5) Cupboards with glass doors for the Domestic Science rooms.
(6) Bookcases for the Principal's office.
(7) Folding chairs. (Not the type previously supplied by Vilas.)
(8) First Aid kits. *from my recent request*

- (9) Waste paper baskets.
- (10) Coat hangers.
- (11) Alphabetical guides for files, legal size.

In addition to the items above I suggest the early purchase of:

- 2 more sewing machines.
- 4 electric irons.
- 4 folding ironing boards.
- linoleum or tile for the sewing room.
- folding tables for the lunch room.
- mirrors for the washroom. (There are none.)

The Sister Superior would like to know when installation will be made of the extension telephone in her office which is on the floor above the Principal's office.

Rev. Sir,-

The Department purposes erecting two new school houses on the Caughnawaga Indian Reserve, one a two-storey brick veneer building and the other a one-storey frame building, and it would like you to notify your parishioners that tenders will be received up to the 1st of June next addressed to the "Secretary, Department of Indian Affairs, Ottawa". Each tender should be for each building separately.

The plans and specifications may be seen at the offices of Mr. J. Blain, Indian Agent, 996A St. Denis Street, Montreal and of Mr. L. Letourneau, Assistant Indian Agent, St. Constant, or at the home of Constable Martin Two Axes, Caughnawaga Village or the Post Office at Lachine.

As the advertisements in the Montreal daily papers next week may not be noticed by some of your people who might wish to tender, the Department is taking the liberty of asking this favour of you.

MEMO.

Dear Sir,

Please to send me the specifications for the construction of two schools on the Reserve here in French; several contractors who wish to tender cannot understand the specifications in English.

Please send the translation at once, to enable them to compete.

And what site have you chosen? The contractors deem it necessary to know to enable them to tender, according to the nature of the soil. The site chosen by Mr. Barron does not meet with the general favour. The present site is favorable.

Immediate
Sir,

From the plans and specifications for the erection of schools at Caughnawaga I do not understand whether it is the intention of the Department to build these two schools this year, and in that case to receive tenders for the two schools.

The tenderers would like to know the site where the buildings are to be erected.

Please, therefore, give me this information by return of mail if possible.

Your, &c.,

J. Blain,

Sir,

In reply to your letter of the 18th instant I beg to say that it is the intention of the Department to build the two school-houses on the Oaughnawaga reserve, referred to in the advertisement calling for tenders, this season and contractors may tender for the erection of one or both these schools.

The brick veneer school-house will be built on the site of the present Girls' school and the frame one for the Protestant Indian children on the lot adjoining the Methodist Church in the Village and the Rev. Mr. Mathews will point out the exact spot arranged for the latter building.

You will be good enough to obtain an offer from any intending tenderer for the removal of the old Girls' school building.

Your obedient servant,

J. D. MOLEA

Dear Sir:—

Will you kindly send, in the enclosed stamped, addressed envelope, full details of the recent award of tender made by your corporation, particularly respecting the names and addresses of the bidders and the amount of their tenders?

This information is sought purely for the reason that we desire to print, in the Construction News Department of the ENGINEER, complete information respecting letting of this work.

Trusting you will favor us with AN EARLY REPLY.

We are, dear sir,

Yours very faithfully,

THE CANADIAN ENGINEER.

Sir,

I have to request that you will go to Caughnawaga on Sunday, next, and give notice in the usual way of the sale of the old building (Girls' School) by public auction on the 7th of June, next, at an hour fixed by you. This date will not interfere with the collections of rents.

The building is to be sold to the highest bidder, who will be required to remove it from its present site by June 15th. The purchaser will be required to pay 25% of the price down at time of sale and the balance in two equal payments one and two months from date of sale, secured by a lien on the building or the material if taken apart.

The IDEAL Machine Is Sold Strictly On Its Merits.

The Ideal Machine is not a cheap machine. Where **price** is the chief consideration, we know that the purchaser will be better satisfied with machines that are sold on **price**.

But, we want to talk to the man who looks ahead, one year, two years, yes, ten years ahead. We want to talk to the man who thinks about his **profit**, about his work giving satisfaction, about his reputation, about his plant giving the maximum amount of work with a minimum amount of labor and expense. That man, we know, will think of all these things and the little difference of first cost will sink into insignificance.

The Ideal Machine is made and sold solely on its reputation for efficiency.

A personal talk and a close inspection of the Ideal Machine is better than anything we can put into print to convince. Actually working with the Ideal Machine will

do more than even looking at it to convince you. A review of your work, five years hence, will prove to you that the half wasn't told you of the efficiency and quality of the work of the Ideal Machine.

You Eliminate Cheap Competition If You Use an IDEAL Machine.

Every one has cheap competition. It's in the cement block manufacturing business the same as it is in the cement machinery manufacturing business, or any other line of business.

With the Ideal Machine there is a character and individuality about each block. You'll easily see it in each design. You'll see the true sharp lines that exactly represent the chipped out stone effect. You'll see it and your customer will see it and there'll be the conviction that as there is a difference in the price of blocks, there is also a big difference in the blocks themselves.

Below are shown illustrations of two other houses built of **Ideal** Blocks, by Western Cement Construction Co. It will be noted that Rock Face Blocks are a negligible quantity in the construction work of this firm. They also send photos of six other houses of **Ideal** Blocks.

Size 24 by 39'. Blocks used, 2,400. Five Rooms, Mason Work Cost \$600.

Size 25 by 32'. Porch all Concrete. Seven Rooms. Mason Work Cost \$1260.

Seven Blocks More With The Same Material.

Two men will make 275 IDEAL 8x8x16" Concrete Blocks in a day of Ten Hours, mixing all the concrete by hand. One Barrel of Cement and twenty cubic feet of sand and gravel will make fifty of these blocks. This is seven more than can be made with the same amount of material on any other machine. This is due to the economical and perfect construction of the IDEAL Block. In a day's run, therefore, the net gain will be 37½ blocks, or 225 blocks in a week. This gain will pay the operating expenses.

By the installation of an IDEAL Automatic Tamper the output is increased to from 500 to 600 Blocks, made more dense and every block tamped alike.

It's Not What We Say, But What Others Say About The IDEAL Machine.

THE ARTALITH CONCRETE WORKS,
PLAINFIELD, N. J., in a letter to us said:—

"After examining nearly all the block machines on the market I induced the Company for which I was manager to purchase two of your machines. After using these machines for nearly a year and a half I started into business for myself. If I had not been sure that I could make anything in the block line and meet competition as to quality, I should not have bought the two IDEAL machines for myself. A New York engineer, after watching the operation of the IDEAL machine for some time, the machine being changed from one style of

block to another, made this remark when leaving the plant: 'In the manufacture of that machine, brains were used as well as cast iron.' There seems to be nothing impossible in the block line with the IDEAL."

We haven't the space here to quote from the hundreds of letters we have from customers in the United States, Canada, Mexico and foreign countries throughout the world.

Ask for our booklet. "What Others Say About Us." You'll find ideas and get a clearer conception of our machine than anything we say. There are 211 letters in this book praising the IDEAL Machine and most of them were received in a period of six or seven months.

Every User of an IDEAL Machine is an Enthusiast. He sees a Daily Demonstration of Its Simplicity, Adaptability, Durability and Reliability.

Data Regarding Bungalow Shown On First Page.

Size of house, 45 by 50'. Cement Work, including walks outside, Stucco Plaster, etc., \$7,750.00. The bungalow has Reception Hall, Living Room, Dining Room, Kitchen, three Bedrooms, and Bath Room on the first floor, and Billiard Room, Maid's Room and Bath Room on the second floor. The first five courses in the ground are of rough blocks, plastered outside with cement mortar, inside faced smooth. Then white-faced panel, 8x8x16" blocks are used up to the window sills. Rough blocks are used from there up to the eaves, and are plastered two coats. Roof is of asbestos shingles.

Address of building, 212 W. Second Ave., Maywood, Ill.

All trimmings, columns, flower boxes and lintels are of cast stone. The lintels are reinforced, the house is elaborately trimmed with quartered-saved oak and curly birch. The Western Cement Construction Company, Chicago, Ill., have erected 25 houses this year, and are building seven at present, all of IDEAL Blocks.

Patent Decisions.

Our Patent on Hollow Block Machine covers all types of Face-Down Block Machines having horizontally movable cores, in which the Block is rolled out to discharging position on a portion of the mold which is formed of hinged sections.

Dec. 20, 1909, The United States Court for the District of Western Michigan sustained our Patent Rights.

Nov. 21, 1906, The High Court of Justice of London, Canada, sustained our Patent Rights.

Oct. 4, 1909, the United States Court for the District of Indiana sustained our Patent Rights.

Patents are granted for designs, changes and improved features by the patent office, many of which cannot be used without infringement of the basic principles. This will explain why some manufacturers *think* they do not infringe our Patent Rights.

No decision of the Patent Office or the Courts failed to sustain and protect our Patent on the IDEAL Type of the Hollow Concrete Block Machine.

What Does an IDEAL Block Machine Outfit Represent?

The regular outfit includes equipment for making Plain Blocks, also Panel $\frac{1}{4}$ " Bevel, $\frac{1}{4}$ " Margin Blocks in full size, also half and quarter Blocks, Pier Blocks, Return Corner Blocks, Joist Blocks, Gable Angle Blocks, in fact, everything necessary for ordinary building construction.

What Does the IDEAL Line Represent?

The line represents all kinds of Block and Brick Machines of various sizes, and in addition the most complete line of Accessories and Attachments in the world. It also represents Automatic Tampers, Mixers, Sill and Lintel Machines, Sill and Cap Molds, Step Molds, Side-walk Molds, Fence Post Molds, Sewer Pipe and Drain Tile Molds, and a complete and artistic line of Ornamental Molds. IDEAL Machines represent the highest standard of efficiency for the production of Concrete Work. Our Company dispenses the most complete and reliable information pertaining to the industry.

Write Us.

Possibly there is some thought in your mind that has not been answered or mentioned in regard to the IDEAL Machine.

There are so many things about the IDEAL Machine that we cannot bring them all out in a folder or circular. Besides some things will appear in one light to one and in an entirely different light to another.

We want you to know the IDEAL Machine as it is and not as a person imagines it is. You want to know the IDEAL Machine as it actually is, too. If there are any points that are particularly valuable to a cement block manufacturer you want to know them.

That's why we say write us—write us *frankly* and tell us just what you think and feel about the Ideal Machine. We will give you the facts. Upon them you can base your own judgment.

Sir,

Mr. Chene, C.E., has forwarded to the Department your communication of the 16th instant, in which you ask for a copy in French of the specifications for the school buildings to be erected on the Oaughnawaka reserve.

In reply I beg to say that the Department has no copy of these specifications in French and it is now too late to have these prepared. As you will see by reference to the advertisement which appeared in the Montreal papers tenders are receivable not later than June 1st. INTRODUCTION

It is admitted that the united strength of Steel and Concrete, when correctly proportioned, exceeds many times the sum of their individual strength.

Keeping this in mind, it stands to reason that steel, inserted in the cement mortar joint of brick work, will have the effect of strengthening the joint to a very great degree.

In seeking a suitable form for this steel it was decided to use it as a wire mesh of 14 G. wire with a $\frac{5}{8}$ " mesh, as this permeates the cement thoroughly and most nearly approaches the ideal reinforcement.

TESTS

In order to test the effectiveness of this theory the following wall was built. An eight inch cavity wall was erected consisting of one wall 4" thick, a cavity of $1\frac{1}{2}$ " and a brick-on-edge or 2" wall. This wall was supported on two piers ten feet apart, and it had a projecting part or cantilever five feet long.

There were no ties of any description between the walls, but the reinforcement was inserted in each mortar joint and carried the full length of the wall through the piers.

The illustration shows the load on the wall; 17,111 lbs. on the span and 4,088 lbs. on the cantilever.

The loads were distributed, but care was taken to keep them inside the line of the piers. With this load there was no sign of fracture or weakness, and after waiting for a time it was decided to knock the test down by using a batten as a ram.

This was accomplished after considerable effort by two men.

This test was carried out in a Montreal Builder's yard in November and December of 1908.

A further test was made to destruction to find the lateral resistance of a half brick wall. A piece of wall half a brick thick, measuring 3 ft. long and 2 ft. wide was built in 3-1

cement mortar, and reinforced every course in a similar manner to the previous test. After standing for ten days it was laid on its side and supported at both ends having a bearing of $\frac{1}{4}$ inch.

It was then loaded with bricks and failed under a load of 4,144 lbs.

The illustration shows a photo of the above mentioned piece of wall after failure. It will be noted that the bricks failed before the mortar joint. Compare this with a wall without reinforcement placed in the same position. It would hardly support itself.

POINTS REGARDING THE USE OF REINFORCEMENT IN BRICK WORK

The hollow or cavity brick wall is probably the best type of insulation known in building construction.

A hollow brick wall secures the building against heat, cold, and damp, and when used for partitions is sound-proof, and fireproof.

The ordinary brick cavity wall is expensive, but when built on the H. B. System can be built cheaply, because reinforced brick walls by reason of their great strength in resisting ten-

sional and lateral stresses, do not require to be of the same thickness as ordinary walls, whose strength is only in proportion to their weight.

Heavy brick walls are only as strong as their foundation for weight-carrying purposes. Should the foundation settle, cracks will appear throughout the building.

By using H. B. Reinforcement, Architects and Engineers will insure their building against settlement, cracks, and bulging, add 50 per cent. to its life, reduce the cost of maintenance and repairs, and render the building monolithic and fireproof.

In a recent copy of a magazine devoted to the uses of cement, a series of tests of the best fire-resisting materials is recorded. After describing the various mixtures used in the tests and their fire-resisting properties, the engineer under whose supervision the tests were held, came to the conclusion that "Brick Panel probably withstood the tests better than the other materials."

These tests were held under the supervision of Mr. Richard L. Humphrey, of the Structural Materials Laboratories of the U. S. Geological Survey, St. Louis.

PARTITIONS

For partition work this reinforcement is specially suitable. Partitions so constructed are cheaper than any form of partition on the market. They impose no load on the floors, are self-supporting between the points of support, will support a load of 200 lbs. for every course of reinforcement, have a lateral resistance of over 200 lbs. per foot superficial, and in addition are fire and vermin proof.

A very light and useful partition can be obtained by building the brick-on-edge, and a brick-on-edge partition reinforced with H. B. is stronger than an ordinary 9" wall.

USED AS A BONDING FIN

When used as a bonding fin between concrete work and brick, this material is extremely useful.

The general way of using it for this purpose is to insert a double piece in the concrete, and leave two loose ends to be built into the brick.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR
COPY

In some cases this process may be reversed and the brick built up first and used as a retaining wall for the concrete. The loose ends of the reinforcement bind themselves into the concrete, thus saving the cost of wooden forms.

PROPERTIES CLAIMED FOR H. B.

The following properties are claimed for H. B. reinforcement.

1. It gives a fire-proof, damp-proof, and sound-proof wall when used for cavity walls.
2. It has a strength in proportion to its height.
3. H. B. Walls only require a foundation at points.
4. Any brick will do, and any bricklayer can lay it.
5. It may be used over door and window openings instead of steel beams or brick arches.
6. In many cases a saving of 30 to 50 per cent. can be effected by its use.
7. In all cases it will add strength to brick walls.

SPECIFICATIONS

In specifying this material, state clearly that H. B. WIRE MESH REINFORCEMENT will be inserted in every course (or as often as required) and that it is supplied by Francis Hankin, 231 Coristine Building, Montreal.

GENERAL

In a pamphlet of this nature it is possible only to give a very short description of the various properties of the material and the uses to which it is adapted. Reinforced Brickwork can never be surpassed.

Brick has stood the test of ages, while concrete has stood the test of months only.

The foregoing all tends to convince one that reinforced brick walls possess all the advantages of reinforced concrete, in addition to which they are dry instead of damp, fire-proof instead of fire resisting, cost half as much and are not unsightly, while atmospheric disintegration is practically unknown.

Dear Sir,-

I have the pleasure of submitting my tender for the two schools that your department desires to build at Caughnawaga.

I undertake to build your two schools according to plans and specification for the price and sum of \$18325, eighteen thousand three hundred and twenty-five dollars.

At the same time I inclose a letter from Mr.G. Boyer,M.P. for Vaudreuil, as to my solvency.

Hoping that you may take this tender into consideration, I subscribe myself

Yours faithfully

Dear Sir:-

Sh
Act per under
I understand that it is intended to erect a brick School Building and in reference to this beg to draw your attention to H.B. Reinforcement.

The Reinforcement consists of a galvanized wire mesh which is woven in strips 2" and 2 1/2" wide, shipped in rolls of 75 feet.

It is embedded in the horizontal joint of the brickwork by the bricklayer as he proceeds with the work.

By its use, partitions half a brick thick (4") can be built which are stronger than single brick walls (8")

A cavity wall can also be built by its use which besides being stronger can also be made much thinner than would otherwise be necessary.

Over door and window openings the material may be used in place of steel beams or brick arches and when used in this manner effects a saving of 50% over the cost of steel beams or brick arches.

There are at present buildings all over Canada in which this

Dear sir:-

RE: Cement and Concrete

No doubt you are aware that the most notable pieces of construction work are of cement and concrete, and were dictated entirely by economy and stability.

On account of their affinity for water, a proper protection must be provided however, and such rests with the use of a reliable waterproofer of proper base.

"Lapadas" being of a silicate base, is in this class. It is used the integral way, which is the only successful way. In its manufacture all standard requirements are satisfied, and its action is very beneficial.

"Lapadas" when once combined with the limes in the cement forms a mass insoluble even to acids. Better results in joining the different workings are obtained and expansion is limited by its use.

No efflorescence or disintegration is possible, and should troubles arise in the future necessitating repairs, such are easily cured.

Write to us your problem on hand and we will answer your fullest inquiries.

Yours very truly,

F. WILLIAM STOCKER & CO. INC.

On a Memorandum dated 16th. June, 1910, from the Superintendent General of Indian Affairs submitting, with reference to an Order in Council dated 8th. June, 1910, which accepted the tender of Messrs. O. B. Lafleur & Sons, Limited, for the erection of two school-buildings on the Caughnawaga Indian reserve, the following translation of a letter since received from the Messrs. Lafleur advising the Department of Indian Affairs of their inability to perform the contract at the rates given in their tender,- "We hasten to inform you that, owing to "a lack of understanding on the part of our foreman, who "did not understand the specification, which was furnished only in English, and we ourselves not being very "familiar with that language, we forgot to mention in our "estimate the heating apparatus, blinds and double windows, "as we did not even understand exactly the dimensions of "the small building. For these reasons it would be impossible for us to erect the said buildings for the prices "mentioned in our previous tender, and we beg you to be "kind enough to consider the enclosed tender in its place."

The Minister states that the next lowest tender to that of the Messrs. Lafleur dealt with in the above mentioned Order in Council was as follows, Protestant school, \$4,549.00; Girls' Roman Catholic, \$11,829.00 = \$16,378.00; That the new tender of the Messrs. Lafleur is as follows, - Roman Catholic School, \$11,422.00; Protestant school, \$3,200.00 = \$14,622.00.

Gentlemen,

I have to inform you that your tenders for the erection of a Protestant school and a Roman Catholic Girls' school in the Village of Caughnawaga on the Caughnawaga Indian reserve for the total amount of \$14622.00 have been accepted by the Governor General in Council and upon receipt of the enclosed agreements and bonds, duly executed by yourself and sureties, in duplicate, you will be authorized to proceed with the work.

When returning these documents be good enough to state the date on which you will be prepared to commence operations, so that the Department's inspector may be present to mark out the site for the buildings.

All blanks in the enclosed documents will have to be filled in before being signed. The full names of yourselves and sureties, together with the place of residence and occupation is to be inserted in the bond and the affidavits must be sworn to before a Commissioner of the High Court of Justice. Should you prefer to obtain a security bond from a guarantee company the Department will accept the same in lieu of the one now sent you.

The Department would like you to give this matter your prompt attention so that the work may be proceeded with at once.

Your obedient servant,

J. B. Lafleur & Sons,

Dear Sir:-

H.B. REINFORCEMENT FOR BRICKWORK

I have not been favored with your reply to my recent letter
re the above.

It is as much in your interests as in mine that you should
make yourself familiar with H.B. Reinforcement.

Most people like to do something better and cheaper than they
have done before and by using H.B. judiciously, you also may do it.

For instance, a 4" brick partition can be built by its use
which is five times as strong as any ordinary 8" brick partition as far
as lateral stress is concerned and will support a load over a ten foot
span of 200 lbs. for every course of reinforcement used.

That looks like a saving of 50% of brickwork. Is it worth
looking into?

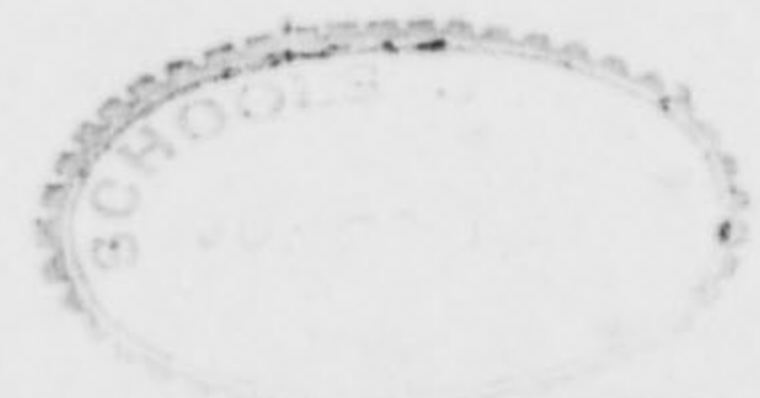

Yours faithfully,

FRANCIS HANKIN

Sir,

Referring to your letters of the 9th and 24th ultimo suggesting the advisability of using H. B. Reinforcement in the construction of brick buildings I beg to say that the Department is not putting up any buildings of this class by day labour this season. As the contracts are let for any buildings that are under construction, ~~there-~~fore, it will not require any of this material:

Agreement made in duplicate the _____ day of _____
A.D. 1910

Between His Majesty King ~~Edward the Seventh~~ ^{George fifth}, represented by the Superintendent General of Indian Affairs of Canada (hereinafter called the Superintendent General);

And **B. Lafleur**
and Sons, Limited,

of Lachute, in the Province of Quebec (hereinafter called the Contractor).

The Contractor for himself, his heirs, executors, administrators and assigns, agrees to do in the most workmanlike manner all works and provide all the materials of the best kind shown in the drawings and described in the specifications marked "A" and "B" respectively and signed by the Contractor, and to complete, furnish and hand over to the Superintendent General or to some person by him appointed for that purpose, the **two** school buildings on the Caughnawaga Indian reserve, namely a frame building for the Protestant school and a brick veneer building for the Roman Catholic Girls' school.

and all other work and labour incidental to and necessary for the entire completion thereof, whether specified or shown in the drawings or specifications or not, by the *thirty first* day of **October** A.D. 1910.

AND in consideration of the above agreement on the part of the Contractor, the Superintendent General hereby agrees to pay the said Contractor the sum of **fourteen thousand, six hundred and twenty-two**-----dollars, provided always that the Superintendent General may at any time during the progress or after the completion or alleged completion of the work, appoint an Architect, Engineer or other officer, in which case the certificate of such Architect, Engineer or other officer, that the work is duly completed and of the amount, if any due, to the Contractor, after making such allowances for penalties and for defective or incomplete work, or for extras and deviations as the Architect, Engineer or other officer shall think fair, shall be a condition precedent to any claim by the Contractor under this contract.

AND the Contractor for himself, his executors, administrators and assigns, further covenants and agrees:—

1. That the wages to be paid in the execution of this contract shall be those generally accepted as current in each trade for competent workmen in the district where the work is carried on. If this condition is violated, the Superintendent General may cancel the contract and refuse to accept any work done thereunder.

2. That if the Contractor fails at any time to pay any account for any goods or materials supplied, or money advanced by anyone to the said Contractor for the purposes of this agreement, or to pay the account of any sub-contractor for any work or materials done or supplied for the said works to be constructed under this agreement, and such

account is in either of such cases one month overdue, the Superintendent General may notify the Contractor to pay such account, and if a week elapse and the same be not paid in full, the Superintendent General may pay such account and may charge the same to the Contractor, and the Contractor covenants with the Superintendent General to repay at once any and every sum so paid.

3. That if the Contractor fails at any time in paying salaries or wages of any person employed by him upon or in respect of the said work, or any of them, and any part of such salary is one month in arrear, or if there be due to any such person one month's wages or salary, the Superintendent General may notify the Contractor to pay such salary or wages, and if two days elapse and the same be not paid in full up to date of payment, or to such other date as may be in accordance with the terms of employment of such person, then the Superintendent General may pay to such person his salary or wages from any date to any date and to any amount which may be payable, and may charge the same to the Contractor, and the Contractor covenants with the Superintendent General to repay at once any and every sum so paid.

4. That pursuant to the Statute in that behalf, this Agreement is made subject to the express condition that no member of the House of Commons of Canada shall be admitted to any share or part of this Agreement or any benefit to arise therefrom.

5. That the Contractor shall not assign, transfer or set over this contract or any interest therein to any person or persons whomsoever, without the consent, in writing, of the Superintendent General of Indian Affairs first had and obtained.

IN WITNESS WHEREOF the said Superintendent General of Indian Affairs, acting as aforesaid, and the said **O. B. Lafleur and Sons, Limited** have hereunto set their hands and seals the day and year first above mentioned.

AUTOFORCE

AIR

PUMP

VENTILATOR

Requires no oiling; no repairs or fixed charge bills; absolutely noiseless, no down draft.

Principle of Operation

The outside air enters at A and is spread out by the point of the inner cone, into a ring of air constantly increasing in diameter but decreasing in cross sectional area, thus increasing the velocity of air between the 2 cones at B, this produces an induced draft which sucks the air through pipe C this being connected to the building to be ventilated. The top of ventilator is carefully poised on the vertical spindle which is secured to the exhaust pipe from building. The ventilator top is fitted with a tail piece so that it is always headed in the direction of the wind.

USES

For Ventilation of offices, schools, smoking rooms, theaters, factories etc. where a connection can be or is made to roof, so that the ventilator can swing in free air.

SEND US PARTICULARS OF YOUR NEEDS AND WE WILL POST BY RETURN A PROPOSITION TO GIVE YOU SATISFACTION.

Natural Autoforce Ventilator

Incessant movement of the air is a law of nature, we have only to allow the air in our cities, dwellings, offices, factories etc. to take share in this constant change, and ventilation will go on uninterruptedly without our care.

Dr. Parker, F.R.S.

Air is called still when in reality at an altitude of thirty feet or so it is moving from one to one and a half miles per hour, advantage therefore can be taken of this aspirating power of the wind to cause a movement of the air up a tube.

AUTOFORCE WINDOW VENTILATOR

EASILY INSTALLED.
POSITIVE ACTION.

Principle of Operation

The inlet is placed at the bottom of the window and fixed to the inside frame. The outlet is placed at the top of window and fixed to the outer casing. The windows can be raised or lowered.

When French windows are installed, the inlet and outlet are fixed in frames, part of the glass being cut to suit.

USES

For offices, smoking rooms, factories etc. where the Air-Pump Ventilator is impracticable, the Autoforce Window Ventilator has found many satisfied clients.

Dear Sir:-

In considering any question of ventilation whether it be for your factory, office, residence, stables etc. we should like to point out to you the "Autoforce" system which has been installed in a large number of buildings in and around Montreal including the offices of Montreal Street Railway; Canada Sugar refinery; stables of Montreal fire dept; Bank d'Hochelaga; Quebec bank; Earl Grey school Lachine; Freemans' Cafe; C.P.R. drawing office; Windsor St. Station; Montreal Arena, Nickel Theatre also many large firms in the States including Eastern Manufacturing Co; White Springs paper Co; United States playing Card Co; Standard Wall paper Co; Waltham Watch Co; Metropolis Theatre New York; City Hospital Boston, etc. etc. repeat orders being filled in a number of cases. We might point out that a number of prominent citizens of Montreal have had the Autoforce ventilator installed for presenting down draft in connection with the chimneys on their residences.

With reference to any branch of work which is enumerated in our letter head we shall be pleased to go carefully into your requirements, our experience including charge of gas producer tests for Dominion government and lay out of new Central light heat and power station Mc. Gill University having been such that we can deal fully with same. Trusting to have the pleasure of placing an order with you. We are,

Yours very truly,

I beg to inform the Department that the construction of the Girls and the Protestant schools at Caughnawaga is now in progress. I have given the Contractors Mr. Lafleure & Sons. all the informations required as to the sites etc.

I am preparing a sketch showing the site of the Girls school which is on main street, I must say that the Indians there are all pleased with this site, I have consulted with Mr. Mathews as to the site of the Protestant school which is next to the proposed Church lot.

Mr Lafleur is very anxious for a copy of the specifications in french, I recommend this, as it would keep the Department out of any responsibility as to any misunderstanding from his part in the English specifications.

Sir.,

I have made Saturday July 16th an inspection of the works Re. construction of the Girls and Protestant school in Caughnawaga, P.Q. The excavation for both building is completed and the footings and foundations will be started at once.

The ground on which the girls school is erected will be so solid rock and the stone which has been taken out will be employ for foundation walls of both buildings as it has been approved by me.

The ground on which the Protestant school is good hard gravel. I have remited to the Contractor's one copy of the specifications in french for the girls school, the copy for the Protestant school will be remited this week.

Mr. Lafleur would like to replace the 20" I Steel I Beams 90lbs, as mentioned in the Specifications, by a 24" Steel I Beam without any extra charge. Mr. Lafleur tells me that the 20" Beams, 90 lbs, cannot be secured in Montreal, and it would take three months before its delivery on the work, I would therefor recommend this change to be permitted.

EX'D.

Ottawa, 26th August, 1910.

Sir:-

With reference to your letter of the 18th instant, I beg to say that the amount paid by Michel Montour will have to be refunded to Department as no charge should be made against him for expenses of sale. You should forward accounts for any expenses to the Department for payment, any outlay for travel or meals of yourself or Mr. Blain in connection with the sale will be paid for, but the charges for writing notes and agreement of sale is part of your official duties, Mr. Blain should have so informed you.

As to statement made by Mr. Montour that the officers of Department had informed him that you had obtained moneys under false pretences, is not so. He was told that he would be allowed for any payments made by him, and that the charging him for the cost of the sale must be through some misunderstanding on your part. Mr. Blain is well aware of the Department's regulations as to collection of moneys by Agents which are that all receipts have to be forwarded to Department and all accounts for expenditure incurred are to be sent to Department for payment.

Mr. Montour's note for balance due by him is enclosed. Kindly collect from him \$45.75 and remit it with the \$10.50 previously paid by him which will cover balance due for building sold.

The Secretary,

Sir,-

In reply to your letter of the 12th inst., No. 154172-5A, relative to the expenses, amounting to \$10.50, in the sale of the old girls' school-house, at Caughnawaga, allow me to inform you that it was announced at the time of the sale, in English, French and Indian, that the expenses of the sale, amounting to \$10.50, would be payable by the purchaser in addition to the price of the sale.

There were at the place of the sale some white men residing outside of the reserve who desired to purchase the building, and I thought it right to send the Department the net amount of the sale; but I see that I went too far outside of my powers, and as I was new in the position, Mr. Blain, it seems to me, ought to have informed me; but, far from that, it was he who strongly advised me to make out this list of expenses, saying that he was acting in his capacity as notary public, and that he would charge \$4.00 for the deed.

I went to Caughnawaga on a Sunday, authorized by letter from the Department dated May 31, No. 154172-5, to announce the sale at the church-door. It was for this trip that I charged \$1.50 as also for the promisory notes of \$1.00.

I acted in good faith in this matter and followed the advice of Mr. Blain, my superior.

If after these explanations you think that the Department ought to get this money, I will collect from those who received it for their work and will send the amount to the Department.

I doubt very much that Michel Montour told you

that it was understood that the expenses of the sale were to be paid in addition to the purchase price as announced; and this same Michel Montour since his return from Ottawa has been going all over the village of Caughnawaga announcing to the Iroquois that the assistant agent had obtained money under false pretences, besides that this had been told him by officers of Indian Affairs at Ottawa.

I thought that I ought to have been permitted as assistant agent and new in my position to give explanations to my superiors in the Department in order to clear myself and to correct my error, if possible, before a charge should be made against me to the Indians.

AUG 19 1910

OFFICE DE L'ASSISTANT AGENT
pour Caughnawaga,

St. Constant, 18 Aout, 1910

A Monsieur le Secrétaire,
Département des Affaires Indiennes,
Ottawa,

Monsieur:-

En réponse à la vôtre du 12 courant, No 154172-5A, concernant les frais au montant de \$10.50 dans la vente de la vieille école des filles à Caughnawaga, permettez-moi de vous informer qu'il a été annoncé au moment de la vente, dans les langues Anglaise, Française et Iroquoise, que les frais de vente au montant de \$10.50 devaient être payables par l'acheteur en plus du prix d'achat.

Il y avait sur la place de vente, quelques blancs demeurant en dehors de la Reserve qui désiraient acheter la bâtisse, et je croyais raisonnable de faire parvenir au Département le montant net de la vente; mais je m'aperçois que je suis allé trop loin en dehors de mes pouvoirs, et comme j'étais nouveau dans cette position, Mr. Blain il me semble aurait dû m'enformer, mais loin de là, c'est lui qui m'a conseillé fortement de rédiger cette liste de frais, disant que lui agissait en sa qualité de Notaire Public; et qu'il devait charger \$4.00 pour le contrat.

Je me suis fait conduire à Caughnawaga un dimanche, autorisé par lettre du Département datée 31 Mai, No 154172-5, et ceci pour faire annoncer la vente à la porte de l'Eglise, c'est ce voyage que j'ai chargé à \$1.50 de même que pour les billets promissoires \$1.00.

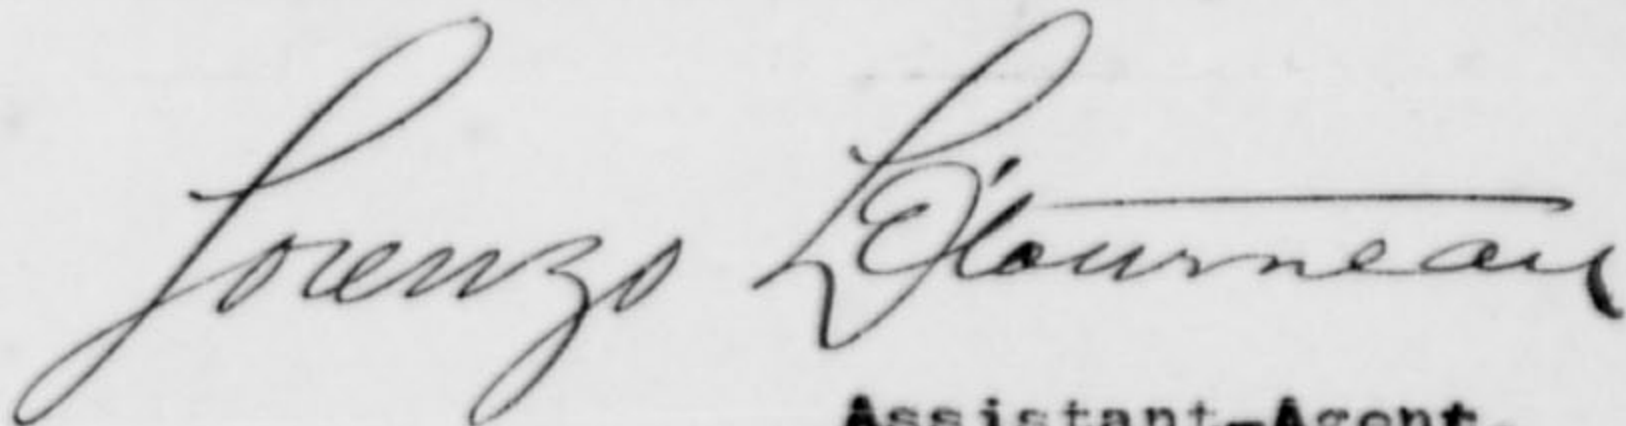

J'ai agi de bonne foi dans cette affaire tout en suivant les conseils de Mr Blain mon supérieur.

Si après ces explications vous jugez que le Département doit entrer en possession de cet argent, je collecterai de ceux qui ont reçu pour leur travail et j'enverrai ce montant au Département.

Je doute fort que Michel Montour vous ait dit qu'il était entendu que les frais de vente devaient être payés en plus du prix d'achat tel qu'annoncé, et ce même Michel Montour depuis son arrivée d'Ottawa parcourt le village de Caughnawaga pour annoncer aux Iroquois que l'Assistant-Agent lui avait fait donner de l'argent sous de faux prétextes, de plus que ceci lui avait été dit par les Officiers des Affaires Indiennes à Ottawa.

Je croyais qu'il me devait être permis, comme Assistant-Agent, et nouveau dans ma position, de pouvoir donner des explications à mes Chefs au Département afin de me disculper et réparer mon erreur si possible; cela avant de m'accuser à la face des Indiens.

Votre obéissant serviteur,

Assistant-Agent.

I beg to inform the department as to the progress of the work at Caughnawaga Quebec, which I have made an inspection. The frame work of the Girl's School is completed, and the Brick Venueering, and plastering will be completed this month.

The installation for the heating of the building which I specified to be low pressure steam, will be commenced next week.

It is understood with the contractor that both Schools will be completed in the best manner for November 1910.

The frame work of the protestant School will be also completed for the end of this month. I must say that the construction has been insured as mentioned in the specifications.

Sir:-

With reference to your certificate dated the 10th September in connection with the advances for expenditure of schools on the Caughanawaga Reserve, I beg to say that as there are ^(the boys' & the girls') two schools, you should in making out certificates for advances to the contractors, indicate thereon how much of the amount received has been expended on each school. Kindly submit a statement showing the division of the advance of the \$5200.00 already made.

Dear Sir.---

The letter attached to this note has been sent to inform Mr. Lafleur & Son the contractors, that no delay in the contract will be allowed on account of the Plumbers & Steam Fitters strike of the Montreal people.

I hope that the Department will approve my decision and will not give Mr. Lafleur & Son any delay, as I understood he will probably ask for.

I will see that the Heating System shall be started at once.

I have the honor to be Sir,

Yours truly, etc.

Monsieur.—

Je vous notifie par le présent qu'aucun délai ne sera accordé concernant la construction des deux Ecoles à Caughnawaga. La grève des poseurs d'appareils de chauffage ne doit aucunement retarder l'installation des fournaies qui doit être commencée immédiatement. Si ce travail n'est pas avancé à ma satisfaction samedi prochain 1er Octobre/10, je serai obligé de suivre ce qui est indiqué dans les Spécifications à cet effet.

Vous devrez produire également le 1er Octobre une nouvelle Police d'Assurance pour le montant indiqué dans les Spécifications.

To the Secretary,

Ottawa,

Sir:-

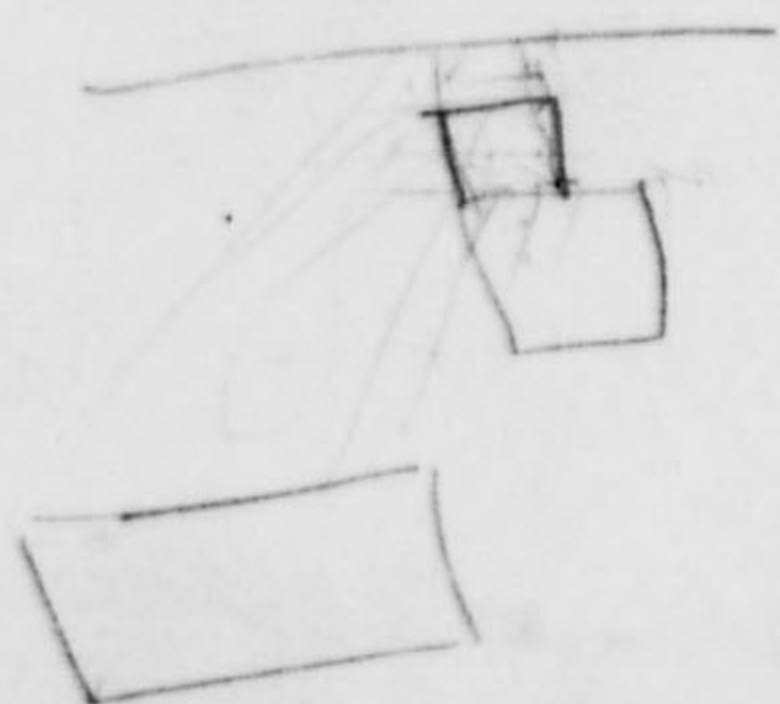

I beg to inform you that I have looked through the blue-prints for the Girls'school building now on erection in the Caughnawaga Village, furthermore Miss Burke the teacher noticed that no closets of any kind are to be built in connection with this new Girls'school, they are not in the specifications as far as I know of, the same for the lavabos (or sinks), these sinks are necessary specially in Caughnawaga.

The old outside closets are repugnant, and I beg to recommend the Department that these extras be ordered before it is too late in the fall.

Dear Sir,--

After making an inspection of the works of Caughnawaga I beg to recommend the following estimate to Mr. Lafleur & Son.

Labor and materials, at the Protestant School.	\$ 2.500,00
Labor and materials, Girl's School	\$ 1.500,00
Total	\$ 4.000,00

\$ 4.000,00 less 20 % = amount to be paid \$ 3.200,00

As to progress of the work, I am pleased to say that they are now painting the Protestant School and hope that it will be completed in Nov./10.

As to the Gril's School, brick veneering is practically completed also it's plastering, the porches and the finishing work, stairs, floors, etc. will be started next week.

Dear Sir,—

As requested by the Department I have consulted with Reverend Mr. Granger as to supply of water for Girl's School. I do not believe that the expenses of bringing water from his tank is absolutely necessary. I have decided upon another plan after studying the question on the ground, which will amount only to a few dollars instead of paying for excavation in stone, etc.

I will call at the Department and explain this matter for your consideration.

218-5
I beg to inform the Department that I have started the excavation for a well at the Protestant School. Rev. Mr. Matthews made me notice that there was no drain along the road in front of the School and that in the spring water will probably damage the verandah and cellar windows. I think that it is absolutely necessary to have a trench dug along the road some 200ft. long which will prevent the surface water of said road from damaging the School building and entrances, and keep it's access in good condition.

The amount necessary for this work would be \$30.00

CONDITIONS DE LA POLICE.

1. Si une personne assure ses bâtiments ou effets, et en fait faire une description qui ne répond pas à ce qu'ils sont en réalité, au préjudice de la compagnie, ou représente faussement ou omet de déclarer toute circonstance qu'il est essentiel de faire connaître à la compagnie, afin de lui permettre de juger du risque qu'elle assume, cette assurance est de nul effet quant à la propriété à propos de laquelle a été faite la fausse représentation ou réticence, mais lorsque l'application a été préparée par l'agent de la compagnie, cette application doit être considérée comme étant l'acte de la compagnie.

2. Après la demande d'assurance, il doit être considéré que toute police envoyée à l'assuré est censée conforme aux termes de la demande, à moins que la compagnie n'indique, par écrit, les détails sur lesquels la police diffère de la demande.

3. Tout changement dans l'usage ou l'état de la chose assurée, tel que restreint par la police, fait sans le consentement de l'assureur, par des moyens sur lesquels l'assuré a un contrôle, et qui augmente le risque, est une cause de nullité de la police, à moins qu'avis de tel changement ne soit promptement donné par écrit à la compagnie ou à son agent local; et la compagnie ainsi avertie peut remettre la prime pour la période non expirée et annuler la police, ou elle peut demander par écrit une prime additionnelle, que l'assuré doit, s'il désire la continuation de la police, payer immédiatement à la compagnie; et si l'assuré néglige de faire ce paiement immédiatement après avoir reçu cette demande, la police cesse d'être en vigueur.

4. L'assurance devient nulle par la cession que l'assuré fait à un tiers de l'intérêt qu'il a dans la chose, à moins que ce transport n'ait lieu avec le consentement ou la participation de l'assureur.

La règle ci-dessus ne s'applique pas au cas de droits acquis à titre successif ou dans le cas spécifié dans la clause 6 de ce paragraphe.

a. L'assuré a le droit de transporter la police avec la chose assurée sous les conditions qui y sont exprimées.

b. La cession d'intérêt entre coassociés ou copropriétaires d'immeubles, qui ont assuré conjointement, ne rend pas la police nulle.

5. Lorsque la propriété assurée n'est que partiellement endommagée aucun abandon de cette propriété n'est permis, à moins que ce ne soit avec le consentement de la compagnie ou de son agent; et, dans le cas où cette propriété a été changée de place pour éviter une conflagration, la compagnie contribue à la perte et aux dépenses encourues dans ce sauvetage proportionnellement aux intérêts respectifs de la compagnie ou des compagnies et de l'assuré.

6. Les sommes d'argent, les livres de comptes, les papiers-valeurs, et les pièces justificatives de dette ou titre ne sont pas assurés.

7. L'argenterie, les glaces, les plaqués, la bijouterie, les peintures, les sculptures, les objets de curiosité, les instruments scientifiques, les instruments de musique, les patrons, les plans, l'or et l'argent non monnayés, les œuvres d'art, les bibelots, les fresques, les horloges, les montres, les ornements et les miroirs ne sont pas assurés à moins qu'il n'en soit fait mention dans la police.

8. La compagnie n'est pas responsable de la perte, s'il y a quelque autre assurance antérieure dans une autre compagnie, à moins que le consentement de la compagnie à cet effet n'apparaisse dans la police ou au dos de la police, ou si quelque autre assurance subséquente est effectuée par une autre compagnie, à moins et avant que la compagnie n'y consente, ou à moins que la compagnie ne s'y oppose par écrit dans les deux semaines après avoir reçu un avis par écrit de l'intention ou du désir d'effectuer l'assurance subséquente, ou ne s'oppose par écrit après ce temps et avant que l'assurance subséquente ou additionnelle soit effectuée.

9. Dans le cas où il y a eu consentement comme susdit à toute autre assurance sur la propriété ainsi décrite, cette compagnie, si telle autre assurance reste en vigueur, advenant une perte ou un dommage, n'est responsable que du paiement d'une partie proportionnelle de cette perte ou de ce dommage sans égard aux dates des différentes polices.

10. La compagnie n'est pas responsable des pertes suivantes, savoir :

a. De la perte d'une propriété possédée par toute autre personne que l'assuré, à moins que l'intérêt de l'assuré ne soit mentionné dans ou sur la police;

b. De la perte par un incendie causé par une invasion, une insurrection, une émeute, une sédition civile, une force militaire ou un pouvoir usurpé, un tremblement de terre ou une éruption volcanique;

c. Quand l'assurance repose sur des bâtiments ou leur contenu—de la perte causée par l'absence de bonnes cheminées solides en brique ou en pierre; ou par des cendres ou de la braise déposées à la connaissance et avec le consentement de l'assuré, dans des récipients en bois; ou par des poêles et des tuyaux de poêle, à la connaissance de l'assuré, dans un état dangereux ou mal protégés;

d. De la perte des effets ou du dommage causé à des effets détruits ou endommagés en subissant quelque préparation dans laquelle ou pour laquelle il faut les soumettre à la chaleur du feu;

e. De la perte des bâtiments ou de leur contenu, ou des dommages causés à ceux-ci, lorsque des charpentiers, des menuisiers, des plâtriers ou autres ouvriers sont à faire des opérations dans ces bâtiments, et lorsque la perte des bâtiments ou de leur contenu ou des dommages causés à ceux-ci sont imputables à ces charpentiers, menuisiers, plâtriers ou autres ouvriers, à moins que permission d'exécuter ces réparations n'ait été préalablement accordée par écrit et signée par un agent dûment autorisé de la compagnie. Mais, pour les maisons d'habitation, il est accordé quinze jours chaque année pour les réparations casuelles sans que cette permission soit requise.

f. De la perte ou du dommage advenant lorsque du pétrole ou de l'huile de charbon, de la camphine, de la goudron, un fluide inflammable, de la benzine, du naphthé ou tous produits liquides en provenant, ou toutes parties constitutives d'iceux (sauf de l'huile de charbon clarifiée pour fins d'éclairage seulement, d'une quantité n'excédant pas cinq gallons, ou de l'huile à lubrification n'étant pas du pétrole non raffiné, ni une huile d'une gravité spécifique moindre que celle requise par loi pour fins d'éclairage, d'une quantité n'excédant pas cinq gallons), ou lorsque plus de vingt-cinq livres de poudre à canon se trouvent emmagasinées ou gardées dans le bâtiment assuré ou qui contient la propriété assurée, à moins que la compagnie n'en ait donné la permission par écrit.

11. La compagnie indemnifiera de toute perte causée par l'explosion du gaz dans un bâtiment ne faisant pas partie d'une usine à gaz, et de toute perte causée par une explosion qui détermine un incendie, et de toute perte causée par la foudre quand même elle ne détermine pas un incendie.

12. La preuve de la perte doit être faite par l'assuré, lors même que l'indemnité serait payable à un tiers.

13. Toute personne ayant droit de faire une réclamation en vertu de cette police doit observer les formalités suivantes :

a. Elle doit, immédiatement après la perte, en donner avis par écrit à la compagnie;

b. Elle doit remettre, ensuite, dans le plus court délai possible, un état de la perte aussi détaillé que le permet la nature de l'accident;

c. Elle doit encore produire en même temps une déposition sous serment établissant :

1. Que le dit état est exact et réel;

2. Quelle est la cause du feu au meilleur de la connaissance du déclarant;

3. Que le feu n'a pas été causé par aucun fait intentionnel ou négligence, entremise, moyen ou artifice de sa part;

4. Le montant des autres assurances;

5. Quelles sont toutes les charges et hypothèques existant sur ce qui fait le sujet de l'assurance;

6. L'endroit où la propriété assurée, si c'est un meuble, était déposée lors de l'incendie;

d. A l'appui de ses réclamations elle doit, si on l'exige et si la chose est praticable, produire ses livres de comptes, reçus d'entrepôts, listes de marchandises, et fournir ses envois et autres pièces justificatives, ainsi que des copies de toutes ses polices; séparer, autant que cela peut se faire raisonnablement, les effets endommagés de ceux qui ne le sont pas, et soumettre à l'examen tout ce qui reste de la propriété couverte par la police.

e. Elle doit produire, si on l'exige, un certificat de la main d'un magistrat, d'un notaire, d'un commissaire autorisé à recevoir des affidavits, ou d'un secrétaire de municipalité, résidant dans le voisinage de l'endroit où l'incendie a eu lieu, et non intéressé dans la perte ni allié aux assurés ou victimes de l'incendie, déclarant qu'il a fait une observation des circonstances dans lesquelles se sont produits le feu, la perte ou le dommage allégué; qu'il connaît le caractère et la condition de l'assuré ou du réclamant, et qu'il croit sincèrement que l'assuré a, par accident et sans fraude ou sans dol, subi une perte et un dommage sur l'objet assuré au montant certifié.

14. Les preuves ci-dessus de la perte peuvent être faites par l'agent de l'assuré, dans le cas où l'assuré serait absent ou incapable de les faire lui-même, telle absence ou incapacité étant justifiée d'une manière satisfaisante.

15. Toute fraude ou fausse représentation dans une déclaration, au sujet de l'une des formalités ci-dessus invalide la réclamation.

16. S'il s'élève quelque divergence quant à la valeur de la propriété assurée, de la propriété sauvée, ou du montant de la perte, cette valeur et ce montant et la proportion d'iceux (s'il y a lieu) que la compagnie sera appelée à payer, doivent être soumis,—que le droit de recouvrer en vertu de la police soit discuté ou non, et indépendamment de toutes autres questions,—à l'arbitrage de quelque personne choisie par les deux parties, ou, si celles-ci ne peuvent s'entendre sur le choix d'une personne, alors à l'arbitrage de deux personnes dont l'une choisie par l'assuré et l'autre par la compagnie et une troisième nommée par les deux premières ainsi choisies, ou, si elles ne peuvent s'entendre, nommée alors par un juge de la Cour supérieure siégeant dans le district où la perte est arrivée; et cet arbitrage sera sujet aux dispositions des articles 1431 et suivants du Code de procédure civile. La sentence des arbitres, si la compagnie se trouve liée sous les autres rapports, doit être finale quant au montant de la perte et de la proportion que la compagnie doit payer. Si le plein montant de la réclamation est accordé, les frais suivent le sort du litige, et dans les autres cas toutes les questions de frais relèvent de la discrétion des arbitres.

17. L'indemnité de la perte n'est payable que soixante jours après que les preuves de la perte ont été complétées, à moins qu'il n'y soit autrement pourvu par le contrat d'assurance.

18. La compagnie au lieu d'effectuer le paiement, peut réparer, rebâtir, ou remplacer dans un délai raisonnable, la propriété endommagée ou détruite, en donnant avis de son intention dans les quinze jours après réception des preuves par les présentes requises.

19. La compagnie peut interrompre l'assurance en donnant avis à cet effet et, si c'est d'après le système au comptant, en offrant en même temps une remise proportionnelle sur la prime pour le terme non expiré, à compter de l'expiration du terme de l'avis. Si la signification de l'avis est faite personnellement, un avis de cinq jours, sans compter le dimanche, est suffisant. Toute compagnie ayant une agence dans la province de Québec, peut donner avis par lettre recommandée adressée à l'assuré à sa dernière adresse postale fournie à la compagnie, et si aucune adresse n'a été ainsi fournie, au bureau de poste de l'agence d'où la demande a été reçue, et, quand cet avis est par lettre, alors sept jours à compter de son arrivée à tout bureau de poste dans la province doivent être considérés comme comportant un avis suffisant. La police prend fin après cette offre et cet avis comme susdit, et à l'expiration des cinq ou sept jours selon le cas.

L'assurance, si elle est au comptant peut aussi être interrompue par l'assuré qui donne un avis par écrit à cet effet à la compagnie ou à son agent autorisé, et, dans ce cas, la compagnie peut retenir le taux ordinaire à courte durée pour le temps pendant lequel l'assurance a été en vigueur, et doit rembourser à l'assuré la balance de la prime payée.

20. Aucune condition de la police, soit en entier ou en partie, ne sera censée avoir été abandonnée par la compagnie, à moins que ce désistement ne soit clairement exprimé par écrit et signé par un agent de la compagnie.

21. Un officier ou agent de la compagnie qui se charge en son nom, d'être partie à une condition par écrit au sujet de toute affaire se rattachant à l'assurance doit être reconnu *prima facie* comme l'agent de la compagnie à cet effet.

22. Toute action ou procédure contre la compagnie pour le recouvrement de toute réclamation en vertu de cette police, est absolument nulle, si elle n'est intentée dans l'année qui suit immédiatement la perte ou les dommages encourus.

23. Tout avis par écrit adressé à la compagnie, à quelque fin des conditions de la police, quand le mode n'en est pas expressément défini dans une disposition de la loi, peut être, par lettre déposée au bureau principal de la compagnie dans la province ou par lettre recommandée, adressée à la compagnie, son gérant ou agent, à tel bureau principal, ou sous forme de tel avis écrit donné, de toute autre manière à un agent autorisé de la compagnie.

CHANGEMENTS DANS LES CONDITIONS.

Cette police est émise sous les conditions ci-dessus avec les changements et conditions qui suivent :

10. Si, advenant une perte qui est couverte par la présente police, l'assuré est porteur d'une ou plusieurs polices soit dans la présente Compagnie ou dans toutes autres Compagnies sur la propriété assurée par les présentes, et, si la dite police ou les dites polices contiennent une clause ou condition de co-assurance ou de contribution (average) ou si elles contiennent ou portent à l'endos des clauses ou conditions plus avantageuses pour l'assuré, la présente police, si la Compagnie le juge à propos mais pas autrement, participera aux mêmes avantages que les autres polices.

20. Cette Compagnie ne sera pas responsable de la perte ou dommage occasionné par ou par suite d'une explosion quelconque, (sauf le cas de destruction par un incendie occasionné par ou commencé au cours d'une explosion) que cette explosion ait été amenée par un incendie ou autrement, sauf par une explosion de gaz de houille survenue dans une construction ne faisant pas partie d'une usine à gaz.

CLAUDE DE CO-ASSURANCE.

La clause ou condition qui suit ne s'appliquera pas à cette police à moins que sur la face de la police il soit mentionné que l'assurance y est sujette, savoir :

30. La prime ayant été réduite en considération de cette condition, l'assuré gardera assurés pendant la durée de cette police et conjointement avec elle, tous et chacun des articles de la propriété assurée, ce à concurrence de au moins pour cent de la valeur réelle en argent de chacun des articles assurés, à défaut de quoi, la Compagnie ne sera responsable que jusqu'à concurrence de la proportion pour laquelle elle eut été responsable si telle co-assurance eut existé. Ces changements sont faits en vertu de la loi des assurances de Québec et restent en vigueur en autant que le tribunal ou le juge auquel sera soumise une question s'y rattachant considérera juste et raisonnable de la part de la Compagnie d'en exiger l'application.

Sir,

I beg to inform you that the Department has ordered from Mr. W. F. Vilas, Cowansville, 48 double separate desks for the new Girls' School on the Caughnawaga Reserve. Mr. Vilas has been instructed to ship these desks to Adirondacks Junction Station addressed to you and to advise you of the date of shipment. The account for these desks will also be sent to you and you will be good enough to certify it and forward it to the Department for payment. Mr. Vilas has been requested to have the desks shipped in time to be placed in position in the school before the contractor leaves and you will be good enough to arrange with Messrs. Lafleur and Son to have them placed in the ^{two} ~~ten~~ rooms as shown on the floor plan of the school; the junior class on the ground floor.

The Department is informed that about twenty tons of coal will be required for the heating of the building during the coming winter. You will be good enough to get prices from the dealers on the reserve for supplying this amount of suitable fuel and submit the same to the Department, when you will be instructed where to purchase. This matter should have your early attention.

LA PRESSE LUNDI 7 NOVEMBRE 1910

L'INSTRUCTION CHEZ LES INDIENS DE CAUGHNAWAGA

L'honorable Frank Oliver, ministre de l'Intérieur,
fait construire deux écoles dans ce pittoresque
et intéressant village. -- De la place pour trois
cents enfants.

Caughnawaga, 7. — Le pittoresque village de Caughnawaga, grâce à la libéralité de l'honorable M. Frank Oliver, ministre de l'Intérieur, vient de s'enrichir de deux nouvelles écoles où les jeunes Iroquoises pourront recevoir l'instruction de professeurs qualifiés. L'une est pour les catholiques, l'autre pour les protestantes.

Les plans de ces deux édifices ont été faits par M. D. Chéné, ingénieur de la ville de Hull et attaché au département des affaires indiennes.

L'école catholique est un fort joli édifice en brique et en pierre de trois étages. Au rez-de-chaussée sont installées les fournaises à eau chaude pour le chauffage des différentes pièces; on y trouve aussi une grande salle de récréation.

Deux vastes pièces, bien éclairées

Suite de la dernière page

et pourvues des appareils les plus modernes de ventilation occupent le premier étage. C'est là que les professeurs, les deux demoiselles Burke, donneront l'instruction à leurs élèves.

Au-dessus est la salle des représentations, non seulement pour les jeunes Iroquoises qui fréquentent l'école, mais aussi pour les Indiens de la réserve.

Les jours de fêtes, les descendants des anciens guerriers, revêtus de leurs plus brillants costumes, la tête ceinte de plumes, brandissant leurs tomahawks, lanceront comme autrefois leurs cris de réjouissance et danseront.

Trois cents enfants pourront trouver place dans cette école.

Les plans ont été faits suivant les règlements de la commission des écoles de la province d'Ontario. La hauteur de chaque pièce est de quinze pieds. Tous les planchers sont soutenus par des poutres en fer. Tout enfin est absolument conforme aux lois provinciales touchant la construction des écoles.

L'école protestante est moins spacieuse. Cent jeunes filles pourront y être admises. C'est un édifice en bois de deux étages. Elle sera dirigée par Mlle Young.

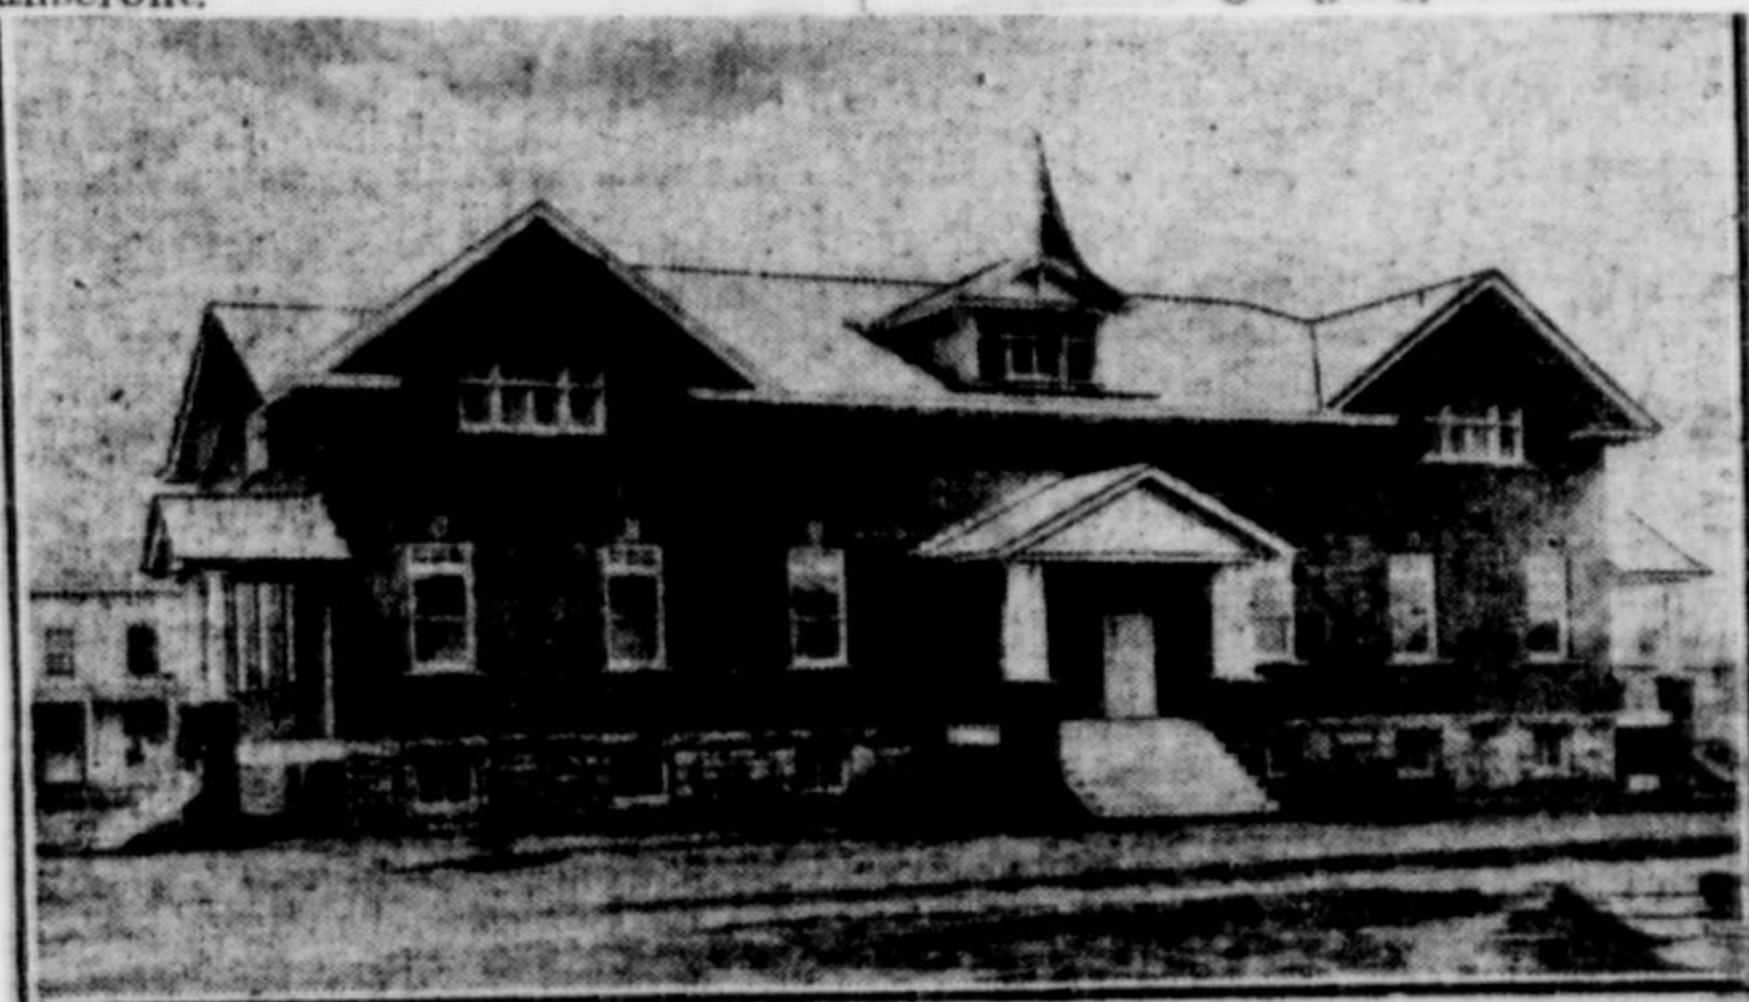

Les entrepreneurs sont MM. Lafleur et Lalonde, de Lachute. Ces messieurs ont déjà construit le bureau de poste de Lachute et bon nombre de maisons d'éducation importantes dans les provinces de Québec et d'Ontario.

L'entrée des classes dans ces deux écoles se fera au mois de janvier.

La prison, qui se trouve actuellement voisine de l'école catholique, sera bientôt démolie et reconstruite ailleurs.

Il ne faut pas oublier, avant de terminer de féliciter M. Chéné, qui a fait les plans de ces deux écoles, et surtout M. Duncan Scott, le surintendant de l'instruction pour les Indiens. M. Scott veut donner à ceux-ci l'instruction la plus complète possible, sans distinction de religion.

Déjà, grâce aux nombreuses écoles qu'il a fait ouvrir, plusieurs jeunes indiennes ont obtenu d'excellents emplois du gouvernement ou dans nos grandes maisons industrielles et commerciales.

La nouvelle école que le département des affaires indiennes vient de faire construire pour les jeunes Iroquoises catholiques de Caughnawaga. C'est un joli édifice en brique pourvu de tout ce qui peut assurer le confort aux élèves. — Photo par l'artiste de la "Presse".

Sir,

I have to acknowledge the receipt of your letter of the 19th instant reporting that the contractors for the new schools on the Caughnawaga Reserve will have completed the work this week and asking that an officer of the Department be sent there on the 25th instant.

In reply I beg to say that, as it will not be convenient for an officer of the Department to proceed to Caughnawaga at present, you will be good enough to take over the two schools from the contractors when they are finished and ready for occupation. You should arrange to have school opened in the new buildings as soon as possible.

You were written to on the 19th instant in regard to the appointment of a caretaker for the Girls' School and the Department would like to know whether you have succeeded in selecting a suitable person from the applications on file.

I have to inform you that it is not the intention to let the Indians have the use of the assembly hall in the Girls' School without special permission from the Department. You will be good enough to see that the Department's wishes in this respect are carried out and instruct the head teacher accordingly.

The old desks at present in use in the Girls' school should be stored until they are again required.

Sir,

Referring to official letter of the 23rd instant in which you were instructed to take over the two new schools on the Caughnawaga reserve from the contractors when finished and ready for occupation I beg to say that the Department wishes you to make the Indians clearly understand that as these buildings are its property they are to be used exclusively for school purposes. This applies particularly to the Girls' School in which there is a large hall in the upper story which the Indians might wish to use for public meetings or entertainments. To avoid all future trouble the Department would like to you to carry out its instructions in this matter at the first suitable opportunity. The head teacher of the Girls' School and the caretaker should also be informed of the wishes of the Department regarding this hall and told that on no account is the key of the school to be given to anyone on the reserve without first obtaining the special leave of the Department. This hall can be used for school entertainments with the sanction of the Department., but not for any other purpose.

Ottawa, December 1, 1910.

Sir,

I have to acknowledge the receipt of your offer to supply any of the Caughnawaga Indian schools with coal at the rate of \$7.25 a ton.

In reply I beg to say that previous to the receipt of your communication the Department had authorized the purchase of a supply of coal for the Protestant and Girls' School in the village, but should the Boys' and the Bush schools require an additional supply for the coming winter the Department will be willing to purchase the same from you at the price quoted.

CAUGHNAWAGA RESERVE

St. Constant, 9th December, 1910

To Secretary,

Department of Indian Affairs,
Ottawa,

Sir:-

Referring to your letter of November 24th, No 154 172/5, in regard to the acceptance of the new schools from the Contractors; I beg to inform you that on the 25th of last month the new Girls' School building was ready for occupation with the exception of the slate blackboards that were not yet fixed in place, but Mr Lalonde stated that the blackboards were not ready to be placed before a few days more, that it could be fixed later on without disturbing the pupils, on that account I have arranged ~~to have~~ with the teachers for the opening in the New-Girls' School on the 28th of November, and the blackboards are not placed yet and the Contractors disappeared from Caughnawaga since the 26th of last month.

The Protestant School at that time was not ready for occupation but I was supposed to be called by phone from St. Constant to Caughnawaga three or four days afterwards by the Contractors. I went to Caughnawaga on the 29th, thinking that everything was completed and to have the New Protestant School opened, but I was surprised to see that the new building was locked up and informed that the contractors were gone.

The New Protestant school is not heated and I suppose that with such a cold weather it can be damageable to the plasterings.

As instructed by your Department I had arranged with the contractors to have the desks from the old building placed into the New one and it has not been done.

With reference to your letter of 28th Nov. (same file No), to the fact that only one closet was erected in connection with the Protestant School, I certify that the specifications in this respect were not carried out.

I wish your Department will notify these contractors to have the Protestant School ready for occupation in the least possible delay, and the blackboards fixed in place as specified.

Your obedient servant,

Asst-Agent

Gentlemen,

The Department is advised by its Agent that when he went to Caughnawaga on the 29th ultimo to take over the two schools erected by you this fall he found that the Protestant school was locked up and that you had left. He also found that there was only one closet erected in connection with this school while the specifications called for two. He also states that the blackboards have not been placed in the Girls' School.

Sir:-

I beg to say that the Department desires a further report from you in regard to the work done in connection with the contract awarded respectively for the Girls' School and the Protestant school on the Caughnawaga Reserve. You should state whether the work in each case is nearing completion and exactly what still remains to be done to each school building.

The amount of contract of the Girls' School was \$11422.00 and the amount which the Department has paid is \$10279.20.

The amount of the contract in connection with the Protestant school was \$3200.00, of which \$2830.00 has been paid.

If you consider that the work in each case has been satisfactorily performed, you may issue vouchers for the balance due.

In each case you should show the amount of contract, the ~~amount~~ of payments made and the balance due. You should keep the statements entirely separate, in order that no confusion may occur.

The contractors are pressing for payment and therefore there should be no unnecessary delay on your part in submitting returns for the work done and reporting thereon. If in either case the work is incomplete, you may recommend the

Ottawa, 25th January, 1911.

Sir,-

I beg to inform you that ^{if} Messrs. Lafleur & Sons have satisfactorily completed the work called for under contract in connection with the Indian schools at Caughnawaga. You should forward vouchers duly certified for the balance due them and also for amounts which may be due for extras.

The painting of the roof to which you referred in a ~~recent~~ letter was not, it is thought, included in the contract.

I may say that the Department has made an additional advance of \$1,000 for work on the Roman Catholic School, and also an advance of \$120.00 for work on the Protestant School. The balance due the firm in connection with the work done under contract, exclusive of extras, is found to be \$242.80.

Your obedient servant,

S. D. McLELLAN

Asst. Deputy Secretary.

Lorenzo Letourneau, Esq.,

Indian Agent,

Ottawa, 25th January, 1911

Sirs-

I beg to acknowledge receipt of your letter of the 18th instant, in regard to your work under contract in connection with the Indian schools at Caughnawaga, and in reply I beg to say that the statement which you have submitted of advances received for the said work appears to be correct, except that you have not taken credit for the cheque for \$1000.00 (No. 2168) sent you on the 17th January. This cheque was in connection with work on the Roman Catholic School.

It is thought that your misunderstanding in this may have arisen in connection with official letter of the 11th January (152218-5), when a cheque for \$120.00 was sent you for work on the Protestant School. You were then told that \$200.00 was being withheld from you until certain work was finished. That letter had references only to the Protestant school.

The total advance to you including the cheque for \$1000.00 amounts to \$14279.20. Your contract amounts to \$14622.00 which leaves the balance due you \$342.80 exclusive of charges for extras.

Your account for \$123.40 for extras is being referred to Mr. Letourneau for consideration. The balance due you on your contract and for extras will be forwarded as soon as vouchers are received from Mr. Letourneau.

Your obedient servant,

Sir:-

I beg to transmit herewith an account rendered at \$123.40 submitted by Messrs. O.B. Lafleur & Sons of Lachute for extras in connection with their contract for work on the Caughnawaga School building. You should carefully inspect the work charged for and also examine the account and if you find it correct, you may issue a voucher for the amount thereof in favour of the above mentioned firm. You should mark on the account the charges which relate to work on the Protestant school.

Your obedient servant,

Gentlemen,-

I have to request that you will be good enough to ship, freight charges prepaid, addressed to J. M. Brosseau, Indian Agent, Adirondack Junction, Que., twenty-four "Challenge" Adjustable Desks and Chairs No. 1, with lifting lid. The price quoted for the desk and chair is \$10.95, as per your price list of March 15th, last. These desks are required for continuation school which it is proposed to open on the Laughnawaga Reserve on or about the first of September, next, and I shall be pleased if you will arrange to have them shipped at the same time to be placed in position in the class-room before that time. I have also to request that you will be good enough to supply at the same time one teacher's chair, quartered oak, your catalogue number 744.

You will be good enough to forward your account, duplicate, for the desk and teacher's chair, with receipt for the freight charges attached, to Mr. Agent Brosseau, whose office address is St. Constant, Que. Upon receipt of the goods, if in good condition, he will certify the account and forward it to the Department, when payment will be made.

I shall be pleased to have an acknowledgment of this letter and to be informed of the date upon which shipment will be made.

Sir,-

In reply to your letter of the 17th instant I beg to say that the Department is placing an order with the George M. Hendry Co., Limited, Toronto, to ship to your address at Adirondack Junction, twenty-four of their "Challenge" Adjustable Desks and chairs, No. 1, with lifting lid, also a teacher's chair for the use of the continuation school which it is proposed to open on the Caughnawaga Reserve. The firm is being requested to prepay the freight charges and to send the account for the desks and chair, in duplicate, to you, which, upon receipt of the goods if in good condition, you will be good enough to certify and forward to the Department, in order that payment can be made.

When the desks arrive you should arrange to have them taken to the school and placed in position and properly secured to the floor. These desks contain ink wells.

With reference to the other supplies asked for by Sister Mary Gabriel I beg to say that you will be further advised.

Ottawa, August 4, 1920.

Sir,-

In further reference to your letter of the 17th ultimo, enclosing a communication from Rev. Sister Gabriel giving a list of supplies required to equip the proposed Continuation School at Caughnawaga, I beg to say that you may order the following:- 8 window blinds 32" x 7'; two window blinds 38" square, two dozen hooks for wardrobe, two steel flexible mats 22" x 36"; two straw mats 22" x 36"; one inexpensive waste paper basket; one thermometer, water pail, basin, broom, brush, dust pan, a small quantity of soap and six towels. You should obtain prices for the above supplies and order from the firm quoting the lowest price.

You should consult the rev. sister in charge before making the purchase.

I may say that the two blackboards asked for will be ordered from the Government Stationery Office and you will be further advised regarding the typewriters and the tables and chairs for the same.

Dear Sir:

We have your esteemed favor of the 31st ult. ordering 24 Challenge Adjustable Desks and Chairs with lifting lid.

While this line appears in our catalog we, unfortunately, are not able now to give reasonable delivery of it and we suggest that you allow us to substitute another line.

Enclosed in this envelope you will find a copy of our School Furniture Catalog. If you will refer to page 4 you will find the Frictionside Adjustable Desk and Chair which today is worth \$14.65. Delivery of this line cannot be made for three months.

We offer as a second alternative the Ball Bearing Adjustable Box Desk with lifting lid illustrated at the bottom of page 3. This in adult size is worth \$12.50. It seems likely that we will be able to make delivery of this line of desks about September 15th.

If it is imperative that you should have the desks shipped in time for the opening of school on September 1st, the only thing we can undertake to deliver for comparatively early shipment is the Ball Bearing Automatic Single Desks, shown at the top of page 2. This line in adult size is worth \$9.35 each but it is not adjustable and has an open box with a fixed lid.

We can ship the Teacher's Chair No. 744 at once from stock if desired.

Owing to the conditions outlined we cannot very well enter your order until we have some further information as to your wishes in view of the difficulty of shipment. Please advise us by return mail.

Yours truly,

Sir,

I beg to inform you that the Department is placing an order with the Federal Typewriter Co., Ltd., to ship to your address Adirondack Junction, Que., six plain oak typewriter desks for the use of the Senior or Continuation School on the Caughnawaga Reserve. Also an order is being placed with the Ottawa Typewriter Co. Ltd., to ship to your address, six typewriter chairs.

The above firms have been requested to forward their accounts in duplicate to you and upon arrival of the desks and chairs, if in good condition, you will be good enough to certify the accounts and return to the Department, in order that payment can be made.

Will You Fall Down This Fall?

The shortage of school sittings for 1920 will exceed all past experience. Schools will open September 1 1920, with more barracks, more part time schools and less adequate equipment for the proper housing of school children than ever in the history of the country. Unless provision is made now, there will come to school boards an unparalleled rebuke from the public for the lack of foresight in providing the mere essentials of proper housing and equipment.

Dear Sir:

With reference to your file No. 5-1-1 referred to in your letter of August 18th which crossed our letter of the same date, we have, as instructed, cancelled your order as contained in your letter of July 31st.

We note your statement that it is highly necessary that Adjustable desks be secured for Caughnawaga School and we would like to say that we believe our factory at Preston can in reality make you earlier shipment of adjustable desks than any other factory in Canada.

From the information we have before us we believe that if you wish to restore the order that we can cause shipment to be made on September 15th and while other factories may take your order we do not think that they can make as early shipment as this. If, therefore, you wish to reconsider, please advise us and we will be glad to restore the order for shipment on or about the date mentioned.

Yours truly,

Dear Sir:-

Your telegram just to hand and we are to-day writing the Factory instructing them to make immediate shipment of your Desks.

This year School Furniture Manufacturers are right up against it.

You know there has been practically no School building for six years, and the same applies to refurnishing.

The School Boards instead of taking time by the forelock, pile their orders in during the month of August which simply means that every Manufacture of North America is swamped with business.

We believe however that the Factory can get these Desks out within a very few days.

Gentlemen,-

I have to acknowledge the receipt of your letter of the 13th instant, in which you inform the Department that you are instructing the factory to make immediate shipment of the desks required for the Continuation School on the Caughnawaga Reserve and that you believe that the factory can get these desks out within a very few days.

In reply I would say that this order was placed with you on the strength of your letter of the 10th of August, last, in which you stated that, while there was an exceptionally heavy demand, you could make delivery by September 1st. This school opened on that date and they are very much handicapped in their work for want of the desks. It is hoped that you will have them forwarded as soon as possible.

Ottawa, September 16, 1920.

Madam,-

Mr. Mackenzie has drawn my attention to the fact that the school material and equipment for the Continuation School has not yet all been received by you.

I may say that the order for the twenty-four Harvard Adjustable Desks and a teacher's chair was placed with the E. N. Moyer Co. on the 18th of August, they having said that they could deliver the desks in Caughnawaga by the 1st instant. Immediately upon receipt of your letter to Mr. Mackenzie they were telegraphed and have replied that, owing to the pile of orders which they have received during the month of August they and every other manufacturer of school desks are swamped with business. They state that their factory will have these desks out within a very few days.

The order for the typewriters was placed through the Government Stationery Office, and there was some delay in that office, but I understand the various firms with whom the order was placed have been instructed to have the typewriters shipped and it is possible that you have received them before this.

The school material, books, etc., requisitioned for by you have also been ordered to be supplied by the Government Stationery Office. They informed me that, as most of these books are different from the usual supply asked for by the other schools, they have had to order them specially, but expect to have your full order completed at an early date.

It is hoped that all the equipment and supplies asked for will reach you very shortly. I may say that every effort has been taken to have the school ready by the 1st

Dear Sirs:-

Attention Mr. A. F. MacKenzie.

We appreciate the situation in which you are placed, at the time we made quotations little did we think we would be in the situation which we find ourselves.

For a week or ten days orders came in here so fast that we could hardly keep track of them, and our difficulty is to get the shipping end caught up.

To-day we have orders on hand which came in on Monday of this week and *are* not yet copied, for the simple reason that in our business we cannot take in extra help, owing to the fact that it is so different to any other Mercantile business that clerks are of little value to us without six months experience.

If we could get shippers with experience all our orders would be filled, but we know from experience that to put green men in causes more annoyance to our Customer than the inconvenience of waiting.

We will do just what you ask in the last sentence of your letter and we are going to write the Factory impressing upon them the necessity of getting this order out at once.

OCT 8 - Rec'd

Ottawa, October 6, 1920.

MEMORANDUM.-

The account hereunder is for 24 Adjustable Desks supplied to the Continuation School on the Caughnawaga Reserve.

The Sister Superior asked that Harvard Adjustable Desks be supplied, as the pupils are adults and it was necessary to have desks that could be adjusted to the required height. ~~Both~~ the George M. Hendry Co., and the E. N. Moyer Co., furnished prices. The order was first placed with the Hendry Co. for 'Challenge' Adjustable Desks at \$10.95 each, but they informed us that, while this line of desks appeared in their catalogue, they were unable to give delivery at the time required, namely, - September 1st, when the school opened. As it was necessary to obtain desks for that date, the order was then transferred to the E. N. Moyer Co., Limited, for Harvard Adjustable Desks at \$13.75 each. Owing to the demand for school desks they were the only firm that could guarantee delivery at the time required and the order was placed with them. I may say that in the new price list now submitted by the E. N. Moyer Co. the price for the type of desk supplied is \$15.80.

As it was absolutely necessary to have these desks in time to open the school on the first of September and the Hendry Co. would not guarantee the time of delivery, the order was placed with the E. N. Moyer Co., who furnished the desks at the time required at a slightly higher price, but considerably less than the price now asked for the same desk. The quotation of the Globe Furniture Co., Limited, Waterloo, for the same type of desks as ordered was \$14.10.

Taking into consideration the urgent need for these desks, I consider that, in placing the order with the E. N. Moyer Co., the very best price was obtained under the circumstances.

SUBJECT :—

Attention of :—Mr. F. H. Paget.

I am in receipt of your submission of October 5th., File 5-7-5, relative to the purchase of desks and chairs for Caughnawaga Reserve.

For your guidance would you permit me to point out the following procedure in purchasing of supplies in future.

(1) When purchases are being made, a specification of your requirements, together with your call, and the names of firms you propose to ask should be submitted to this Commission before being sent out. This is to ensure that you will purchase from the best source of supply.

(2) After the tenders have been received by you they are scheduled by a representative of your department and a representative from this Commission.

(3) The file is then submitted to this Commission, with your recommendation, for authority to make purchase.

In connection with this purchase you will note that the E. N. Noyer Co., purchased from the manufacturer the W. F. Vilas Co., Ltd., Cowansville, Que. This purchase runs into considerable money, and had it been purchased by calling tenders, it is altogether probable that your requirements could have been purchased (for less money than your now paying) from this manufacturer, knowing that he was quoting against other manufacturers.

Ottawa, October 22, 1920.

Sir,-

I enclose herewith an account of the Federal Typewriter Company for the six typewriter desks or stands supplied for the use of the Continuation School on the Caughnawaga Reserve, with an account attached for the freight charges.

I have to request that you will be good enough to attach this account to proper voucher forms, in duplicate, and certify the same and return to the Department, in order that payment of the account can be made. In connection with this matter I beg to refer you to official letter of August, 19th, last, advising you of the order being placed with this firm for the above typewriter desks.

Your obedient servant,

A. F. MacKenzie

Madam,-

With reference to that portion of your letter of the 25th ultimo in which you state that only half the number of braces necessary for the desks in the Continuation School were received I have to request that you will be good enough to state definitely the number of parts of the desks which are missing. When this information is received the matter will be taken up with the E. N. Moyer Co., from whom the desks were purchased.

My dear Sir,

In reply to your inquiry about the desks, I would say that braces for 12 desks are missing.

I must also state that the grade of iron used in manufacturing these desks was very poor. The bolts shap, and the base holding the chair is of such inferior quality that two chairs are already unserviceable. The pins fell right off while the pupil was sitting quietly at the desk.

We have had some trouble with the Remington typewriter. In the first place

it was shipped to Montreal and held there until the office people found out to whom it belonged. When I learned it was at the Montreal Remington office, I asked the Manager to make the key board blank, and send it to Caughnawaga. He did this, but when we opened the box we found no accessories whatever such as cover, oil can, brush instruction book etc. I wrote to the Manager and asked if these articles had been removed in the Montreal office by mistake. He told me that there was nothing in the box when they opened it, but promised to take up the matter with the Ottawa office.

It is customary for type-writer concerns to guarantee their machines for one year and attend to all repairs

free of charge during that interval. I should suggest that the Department notify the different Concerns from whom they have purchased type-writers in Ottawa to instruct their Montreal Agencies to look after the type-writers in use here until October 1921.

I have used the Henderson machine only and am not at all familiar with the Remington so it would do me a great favor if a man was sent here to examine the machine, and give instructions for its use.

Thanking you kindly,

I am, dear Sir,

Ottawa, November 6, 1920.

Gentlemen,-

Regarding the order placed with you for twenty-four Harvard Adjustable Desks, with lifting lids and chairs, for the use of the Continuation School on the Caughnawaga Reserve, as per official letter of August 18th, last, I now beg to state that the Principal of this school informs the Department that, when the desks arrived, braces for twelve of the desks were missing. She states that she has already corresponded with you regarding this matter, as well as the factory at Cowahsville, but has received no reply.

I should be glad if you would have these missing parts forwarded as soon as possible, and they should be sent to the address of Mr. J. M. Brosseau, Indian Agent, Adirondack Junction, Que. Should you require any further information please write Sister M. Gabriel, Principal, Caughnawaga, Que.

The Principal also states that the grade of iron used in manufacturing these desks is very poor. The bolts snap and the piece holding the chair is of such inferior quality that two of the chairs are already unserviceable. She states that the pieces fell right off while the pupil was sitting quietly at the desk.

It is considered that any repairs or extra parts needed should be supplied by you without further expense to the Department.

Your obedient servant,

Madam,-

I have to acknowledge the receipt of your letter of the 4th instant, and in reply, regarding the parts of the desks that are missing, I beg to say that the E. N. Moyer Co., Limited, Toronto, from whom these desks were ordered have been requested to forward, addressed to Mr. Agent Brosseau, the twelve braces for the desks which are missing.

They have also been informed of the poor material used in the manufacture of these desks and have been asked to make good any parts broken. This firm was asked to correspond with you in the matter and you can furnish them with full particulars.

With reference to the Remington Typewriter, I beg to say that The Federal Typewriter Co., from whom this machine was ordered, states that they have forwarded the necessary tools for this machine, as well as the cover, and it is hoped that they will reach you in due time.

The question of having a representative from each of the various companies handling the machines forwarded to you, visit the school and instruct you in the use of the machines is being taken up with the companies here and the Department will endeavour to have a man sent who will give you the necessary instructions in the management of these machines.

Dear Sir:-

Your letter of November 6th has not been answered earlier owing to the writer's absence from the city, but the Braces which arrived short are ordered from the factory. These were lost in transit as our check clearly shows that they were shipped. We cannot understand what your Principal is driving at when she states that they are made of a poor grade of iron, because if her Desks fall to pieces as easily as she states, it seems reasonable that we should have other complaints, and this is the only one we have.

My dear Sir,

I am sending to your address one small box containing a broken bolt from the desks in the Convent school, requesting that you be good enough to order from the Mayer Co. 6 of these -

I am sorry to say that when the workman came to put the braces on the desks yesterday he told me there were only braces for six desks, now there are still 12 braces missing i.e. braces for 6 desks -

Two of the castings on the adjustable chairs are broken. Kindly ask them to send the two pieces fastened to floor, the cup-like tube which holds the chair in

place. -

I must again ask if you would be good enough to get in touch with the Stationery Department. We have not a scrap of paper left for we had to use every particle in the house, foolscap, scratch pads etc etc. We have only typewriter paper left. They have our last requisition asking for paper and pencils -

We have no coal either, but Mr Brosseau told me he would interview the Fuel Controller to day and insist the coal be sent to the schools for the opening on Jan 10th.

Wishing you a happy New Year

Madam,-

I have to acknowledge the receipt of your letter of the 25th ultimo, addressed to Mr. Sutherland of this Department, and in reply I beg to inform you that the box containing a broken bolt from the desks in the Continuation School, which you state you are forwarding, has not yet been received. It will not be possible to order new ones from The E. N. Moyer Co. until the sample of the bolts required is received. As soon as this arrives the question of ordering six new bolts, as well as twelve braces for the six desks and the replacing of the two castings on the adjustable chairs will be taken up with the E. N. Moyer Co.

It is regretted that there has been delay in forwarding the scribblers asked for, but the Stationery Department has found it difficult, owing to the scarcity of paper, to have its orders filled. They now state that they expect to send these scribblers to you very shortly. A further supply of lead pencils is also being ordered to be sent you.

It is hoped that a further supply of coal has been secured by Mr. Coutotte and that it has been delivered to the schools before this. The Department was informed by him a few days ago that he had a carload of coal on the way.

The Department is very pleased to note the large and regular attendance of the children during the past quarter.

Gentlemen,-

In further reference to the order placed with you for 24 Harvard Adjustable Desks for the use of the Continuation School on the Caughnawaga Reserve I beg to say that a communication has been received from the Principal regarding a number of broken parts on these desks. She has forwarded one of these broken parts, which is being sent you in a separate parcel, and has requested that six of these parts be forwarded to her to replace a like number that were broken.

Regarding the braces which were missing the Principal states that only braces for six desks had arrived and that there are still twelve braces missing, that is for six desks.

She also states that two of the castings on the adjustable chairs were broken and she explains that these are the two pieces fastened to the floor, the cup like tube which holds the chair in place.

I have, therefore, to request that you will have these broken parts and the remainder of the braces forwarded as soon as possible to Mr. J. M. Brosseau, Indian Agent, Adirondack Junction, Que. The complaints of the Principal of this school regarding the broken parts of the desks are the first that have been received in connection with the desks supplied by your firm. Any repairs or extra parts needed should be supplied by you without expense to the Department.

Madam,-

The Department is in receipt of a communication from The E. N. Moyer Co., Limited, regarding the broken parts in the desks supplied the Continuation School on the Caughnawaga Reserve. The sample of the broken bolt which you sent was forwarded to the company, but it has evidently been mislaid. They now enclose a ~~page~~ from their illustrated catalogue and request that the necessary parts required be marked on the illustration, so that there will be no mistake, and the number of new parts required should be stated.

I enclose their illustration of the desks and have to request that you will be good enough to indicate thereon the part required and state the number and you might return this illustration with the number of parts required direct to The E. N. Moyer Co., Limited, 100 Front St., Toronto, Ont., with shipping directions, and they will then attend to the matter. They are being informed that you will write them direct.

The management of these Indian Schools is excellent; order good; discipline excellent and progress very good. Unfortunately the school rooms are becoming far too small for the number of pupils attending school. Extensions will have to be made very soon; also something should be done to improve the grounds about the buildings - they are rude and unsightly - no shade trees or shrubs have been set out and no grading made since the buildings were erected.

Teachers' Residence,
Kangharawa Dec. 6/8/21

My dear Sir,

I enclose, herewith, a list of desks and furnishings needed for the new class in Boys' School, being held in the lower flat of the Delorimier Residence.

By way of explanation I would say that I intend taking the 22 double desks now used in the Primary Girls school to this new room, and replace them there with single desks. My reason for doing this is two-fold; the girls are more careful than ^{the} boys and convenience in handling single desks is much greater than in moving double desks every time we need the Assembly Hall.

W. J. Wilson
Crowninshield

The Department shipped 24 single desks No 6 in March to Girls School, but there were neither backs nor fronts to these, so much space was lost. I have figured out that with 11 complete new desks, and backs and fronts as indicated I will have a seating capacity of 42 pupils in this class room.

ARCHIVES PUBLIQUES
CANADA

POOR
COPY

Further more in 3rd Class of Girls School 6 fronts and 6 backs would give us 12 more places in the school; it is for this reason I have ordered these in place of complete desks.

I would request that this year we be allowed to purchase two good clocks, one for the lower hall of each school near the main entrance. These would serve to regulate the clocks in the class rooms, which just now keep all kinds of time. All bells would be rung according to this clock, and eliminate the conflicts of tardiness; for often two pupils coming in at the same time are marked one "lardy" and the other "on time", because one clock was fast and the other slow.

I would also request that a good large gong be placed on each of the large schools. The little hand bells are not heard at any distance away, and I feel sure punctuality would be greatly increased by such a reminder.

I did not order a desk or chair for the teacher in this new school, because I retained 2 desks and 3 chairs from the Soldier's Civil Re Establishment, as well as a quantity of black-board material.

Mr. Vein went to Montreal twice in the

interests of the schools, but he could get very little from the Soldier's Civil Re Establishment as all was ordered shipped to the Marine Department; he selected a few tools, however which will be of use.

With further reference to the typewriter I would gladly accept four Hendersons if possible, but providing they are in good condition I do not mind the make. The Henderson results the

near and hear much better than any other machine. My idea is to turn the upper flat of the Delbrier Residence into a typewriting room.

We will dispense with the chairs and tables and use tables etc secured from the Soldier's Civil Re Establishment.

I hope you will be able to send the order for the desks early enough that we may have them installed for the opening of schools in September.

Yours very cordially,
Sister Mary Gabriel

OTTAWA, June 11th, 1921.

Madam, -

I have to acknowledge the receipt of your letter of the 8th instant, enclosing a list of the desks and furnishings required to provide extra classroom accommodation for the boys' school on the Caughnawaga Reserve.

It is noted that you will arrange for the transposition of the double desks now in use in the primary class of the girls' school to the new classroom, and with the addition of the desks now asked for and the front and rear seats, you will be able to provide seating accommodation to meet all requirements. Before we place an order for the front and rear seats required by you, you will be good enough to state whether the sizes will match the desks that were recently supplied and which were ordered from the W. F. Vilas Co., Cowansville, P.Q., as it will be necessary to obtain front and rear seats to match the desks for which they are intended. A slightly lower price can be obtained from this firm, and if the fronts and rears manufactured by them will match the various types of desk in use, an order will be placed with them for the number requisitioned by you.

It is noted that you also require one right and one left casting for a #6 desk. Kindly state if these castings are required for a desk manufactured by the above firm, and if not, for which make of desk these castings are required.

You may arrange for the purchase of eight window curtains, one clock, one thermometer, one waste paper basket, one water pail, one wash basin, one soap dish, drinking cups, roller towel fixtures and one pencil sharpener.

You may also arrange for the purchase of two stoves of a size and type suitable to heat the building, and also for the necessary stove pipes, and when these are received, you should arrange to have them set up. You may also purchase two coal scuttles, two shovels, one axe, two brooms, two dust pans, and one stove brush.

You may also purchase two clocks, one each to be placed in the lower halls of the boy's and girls' schools. While care should be taken to see that good clocks are purchased, they should be as reasonably priced as possible.

Before making the purchase of the above supplies you will be good enough to obtain competitive prices from a number of dealers, and in each case purchase from the dealer quoting the lowest price. You should obtain itemized accounts, in duplicate, from the dealers from whom you make the purchase, and hand them to Mr. Agent Brosseau, who will certify the same, and forward to the Department in order that payment can be made. You should attach to the accounts a memorandum giving the names of the firms asked to quote, and the prices quoted by each.

The Department will leave the purchase of the above articles in your hands, to make the best arrangements you can, and to secure the lowest possible prices for the most serviceable articles.

Regarding your request that a large gong be obtained for each school, I will be pleased if you will obtain a price for these gongs, and the cost of installing same, and inform the Department, when your request will receive consideration.

The Department will place an order with the Government Stationery Office for four Underwood typewriters to be sent to your address. These machines have been taken over from the Department of Soldiers' Civil Re-establishment, and have been put in good repair and are practically as good as new. They are of the standard keyboard type, and a set of Munson's rubber keys for each machine will also be sent. Before placing the order, however, I would like you to state whether you require the keyboards of these machines to contain English or French characters.

As soon as the information asked for regarding the typewriters and the front and rear desks is received, an order will be placed for both at once. I will be pleased if you will let us have this information as soon as possible.

My dear Sir,

In reply to your inquiry regarding desks I would say that the backs and fronts will match those recently ordered from the W. F. Villas Co. Leominster. The six fronts and backs No. 5 single desks to complete the 3rd Class Girls School may also be purchased from the W. F. Villas Co. Those we have are not the same make, but the difference is so slight that it will not matter. The R & L Castings are for one single desk No 6. It is to replace those broken in the last shipment from Leominster.

I will be pleased to have the French accents on the typewriters, if possible, as it will be very helpful. My intention is to have the children become familiar with both languages. It is a necessity here.

I would request that I may be allowed to have a repair man come from Montreal during the summer to

look over our six machines, and put them in good working order for the new school year.

I really do not care to have the Munson rubber caps on our machines, but if the key-boards could be made blank instead I would prefer it. We teach the touch method, and with a visible keyboard it is much harder than with a blank one. Any ordinary repair man will make a key-board blank in a very short time.

Eight of our pupils five boys and three girls will receive their Diplomas for Type-writing. Some have attained a speed of 47 net words a minute on a blank machine.

Seven of them write with ease 100 words a minute in Short-hand. They will undergo their final test to-morrow and receive their Diplomas, if their work is accepted by the Montreal Institute.

My Agent Broseau very kindly donated a gold medal for the best pupil in Arithmetic. To determine this I requested Mr. Broseau to give an examination himself, which he accordingly did. Eighteen pupils took the test and four obtained 100%.

I then submitted these four to another test and one boy came out with 95%. The children showed great interest in their work, and were very enthusiastic.

I purchased prizes to the amount of \$60.00 as per allowance, and will forward accounts in a few days.

I shall attend to the other matters and obtain competitive prices for clocks, gongs etc as soon as the schools are closed. Just now the final examinations, promotions etc take up every moment of my time.

6 -	#5	Rears,	"	"	"
6 -	#4	Fronts,	"	"	"

These desks, and fronts and rears should be supplied at the prices quoted by you in your price list which you forwarded to the Department in January, last, viz: \$8.75 each for the #6; \$9.20 each for the #4 and \$7.80 each for the fronts and rears.

When this order has been shipped you should forward your account, in duplicate, with the receipt for the freight charges attached, to Mr. Brosseau, whose post office address is St. Constant, P.Q., and who is being instructed, upon receipt of the goods, if in good condition, to certify the account and forward it to the Department when payment will be made.

These desks and fronts and rears should be shipped in knocked down condition and securely crated.

I shall be pleased if you will acknowledge the receipt of this order, and state the date on which shipment will be made.

In the Department's order of February 8th, last, for 24 Imperial Sanitary Single Desks, #6, it was found when setting up these desks that one right casting and one left casting were broken and unfit for use. I will therefore be pleased if you will furnish duplicates and have them shipped at the same time as the above order. It is considered that these two castings should be supplied without cost to the Department.

7 - #6 Fronts, Imperial Single Desks,
7 - #6 Rears, " " "
6 - #5 Fronts, " " "
6 - #5 Rears, " " "
6 - #4 Fronts, " " "

This firm is being requested to forward their account in duplicate to you with receipt for the freight charges attached, and upon receipt of the desks, if in good condition, you will be good enough to certify the same and forward to the Department for payment.

The prices quoted for these desks are as follows: -
#6 - \$8.75 each; #4 - \$9.20 each and the fronts and rears \$7.80 each.

This firm is also being requested to forward a right and left casting for a #6 desk to replace two broken on a desk which was supplied last winter.

When the desks arrive at Adirondack Junction, you should arrange to have them taken to the school and set up in place as desired by the Reverend Sister Superior. It is hoped that when these desks arrive, they will provide ample seating accommodation for the schools under the charge of the Sister Superior.

Madam, -

I have to acknowledge the receipt of your letter of the 14th instant with reference to the desks and front and rear seats required to provide extra seating accommodation in connection with the boys' school at Caughnawaga.

In reply, I beg to inform you that an order has been placed with the W. F. Vilas Company Limited, Cowansville, P.Q., for the number of desks and front and rear seats, and also for a right and left casting for a No. 6 desk asked for in your letter of the 8th instant. Mr. Agent Brosseau has been informed that these desks will be shipped addressed to him at Adirondack Junction, P.Q., and that he should arrange upon their arrival to have them taken to the school and set up in place as desired by you. It is hoped that when these desks arrive they will provide ample seating accommodation for all the children who will attend.

A requisition is being sent to the Government Stationery Office for four Underwood typewriters, with the French accents on the keys, and a set of Munson's blank rubber keys for each machine is also being ordered. It is hoped that these typewriters, and also the desks will arrive in time to be put in place before the school reopens after the summer holidays.

*Extract
for 5-1-5*

You may arrange to have a repair man come from Montreal during the holidays to make any necessary repairs to the typewriters now on hand, and to have them put in good repair for the new school year. Accounts for the expense incurred should be obtained, in duplicate, and handed to Mr. Agent Brosseau who should certify the same and sent to the Department in order that payment can be made.

The Department is pleased to note the success attained by the pupils in their typewriting and shorthand course.

Sir, -

I have to request that upon the occasion of your next visit to Caughnawaga you will arrange to have the following improvements carried out in the building leased from Mr. John Delorimier to be used as extra class-room accommodation, viz: -

- (1) The purchase of sufficient 1/2" V.J. to finish the upper story to make it suitable for a Typewriting Department; also the purchase of sufficient paint to give both the upstairs and downstairs two coats, and you should also arrange for the necessary labour in having the work performed.
- (2) It will also be necessary to fit up the stable in order to provide a place for the winter supply of wood and coal, and you may arrange for the purchase of the necessary plank to provide a floor, and any other material required.
- (3) It will be necessary to fit up toilets, and you should arrange to have this work done, and any material required purchased.
- (4) A gate is required to connect this extra class-room with the boys' school. You may arrange for the purchase and installation of this gate.
- (5) The Sister Superior requests that a wall in the Continuation School be removed at the rear to provide increased class-room accommodation. You should arrange to have this wall removed and an archway built in, with sufficient support to carry the weight of the ceiling.
- (6) The walls of this school require a coat of paint. You may purchase a sufficient quantity of paint and arrange to have the work done.
- (7) The Sister Superior states that the black-boards in this school ~~are~~ too high. If possible, you may arrange to have them lowered, ~~and~~ a platform installed, and you should also arrange to have any black-board material which the Principal has on hand installed in the schools where required.
- (8) You may purchase sufficient varnish to varnish the desks in all the class-rooms, and arrange to have the work done.

In the purchase of any material, you should, as far as possible, obtain competitive prices and purchase the lumber and paint required from the firm quoting the lowest price.

DEPARTMENT OF INDIAN AFFAIRS

Ottawa, July 26, 1931.

MEMORANDUM:

The Acting Deputy Minister.

On July 4th I was authorized to perform certain work at the Government school buildings on the Caughnawaga Indian Reserve, and I at once applied to the Accounts Branch which immediately took the matter up with the Purchasing Commission for obtaining the materials required, the estimated cost of which is about \$100.00.

The work was urgently needed and had to be done during the school holidays. These materials have not yet been received, and a good amount of time has thus been lost owing to the fact that the men did not have the necessary materials on hand. I wish, therefore, to inform the Department that if this proceeding is to be followed every time small quantities of materials are required, I shall not be held responsible for the delay in the performance of the work and also the cost of same. Unless I am given more latitude in the execution of my work outside of the office I regret to say that it is almost impossible for me to transact business to the best advantage of the Department. If thoroughly examined the above case will prove that there is no practical economy in delaying the purchase of a small quantity of materials, especially the kind generally required in our works.

Departmental Engineer.

Dear Sir:-

We have your letter dated October 3rd,
155,897, also our statement to you for month of
September, for \$13.80.

We are enclosing herewith a copy of
our invoice covering this charge, and you will note
that the work was done for the Sisters of Ste. Anne
at Caughnawaga, P.Q.

Our authority for this work is a letter
we have in our files signed by Sister Marie-Gabriel.
The original invoice for these repairs was forwarded
to her as on September 9th, and it is just possible
that our monthly statement was mailed to you prior
to the Sister certifying and forwarding to you the
invoice covering same.

Trusting the same is in order, we are,

Sir, -

The enclosed account was received from the United Typewriter Company, Montreal, for repairs made to the typewriters in the continuation school on the Caughnawaga Reserve.

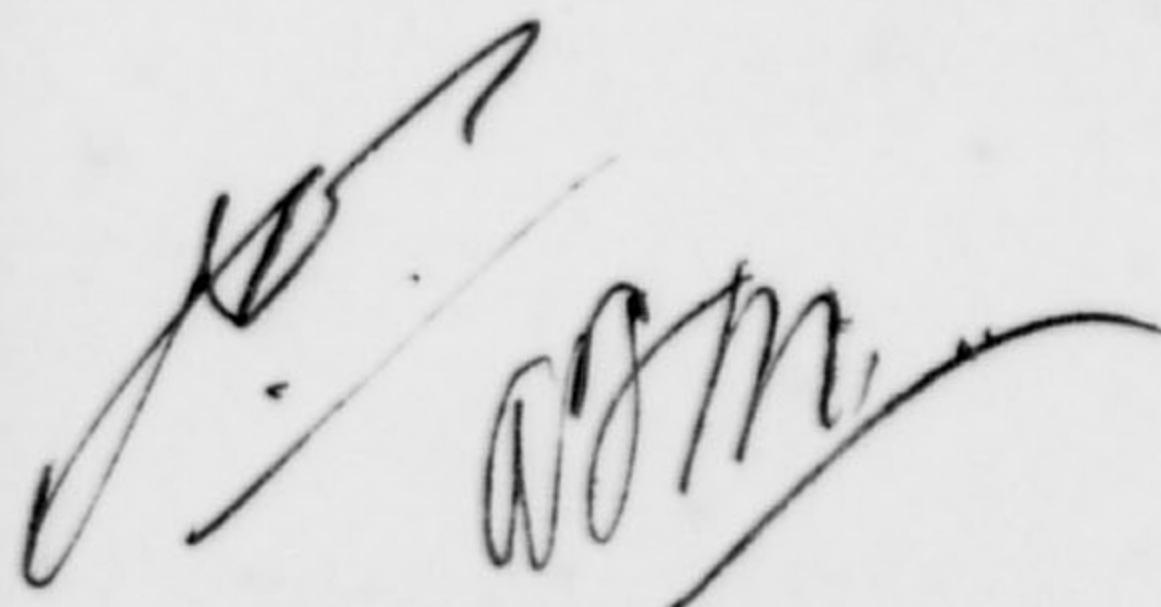

In June, last, the Sister Superior was authorized to have any repairs required made to the typewriters. If the work has been satisfactorily done, you should certify the enclosed accounts and attach them to properly receipted vouchers and return them to the Department for payment.

Kindly give this matter your prompt attention in order that settlement of this account can be made.

DEPT. OF INDIAN AFFAIRS
OCT 11 1921

My dear Sir,

I take the liberty of asking you to kindly inquire if there are any other typewriters available from the D.S.C.R. or at the Stationery Department in Ottawa. I would be grateful indeed for two more machines. Underwoods preferred. There are twenty-four pupils in regular attendance and the practice has to be broken up into three parts while if we had two more machines it could be divided into two parts only. This would facilitate the work greatly. I know you will do what lies in your power to help us out.

I am submitting for your approval a monthly report card which I would like to have printed for distribution in the six higher classes of the School. The supply we have is exhausted, and I have changed the form somewhat to meet the conditions of the schools to-day. I would request you to authorize me to have the work done and I will see to it that the very lowest price will be obtained.

I would furthermore ask to be allowed to have the French characters placed on three or four of our typewriters. As it is there is not one machine with the accents used in writing French and I think it quite necessary that the children should be trained to write French as readily as English.

I am pleased to tell you that the children are doing wonderfully well in school. They are showing the greatest interest in their work and the attendance is all that possibly can be desired.

Thanking you for your past kindness

I am, dear Sir,
Yours very cordially,

Sister Mary Gabriel
Principal.

Madam, -

I have to acknowledge the receipt of your letter of the 10th instant, addressed to Mr. Sutherland of this Department, requesting that two more typewriters be supplied for the use of the continuation school on the Caughnawaga Reserve.

In reply I beg to say that an order is being placed with the Government Stationery Office to ship to your address, Adirondack Junction, P.Q., 2 Underwood typewriters from the supply on hand which was taken over from the D.S.C.R. The French characters have been ordered to be supplied with these typewriters.

You may arrange to have the French characters placed on a number of the typewriters which you have at present on hand. You should obtain these from some dealer in Montreal, and account, in duplicate, should be obtained covering the cost, which you should hand to Mr. Agent Brosseau to certify and send to the Department for payment.

Regarding the monthly report cards required for distribution to the pupils in the six higher classes of the Caughnawaga Schools, I beg to say that you may arrange to have a number of these cards printed. The sample which you forwarded in your letter is being returned herewith. Accounts should be obtained covering the cost of the printing of these cards and they should be handed to Mr. Agent Brosseau in the usual manner.

The Department is very pleased to note that there is such a large and regular attendance of Indian children at the schools under your charge, and that the work is progressing satisfactorily.

A. F. MacKenzie,

Sy

Sir,-

Replying to your letter of the 13th inst., with reference to the payment of an account amounting to \$164.40, I beg to inform you that the delay in giving any consideration to the payment of this account is due to the fact that I am unable to find copy of the order sent to your Company for the goods amounting to the above mentioned amount.

I understand that an order was given you last July for twenty (20) rolls of rubber roofing which were to be shipped to Sister Mary Gabriel, Adirondack Junction, at the price of \$2.70 per roll, f. o. b. Adirondack Junction, making a total amount of \$54.00.

If these are the materials for which payment is being claimed, I would refer you to your letter of July 13th, 1921, signed by Mr. J. P. McGuire, Sales Department, which might explain the delay in paying the above mentioned account.

My dear Sir.

I wish to thank you for your prompt reply to my letter addressed to the Chief of Schools Branch, as well as for your kindness in giving me the assurance that you will be able to send us two more typewriters.

I would now request you to ask if I may be allowed to purchase slates for use in two more classrooms. We already have them in the two primary Grades, but we have such a hard time keeping the children supplied with paper that I think it would be quite a saving to have them use slates in the lower classes especially.

I would also ask if an allowance of \$40.00 will be made for sewing material in the Girls' School, and if the same amount \$30.00 plus \$5.00 for new school will be continued for the washing and scrubbing of towels.

Respectfully yours,

Sister Mary Gabriel
Principal.

Madam, -

I have to acknowledge the receipt of your letter of the 16th instant.

In reply I beg to state that you may arrange for the purchase of a quantity of slates for use in two more class rooms. If the cost of these slates will exceed \$10.00 you should obtain competitive prices before you make the purchase. You should obtain accounts in duplicate and hand them to Mr. Agent Brosseau to certify the same and forward them to the Department.

The allowance of \$40.00 for the purchase of sewing material for the girls' school will be continued. Properly itemized accounts should be forwarded covering the expenditure for this purpose, which should not exceed the above amount.

The sum of \$35.00 will be continued to cover the cost of washing and scrubbing of towels.

Your obedient servant,

Your File No. 5-2-5

Dear Sir:-

Replying to your letter of the 15th. there seems to have
 been an error made by our people in shipping fifty seven rolls
 instead of twenty, as per your letter of the 14th. of July, and
 this probably occurred through them reading 57, which is the dollars
 mentioned in your order instead of the quantity, and we would ask
 what can be done with the surplus 37 rolls.

In regard to the price guaranteed by our Mr. McGuire,
 we herewith enclose Credit Note to cover same.

Yours truly,

The Barrett Company Limited.

Sir,-

He
I am in receipt of your letter, addressed to Mr. MacKenzie, of the 19th instant, with reference to the error made by your Company in supplying the "Everlasting Roofing" for this Department to the Principal of the Caughnawaga School.

In reply I beg to advise you that you may obtain the surplus 37 rolls by applying to Rev. Sister Mary Gabriel at the Teacher's residence, Caughnawaga, where it has been stored. It has been suggested by Mr. Chéné of this Department that perhaps Mr. Meloche, one of your employees, who is very familiar with the merchants of Caughnawaga, might be able to dispose of this roofing through their intermediation.

Sir,-

With further reference to my letter of October 25th, I have been advised today that a number of Everlasting Proof Rolls of roofing, which were supposed to be returned to your Company, have been used in other Government work on the Caughnawaga Indian reserve, and I have, therefore, to request that you will send me new accounts, in triplicate, after we have disposed of the surplus roofing, which will be unused. Please arrange as early as possible for the removal of these rolls which are stored in the basement of the teacher's residence as before mentioned.

We have, at your suggestion, had our representative, Mr. R. W. Meloche, interview S. Marie-Gabriel at Caughnawaga, also several merchants of this village.

We are pleased to report that our representative has been successful in disposing of the balance of the 57 rolls of Roofing which we shipped in July last to S. Marie-Gabriel and which are at the present time, in her possession.

We understand, all told, that your Department has used 37 rolls leaving a balance of 20. We are writing S. Marie-Gabriel to-day asking her to turn this Roofing over to Mr. P. Meloche of Caughnawaga and when this has been done, due credit note will be sent you for the 20 rolls in question.

Sir,—

Je dois vous prévenir que le tuyau fournissant l'eau pour les closettes de l'école des filles à Baugh-mauwaga est gelé, et je ne vois pas de possibilité de pouvoir l'utiliser avant le milieu de Mai. La Soeur Principale suggère de faire charroyer deux barils d'eau tous les jours qui seront utilisés deux fois par jour pour les closettes d'ici à la fin de l'hiver. Elle me dit que le fils de Mr Tiam pourrait faire ce travail pour 75 cts par jour. J'attends vos instructions pour agir.
Votre tout dévoué.

Sir:-

I wish to inform you that the pipe furnishing water to the W. C. of the girls school at Caughnawaga is frozen, and I do not see any possibility of using it before the middle of May. The Sister Superior suggested to have two barrels of water every day which will be utilized twice a day for the W. C. until the end of the Winter. She tells me that the son of Mr. Viau would undertake to do that work for seventy-five cents per day. I am awaiting your instructions in regard to this matter.

Yours, etc.

Sir,—

Enclosed voucher in favour of Army's for merchandises supplied to clothe Indian children of Cough-naywaga. It was not practicable to ask for tenders in these kinds of purchases.

As to the family Benedict, mentioned in your letter of 4th + mine of January last, I beg to say that there are 3 children of school age: One boy, 12 years, a girl, 11 and another boy, 8. They have absolutely no clothing and need to be fitted up completely. They have no shoes or other clothing, and have been kept in the house all winter. The boy, aged 12 attended school a few weeks in June + September. He is absolutely illiterate, can hardly pick a few simple words. The girl, 11 went to school a few weeks in June

The boys should need overcoats, caps, mitts, shoes, rubbers, stockings, underwear and a suit of clothes or pants and sweaters. The girl would need cloak, dress, underwear, shoes, stockings, mitts, rubbers, cap, etc. I should judge that it will not be possible to clothe these children for less than \$25.00 each; and I really do not know if I could get them fitted off for that amount. I will wait for your instructions.

My dear Sir,

Immediately upon receipt of your letter I had the work done in the basement of the Girls' School and every thing is working very satisfactorily so far. The young man I employed has to carry 24 pails of water from the river each day, so you see it is quite a lot of labor especially on cold and stormy days.

I thank you for your prompt attention to my request,

Sir:-

The water pipe supplying water to the closet of the girls' school at Caughnawaga is now thawed out, and I am informed that it must be broken somewhere, and cannot be used on account of the water lost through such break. Mr. Viau tells me that he can locate the place where the pipe is broken by unearthing it at the corner near the church, and that he could repair it himself. I prefer to consult you before authorizing such expenditure.

I consider that it is absolutely necessary that this pipe should be laid deeper so as to avoid the danger of frost, and this work should be done before the macadamized road is finished in front of the church. I am told that this pipe is only one (1") inch in diameter, and it would be preferable to have a larger pipe.

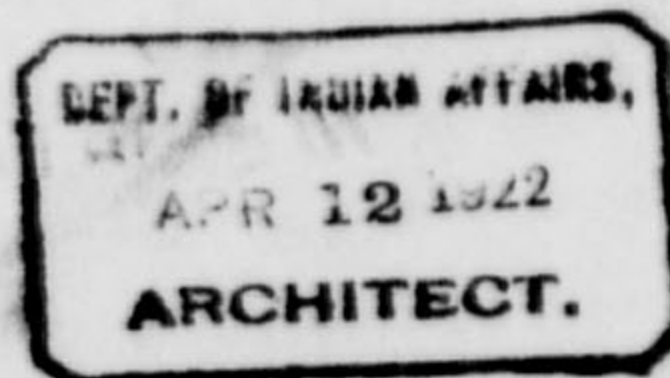

Now that the ground around the school is nearly dry, the outside closets might be utilized, and if it is your intention to lower the pipe in the ground, we will not follow Mr. Viau's idea.

I shall await your instructions before undertaking any repairs.

Yours, etc.

Dear Sir,-

W. J.
I beg to acknowledge the receipt of your letter of the 4th inst., addressed to Mr. Chene of this Department, with reference to the repairing of the water supply pipe at the girls' school at Caughnawaga. In reply I have to request that you will ask Mr. Viau the caretaker, to try and locate the defect in the pipe, and to put it in serviceable condition for the present.

It should be understood that this work is to be done without any charges, as it is part of Mr. Viau's duties, to look after the plumbing and heating in all government buildings in Caughnawaga.

My dear Sir:

I will hand to Mr. Agent Brosseau the bill for services at the toilets in the Girls' School up to April 13th. Now that the weather is fine, the water drained off, our girls may use the toilets outside. I have had these inside toilets well cleaned and barred up until such time as repairs are made to the pipe which froze and subsequently burst. We cannot now have water until the pipes are dug up and repaired. A letter to the Department stating this fact was forwarded by Mr. Agent Brosseau quite recently.

Thanking you for your kindness,

My dear Sir, If you refer to my letter of July 1921 regarding the clock in ^{the} former Methodist school and your reply to same dated July 12. 1921 No 5-1-5 you will be acquainted with the present condition.

A certain Indian here, whose name, I cannot recall, has repeatedly called here claiming that the clock belonged to them. I referred them for he always brought an interpreter, to the Indian Department stating that as soon as the order would come to me to give up the clock I would do so.

so!
In the meantime he wrote to

Sir, -

This will authorize you to arrange, at your earliest convenience, for the installation of a new water supply pipe from the mission building to the girls' school at Caughnawaga, Que. The old pipe was laid thirteen years ago, and must be enlarged to take care of the extra plumbing in the school building, and should be placed below the frost line.

You will kindly arrange to have the work performed by day labour as economically as possible.

In view of the road-making activities in the village, this work should be commenced as soon as possible.

Dear Sir,

It has been the custom of the Department to make an allowance for prizes in the schools at the end of the year. From 1915 to 1921, the Department allowed \$20.00 for each school. Last year I asked for \$10.00 extra for The Continuation Class which was granted.

*425 papers
14 class rooms
700.00*

In view of the fact that the number of children attending school has so increased, that the price of books has not in any way lowered, it is very difficult to give rewards to the pupils as the amount allowed is insufficient. On the supposition that the Department would still allow \$50.00, it would only be an average of 12 cts for each child. It is next to impossible to get a book for less than 75 cts or \$1.00, and unless I go bargain hunting for a month ahead, I cannot make ends meet. I would therefore ask for farther allowance leaving it to your good judgment as to how much more than \$50.00 the Department could give for this purpose.

The children have put in a good year's work, I would like them to leave school happy and satisfied for nothing so influences children for renewed efforts as contentment. All of us want adequate reward for our efforts and surely children are no exception to this rule.

I will await your reply before proceeding any further with the preparations for the end of the school year.

Respectfully yours,

Liter Mary Gabriel
Principal.

OTTAWA, May 20th, 1922.

Madam, -

I have your letter of the 13th instant, with reference to the grant that will be allowed for the purchase of prizes for distribution to the pupils of the schools under your charge on the Caughnawaga Reserve before they close for the coming summer holidays.

In reply I beg to say in view of the excellent work that is being carried on by yourself and the teachers, we have decided to allow the sum of \$100 for the purchase of prizes, etc. We will have a large number of demands for the same purpose from our other schools and, as our funds are limited, it will not be possible to make a larger increase in the grant allowed your schools than the above stated amount, viz: \$100.

In making the purchase of these prizes, it will be necessary for you to obtain itemized accounts, in duplicate, from the merchants from whom the goods are purchased. These accounts you should hand to Mr. Agent Brosseau, who is being informed of the amount allowed, and he will then certify these accounts and forward to the Department in order that payment can be made.

I sincerely hope that the grant we are allowing, which is double that of last year, will solve for you the problem of obtaining suitable gifts or prizes for all the pupils deserving the same.

Your obedient servant,

Russell T. Ferrier

Sir, -

I beg to inform you that we are authorizing Sister Mary Gabriel, Supervising Principal of the schools on the Caughnawaga Reserve, to expend an amount not to exceed \$100 in the purchase of suitable articles to be distributed as prizes to the pupils before the schools close for the coming summer holidays.

The Sister Superior has been requested to obtain itemized accounts, in duplicate, from the merchant from whom she makes these purchases, and to hand these accounts to you, which you will be good enough to attach to proper voucher forms and certify the accounts and forward to the Department in order that payment can be made.

My dear Sir,

I have your letter of May 20th, No. 5-1-5 by which you increase the allowance for the prizes in the Schools, and for which I wish to thank you most sincerely. Your generosity far exceeded my expectations, for I did not for a moment think I would possibly get above \$75.00 and I was figuring on this amount. I will now be able to give recognition to all of the deserving pupils, and I wish to repeat how very happy we were all to learn that we could dispose of a whole \$100.00 in behalf of our dear children.

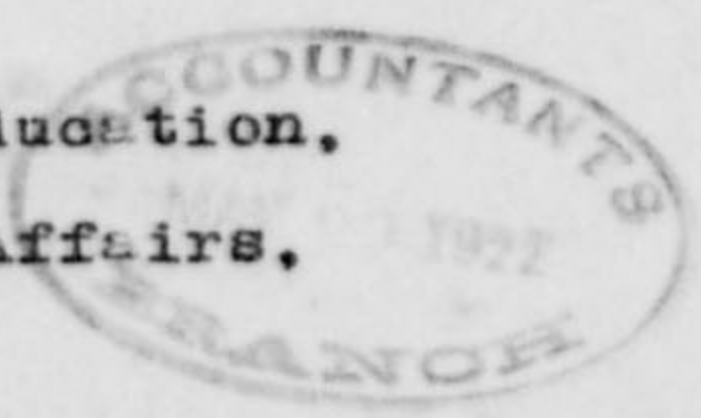

I wish to thank you for your appreciation of our mark system, which has indeed been very helpful to us in securing attendance, application and attention.

Yours very respectfully,

Sister Mary Gabriel

My dear Mr. Chene, 570633

I am enclosing the name of the men who have been digging the canal from the school to the Mission house. It is very hard labor as most of the material is rock formation. The old pipe was removed and the work complete to and beyond the man hole.

We will utilize the old piping to make an outlet from the furnace of the Girls' School, that the jammer may empty it without trouble. It will thus save the expense of buying the hose which was authorized by Mr. [unclear].

I trust you may be here this week to inspect the work.

Teachers' Residence,
Caughnawaga, Que., June 20, 1922.

571302

My dear Sir,

I am in receipt of your letter of June 17th No 5-4-5B, stating that I had certified an account of Thomas Robertson & Co dated March 25th amounting to \$48.45. In reply I beg to say that the account I just forwarded and to which you have reference was dated May 25 1922, as I enclose a duplicate of the account I sent you. This was for the piping used for the supply pipe from the Mission house to the Girls' School.

I did not keep on record the exact amount of any previous account paid Thomas Robertson but I shall make it a point to interview them and ascertain when I received an account for the same amount. I wish to assure you that I am most particular in handling the accounts of the Department and I do not certify any account unless it has been authorized and that I am perfectly sure the value was received.

I am inclined to think either you or your stenographer made a mistake in the dates as I would certainly not send you in June an account for goods purchased in March.

Trusting that you may investigate this matter and let me know if I am wrong or not,

I am,

Respectfully yours,

Sister Mary Gabriel

Principal.

Dear Sir,-

W. J. P. 4

I beg confirm the order given by Mr. J. D. Chene of this Department for two car loads of cinders to be shipped to Adirondack Junction, P. Q., and billed to The Kennedy Construction Co. The accounts for the materials and transportation should be sent in triplicate to this Department.

In view of the fact that the grading of the school ground is urgent, I would greatly appreciate if you would be good enough to make shipment of these materials immediately.

Dear Sir,

Referring to your letter of June 2nd, in connection with cinders required by the Department for school grounds at Caughnawaga.

These cinders would be shipped either from Outremont or from Sortin and the freight charges would amount to about \$27.00 per car, from either point.

Please advise if you wish me to make delivery of the cinders.

Dear Sir:-

Will you kindly have transferred in favour of the Hochelaga Bank, Chateauguay Village, Quebec, all the cheques payable every four (4) months for rent of my house at Caughnawaga which is being used as a school house.

I wish to borrow from the Hochelaga Bank the sum of four hundred (\$400.00) dollars for commercial purposes, and all the cheques coming from the Government shall be made payable to the Bank of Hochelaga, as guarantee for this advance money, and until the note is entirely paid or until notice to the contrary from the Bank.

Hoping that my request will be granted by the Indian Department at Ottawa, as this would help me considerably in my trade.

Yours devotedly,

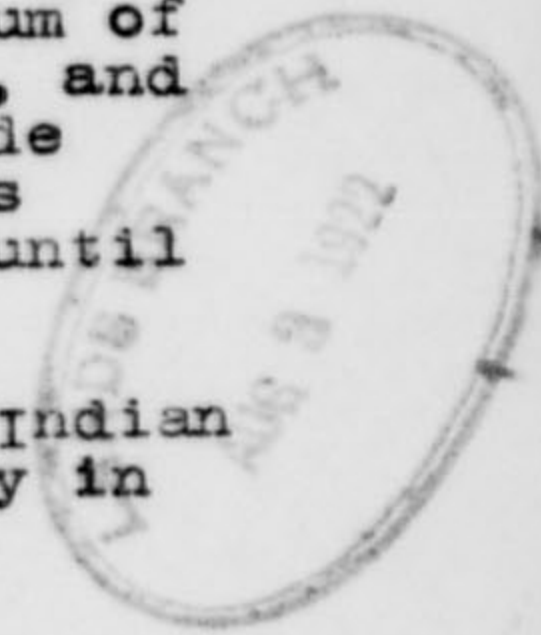

John O'DeLorimier

Witnesses:-

We employees of the Bank of Hochelaga of Chateauguay Village, Quebec, declare that this declaration on the part of Mr. J. DeLorimiere was made in our presence, and that a request for the discount of the sum of four hundred (\$400.00) dollars was made by the latter, and we further more declare that if this transaction is approved by the Indian Department at Ottawa, for which we should be notified in writing, we are ready to furnish Mr. DeLorimiere with the four hundred (\$400.00) dollars requested

My dear Sir,

I would request the Department to kindly purchase for the Continuation School eight desks similar to those already in use. I foresee that this class will be crowded and the room is large enough to hold that many more desks.

The Type is Harvard Adjustable with cherry lids and chairs to match. They were purchased originally from the Villas Co. of Cowansville, Quebec.

This company has a supply house in Montreal, I am told, and if you so desire it I could make the selection there, so that there would be no mistake in type nor delay in forwarding.

Sir,-

This Department is in receipt of a communication from Mr. Brosseau, Indian Agent of the Caughnawaga Band, stating that Mr. J. O. Delorimier is desirous of borrowing the sum of \$400.00 from the Bank, giving as security rental which is payable by this Department to him for a house in the village of Caughnawaga, used by this Department for school purposes, and in reference to the matter I beg to say that if you will have Mr. Delorimier execute a Power of Attorney, asking that this Department pay over to the Hochelaga Bank all moneys due him as rentals for the above named house, the same will be honoured by this Department, but this Department assumes no liability in the matter nor will this Department be responsible for repayment of the loan made to Delorimier by you only in so far as moneys due by this Department to the said Delorimier made up and covered by the Power of Attorney executed by him in favour of the Bank of Hochelaga.

The Power of Attorney should be forwarded to this Department, addressed to Mr. J. D. McLean, Secretary Department of Indian Affairs, Ottawa.

The annual rental paid to Mr. Delorimier is

\$75.00.

Madam:-

I have to acknowledge receipt of your letter of the 4th instant, in which you request that 8 Harvard Adjustable Desks, of a similar type to those already in the school, be supplied for the use of the Continuation School on the Caughnawaga Reserve.

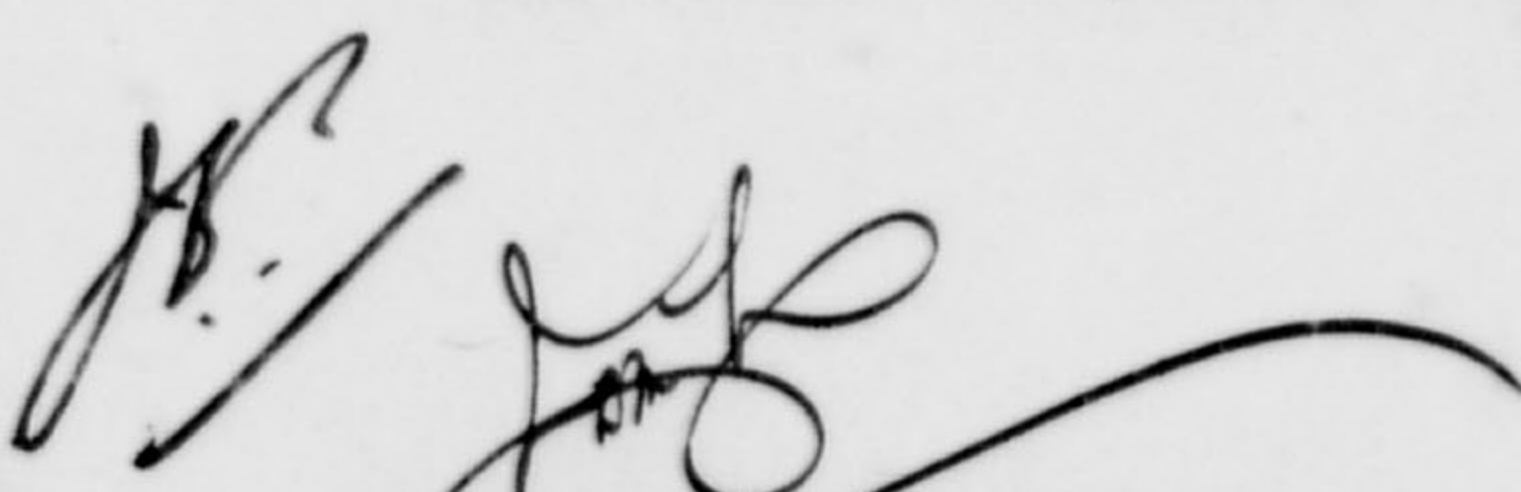

In reply I beg to inform you that the Department is today placing an order with the W. F. Villas Company, Cowanville, Que., to ship, freight prepaid, addressed to you at Adirondack Junction, Que. the above number of desks, with cherry lids and chairs to match.

The W. F. Villas Company will send their account in duplicate to Mr. Agent Brosseau, who is being informed of the order having been placed covering these desks. This firm has been asked to make immediate shipment, and it is hoped that the desks will arrive in time to be set up before the school re-opens after the present summer holidays.

Mr. Cheff

for necessary action

My dear Sir,

I beg to call your attention to the following items to which I kindly request you to give consideration before the opening of the fall school term -

- 1st.- All the desks in all the schools need a coat of varnish to preserve them and keep them in good condition.
- 2.- Many desks need to be repaired, as every available seat will be occupied, and having none to spare each desk must be fit to be used. A carpenter could do this in a few days I should judge.

Some of the black boards especially in two rooms of Girls' School, one room in Boys' school and the old Methodist school need either to be repaired or renewed. A painter here assured me that with Sherwin Williams Black Board paint he could fix those up and make them last a few years longer.

- 4.- The two cedar posts holding the gates of the school (formerly Methodist) are falling to pieces and need to be renewed.

- 5.- The two Artesian wells, one in this last named school and the other in the Boys' school need to be cleaned. The water is absolutely filthy and unfit for use.

- 6.- Some system of ventilation will have to be devised to eliminate the odor from the toilets in the Girls' School. An air pipe should be placed over the cess pool and another to draw out the impure air. The infection is absolutely harmful to the health of the teachers and pupils.

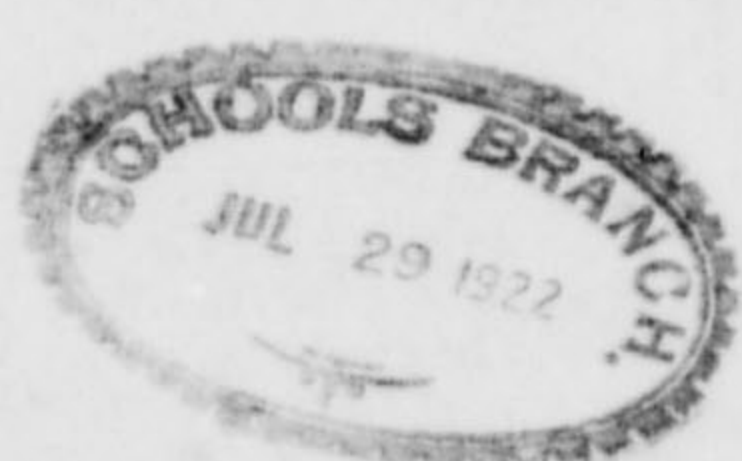

- 7.- The services of a carpenter would be needed for a few days to repair locks, bolts and so many odds and ends that get out of work during a year.

These are the most pressing needs and I would kindly request that they be given attention early that the schools may be all in good working order for September 5th.

Respectfully yours,

Sr. M. Gabriel

My dear Sir,

As the schools are about to open in a few days the following articles will be needed for cleaning and keeping the classrooms in order:

- 3 bbls dustbane 250 lbs each
- 3 gallons of Cedar Oil
- 3 boxes Soap for use in schools
- 20 packages Pearline for washing floors
- 1 dozen boxes Gillets Lye for sinks and toilets
- 4 Hair Brushes for Janitor's use (sweeping)
- 4 Dusters -- sanitary
- 1 box Toilet Paper
- 1 gallon Desinfectant for toilets.

I would further request that the Janitors of each school be provided with a gasoline lantern for sweeping. School finishing at 4 p.m. especially during the short days gives little time for sweeping and the excuse offered is that there is no light. I understand it is quite impossible to sweep in the dark and after discussing the question with the Agent we considered it a necessity, as we have had any amount of trouble about the sweeping and dusting of the classrooms. The price of a gasoling lantern with a powerful light is in the neighborhood of \$12.00. If you consider this purchase feasible, I will await your decision with anxiety.

Respectfully yours,

Madam:-

I have to acknowledge receipt of your letter of the 26th instant, in which you request authorization to purchase the supplies mentioned by you, to be used in cleaning and keeping the classrooms in order at the Caughnawaga Schools.

In reply I beg to say that you may purchase the following supplies for this purpose, viz.:-

- 2 bbls. dustbane,
- 3 gallons cedar oil,
- 3 boxes soap for use in schools,
- 20 packages pearline,
- 12 boxes Gillet's Lye,
- 4 hair brushes,
- 4 dusters - sanitary.
- 1 box toilet paper,
- 1 gallon disinfectant.

If you are satisfied that there would be no danger from fire, in the using of gasoline lanterns by the janitors, you may purchase the two required for the purpose of providing light for cleaning the classrooms after dark.

It is noted that you request 3 bbls. dustbane, but it is considered that 2 should be sufficient for a considerable time.

It will be necessary, before making any of the above purchases, to obtain competitive prices, and in each case the articles should be procured from the firm quoting the lowest price. You will kindly secure accounts, in duplicate, from the merchants who supply the goods. These accounts should be handed to Mr. Agent Brosseau, who will attach them to proper voucher forms and forward them to the Department for payment.

The gasoline lanterns, if purchased, should not exceed in cost the amount mentioned by you, viz: \$12.00 each

Teachers' Residence,
Caughnawaga, Que., Sept. 1, 1922.

My dear Sir,-

574473

I am enclosing the time of John Sky and Emile Visu who labored to restore the four or five brick pillars at the Boys' School. This, you recall, was authorized at your last visit and it was quite necessary as three of them were very much displaced.

The air shaft has been installed but I have not as yet received bill for services. I think this will be quite satisfactory. Mr. Prieur quit work on Wednesday, August 30th, immediately upon receipt of your letter.

OTTAWA, October 2, 1922.

Sir: -

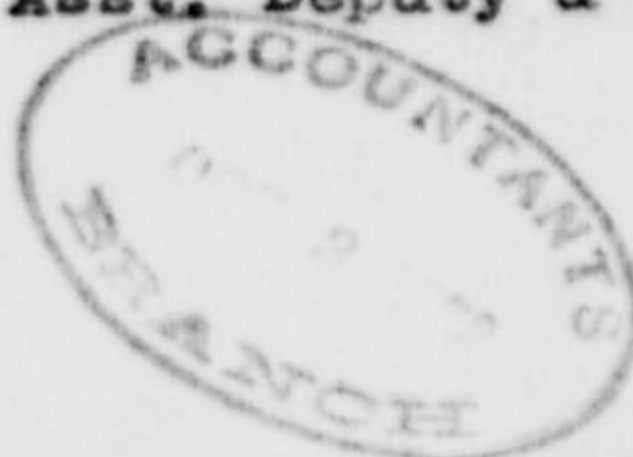

The Auditor General has drawn attention to an overpayment in the rental of the Delorimier house, which is rented for school purposes on the Caughnawaga Reserve. The rental of this building started on June 1, 1921, and for the months of June, July and August, 1921, a cheque was sent John O. Delorimier for \$37.50, and later a cheque was sent Annie Delorimier for \$37.50 covering the same period. They have, therefore, both been overpaid the sum of \$18.75, and this amount is to be deducted from the rental due each when the next payment is being made.

You will ~~be pleased~~ ^{please} to note this overpayment when forwarding your next voucher for the rental due.

Dear Sir,

This is a sample of the cards we use to maintain order and discipline. Each day the child receives a star and at the end of the week a Gold Star under "Honor". At the end of the month I give them a reward.

This is working wonderfully well - It saves labor, promotes good conduct and helps the teacher -

Sir,—

Enclosed voucher in favour of "Les Frères des Ecoles Chrétiennes" for cards of good conduct supplied to the village schools. This purchase was not authorized by the Department, but I am strongly in favour of this method to encourage the pupils. Every first Friday of the month, on the invitation of the Sister Superior, the Missionary and the Agent attend to the distribution of small rewards to the best pupils in each class, and it seems to be a cause of progress.

Ottawa, Oct. 19, 1922.

Madam:-

I have to acknowledge receipt of your letter of the 16th instant, requesting that your share of the rent due for the Delorimier house, which is rented for school purposes on the Caughnawaga Reserve, be sent you.

In reply I beg to say that the Auditor General drew our attention to the overpayment in the rental of this house for the months of June, July and August, 1921. As you are aware, the rental paid is at the rate of \$150 per annum, and your share is \$6.25 per month. During the above months, a cheque was issued to you for \$37.50, and the same amount was paid John O. Delorimier. There was thus an overpayment for these three months, to each, of \$18.75.

We have been instructed to deduct this amount from the next rental due. There will, therefore, be no further payment due you until the month beginning December first, next, as it will take the rent due for the months of September, October and November to make up the overpayment.

Your obedient servant,

A. F. MacKenzie

My dear Sir,

Would you kindly advise me if the Department will allow this year again the sum of \$35.00 for the purchase of sewing material for the Girls' School. This amount would not be sufficient in view of the fact that we have about one hundred (100) girls who follow this Course, but we have been utilizing much of the material sent by the Department of the Soldiers' Civil Re-Establishment, yet the goods sent cannot be all turned to account. We mostly need now -- needles, thimbles, scissors and other such things which are so easily lost, broken or otherwise destroyed.

I would, furthermore, ask if the sum previously allowed for the washing of towels, etc. in the schools will be continued. This is usually Thirty-five (\$35.00) Dollars.

We would request the authority to purchase about five (5) yards of oil cloth for the dining room. We will use it as runners to protect the heavy and more valuable under linoleum in places most exposed to wear.

Preparatory to the Holidays, we will need to refreshen the varnish on the floors and hallways, and I would, therefore, ask to be allowed to purchase two (2) gallons of floor varnish and wax.

Trusting that these requests will meet with your kind approval,

I am, dear Sir,

Yours very respectfully,

Sister Mary Gabriel

My dear Sir,

Would you be good enough to look over your files and see if a bill for \$39.13 from Mr. Coursol for work in putting up the air shaft at the Girls' School was received by you.

I remember distinctly sending the bill but I cannot recall if I sent it to you directly or through Mr. Agent Brosseau. However the bill has not been paid and Mr. Coursol is a bit annoyed over the delay.

You recall my request to have the screens in the rear of the house removed for the winter and replaced by glass. The work has been done and should the bill for the glass reach the Department, you will understand the need.

Our new Caretaker is doing very well. It has been a great boon for the Sisters to have such a good trust-worthy man, and I am learning to appreciate him more and more every day. He can do all the odd jobs around, and at those times his wife and children do the sweeping for him. It saves running around for a carpenter or a plumber every little while.

I would request you to answer my question with regard to Mr. Coursol as he is most anxious to know when he will get his money.

Thanking you for past kindness,

I am, dear Sir,

Yours respectfully,

In reply to your letter of the 18th instant, I beg to say that Mr Coursol's account of \$39.13 therein referred to in connection with the Girls' School, Caughnawaga Reserve was paid on the 29 September by cheque No 1966. My dear Sir,

Immediately upon receipt of your letter No.5-4-5 relative to the account due Mr.Coursol amounting to \$39.13 and which you claim was paid on September 29th 1922, I communicated with Mr.Coursol over the telephone and he assures me that he never received the check of which you speak. He says he received \$2.50 sometime in September for an ash pan and a few incidentals. Would you be good enough to let me know who endorsed check No.1966, as these vouchers must have been returned from the Bank of Montreal. Mr.Coursol will then be in a position to know if there was any fraud committed by his employees.

I would furthermore call your attention to an item of \$31.95 freight which I paid on the first car load of coal sent by the Weaver Coal Co., October 24th. I sent the bill through the Agent with receipt attached, about one month ago. Mr. Brosseau assured me that the Weaver Coal Co. refunded this amount to the Department through him, but the bill has never been paid to me. I would be grateful if you looked up this matter.

I would also be thankful for an explanation regarding the payment of the September Quarter Bonus to Teachers. There is \$180.00 due, and as I counted upon receiving this amount I paid up all my bills to date thinking this money would tide me over December. Had I foreseen such a delay, I would have left some bills standing and kept enough ready cash for every day use. A word of explanation on this subject will also be appreciated.

Respectfully yours,

Madam,-

In reply to enquiries in your letter of the 29th instant, I beg to inform you that official cheque No 1922 was sent to Mr Coursol in payment of his account of \$39.13, for which amount the cheque was drawn. It went forward on the 29th September. The cheque has been returned through the bank, and it bears the endorsement of "D. Coursol", and also "J.A. Coursol". This cheque was cashed by the Bank of Montreal at Lachine.

On the 29th September the Department sent forward also cheque No 1983 for \$1.30 in Mr Coursol's favour, in payment of his account dated the 31st August.

A cheque for \$31.95 is being sent to you in payment of the account which you mentioned for freight charges prepaid on coal.

The bonus for the month of September and also for December quarter will be paid at the end of December, after the receipt by the Department of your returns.

Sir:-

With reference to the vouchers forwarded by you for the payment of the rent of the Delorimier house, which is used for school purposes on the Caughnawaga Reserve, I beg to inform you that we are allowing payment of this rent for the months of September, October, November and December. The rent due for these four months amounts to \$50. There was, however, an overpayment made during the months of June, July and August, 1921, to the amount of \$37.50. This amount is being deducted in equal proportions from the share of the rental due both John O. and Annie K. Delorimier, which leaves a balance due them of \$6.25 each and cheques for this amount have been sent. The rental of this building has now been paid in full to December 31, 1922.

Caughnawaga, Que., Jan. 5, 1923.

The work which this account represents was done during the course of last winter with authority from Mr. J.M. Brosseau. The front doors of the Boys' School contained four large panel glasses. Every winter those were broken two or three times and the cost of a plate glass was never less than \$8.00. I requested that the large panels be changed to six small ones. Since then no glasses have been broken, and if, in the course of time, they do break the cost of replacing them will be greatly lessened.

The workman depended on me to send the bill, and I depended on Mr. Brosseau, and it was only a few days ago I learned that the account had not been paid. ✓

TO DATE OF THIS LETTER

Sir,—

I beg to inform you that on the 12th instant, at 10 o'clock A. M. the supply of water to the Caughnawaga Girls' School has discontinued and this now a great cause of trouble to the Teachers and the children attending that school. It is supposed that the main pipe is frozen some place underground and outside of the building.

As there was absolute necessity that this question be attended at once, I have hired the services of an Indian named White, whom is recommended by Rev. Sister Superior. I am informed that the exit, or common sewer has been laid over and in contact with this main water pipe. I have ordered White to arrange for a supply of boiled water into the school basement and to let it out, if possible, in order to thaw out the main laid underneath. The drain is clear and I believe that if this is properly worked out by White, we will succeed. However, in case that the pipe cannot be cleared this way, I beg to ask your authorization to retain the White's services at the rate of \$15.00 per month, as suggested by Rev. Sister Superior, until your Department have ordered an expert to come to Caughnawaga and examine the trouble in question.

Sir,—

Replying to your letter dated 26th instant, I beg to inform you that the Indian I have employed has not been successful in thawing out the frozen main water pipe at the Caughnawaga Girls' School. We have tried several means without success. After this trial I have kept the services of the same Indian for the hauling of the necessary water from the St-Lawrence river into the School basement, at the rate of \$15.00 per month. As this is a case of emergency I beg to ask your authorization to continue to retain the services of the same Indian.

On August the 14th 1922 we wrote a letter to your department regarding Mr. John O. Delorimier and a Power of Attorney executed by Mr. Delorimier was sent to you in consideration of a loan made by our institution for an amount of \$285. Mr. Delorimier in consideration of this loan asked your Department to transport as guaranteed to our Bank the rental due or coming to be due by the Department of Indian Affairs for the School rented to the Government, consequently as you said by your letter of August 22-1922 that the Power of Attorney was satisfactory to your Department we don't understand why such rental was not sent to us after the first payment of your cheque and you will oblige our Bank by making your remittance through our Branch, I hope to receive an answer regarding the question.

Teachers' Residence,
Caughnawaga, Que., 4/13/23.

583056

My dear Sir,

I have to report on the condition at the Girls' School. When the thaw began we noticed that water crept in to the basement of the school, at first in small quantities, but on Friday, April 7th, the water rose to about one inch. All this week we have been fighting to keep the water down, but in spite of all efforts it rose to eight or ten inches. The evil effects of such a damp cellar on the teachers and pupils has worried me greatly, so to-day I took it upon myself to remedy conditions. I employed two men with a pump to clear the basement of water and another to dig a drain to the river.

Two factors combine to bring about this unusual condition:-

Firstly-The road in front of the school was macadamized, made higher and no outlet left for the water to take its course; secondly - The depression between the school and the Council House which previously held the water was filled in and as a result the water comes into the cellar. The unusual cold winter may also have had its effect, but the results are altogether unpleasant.

To add to the inconvenience the cess-pool has either frozen or overflowed and the toilets in the school cannot be used.

Mr. Agent Letourneau visited the school to-day and approved of my action upon which he will make his report to the Department. The foundations of the school have been undermined somewhat, and well needed repairs will have to be made to prevent the repetition of this inconvenience.

I consider that the people building the road should be compelled to put in some system of drainage to allow the water to flow towards the river.

Trusting that the Departmental Engineer may soon come to Caughnawaga to settle these difficulties,

I am, dear Sir,

Yours respectfully,

Sister Mary Gabriel

My dear Sir,

Mr. Agent Letourneau asked me for information regarding the condition of the toilets at the Continuation School about which the Inspector reported unfavorably, and by way of explanation and information I would say the following:-

The Continuation Class Boys use the same toilets as the other Boys. These were built some years ago and might accommodate a class of twenty or thirty pupils. We have over two hundred boys using these toilets and it would require the services of a man every day just to keep them in order. It is impossible for the janitor who has six furnaces to heat, and seven classes to sweep besides shoveling and attending to pumps, radiators, etc. The caretaker, George Latour, is the most painstaking diligent man I ever met. Up at 5 o'clock every morning and never in bed until after 10 o'clock when he goes the rounds of the six furnaces. He sifts the ashes using the cinders, splits the wood, and looks after the general welfare of the teachers. His task is a heavy one and were it not for his wife, who does the sweeping, he would never get through.

It is useless to repair these toilets, what is needed is toilets in the basement of the school that may be flushed, and in sufficient number to meet present conditions. It is impossible to run the schools here now on the plan that the Department outlined in 1910 or 1911, as conditions have absolutely changed. In connection with the Continuation Class, we put up a small toilet on the Delormier property which is used only by the Girls. The key is kept in the classroom and it is always locked. Boys have no access there.

The Inspector must have also reported on the crowded conditions of the schools. It is next to impossible to lodge the children in the present quarters. The idea of not receiving any children under seven cannot be carried out, as the Mothers lament and wail if we refuse to accept the children. They tell me the children go to the river and they are in continual dread if the children old enough to run around, are not in school. We use all the eloquence we can to keep the children out, but the final plea is that we are discriminating and unless we yield to their entreaties the whole neighborhood is in an uproar. There is a great deal to be gained by giving all a fair chance, but we lack space, and that we cannot supply unless the Department enlarges the schools to meet conditions at present.

Trusting you will understand that these is no fault of the Janitor if conditions such as reported by Mr. Gilman exist,

I am, dear Sir,

Yours respectfully,

Sister Mary Gabriel
Principal.

Ottawa, April 19th., 1923.

Sir,-

In reply to your letter of the 9th instant, I beg to say that the Department received vouchers for rent of the Delorimier house which is used for school purposes on the Caughnawaga Reserve. Payment of rent was allowed for the months of September, October, November and December. It amounted to \$50.00 but, as there was an overpayment to the amount of \$37.50 made for the months of June, July, and August 1921, the said overpayment was deducted from the \$50.00 found to be due. This deduction was made in equal proportions from the rents due John O. Delorimier and Annie K. Delorimier, which left a balance payable to each of these persons of \$6.25. Consequently the Department sent forward cheque No. 3455 for \$6.25 on behalf of Annie K. Delorimier, and cheque No. 3456 for \$6.25 on behalf of John O. Delorimier for whom the Bank of Hochelaga holds a power of attorney.

Ottawa, April 23, 1923,

Dear Sir,-

I have to request that you will make a complete inspection of the sewage disposal and drainage systems of the girls' school at Caughnawaga. Also, ascertain what arrangements could be made in order to provide a sanitary sewerage system for the boys' and Continuation schools on the Caughnawaga Indian Reserve.

You may also interview the Principal of the schools with reference to other improvements which are required in connection with the drainage of the various school grounds on this reserve.

TO DATE OF THIS LETTER

Sir,—

Replying to your letter of the 5th instant, in connection with the caretaking of the out houses of the Continuation School in the Village of Caughnawaga, I beg to say that in fact these out houses have been in a very poor condition during this winter season; it is admitted that it is part of the duties of the caretaker to attend to work of this nature, however, I may say that it would have took his whole time to regulate the marching in and out of these houses, first, owing to the smallness of the out houses, second, because of the large number of boys in attendance to school, also because of the severity of the weather. The conditions now are not the same as they were ten or twelve years ago when the school was built, the average attendance at that time was of about 75, while now the average is of 200 boys. I therefore beg to recommend that means be taken in order that the toilets be built into the Boys' school cellar, the same as they are at the Girls' school. Facilities of drainage could be found easier I presume than that of the Girls' School.

I beg to inform you that I made an inspection of the girls' school on April 27th last, and upon investigating the question of water and drainage systems, for that building, it was found that the water supply pipe was not frozen on the part of the system which is the property of the Department, but at the Mission building from which our system is depending. As soon as the water is thawed out, the drainage and toilet systems will be again in good working condition.

I noticed that the following improvements and repairs are very necessary :-

*Repairs
not yet*

- ✓ (a) The adjustment of the doors of toilet compartments which have been damaged by the pupils. The approximate cost of this work would amount to about.....\$4.00
- (b) The laying of a cement finishing coat in the basement which has not been repaired since the construction of the building, some twelve years ago.....\$210.00
- ✓ (c) The repairing of a portion of the foundation of the basement entrance which has been the cause of the flooding of the basement this spring..... 12.00
- ✓ (d) The galvanized iron roof requires to be painted with one coat of "Supercoat Metal Paint"..... 80.00
- ✓ (e) A wooden lath screen should be erected in front of the outside closets in the school yard..... 15.00
- ✓ (f) The re-adjustment of steel fence around school grounds..... 25.00

MEMORANDUM.

SCHOOLS BRANCH.

As per instructions dated April 23rd, copy of which is on file 5-7-5, I have investigated the question of providing a sanitary and reliable sewage and drainage system for the boys' school on Caughnawaga Indian Reserve which was reported to be inadequate on account of the number of pupils which has increased from sixty at the time of the erection of the building, to over two hundred which is now the average attendance of this school.

The present condition of the toilets outside the building is fully described in correspondence from the Principal, dated April 10, and that from Indian Agent, dated April 23rd, on file 5-7-5-, and which I find to be accurate in every respect.

After making a survey of the grounds surrounding the building, I came to the conclusion that a first class sewage disposal system could be installed for this school which would consist in the installing, in the basement of the school which is thoroughly suitable for that purpose, of four cast iron water closets for the pupils and one ordinary closet for the teachers, also four cast iron urinals. These closets and urinals would be automatically flushed with water about four times a day. The water would be pumped from the present well by a small gasoline engine to a new tank which would be installed on the ground floor of the school without any inconvenience. The sewage from the building would be treated in a small concrete septic tank in the school yard, and then discharged into a creek located in the common of the reserve, at a distance of about 270 feet from the school building.

This system would also be used for the drainage of the basement of the school which is not provided with any kind of drainage system.

The cost of the above mentioned work would be as follows :

Closets.....	\$450.00
Urinals.....	200.00
Water Tank.....	150.00
Piping and fittings.....	40.00
Engine.....	125.00

My dear Sir,

In connection with the enclosed account it might be well to inform the Department that we keep here for our own convenience and belonging to the Sisters a horse, sleigh, wagon, dump cart and all accessories. Our reason for doing this is the difficulty we experience in getting Indians to do the work needed and to drive us to and from the station on time. The Sisters take pedagogical course at the Montreal University, which they must attend on Saturday. Unless we have some one on whom we can depend, the trains would never be reached on time. This is an added expense for us, but under the present conditions here we cannot do otherwise.

Having the horse and feeding him, I use him for for the work which has to be done around the place and which the Department allows.

Trusting that this will be satisfactory,

I am, dear Sir,

Sir:

With reference to the repairs which you state are required in connection with the girls' school on the Caughnawaga Reserve, I have to request that you will arrange to have the following work completed during the coming summer, viz:

1. Adjust doors of toilet compartments.
2. Repair floor in the basement of the school building. Only the work absolutely required should be carried out.
3. Repair foundation of basement entrance.
4. The roof of the building to be painted with one coat "Supercoat Metal Paint".
5. A wooden lath screen to be erected in front of the outside closets in the school yard.
6. The steel fence around the school grounds to be adjusted and put in good repair.
7. The asbestos covering on the heating pipes to be renewed in the places requiring the same.

The cost of the above work should not exceed the estimate submitted by you.

All of the material required should be purchased after competitive prices are received.

Proper time sheets should be kept of all labour employed, and certified vouchers, in duplicate, should be forwarded covering the expenditure incurred when the above work is completed.

I have to request that you will arrange during the coming summer to have the following repairs and improvements completed at the boys' school on the Caughnawaga Reserve, viz:

1. Renew the covering on the main heating pipes in the basement where required.
2. Purchase 5 bags of asbestos cement to cover boiler, also 10 sq. yds. mesh wire and 6 rolls steel wire.
3. Purchase 15 automatic steam air valves to replace the present ones which are worn out, also the fittings required.
4. Instal return pipes on a certain number of radiators.
5. Repair the floor of the basement. Only the repairs absolutely required to this floor should be completed.
6. Repair foundation at basement entrance to school.
7. Re-adjust steel fence around school grounds.
8. Paint roof of building with one coat "Supercoat Metal Paint."

In the purchase of all material required, competitive prices should be obtained.

Proper time sheets should be kept for the labour engaged.

Accounts, in duplicate, should be forwarded when the above work has been completed.

Memorandum

PURCHASING COMMISSION.

585293

Four small kegs - 16 gallons each - of metal paint, are required for the painting of the metal roof of schools in the Caughnawaga Indian Reserve. The cost will amount to about \$90.00 wholesale price.

The Departmental Engineer recommends the purchase of "Supercoat" which is sold by the Garland Company of Montreal, which goods have proven very satisfactory in similar work in the past years,

Would you advise whether this order can be placed directly with the Company in order that the work might be proceeded with without delay.

*F. H. Paget - authorized
the purchase without
further instruction*

Dear Sir:-

Your valued favor of the 19th. inst., addressed in error to number 134 Craig St. W. which is the address of the Thomas Robertson Company, has just reached us.

We beg to say that material you refer to purchased on the 8th. inst., was all shipped with the exception of ten two inch eccentric bushings, and ten inch and a half eccentric bushings. Our shipping department claim they asked for information to complete these two items; but have not yet received same. It is necessary for us to get the size that you are endeavoring to bush or the reducing end of the bushing, and whether tapped right or left.

So soon as we receive this information we will be able to complete delivery.

Awaiting your further valued commands, we are

ALSO

TO DATE OF THIS LETTER

Sir,—

I beg to refer to your letter of March 7th, last, and to ask you whether any means are to be taken by your Department in order to prevent the frost into the water main at the Caughnawaga Girls' School, as it happened during last winter. I am informed that even if this water main is at a depth of seven feet, it will be liable to freeze again during the cold months because of the permanent uncovered ground around the Catholic church where the pipe has been laid, also because this water main has been re-buried with broken stones instead of non-conductive materials. The water tanks into the cellar of the Girl's School are leaking & need repairs, or to be replaced.

Your obedient servant

Louis L'houmeau
Indian Agent,

The Secretary,

Memo: This matter will be fully examined when I am again in Caughnawaga next week in connection with other work.

My dear Sir,

Before taking my final departure from Caughnawaga, I made out a list of requisites for the four Village Schools and the St. Isidore Road School. As the new Principal will not be officially appointed until the end of July, you may send the authority for these purchases through the Agent Mr. L. Letourneau.

Respectfully yours,

Sister Mary Gabriel

Ottawa, July 11th, 1923.

Sir:

Sister Mary Gabriel has forwarded a list of the supplies required for the next school year for the four village schools and the St. Isidore Road school on the Caughnawaga reserve. She requested that you be given authority to purchase these supplies. I have, therefore, to request that you will arrange to purchase the following, viz:

2 barrels Dustbane,
3 boxes soap,
2 boxes toilet paper,
1 $\frac{1}{2}$ Doz. brooms (corn),
2 " dust pans,
2 " whisk brooms,
3 Gals. cedar oil,
4 sweeping brushes (hair),
2 radiator brushes,
2 large lamp shades,
6 lamp chimneys (long),
25 Lbs. washing powder,
3 O' Cedar mops,
2 Gals. disinfectant.

You should consult the Sisters before making the purchase as to the kind of materials required.

Competitive prices should be obtained, and the purchase made from the firms quoting the lowest price.

Properly certified vouchers, in duplicate, should be forwarded, together with an abstract of the prices received, and the names of the firms asked to quote.

When these goods arrive at Caughnawaga they should be delivered at the teachers' residence for distribution to the various schools as required.

Your obedient servant,

J. D. McLEAN

Sirs:-

Replying to your letter of August 15th, with reference to the furnishing of copper rivets and washers to be shipped to Sister Mary Gabriel, at Caughnawaga, I beg to inform you that this material was obtained personally by one of the plumbers, who went to your store for that purpose. You may therefore cancel this order.

My dear Sir,

I noticed when looking over the files of the Department of Indian Affairs that thirty-five (\$35.00) dollars a year was allowed for supplying material for the sewing classes, also an allowance of thirty-five (\$35.00) yearly for the washing of the towels in the Girls' School.

Please inform me if these conditions still exist, and if the same amount will be allowed this year.

I am, dear Sir,

Respectfully yours,

Sister Mary Rose Alma

Dear Sir,

I take the liberty of writing to you to inquire if the Department intends to complete the work at the Boys' School before September.

I do not like to press you, dear Sir, but not being acquainted with this work, I feel more or less embarrassed in my new field of labor, and I would greatly appreciate information regarding the matter.

Having several subjects to discuss, a visit from you at your earliest convenience would greatly oblige,

Yours respectfully,

Sister Mary Rose Alma
Principal.

Madam,-

In reply to your letter of the 18th instant, I beg to say that you may expend an amount not to exceed \$35.00 in the purchase of sewing material for the Girls' School on the Caughnawaga Reserve.

The Department will also allow an expenditure of \$35.00 for the purpose of having the school towels, etc., washed.

You should obtain accounts, in duplicate, for any expenditure incurred by you for the above purpose and you should hand the same to Mr. Agent Letourneau, who will forward them to the Department for payment.

Your obedient servant,

Sir.

I transmit you a letter of the Canada Office Furniture Co. claiming settlement of the account for desks supplied to the Caughnawaga school.

If the Dept. is determined to make me pay this account I will find myself in a difficult position; the supplier is not willing to take back the goods, and I have not the means to meet this unforeseen expense.

I dare to hope that the Dept., considering that the furniture is actually in the school and my promise to be more attentive to orders that may be given me, will settle this claim.

The Deputy Superintendent General:-

With reference to the letter addressed to Mr Inspector Macrae by the Canada Office Furniture Company regarding their account for desks supplied to the Caughnawaga schools amounting to \$267.30, I beg to say that although Mr Agent Blain was not authorized to purchase from this Company, the Department has had the use of the desks since last November, and is, I consider, fairly entitled to pay for the same as the prices charged are reasonable.

When the question of payment was before the Department in April last, I made a memorandum to the above effect, and there is nothing on file to show why payment was withheld.

General remarks.

There is reported to be at least 400 children of school age in the village who are enrolled as follows:-

Boys' school--	124 pupils enrolled,	48 average attendance.
Girls' school-	72 " " ,	45 " "
Mission school-	<u>52</u> " " ,	<u>11</u> " "
Total -	248 - - - - -	104

It has already been shown in the above report that the buildings now in use for boys' and girls' school are decidedly unfit for school purposes, and entirely lacking in space to accomodate 196 pupils enrolled or even the 93 of average attendance, who are crowded into space which under the most favourable circumstances should not accomodate more than 83 pupils, also that no ventilation of any kind has been provided notwithstanding the excessive overcrowding in rooms unfit for school purposes.

This leaves at least 152 children who do not at anytime attend school, and 317 children for which no school accomodation is provided, and owing to the absence of this accomodation could not attend providing they wished to do so.

The recreation grounds is a small unfenced square used in common by boys' and girls' schools.

To provide adequate school accomodation for 75% of the 400 pupils available, in the most economical way will necessitate the erection of a combined graded school having eight class-rooms the building to be of modern type, well lighted, ventilated, and built in a central part of the village, on large grounds which should provide ample accomodation for the recreation which will assist in increasing the stamina and physique of those Indians while young in addition to their mental development.

Ottawa, March 7, 1911.

Sir,

The Department proposes to erect on the Caughnawaga reserve during the coming summer a school-house for the boys of the village. I would ask you, therefore, to prepare complete plans and specifications for a building of a similar design to that which was erected in the village last year under your supervision making the modifications which have been decided upon and verbally communicated to you. It is also desired to erect a building on the St. Isidore Road on the reserve and I would ask you to make the changes in the plan and specifications of the Bush school building necessary to provide proper accommodation for forty pupils in this section. The Department will pay you for the above mentioned work the sum of \$275.00.

Arrangements for the supervision of the work on these buildings will be made with you when the contracts are awarded.

TENDERS.

Sealed tenders addressed to the Secretary, Department of Indian Affairs, and marked on the envelope "Tenders for School Buildings, Caughnawaga," will be received up to noon of May 8 for the erection of a two story brick veneer school-house in the village of Caughnawaga and also for a frame one story school-house on the reserve about $3\frac{1}{4}$ miles from the wharf.

Plans and specifications may be seen at the office of J. Blain, Indian Agent, 996A St. Denis St., Montreal, at the office of L. Letourneau, Assistant Indian Agent, St. Constant, the home of Constable Martin Twoaxe, in the village of Caughnawaga, at the Post Office, Lachine, and in the Department of Indian Affairs, Ottawa.

All tenders should be for each building separately. The lowest or any tender not necessarily accepted.

Each tender must be accompanied by an accepted cheque on a chartered bank equal to 10 per cent of the amount of the tender made payable to the order of the undersigned, which will be forfeited if the person or persons tendering decline to enter into a contract when called upon to do so or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The unauthorized insertion of this advertisement in any newspaper will not be paid for.

J. D. McLean,
Asst. Deputy and Secretary.

SOUSSIONS

DES SOUMISSIONS cachetées, adressées au Secrétaire du Département des Affaires Indiennes, avec les mots sur l'enveloppe : "Soumission pour l'érection d'une école à Caughnawaga", seront reçues jusqu'au 8 mai, à midi, pour la construction d'une école à deux étages, lambrissée en brique, dans le village, et aussi pour une école en bois d'un seul étage sur la réserve à 3¼ milles du quai.

Les plans et devis peuvent être consultés au bureau de M. J. Blain, agent des sauvages, 936A, rue Saint-Denis, Montréal ; au bureau de M. L. Letourneau, assistant agent des sauvages, à Saint-Constant ; chez le constable Martin Twoaxe, au village de Caughnawaga ; au bureau de poste, Lachine ; et au Département des Affaires Indiennes, à Ottawa.

Les soumissions doivent être faites séparément pour chaque bâtisse. On ne s'engage à accepter ni la plus basse ni aucune autre soumission.

Chaque soumission devra être accompagnée d'un chèque accepté par une banque autorisée, au montant de 10 pour cent de la somme totale de la dite soumission et payable à l'ordre du soussigné, lequel sera retenu comme garantie et sera confisqué en tout ou en partie dans le cas de rupture du contrat, ou de non accomplissement fidèle et complet du contrat.

Les chèques accompagnant les soumissions qui ne seront pas acceptées seront retournés immédiatement.

Toute insertion non autorisée de cette annonce ne sera pas payée.

We enclose a postal card giving a list
of materials which enter more or less into the
construction of every modern building.

These materials are of a Fireproof or
Fire-retarding nature and commend themselves for the
protection afforded along this line.

Also the price of these materials is such
that it is a big factor in economical building.

If you will kindly indicate by an "X"
on the post card those materials which interest you, we
will be glad to send you a Catalog illustrating them
and describing fully their uses and advantages.

You are, of course, interested in purchasing
your materials at the lowest market price and we believe that

MEMORANDUM:-

Deputy Superintendent General

Tenders were advertised for the construction of two schools buildings on the Caughnawaga reserve, which were to be received up to noon of May 8th. When the time for opening the tenders arrived it was found that no offers had been received. On the following day two tenders were sent in to the Department for the erection of these buildings, The names and addresses of the tenderers with the amounts asked is as follows:-

J. B. Laflaur & Sons, Lachute,	Boys' School	\$11350.00
" " " "	St. Isidore Rd. School	3225.00
Joseph Dubuc, St. Isidore,	Boys' School	13000.00
" " " "	St. Isidore Rd. School	2500.00

Ample time and publicity was given to any intending tenderers ~~contractors~~ to put in their tenders and if tenders were to be called for again it would cause delay in commencing the work which should be undertaken at once so that the buildings may

be ready for occupation before the cold weather sets in.

The tender of Mr. Joseph Dubuc was not accompanied by a certified cheque as called for in the advertisement, while Messrs. Lafleur and Sons submitted a certified cheque for \$1400.00. Messrs. Lafleur and Sons tender for the two schools is \$925.00 lower than that of Dubuc, who furnished no security. Lafleur and Sons erected two buildings on the Caughnawaga reserve last summer in a satisfactory manner and as they are experienced and reliable contractors I would recommend that their tender for both buildings be accepted.

Chief Accountant.

Since writing the above memorandum another tender has been received - too late for consideration, and without the required security deposit. However, the amount of the tender shows that my recommendation in favor of Lafleur & Sons is in the best interests of the Department. Mr. M. J. Aquin, the tenderer to whom I refer, offers to do the work for \$19,950.00, that is \$4425.00 more than the tender of Messrs. Lafleur.

Ottawa, 12th May, 1911.

His Excellency

The Governor General in Council.

The undersigned begs to report that, two new school-houses being required on the Caughnawaga Indian reserve, in the county of Leveillé, in the province of Quebec, tenders were called for, for the erection of the same, receivable up to noon of the 8th day of May, 1911, each tender to be accompanied by an accepted cheque equal to 10% of the amount of the tender.

No tenders were received at the Department on the date specified, but the following were received on the dates hereafter mentioned, -

<u>O. B. Lafleur & Sons, Ltd., Lachute,</u> received on 8th May, with 10% cheque, for boys' school, vil- lage.	\$11,750.00	
<u>O. B. Lafleur & Sons, Ltd., Lachute,</u> received on 8th May, with 10% cheque, for St. Isidore Road school, rural, .	3,825.00	\$14,575.00
<u>Joseph Dubuc, St. Isidore,</u> received on 8th May, without 10% che- que, for boys' school, in the village.	13,000.00	
<u>Joseph Dubuc, St. Isidore,</u> received on 8th May, without 10% che- que, for St. Isidore Road school, rural, .	2,500.00	\$15,500.00
<u>M. J. Asnin, Lachute,</u> received on 8th May, without 10% cheque, for both schools, .	-----	\$18,950.00

In order to have these schools ready for use in the fall before the cold weather sets in, it is

is necessary to proceed with the work as soon as possible, and on that account it is not considered that time should be taken up in calling for new tenders. The tender of Messrs. Lafleur & Sons Ltd., and of Mr. Joseph Dubuc were received on the day following the date specified in the advertisement calling for tenders; and that of Mr. M. J. Aquin was not received until three days after the date specified. Neither Mr. Dubuc nor Mr. Aquin complied with the Department's requirement as regards submission of accepted cheque equal to ten per cent. of their tenders. Messrs. Lafleur & Sons., Ltd., however, complied with the requirement of the Department in that respect, and it is thought under the circumstances their tender may be considered.

Money is available from the Vote for Indian Education (No. 267, Schedule C., Appropriation Act, 1911) to meet the cost of the erection of these buildings; and the undersigned would recommend, pursuant to the requirements of subsection 2 of section 36 of the Public Works Act, that authority be given for awarding the contract for their erection to Messrs. Lafleur & Sons., Ltd., for the amounts quoted in their tender, namely, \$11,350.00 and \$3,225.00.

ALL MESSAGES TAKEN BY THIS COMPANY ARE SUBJECT TO THE FOLLOWING TERMS

It is agreed between the sender of the following message and this Company that the said Company shall not be liable for damages arising from failure to transmit or deliver, or for any error in the transmission or delivery of an unrepeatable telegram, whether happening from negligence of its servants or otherwise, or for delays from interruptions in the working of its lines, for errors in cypher or obscure messages, or for errors from illegible writing, beyond the amount received for sending same. To guard against errors the Company will repeat back any telegram for an extra payment of one-half the regular rate, and in that case it shall not be liable for damages beyond fifty times the amount received for sending and repeating.

Correctness in the transmission of messages can be insured by contract in writing, stating agreed amount of risk, and payment of premium thereon, at the following rates, in addition to the usual charge for repeated messages, viz:—One per cent. for any distance not exceeding 1,000 miles and two per cent. for any greater distance.

This Company shall not be liable for the act or omission of any other Company, but will endeavor to forward the telegram by any other Telegraph Company necessary to reaching its destination, but only as the agent of the sender, and without liability therefor. This Company shall not be responsible for messages until the same are presented and accepted at one of its transmitting offices: if a message is sent to such office by one of the Company's messengers, he acts for that purpose as the sender's agent; if by telephone, the person receiving the message acts therein as Agent of the sender, being authorized to assent to these conditions for the sender. This Company shall not be liable in any case for damages unless the same be claimed in writing, within sixty days after receipt of telegram for transmission. No employee of the Company shall vary the foregoing.

Sir,

This Department is erecting at Caughnawaga, Que., two school buildings, one in the village and another some distance out on the reserve. The building in the village is a two storey brick structure on a stone foundation.

I have to ask you to be good enough to advise whether your Department has an Inspector of Works at Montreal and, if so, whether his services would be available to inspect these buildings during the course of erection. The contractor starts work to-morrow.

It is quite convenient to get to these buildings from Montreal, as a man can leave in the morning at 8.20 and return at noon. An early reply will oblige.

Agreement made in duplicate the seventh day of
June A.D. 1911.

Between His Majesty King George the Fifth, represented by the
Superintendent General of Indian Affairs of Canada (hereinafter called the Superintendent
General) ;

And O. B. Lafleur & Sons, Limited,
of LaChute, Que.

of (hereinafter
called the Contractor).

The Contractor for himself, his heirs, executors, administrators and assigns, agrees to
do in the most workmanlike manner all works and provide all the materials of the best
kind shown in the drawings and described in the specifications marked "A" and "B"
respectively and signed by the Contractor, and to complete, furnish and hand over to the
Superintendent General or to some person by him appointed for that purpose, the **two**

school-houses to be erected on the Caughnawaga Indian Reserve
in the County of Laprairie, in the Province of Quebec,

and all other work and labour incidental to and necessary for the entire completion
thereof, whether specified or shown in the drawings or specifications or not, by the
first ----- day of October ----- A.D. 1911.

AND in consideration of the above agreement on the part of the Contractor, the
Superintendent General hereby agrees to pay the said Contractor the sum of **fourteen
thousand, five hundred and seventy-five** ---dollars, provided always
that the Superintendent General may at any time during the progress or after the completion
or alleged completion of the work, appoint an Architect, Engineer or other officer, in which
case the certificate of such Architect, Engineer or other officer, that the work is duly
completed and of the amount, if any due, to the Contractor, after making such allowances
for penalties and for defective or incomplete work, or for extras and deviations as the
Architect, Engineer or other officer shall think fair, shall be a condition precedent to any
claim by the Contractor under this contract.

AND the Contractor for himself, his executors, administrators and assigns, further
covenants and agrees :—

1. That the wages to be paid in the execution of this contract shall be those generally
accepted as current in each trade for competent workmen in the district where the work is
carried on. If this condition is violated, the Superintendent General may cancel the
contract and refuse to accept any work done thereunder.

2. That if the Contractor fails at any time to pay any account for any goods or
materials supplied, or money advanced by anyone to the said Contractor for the purposes
of this agreement, or to pay the account of any sub-contractor for any work or materials
done or supplied for the said works to be constructed under this agreement, and such

account is in either of such cases one month overdue, the Superintendent General may notify the Contractor to pay such account, and if a week elapse and the same be not paid in full, the Superintendent General may pay such account and may charge the same to the Contractor, and the Contractor covenants with the Superintendent General to repay at once any and every sum so paid.

3. That if the Contractor fails at any time in paying salaries or wages of any person employed by him upon or in respect of the said work, or any of them, and any part of such salary is one month in arrear, or if there be due to any such person one month's wages or salary, the Superintendent General may notify the Contractor to pay such salary or wages, and if two days elapse and the same be not paid in full up to date of payment, or to such other date as may be in accordance with the terms of employment of such person, then the Superintendent General may pay to such person his salary or wages from any date to any date and to any amount which may be payable, and may charge the same to the Contractor, and the Contractor covenants with the Superintendent General to repay at once any and every sum so paid.

4. That pursuant to the Statute in that behalf, this Agreement is made subject to the express condition that no member of the House of Commons of Canada shall be admitted to any share or part of this Agreement or any benefit to arise therefrom.

5. That the Contractor shall not assign, transfer or set over this contract or any interest therein to any person or persons whomsoever, without the consent, in writing, of the Superintendent General of Indian Affairs first had and obtained.

IN WITNESS WHEREOF the said Superintendent General of Indian Affairs, acting as aforesaid, and the said O. B. Lafleur & Sons, Limited, have hereunto set their hands and seals the day and year first above mentioned.

Sir,

This Department, with the consent of the Department of Public Works, desires to avail itself of your services to inspect two school buildings being erected on the Caughnawaga Indian Reserve, one in the village and the other some three miles southwards on the Reserve. The work is now in progress and the contractors, Messrs. O. B. Lafleur & Sons, Lachute, have applied for a first advance. I would, therefore, ask you to visit the location at your earliest convenience. Payment will be made as the work progresses to the extent of 50% of material furnished and labour performed and blank certificate forms are being sent you under separate cover. These should be filled in in duplicate in each case.

The Department has not on hand a copy of the plans and specifications, but if you will call upon Mr. J. Blain, Indian Agent, 996A St. Denis St., Montreal, he will furnish you with the copy in his possession. Mr. Ltourneau, Assistant Indian Agent, St. Constant, also has a copy.

The Secretary,
Department of Indian Affairs,
Ottawa,

Sir:-

I am requested to write you by the Contractors Lafleur & Lalonde, who are presently erecting the two schools in the Caughnawaga Reserve. These gentlemen claims that they are at work since nearly two months, that they have made for a few thousand dollars of expenses in connection with their contract, on that account, they say, that they should be allowed a sum \$3000.00 by your Department.

I beg to say that I believe it is safe to give them credit for \$3000.00, and I would recommend that a cheque for that amount be forwarded to the contractors Lafleur & Lalonde.

Referring to your letter of the 22nd instant with which you forwarded Mr. E. S. Gingras' report and certificate in connection with the inspection of school buildings being erected on the Caughnawaga Reserve, I beg to say that Mr. Gingras in making his estimate of expenditure on the schools in question made an error of \$1048.50 in calculating the value of shingles and laths which makes a considerable difference in the amount to be advanced. The Department has made an advance of \$2600.00 instead of \$3480.00 recommended by Mr. Gingras. It is observed that the cost of the shingles is quoted at \$3.00 per M. by the inspector. Ottawa, August 28th., 1911.

Sir,-

During your absence the work of superintending the erection of the school buildings on the Caughnawaga Indian Reserve has been performed by Mr. Gingras, Clerk of Works, Montreal, Que. The Department, however, wishes you now to finish this work and would like you to make your first visit to Caughnawaga at the end of this week. Mr. Gingras will be advised to this effect.

The Department has had two offers to supply coal to the schools on the Reserve. In the past this order has been divided between Mr. Mitchell and Mr. Barnes. Some time ago prices were received from each of them which were approximately \$7.⁶⁶ a ton, and the Agent was told to divide the order as usual. Mr. Mitchell has now submitted a price of \$7.00 per ton, provided he receives the contract for all the schools. I would like you when in Caughnawaga to visit these two men and see samples of the coal that they are handling. The Department is still of the opinion that it would be well to divide the order provided that they agree on a satisfactory price.

Sir,

Attached please find two certificates in duplicate for schools buildings now being erected on the Caughnawaga Indian Reserve.

The building at Caughnawaga Village can now be considered half finished and in my opinion this building and that of St. Isidore, should be completed before the end of the coming month.

On the Caughnawaga Village Contract I am recommending a second payment of \$3,200.00, which is a fair estimate of work performed and materials supplied up to the 18th. of the present month.

On the St. Isidore Contract, I am recommending a second payment of \$800.00, which is also a very fair estimate of the value of the work performed and materials supplied up to the same date.

Again referring to the school building now being erected at Caughnawaga Village, on the Caughnawaga Indian Reserve, I beg to have you note that on my last inspection there, 18th. inst. I remarked to the Contractors Messrs., O. B. Lafleur & Son, that I did not like the manner by which the metal shingles were being laid on the roof, and I believed the style of the roof of the school finished last year should be followed, this will be done and pending the securing of a more experienced workman, by the contractors, I recommended that the work on the roof be not continued, to this the Contractors have immediately agreed and I expect a new man will be placed on the roof today. As to the material used, it is first class and as called ^{for} in the specification.

Ottawa, November 16, 1911.

Gentlemen,

The Department is in receipt of a progress estimate from Mr. Chene for work done by your firm on the Caughnawaga School buildings. I may say, however, that there is no money available at the present time and will not be until such time as funds are voted by Parliament. Immediately funds become available this matter will be dealt with.

CAUGHNAWAGA,

The Secretary,

Department of Indian Affairs,

Ottawa,

Sir:-

Referring to your letter No 153652-5, dated 23rd Ultimo, in regard to purchases made from Mr Vilas instead of Prudhomme & Sons, I beg to say that according to your instructions I have on the 17th of January last, ordered these school supplies by telephone from Mrs Prudhomme I have ordered the bookcases etc. also from them, but they answered me that they had not those furnitures on hand, and at my request they have refused to buy them from other firms, I may had that Mr Parker from your Department was in my office when I have telephoned to Prudhomme & Sons and as he understands french he may corroborate this statement.

Under these circumstances I believed that the best I could do was to order the desks, chairs and bookcases from Mr Vilas who, I think, had given satisfaction before.

I beg to add that in a ^{future} similar case I will ask further instructions from your Department.

Ottawa,

Sir:-

I believe that it would be proper for the safety of the children attending the schools of the Reserve, also for the protection of the school buildings, to procure one Chemical Fire Extinguisher for each room of the five schools, two at the Boys' School, two at the Girls' School, and one for each of the three other schools, viz: seven in all, these Extinguishers can be bought at Montreal at the cost of \$12.50 each delivered at the schools.

I beg to recommend that these Extinguishers be purchased and placed at the different Schools of Caughnawaga before the re-opening of the classes in September next.

Mr. Pedley, -

In my report on the Caughnewaga schools, I called attention to certain needed repairs to the buildings and grounds. As Mr. Chene, of the Department, is familiar with the situation, I would suggest that he be authorized to have the necessary work done under his instructions and supervision. The fencing of the girls' school grounds can stand for the present.

Provision for the lodging of the teacher of the St. Isidore Road school will have to be made, as there is no available accommodation in the neighbourhood.

Resolution No. 13.

Approved.
J.M.B.

Whereas it is reported that the village school is over-
crowded, there being (70) seventy pupils attending and class-
rooms large enough and provided for only 48, and in consequence
) there were 22 enrolled children dismissed owing to the lack of
) space, and there are as many as seventy others not attending; and
whereas the compulsory regulations are in force upon this reserve
are
and as there two class-rooms unoccupied in the upper story of
the boys school building, one of these class-rooms being com-
pletely furnished with all that is necessary but the teacher.

It is therefore resolved on the motion of J.M. Jocks,
seconded by Mitchel Morris that in order to comply with the re-
quirements of the law and necessity of the children that an
extra teacher be engaged without delay to instruct the children
that should attend.

MEMORANDUM.

Mr. Scott,-

Mr. Agent Brosseau of Caughnawaga forwarded a resolution from the Council, of the band calling attention to the overcrowding of the two Roman Catholic schools in the village. Each of the class-rooms in these two schools has accommodation for 48 children.

I asked Mr. Chene to look into this matter of overcrowding and he informed me that on the day he called at the Girls' School there were 90 children in the Junior room and 45 in the Senior room. In the Junior room the children were obliged to sit three at a desk which should accommodate two. The same state of affairs existed in the Boys' School, where there were 85 children in the Junior room and 50 in the Senior.

There is ample accommodation in both these buildings for an extra class-room. As there are many more children who should attend these schools I think it would be only right to utilize the space and engage a teacher for each

Sir,

I beg to inform you that I have received a cheque for \$7⁰⁰ while my account for lumber sold and delivered amounted to \$8³/₁₀₀; There is then still due and owing me \$1⁰⁷/₁₀₀ - as per file No 1158.

Am now sending you another account for lumber delivered to the Protestant school, amounting to \$3⁹¹/₁₀₀, which with the \$1⁰⁷/₁₀₀ makes a total of \$4⁹⁸/₁₀₀. A voucher is accompanying this letter.

Yours Truly.

C. Mitchell

MEMORANDUM.

Mr. Scott,-

Mr. Chene of this Department has called my attention to the fact that there are no fire escapes on the Boys' and Girls' Schools on the Caughnawaga Reserve. There are over 150 children in attendance at each of these schools and the junior classes are held above the ground floor. There is a main staircase running through the center of the building in each school and, should a fire occur, it would be a very difficult matter to get the children from the upper story safely out of the building.

It seems to me that as a safeguard fire escapes should be provided.

Memorandum,-

Mr. Scott.

As per instructions, plans of a fire-escape have been prepared for the boys' and girls' schools, Caughnawaga, the erection of which has been approved on a memorandum submitted to your office by the Schools' Branch.

The fire-escape as prepared by the plans consists of a series of light steel stairs, the only reliable type for Kindergarden schools, such as both buildings are. These are to be placed in the rear elevation of the building and the estimated cost of the work is \$455.00 for each school.

OK

Owing to the constant increase of the price of steel, and the time required for the construction of this type of fire-escape, I would recommend that the work be started as soon as possible.

See

Prices for this work could be obtained from firms in Montreal and Ottawa if desired. Specifications will be prepared immediately if this should meet with your approval.

Sir,-

I beg to acknowledge the receipt of your letter of the 30th ultimo with reference to the erection of steel fire escapes at the boys and girls school, Caughnawaga.

In reply I have to request that you will furnish me with your specifications of the steel work which you propose to use in the building of the steel stairs instead of that required in the Department's specifications. As soon as this information is received your offer will be given immediate attention.

Indian Affairs, Ottawa.
re- Letter # 153,652-5.

Dear Sir,

In answer to your request as contained in your letter of the third instant, I beg to submit the following;

The fire-escapes will be built of three sections of stairs 27 inches in width. The stringers to be of 6"x 1", the steps 7" wide 1"x 1/4" spaced 7/8", the post to be angles 1 1/8"x 3/16", the hand rails 1 1/4"x 1", the others 1"x 1/4".

The above described stairs will connect two platforms 5'0"x5'0" and a third, being the lowest 5'0"x3'0". The brackets will be made of angles 2"x2"x 1/4" assembled by three rivets of 3/8" to a frieze of 5"x 1/4", which brackets will be linked to the wall by 1/2" rivets. The platforms to be 1"x 1/4".

The whole supplied and erected in conformity with the regulations demanded by Mr. Guyon, Inspector for the Government.

Hoping that the present will meet with your approval,
Your servant,

Ch. P. Dubuc.

Memorandum

Mr. Scott, -

Mr. Charles Dubuc, a contractor of Montreal, who has had experience in school buildings, etc., offers to furnish and erect two steel fire-escapes^{one each} at the boys' and girls' schools at Caughnawaga for the sum of \$593.50 each.

This price comprises the cost of the necessary changes and alterations which will have to be carried out at each building, and the work to be done in accordance with the Provincial By-laws relating to such work.

Owing to the advance in steel and the difficulty of doing similar work in Caughnawaga, I would recommend that Mr. Dubuc's offer, which I consider reasonable, be accepted, and that authorization be given him to have the steel stairs made at once in order that they might be installed with the least possible delay.

I may add that this portion of the work can be done without affecting in any way the teaching in these schools.

Sir,-

by

In reply to your letter of the 4th instant with reference to an offer for the furnishing and erecting of two steel fire-escapes, and other alterations and changes, etc., to be performed at the boys' and girls' schools, at Caughnawaga, Que., for the sum of \$1187.00, I beg to say that your offer has been accepted, and that you may proceed with the putting up of the steel stairs as soon as possible. The alterations and ^{other} changes required on the first floor of these buildings, for the construction of an outlet to the landings, can only be carried out during the Summer holidays, so as not to interfere in any way with the teaching of the classes.

Chas. P. Dubuc

The work should be done strictly in accordance with the plans and specifications already furnished you, excepting for certain dimensions of the steel for the stair work, which should be of the sizes mentioned in your letter of the 4th inst. Kindly acknowledge the receipt of this letter and inform the department frequently as to the progress of the works, in order that an inspection can be made when necessary.

Sir,-

The Department has received, through Mr. Agent Brosseau, a list of repairs that are needed to be made at the Boys' and Girls' schools on the Caughnawaga Reserve. These repairs are stated to be as follows,-

1. Desks of six classes are without a speck of varnish, would need to be sandpapered and varnished.
2. Door locks broken in two classes.
3. Door leading to fire escape does not work.
4. A few desks need repairing, about four or five.
5. Porches, entrances to both schools need paint.
6. Ceiling of Girls' school (Assembly Hall) in very poor condition, would need painting or calomining.
7. The fences are rusting for want of paint.
8. Fifteen feet of Hyloplate would be needed by the 4th class in Girls' school for blackboard space.
9. Children of 3rd and 4th classes have no place to hang clothes. A portable frame with hooks would easily be made.
10. A few chairs at residence would need new straw bottoms.

Upon the occasion of your next visit to Caughnawaga you will be good enough to look into this matter, and you are hereby authorized to see that the repairs considered by you to be necessary are made. You should see that the work required to be done is satisfactorily completed at the lowest possible price.

Hyloplate blackboard can be supplied through the Government Stationery Office, and you will be good enough to give the exact dimensions of the board required.

You should also arrange to have the fire escapes painted at both the Boys' and Girls' schools.

Memorandum to

Mr. Scott.

I have been instructed lately by the Department to have certain works carried out at the Boys and Girls School, Caughnawaga, consisting in the painting of the ceiling of the assembly hall of the girls school, the porches and entrances to both schools, also the repairing and painting of the steel fire escapes and fences.

Upon examining these buildings yesterday I found out that the whole of the exterior of these buildings was in need of paint and that it would not be advisable to only paint the porches, etc., as requested by the Principal.

The exterior of these buildings have not received any painting since three years at least. In view of the fact that the season is too much advanced to carry out this kind of work I would recommend that nothing be done this year but that provision be made to have these two buildings properly repaired and painted during the next year holiday.

L'EDUCATION DES SAUVAGES A CAUGHNAWAGA

(Du correspondant de la PRESSE)

Caughnawaga, 22.—Le département des affaires sauvages continue de s'intéresser à tout ce qui touche l'éducation des Iroquois, ses pupilles. Après leur avoir bâti quatre magnifiques écoles qui peuvent soutenir honorablement la comparaison avec celles de n'importe quelle municipalité d'égale importance et y avoir appelé d'excellentes maîtresses, les Soeurs de Sainte-Anne, il vient de parachever son oeuvre en y faisant installer un magnifique système d'aqueduc.

L'inspecteur, M. Gélman, qui vient de finir sa visite d'automne dans les écoles de la réserve s'est dit très satisfait de tout ce qu'il a vu et entendu et il ne se lassait pas de féliciter les maîtresses et les élèves. On sait que l'éducation des sauvages est entre les mains du gouvernement d'Ottawa. Le trésor fédéral dépense \$17,000 annuellement pour fins d'éducation à Caughnawaga. Les écoles comptent actuellement au delà de 300 enfants. Il y a en plus au delà de 60 enfants à l'école industrielle à Spanish River, Ont. Ces chiffres montrent que si la génération qui s'en va est illettrée, du moins celle qui s'en vient promet de ne pas l'être.

THE EDUCATION

533890

OF THE INDIANS

OF CAUGHNAWAGA

file

The Department of Indian Affairs continues to interest itself to everything that concerns the education of the Iroquois their wards. After having built them four magnificent schools which could honorably sustain comparison with those of any municipality of the same importance and after bringing excellent teachers, the Sisters of St. Anns. It has completed its work by the installation of a magnificent aqueduct system.

The inspector Mr. Gilman who has just completed his autumn visit through the schools of the reserve has declared himself satisfied of everything he has seen and heard and warmly congratulated the mistresses and the pupils. We know that the education of the Indians is in the hands of the Federal Government.

The Federal treasury spends annually \$ 17,000.00 for educational purposes at Caughnawaga.

The schools contain actually over 300 children. There are also more than 60 children at the industrial school of Spanish River, Ont. These figures show that if the vanishing generation is illiterate the coming one is promising not to be so.

My dear Sir,

Would you be good enough to let me know at your earliest convenience if the Department will allow the usual amount of money viz. \$20.00 for each school for prizes and rewards for the end of the school year.

Would you please authorize me to have twelve chairs used in our Community Room sent to the Institution of the Blind in Montreal to be re-bottomed. Some of these we have not been able to use for some time. The cost would be, I am told, about \$1.00 per chair. This is about the only place in Montreal where this kind of work is done. As there is always a great deal of work on hand we would need to send the chairs early if we wish to have them in September.

Could you authorize me to employ a man for a few days to give a coat of white-wash to the fences, barn and out-houses to freshen them up a bit? I have mentioned the matter to the Agent who referred me to the Department?

Trusting that my requests will meet with your approval

Madam, -

I have to acknowledge the receipt of your letter of the 15th instant, in which you request that a grant of \$20.00 be allowed for the purchase of prizes for the pupils of the Boys' and Girls' Day Schools on the Caughnawaga Reserve.

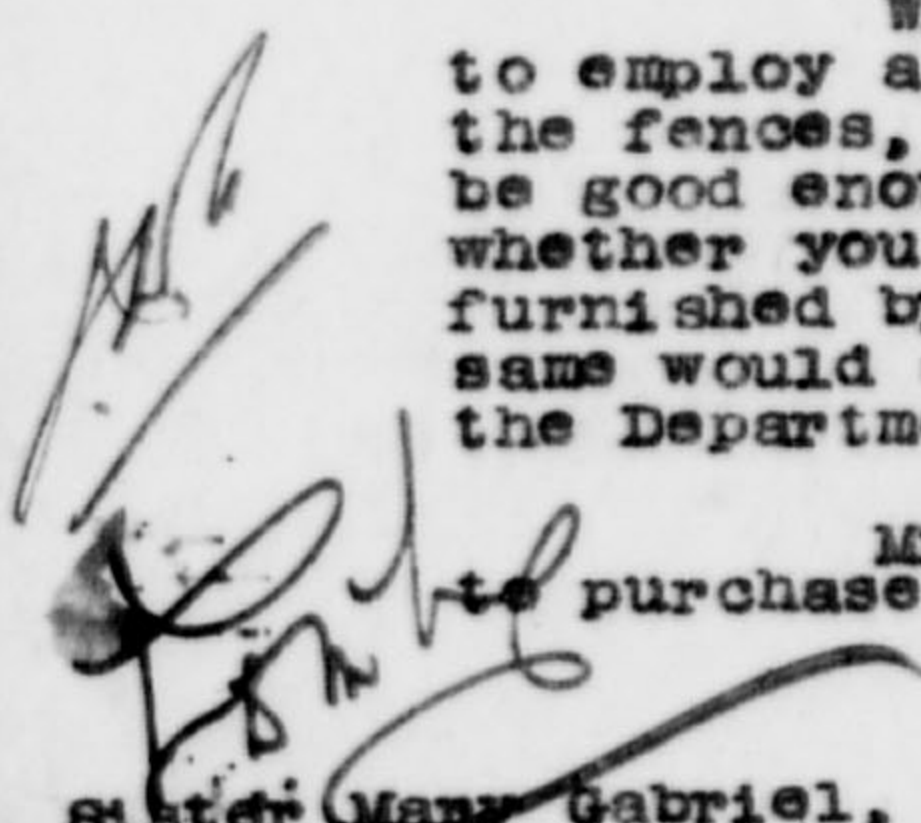

In reply I beg to say that you may purchase prizes to the amount of \$20.00 for each of these schools. When making the purchases you should obtain itemized accounts, in duplicate, from the various firms from whom you make the purchases and you should then hand the accounts to Mr. Agent Brosseau, who will certify the same and forward them to the Department for payment.

You may also have the twelve chairs that require to be repaired sent to the Institution of the Blind in Montreal. The cost of having this work done should approximate the estimate furnished by you, namely about \$1.00 for each chair. You should obtain accounts, in duplicate, from the institution covering the cost of the work, and these accounts you should also hand over to Mr. Agent Brosseau.

With reference to your request that you be authorized to employ a man for a few days to give a coat of whitewash to the fences, barn and outhouses, I have to request that you will be good enough to state approximately what this would cost, also whether you require that the material to do the work should be furnished by the Department and, if so, what the cost of the same would amount to. As soon as this information is received the Department will be in a position to consider your request.

Mr. Agent Brosseau is being informed of the authority to purchase the prizes and to have the twelve chairs repaired.

Sister Mary Gabriel, Supervising Principal of the Boys' and Girls' Schools on the Oaughmawaga Reserve, requests that she be authorized to expend the sum of \$20.00 for each of these schools in the purchase of prizes to be distributed to the pupils at the end of the school year. She has been authorized to make the above expenditure and to obtain itemized accounts, in duplicate, from the firm from whom she makes the purchases.

She has also been authorized to have twelve chairs which need repairing sent to the Institution of the Blind in Montreal to have the necessary repairs made. She states that this work will cost approximately \$1.00 per chair.

She has been instructed to have the accounts for the prizes and the repairs to the chairs handed over to you, which upon receipt you will be good enough to certify and forward to the Department in the usual way, in order that payment can be made.

Sister Gabriel also requests that she be authorized to employ a man for a few days to give a coat of whitewash to the fences, barn and outhouses. She is being requested to furnish an estimate of the cost of the same and to state whether it would be necessary for the Department to supply the material to do the work and, if so, the cost of the same. It might be well for you to consult her in this matter and either the Principal or yourself should furnish an report of the work to be done and the cost of the same.

Dear Sir.

I wish to thank you sincerely for the kind attention you gave to my requests, and in reply to your inquiry. I would say that the material necessary to whitewash the fences, barn, outhouses etc would cost \$1.50 - the brush would cost 60¢, and the labor necessary to put the place in a suitable condition viz. painting the posts, door jambs etc in green, would require. I am told, about 45 hours of labor at 30¢ per hour. This is an approximate estimation.

I would further request you to kindly communicate with the School authorities and see if I would be allowed to have 300 cards similar to sample, printed for distribution to our children at the closing of school. My object is to stimulate interest and secure better attendance. Mr. Brosseau highly approves of the idea, and told me the Department would not hesitate to grant my request. I communicated with three different Printing Concerns and the prices submitted were as follows: - "The Gazette Printing Co." \$12.00; "The Elite Printing Co." \$11. and the "Sisters of St. Ann," Lachine, \$10.00.

Sir,-

I have to acknowledge the receipt of your letter of the 25th ultimo, and I regret that a reply thereto was inadvertently overlooked, regarding the request of the Principal of the Caughnawaga Boys and Girls Schools, to supply the material required to whitewash the fences, barns and outhouses.

I now beg to say that the principal is being informed that she may expend the sum of \$25.00 in purchasing the material and have the whitewashing done, also the small repairs required to the roof of the stable may be carried out.

When this work has been done you should forward properly receipted vouchers, in duplicate, covering the expenditure incurred and forward them to the Department for payment.

Your obedient servant

Ottawa, June 11, 1920.

Madam, -

I regret that your letter of the 23rd ultimo, regarding the whitewashing which you wish to have done to the fences, barns, outhouses, etc., was inadvertently overlooked and has not been replied to.

I now beg to say that you may arrange to purchase the material required and have the whitewashing done. Mr. Agent Brosseau estimates that the work and material will cost about \$25.00, and you may expend a sum to that amount for the purpose. You should prepare receipts, in duplicate, covering the cost of the material and the labour and hand them to the agent, who has been instructed to certify the same and forward to the Department for payment.

With reference to the 300 cards, similar to the sample which you enclosed, for distribution to the children upon the closing of the school, I beg to say that these have been ordered from the Government Printing Bureau and they will reach you in time for distribution to the children before the closing of the school.

over

Your obedient servant

Ottawa 6th November, 1930.

Sir,-

I beg to say that the Department has received the voucher amounting to \$274.84 which you submitted recently in favour of ~~Ammy's~~, Montreal, for articles purchased for use at the Roman Catholic Schools on the Caughnawaga Reserve; and in reply I beg to say that sufficient information was not given in the memorandum which was attached thereto. It should have shown quotation of prices obtained from other firms, as well as the price quoted by the firm named, before the order for the goods was given. No doubt you can supply the same from the list herewith returned.

As the provisions of the Purchasing Commission must be strictly observed it is regretted that it is necessary to withhold payment of the above mentioned account until you send in a memorandum furnishing the necessary information. A cheque will issue promptly when you have taken such action. You should be fully aware of the course to be followed, and it is hoped that in future you will endeavour to take action which will obviate delay in payment.

Your obedient servant.

Teachers' Residence,
Caughnawaga, Que. 11/20/20.

My dear Sir,

I take the liberty of addressing you to-day to ask for authorization to purchase seventy-five or one hundred yards of roller towelling for the schools. Those in use have given almost five years of service, and many of them are completely worn out. Since the installation of a water system in the Boys' and Girls' Schools we are using double the number of roller towels, for it is so much easier to keep the children's hands clean when soap and water are available at any time. We also have to supply the Continuation School. Prices vary from cotton towelling at 24cents a yard to linen towelling at 45 cents. I would suggest the latter as being more durable.

I would also request that the Department allow me to have bound in convenient forms for the Teachers' use the Educational Magazines, Periodicals, Reviews, and Teachers' Helps which we have been collecting for the past five years. It would be a very great aid to the teachers to have matter of this kind classified and available. There are now twelve teachers including Principal and Assistants engaged in teaching in the Caughnawaga Schools, and we really do what lies in our power to help them improve their methods of teaching. I have collected and classified 34 volumes which I can have bound for about \$1.10 per volume. I would allow 17 for each school.

I would furthermore request that I be authorized to purchase from Mrs. Patton a few articles of furniture which she is willing to dispose of at great sacrifice, and which will be needed in our new Residence. The Jacobs family whose house we now occupy left here many articles of furniture because they had no place to store them away. We have been using 3 cupboards, 1 side-board, four tables and over a dozen chairs besides many other articles most necessary in a house-hold. Mrs. Patton will leave nothing unless we pay for it. She has a very fine desk and chair which will be needed in the Principals School Office at the Residence, she offers both for \$40.00. I have a smaller desk which I would thus be able to use in my private office.

Madam,-

I have to acknowledge the receipt of your letter of the 11th instant requesting permission to purchase a supply of roller towelling for the use of the schools under your charge on the Caughnawaga Reserve.

In reply I beg to say that the Department will approve of the purchase by you of seventy-five yards of roller towelling and, while of a serviceable material, it should be purchased as cheaply as possible. It will be necessary to obtain competitive prices before making the purchase.

You may also arrange to have bound in convenient form for the teachers' use the educational magazines, periodicals, teachers' helps, etc., to the extent of thirty-four volumes and the cost of the binding should not exceed the estimate furnished by you, namely,- \$1.10 per volume.

You should obtain proper accounts for the purchase of the towelling and the cost of the binding and hand them to Mr. Agent Brosseau, who is being informed of the authority granted you, and he will certify the accounts and forward them to the Department, in order that payment can be made.

With reference to your request for authority to purchase a few articles of furniture from Mrs. Patton for the use of the teacher's residence I beg to say that you will be further advised.

Teachers' Residence,

Caughnawaga, Que 11/20/20.

My dear Mr. Brosseau,

I am in receipt of your letter requesting that I submit quotations from the three different firms from which we obtained prices for the goods listed in Almy's bill. In reply I would say that these quotations were given to me orally at the time. I noted the prices given, and sent them to the Department. I have a letter from Mr. McLean No. 5-4-5 allowing the purchase of two hundred chairs from St. Jean Co. for \$216.00. after he had received the quotations. The same day Almys offered the same chairs for \$200.00, so I purchased them there to save the \$16.00. On this same letter Mr. McLean specified that the accounts should be accompanied by a memorandum showing the names of the firms from whom quotations were asked, and the prices quoted by them. This I accordingly did, but I certainly did not know that I had to keep the tenders; moreover I did not ask for them in writing. It is really too bad that you should have been put to such an inconvenience, but you may be assured that I shall be wiser another time.

Respectfully yours,

RESOLUTION NO.

91

Whereas it has been publicly discussed, and submitted for the action of the Council for the Band, that the discipline and proper surveillance of the children attending the Reserve schools, when the said children are at recess and in leaving same after school hours, are deplorably lacking and discouraging, and Whereas owing to such state, the death of one pupil has resulted,

Wherefore it is hereby resolved that some better surveillance should be exercised over the children when at play, especially the boys, and whereas it is evident that they cannot be efficiently controlled by woman, therefore it behooves that a man should be in control of the discipline over the boys.

Adopted.

RESOLUTION NO. 90

Whereas at a public meeting it was suggested that the Council for the Band should pass a resolution suggesting that the children should attend nearest school in the vicinity, irrespective of sex, and,

Whereas owing to the present conditions, children of the reserve, of tender ages, in attending school are obliged to pass school houses on the way, in all sorts of weather and hardship, and

Whereas it could be easily arranged that children of both sexes could attend the school nearest their abode, therefore, IT is hereby resolved that the present system be altered to accommodate the children of either sex to attend the school nearest to which they reside.

Adopted.

Sir,-

no action

I wish to draw the attention of the Department on resolution 91 more especially, and I must say that according to my personal recollections and from enquiries made, I came to the conclusion that this resolution is nothing but malicious and comes out of the head of chief P.J. Delisle, and that his colleagues did not understand anything of it. The Sister Superior affirms that in the last three years only one pupil died, that this pupil named McComber died at Lachine of Spanish Grippe.

This affirmation is corroborated by the Rev. Father Gras.

Councillor Angus Montour testifies that never to his knowledge has any pupil received any mortal wound at the School and for my part, after having been Agent at Caughnawaga for six years, it is the first time I heard of such case.

The Sisters have always appeared to me to have an absolute Control over the pupils and the latter are most respectful for their teachers. When over 150 young boys playing together we can always expect them to scramble a bit, but I always noticed that those children were under the immediate supervision of one or two sisters.

Councillor Angus Montour adds that all that the Councillors meant to say in this resolution No. 91, was that the boys school should be directed by a man. After all the progress accomplished since the 1st of January 1915, when the present system was inaugurated, it would be a crime to revert to the old system. My intention is not to cast any reflection on lay teachers as I am an ex-teacher myself; but with young Indians the reverend Sisters are incomparably superior.

Yours etc.,
J.M. Brosseau,
Indian Agent.

Teachers' Residence,
Caughnawaga Dec 15/1/21

My dear Mr. Brosseau, I already
told you that we had the
greatest difficulty in getting
supplies from the Department. All
the month of December we were
short of paper and used up every
available scrap in the house. I
made repeated requests for paper
and pencils, so on Monday Jan 10th
I sent a messenger to Lachine to
get supplies to start the children.
It is quite impossible to keep
300 children in school without paper
or pencils.

On Friday the 14th I received 5 gross
of lead pencils from Ottawa so I hope
that the paper will soon be in. We
have enough to last until Feb 1st.

The class rooms are full, as

all the children returned, and are
very well disposed to work.

Trusting that this bill will
go through without the formality of
competitive prices, for it was quite
impossible to do otherwise.

Respectfully yours,

Sister Mary Gabriel

My dear Sir,

You will notice some difference in articles purchased and those quoted. It is quite a different thing to get quotations from real purchasing. No two houses have quite the same thing or if they have there is such a variety in what they have to offer. What estimates on these little things are almost impossible to get accurately.

I did for the best, and am quite satisfied with the goods purchased.

Respectfully yours

Department of Indian Affairs,

Dear Sir,

With further reference to the placing of gongs on the two large schools, I would say that I priced them and inquired about the cost of installation. While discussing the question it was suggested that the gong be rang from the inside by means of an electric button, or in other words that an electric call bell be used. Furthermore an electric alarm bell for fire drill could be placed on the same battery. This appeals to me very strongly, and I am pleased to state that I can have a large ten inch call bell put on the outside of the building, with a small dismissal and a fire bell placed on the inside on a dry battery for \$30.00 for each school. This amount covers the cost of material and installation. With this great help I think that tardiness will be a thing of the past.

I also inquired about the cost of a good time-keeper to be used as a Master Clock in each school. The "Seth Thomas" is the only the dealers here are willing to recommend. A large twelve inch dial Seth Thomas wall clock would cost \$18.00. The price is uniform as I have quotations from Henry Birks & Co Goodwin's Limited and Murray and O'Shea.

The clock in the Continuation School was in such poor order that it could not be used, the Teacher was obliged to carry a hand clock to the school from the house every day. Towards the end of the year I had the clock removed to the Residence and we tried to get it into working order and I am pleased to say that we have succeeded. While the care-taker was carrying the clock over he was stopped by a Mr. Deer who told him that the clock was not the property of the Department of Indian Affairs but belonged to the Methodist Association. Now that the clock is in good condition I would like you to tell me if we shall keep the clock or return it to the Methodist Organization. I must say that the clock is a very good one and might be worth ten or twelve dollars.

Awaiting an early reply,

I am, dear Sir,

Yours very respectfully,

Sister Mary
Principal.

OTTAWA, July 12th, 1921.

Madam, -

I have to acknowledge receipt of your letter of the 30th ultimo, submitting an estimate of the cost of placing gongs on the boys' and girls' school buildings at Caughnawaga, and stating that you can have a 10" call bell installed on the outside of each building, with a small dismissal and fire bell placed on the inside on a dry battery at a cost not exceeding \$30.00 for each school. In reply, I beg to say that you may arrange for the purchase and installation of a gong on each of these buildings. The cost and installation of same should not in each case exceed your estimate of \$30.00.

Regarding a clock for each of these schools, I beg to say that you may purchase a "Seth Thomas" clock for each of the schools.

It will be necessary to obtain competitive prices for the gongs and clocks, and accounts in duplicate covering the cost of material and labour should be handed to Mr. Agent Brosseau, who should certify the same and send them to the Department for payment. The matter of installing suitable gongs and the purchase of the clocks should be done as cheaply as possible.

Regarding the clock in the Continuation School, I beg to say that you may retain this clock for the present. The Department is of the impression that it supplied this clock to a Methodist School in the first instance, but should a demand be made for the clock at a later date, the question of authorizing the purchase of another one for the Continuation School would receive consideration.

Your obedient servant

Dear Sir,-

In reply to your letter of the 5th instant, with which you submitted a credit voucher for \$3.55 owing to one wooden barrel having been returned from Adirondack, I have to request that you will be good enough to forward to the Department your cheque for this amount.

In your statement of the 4th instant you showed that the Department owes your company a balance of \$66.05. I beg to point out that the said amount has been paid in full by cheque No. 4152 for \$16.61 issued on the 20th April last, and cheque No. 1770 for \$53.14 issued on the 3rd May, the receipt of which cheques were duly acknowledged by you. Consequently upon the issue of the cheques mentioned your company has been overpaid to the amount of \$3.55 as referred to above.

Yours truly,

F.H. Paget

Gentlemen:-

Attention Mr. A. F. Mackenzie,

Please refer to your order #5-2-5, to be shipped to
Rev. Sister Mary Gabriel, Superior, Caughnawaga Boys'
School, Adirondack Junction, Que., for -

10 - 1 1/2" Eccentric Bushings
10 - 2" ditto

We wired you on June 12th, and we wrote you on August 15th,
re these items, asking you for the other size of the bushing,
as it is necessary for you to state what you want the bushing
reduced to; but so far we have not heard from you, and if we
do not receive a reply within the next week, we shall consider
that you no longer require the goods, and shall cancel your
order.

Yours very truly,

I beg to inform you that in order to prevent another freezing of the water main for the supply to the Girls' School during another winter, it would be advisable to place at a greater depth the part of that water main that runs at a small depth and for a short distance on the river shore.

Sir:-

Replying to your letter of September 1st, with reference to the placing at a greater depth, a part of the main water pipe of the water works system at the girls' school, Caughnawaga, would you please advise me whether the portion of pipe referred to in your letter is located between the church and the school building, or if it is part of the intake pipe between the St. Lawrence River and the machinery room in the Mission Building.

I beg to add for your information that this question has been already investigated to a certain extent, and it was found that the troubles which were experienced in connection with this water supply system in the girls' school were due to the fact that the intake pipe which is in charge of the mission, was frozen, which resulted in preventing the school being furnished with any water for several weeks. As you are aware the whole of the main pipe between the church and the school building was replaced last year, and lowered to such a depth as to be considered frost proof.

I shall await your report before giving this matter any further consideration.

Your obedient servant,

A. P. MacKenzie.

MEMORANDUM

[Signature]
Mr. Ferrier.

As per instructions of May 16th, I have completed the various repairs and alterations of the Caughnawaga School, more especially to the heating system.

A quantity of materials such as paint, tools, water proofing for the repairing of the roofs, etc., have been stored in the work shop, located in the basement of the teachers' residence. In fact everything that was left unused was turned over to Mr. Latour, the caretaker.

I think it my duty to bring to your attention that when this employee was engaged, it was understood that he would attend to all repairs required at any of the school buildings in the Caughnawaga village, including the water supply and heating systems.

and J. Latour
The new Superior should therefore, be advised that in future any repairing work in connection with the above mentioned systems should be carefully attended after by Mr. Latour. It was on account of his knowledge of steam fitting work that his salary as caretaker was considerably raised at the time of his appointment.

The teachers' residence is provided with all the tools required for this kind of work, and the sisters should be made to understand that proper care of the buildings and their contents, by Mr. Latour, should be given precedence over all other services at the teachers' residence.

Reverend Sister:

It has been found advisable to clearly indicate the nature of the duties of Mr. Latour, Caretaker of the Indian Schools at Caughnawaga. It should be understood that the primary functions of this employee are the care and repairing of the buildings and mechanical plant. These duties of Mr. Latour have the first claim on his services and should be carried out under the direction of Mr. Indian Agent Letourneau.

The caretaker is being instructed to assist you and the Sisters whenever possible, but his most important work must not be neglected.

Your obedient servant,

A. F. MacKenzie

Sir:

I have to enclose, for your information, a copy of official communication to the Principal of the Caughnawaga Indian Schools. You should inform Mr. Latour that his first duties are the care and repairing of the buildings and mechanical plant, owned by the Department. He should be courteous and helpful to the Sisters at all times, but his important duties as caretaker must not be interfered with, by a continual running of errands and related services at the teachers' residence.

Sir,

Enclosed please find quotations from three different stores. You will notice that the quotation for some of the articles checked on J.A. Tessier's list is lowest, but on examining his goods myself I found the quality much inferior to the other merchants' stock so I purchased the goods from Dupuis Freres, knowing I would incur a loss if I traded with the former.

Trusting you will approve my decision as I did what I considered best in the long run,

I beg to refer to my letter of 23rd April last, and to report once more that the present conditions of the out-houses at the Caughnawaga Boys school are intolerable; not because they are not kept in proper condition but only because of their smallness on account of the continued increase in number of the pupils, the present number in attendance being 184 boys. I have lately visited Caughnawaga and I am convinced of the advisability of providing, in Caughnawaga, an additional school building with proper playground facilities, at the earliest opportunity. Playground facilities are much needed and must not be overlooked in our plans for development on this reserve.

Sir:

I have to inform you that the Superintendent of Indian Education reports that it is extremely advisable to make a small grant to pay the services of any driver, or messenger, whom the Sister Superior of the Caughnawaga Indian Schools finds it necessary to engage in the pursuit of her duties. Considerable driving and messenger services have been performed by Mr. Latour, when he should have been looking after the plant and equipment which belongs to the Department.

The Sister Superior is permitted to engage the services of a driver or messenger, when necessary, and secure receipts from him for the amounts paid. It would be well to engage the same man as much as possible and have him submit to the Sister Superior an itemized account every few weeks. These receipted accounts will be presented to you by the Sister Superior every three months and you may use them to support vouchers, in duplicate, in her favour, for an amount not exceeding \$50 at the end of each quarter.

I am enclosing a copy of this letter, which you may hand to the Sister Superior. She should understand that this privilege should not be abused and that this action has been taken for the express purpose of assisting her with her important duties.

Mr. Chene.

Pursuant to our conversation, relative to the provision of new outdoor lavatories at the Boys' School, Caughnawaga, I beg to say that, following my visit to the reserve, I am convinced something should be done without delay, no matter what improvements are made to the basement in the future. Funds can be found to erect an adequate outdoor lavatory. My suggestion is that you arrange to have this done, by day labour, upon the occasion of your coming visit to Caughnawaga.

MEMORANDUM

MR. FERRIER

As mentioned in your memorandum of the 26th ulto, underneath, I have discussed with the caretaker of the school at Caughnawaga, the question of erecting new outdoor lavatories at the boys' school, and it was considered that there was no one on the reserve who could undertake the erection of such a building without a suitable plan. Mr. Latour, who is a reliable carpenter, would be willing to supervise this work, if such a plan were furnished him.

I am now taking this matter up with Mr. Orr, in order that your wishes might be realized as soon as possible.

Ottawa, October 9th, 1923.

Sir:-

I beg to enclose herewith, two blue print copies of an outside closet, to replace the present one at the boys' school, Caughnawaga.

As you will note, it is proposed that this house be built entirely of dressed lumber, studding to be 2 x 4, with clapboard sheeting on the outside. The roof may be covered either with stained cedar shingles or three ply ready roofing. The floor should be 5" thick, built of cement and covered with three coats of cement waterproofing, which is already stored at the teachers' residence.

J.P.Y.
A.G.M.
The boxes underneath the seats are to be lined inside with galvanized iron, no. 24 guage, and installed on wood rollers in order to facilitate their removing. There should be one box for each compartment. Provision to be made for the installing of a small floor drain, 3" diameter, in each of the two rooms, with galvanized iron gratings. The floor to be graded in such manner as to have a slant towards these openings. It is desired that the urinal stalls be lined with either aluminum or lead sheeting, to a height of about three feet from the floor, which will have a semi-circular shape of the width shown on plan.

The drainage outlets at the end of the trough are to be connected together to a 4" vitrified drain pipe, and continued into a small cess pool, which might be installed in the most suitable place in the rear of this building.

Ventilators 10" square are to be placed on the roof above each of the two rooms.

In reply, I regret to say that in view of the heavy expenditure which was made last year for the repairing of a portion of this system between the Mission building and the school, the Department is unable to partake in the expenses which will be incurred by the sinking of the intake pipe, which I understand is now in progress, under the supervision of the missionary.

Sir:-

The Department is in receipt of a letter from Rev. O. Lacouture, Parish Priest of Caughnewaga, together with certified pay list, by you, amounting to \$150.30, for work performed lately, in the sinking of the intake pipe of the water supply system at the missionary building, Caughnewaga.

[Handwritten initials]
It is noted that this work was performed without authority from the Department, and the first intimation that we had about the necessity of sinking an intake pipe came through your office by a communication dated September 20th. Inspection of the work was made at noon September 27th, when it was noticed that the work was almost completed under the supervision of Moise Lefort.

[Handwritten initials]
You will readily understand that I cannot give this account any consideration, as it is not the custom for the Department to cover expenditure of this kind without the required authorization having been previously obtained. If as is stated in the Missionary's letter, the Department is responsible for the cost of maintenance of this water works system, such work should then be performed under its supervision, and in this case there was plenty of time to bring the matter to the Department's attention before proceeding with any of the above mentioned work.

You should interview the Sisters in charge of the schools and ascertain from them the number of clocks repaired.

I may remind you that in official letter of the 19th September, which gave authority to have the work done, it was stated that arrangements might be made to engage the services of a man from Montreal to do the work. The account shows that two men were employed. This should be explained.

Dear Sir: Mr. Liburnean showed me the letter you wrote him on Oct. 9, in which you state that you cannot give my account any consideration because I did not get the required authorization from the Department. How was I to know that you make this condition an essential one when it is not stipulated in the contract? I was new here and one of the first things that had to be done, I was told, was the sinking of the intake pipe because it had frozen the previous winter. On reading the contract I saw that the Department was responsible for the cost

of the maintenance of the water works system. I thought it the most natural thing in the world to have the work done and then ask you to pay the cost! I never thought that you preferred to send a man from Ottawa to supervise such simple work as the sinking of a pipe.

However I see my mistake, now. But I hope that you will not charge me \$150.30 for the error! I am sure the work was well done and as cheaply as possible.

If you have me to bear the cost of that work just think how long it will take me to pay it with my salary of 27 cents a day! Trusting to your kindness, Mr. J. MacKenzie, I hope that you will overlook this error of mine and accept that account.

Stafy. Office to Forward

October 17th, 1923.

MEMORANDUM:

MR. SCOTT.

A request has been received for two typewriters for the use of the continuation school on the Caughnawaga Reserve. At the present time they have eleven machines, as follows:

- 8 - Underwoods,
- 2 - Remingtons,
- 1 - L.C. Smith.

These machines were all overhauled and put in good condition before the school re-opened after the holidays, with the exception of two which are worn out and unfit for further service. There are at present five boys and ten girls taking typewriting, and the Sister Superior uses one of the machines for her own work.

The Public School Inspector who recently visited the school recommends that two new machines be supplied. I beg to recommend that authority be granted to forward a requisition to the Government Stationery Office for two machines to be sent to the Supervising Principal of the Caughnawaga Schools. I would also beg to suggest that the order be divided and that one Remington and 1 L. C. Smith machine be supplied.

Teachers' Residence,
Caughnawaga, Que., Oct. 23, 1923.

Dear Sir,

Will you permit me to make some suggestions regarding the outside closets at the Boys' School.

I examined the plan with Mr. Agent Letourneau and I find it very satisfactory, but owing to the large number of boys (180) I would ask to have one compartment more; each room is sufficiently large enough for four compartments. It would facilitate the supervision, and would help matters especially on cold and stormy days when the pupils have to stand knee-deep in the snow.

I would like to make something similar to a vegetable cellar out of the little shed where we put away our storm windows, so would you allow me to ask the contractor for about four hundred feet of 1" board. It will cost about fifteen dollars (\$15.00) for material, and nothing for labor. Mr. Latour, our care taker will do the work. We have no place to keep our vegetables and apples for the winter and it is a nuisance and a great deal of trouble to try to get a small quantity of provisions across on the yachts; the owner of the boats will not accept parcels from the dealers, so the consequence is we often lose goods.

The Girls of the First Class are very eager to learn French and, of course, I encourage them greatly, so please authorize me to purchase four dozen "Fasquelles" French Course?" also six sets of Maxson's self-keyed Fundamental Number Work for the lower classes. The price is sixty cents (.60) per set.

Thanking you in advance for the attention I know you will give my requests,

Believe me, dear Sir,

Sir:

A communication has been received from Rev. Sister Mary Rose Alma, Supervising Principal of the Caughnawaga Schools, in which she requests that 400 feet of 1" boards be supplied for the purpose of making a vegetable cellar in the shed in which the storm windows are stored. She states that this material will cost approximately \$15, and that the caretaker will do the necessary work without any charge for the labour.

I have to request that you will arrange for the purchase and delivery of the above quantity of material, and have it delivered at the teacher's residence. Properly certified vouchers, in duplicate, should be forwarded covering the expenditure incurred. We have informed the Sister Superior that you have been given the necessary authority to purchase this material.

My dear Sir,

I wish to thank you most sincerely for the two typewriters. I received the Smith typewriting machine last week and the Remington came in this morning. Both are in good condition. The pupils are delighted. They are proud and ambitious and those that used the old typewriters did not have budgets that appeared well, therefore they were dissatisfied with their work. The pupils of the Commercial Class are hard workers and success crowns their efforts.

I also wish to thank you for the authorization to buy boards for a vegetable cellar. What a blessing it will be to have a supply on hand.

I am glad that the Department will purchase the French books. You did not mention anything about Maxson's Self-Keyed Fundamental Number Work? Will you allow me to send for a few sets? They cost about sixty cents (.60) a set.

Assuring you that I greatly appreciate your great kindness,

I am, dear Sir,

Respectfully yours,

Sister Mary Rose Alma

Ottawa, November 13, 1923.

Sir,-

On the 25th October you forwarded to the Department a voucher, No. 237a, amounting to \$32.65, in favour of Richard Hemsley Limited, of Montreal, for repairing and cleaning sixteen clocks at the schools and at the teachers' residence at Caughnawaga. The said voucher was paid at the amount rendered by cheque No. 3508 which went forward. The Department is now in receipt of a letter from the above mentioned firm with which a refund of \$1.50 has been made, and it is stated therein that the firm's account amounts to \$31.15 only. There were two accounts, one for \$1.50 and one for \$31.15. Apparently the \$1.50 was paid and that item therefore should not have been included in the voucher which you certified.

Sir,—

See envelope

Replying to your letter of the 13th instant, I beg to say that the mentioned account for \$1.50 paid by the Reverend Sister Rose Alma, Superior of the Caughnawaga Day Schools, to the firm Hemsley Limited for repairing a clock for the use of the schools, had been annexed by the Rev. Sister to the other accounts amounting \$31.15 to the same firm, undoubtedly by error from her part and the same thing happened to me when I have prepared a Voucher No 237a. I have not noticed that this account of \$1.50 had already been paid to that firm.

Therefore, I beg to ask that the enclosed Voucher No 269, for \$1.50 which account is before you, be paid to the order of the Rev. Sister Rose Alma.

Dear Sir,

For the last two weeks the toilets at the Girls' School have not been in good working order. The janitor has had much trouble on account of a frequent overflow of water. Monday morning, the school was so infected that I took it upon myself to send immediately for a plumber. He located the trouble and everything is in good condition now.

The outside toilets at the Boys' School are nearly completed. If the work had not been stopped and the plan changed the building would be finished.

Mr. Chene was expected here this week, I am quite anxious to meet him.

Respectfully yours,

Madam:

I have to acknowledge receipt of your letter of the 16th instant, reporting on the condition of the toilets at the girls' school on the Caughnawaga Reserve.

With reference to these toilets, I have to request that you will see that the pupils do not interfere with the same by throwing in all kinds of articles, as was the case upon previous occasions when these closets became blocked. Close supervision should be kept by the staff of the school and very definite instructions given to the pupils regarding the throwing in of any articles or other material which would block the proper flushing of the toilets. If further trouble develops, the Department will have no recourse but to authorize the discontinuance of these inside toilets and the use only of the outside buildings.

Your obedient servant,

INDIAN AGENT'S OFFICE

St. Constant,

December 5th 1923

IN YOUR REPLY REFER TO
No. 5-2-5
ALSO
TO DATE OF THIS LETTER

Sir,—

Referring to your letter of the 9th of October last, regarding the construction of an outside closet at the Boys' school in the Caughnawaga village, I beg to enclose herewith the completed pay-list amounting \$480.15 for the labour performed in connection with this work.

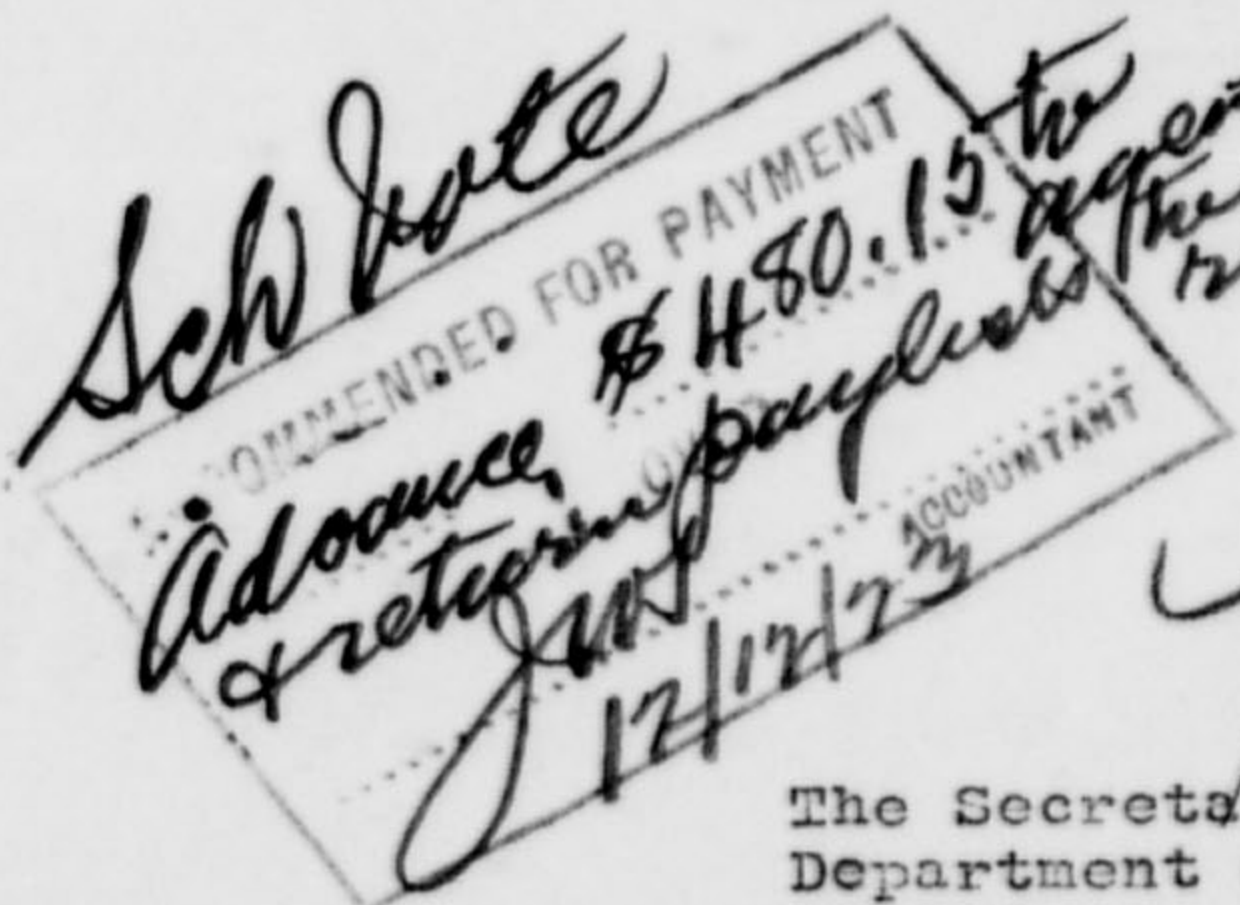

Accounts for material supplied at this building are not quite prepared yet, I expect to have them forwarded within a few days to your Department.

With the exception of the wood rollers that according to your specifications are to be placed under the boxes, the building is completed and kept closed until its acceptance by your Department Officer.

Your obedient servant,

Indian Agent,

The Secretary
Department of Indian Affairs,
OTTAWA.

Sir:-

I am in receipt of your letter of the 5th instant together with pay lists in connection with the erection of outside closets for the boys' school at Caughnawaga Village.

In reply I beg to inform you that if, in your opinion the work has been satisfactorily completed no other inspection will be made by an officer of this Department, and consequently the building may be used as early as convenient, without further instructions.

Your obedient servant,

J. D. McLean.
Asst. Deputy & Secretary.

Ottawa, Jan. 2, 1924.

Memorandum:

Mr. Paget.

With reference to an account amounting to \$150.30 paid by the missionary at Caughnawaga, dated Oct. 1st. for labour in connection with the lowering of the intake pipe of the combined water supply system for the mission buildings and the school house at Caughnawaga, I would recommend that, in view of the explanation given by him in his letter of Oct. 12th, that this amount be now refunded to him, in order that the workmen may receive their wages.

The work has been properly done and it is understood with this missionary that he is not to undertake work of this kind in future without the required authority from this Department.

Ottawa, February 26th, 1924.

Sir:

I have to acknowledge receipt of voucher to the amount of \$100.83 submitted by you on the 20th instant in favour of Rev. Sister Mary Rose Alma, Supervising Principal of the Caughnawaga Indian Schools.

In this connection I beg to point out that there are a number of items for which no receipts were forwarded. I am returning herewith the voucher and account, together with the receipts. In checking over these receipted accounts, you will see the ones that are missing. In our letter to you of September 25th, last, regarding the grant allowed to pay the services of a driver or messenger, when necessary, you were instructed to advise the Sister Superior to have the man engaged by her submit an itemized account every few weeks. Receipts should also be forwarded in each case for the amount paid by the Sister Superior for the washing of the floors. I may say that the Auditor requires that all items of expenditure be supported by the necessary receipted accounts. Kindly have the Sister Superior obtain the necessary receipts, and you should attach them to the accounts and return them to the Department.

Regarding the voucher for \$26.59 for stationery for the use of the Indian schools, I have to request that you will inform the Sister Superior that she should requisition for supplies of this nature and they will be supplied from the Government Stationery Office. The Sister Superior should anticipate her requirements as regards text books, stationery, etc., and prepare a requisition on the form for that purpose and send it to the Department through your office. The account which you forwarded has been paid, but, in future, the Sister Superior should endeavour, insofar as possible, to comply with the Department's requirements and requisition for all stationery, text books, etc.

I beg to inform you that the water main at the Caughnawaga Girls' School is again frozen. I have retain the services of an Indian at the rate of \$15.00 per month for the hauling of the necessary water from the St. Lawrence river to the School basement, also of a temporary helper in case of snow shoveling in the school yard from the main building to the out houses.

It is hoped that means presently taken will be successful in thawing out the main water pipe, I will inform later on accordingly.

With further reference to my letter of the 27th ultimo, I beg to inform you that it seems to be necessary to have a supply of 1/2 inch iron pipe to a length of about 150 feet in order to have it sent through the water main from the cellar of the Priest-house towards the Girls' School. It is expected that the frozen spot is by the rear corner of the Church, a distance of about 150 from the lower end of the water main, and I recommend the purchase of the above mentioned material to your approval.

Teachers' Residence,

Dear Sir:

After the terrible storm of last Wednesday, it was impossible to get to the Schools without having the path made. St. Ann's School and Delormier School were snowed in; the front door was out of sight, the drift being so high. Many children ploughed through the snow, so I thought it advisable to hire Mr. Delisle to help our caretaker to shovel the snow around the Schools. On Feb. 21st., he worked all day. The wind blew all that night, so, of course, the same work had to be done the next day. Therefore during the stormy days, Mr. Delisle worked eighteen hours at thirty-five cents (35cts.) an hour.

Hoping that you will approve of my doing so as to keep the Schools open,

I am, dear Sir,

Very respectfully yours,

Sir,—

Replying to your letter of the 26th ultimo, I beg to re-enclose herewith the voucher in favour of Reverend Sister Mary Rose Alma, Principal of the Indian Day Schools at Caughnawaga. Sister Superior classified the items so as to make things clearer and probably more conformable to your requests. The missing vouchers had slipped out. The voucher for the kitchen utensils was sent to your Department, I believe. It is impossible to get a duplicate because those articles were purchased in the city.

You will notice that the disbursements for the messenger boy is on the same as that of the driver. No payments has been made yet for the messenger boy because Sister Superior was given to understand by an Official of your Department that it was preferable to send those accounts only every few months.

I beg to state that Sister Superior thought advisable to fix a salary for the messenger boy, for the following reason: last October most reliable boys were working at the Golf Links making a few dollars a day, so it was impossible to get one to run errands for a triffling amount. So Sister Superior promised the boy \$2.00 a week all year. It is more economical also because most of the provisions, meat especially is bought

in Lachine, and the boys walks across the bridge, it saves the expenses of a driver to bring the Sisters to the station. I may add that it seems the Sister Superior have the interest of the Department at heart and I assure you no unnecessary expense is incurred; they are very saving.

Hoping that the vouchers duly amended and these explanations will be found satisfactory by your Department.

Ottawa, March 31, 1924.

Sir:

I have your vouchers Nos. 418 and 419, each for \$75, in favour of the Bank of Hochelaga and Mrs. Annie K. Delorimier, respectively, being the rental for the school building used by the Department at Caughnawaga for the year ended on today's date. I have to inform you that these vouchers are not being paid. Mrs. Annie K. Delorimier has been paid quarterly up to the end of the calendar year 1923. Further, on January 17th she visited the Department and the Deputy Superintendent General was pleased to pay her share of the rental for the year 1924 in advance and she received at that time a cheque for \$75.

The Department's rental for John O. Delorimier's share in the house has been paid quarterly during the calendar year 1923 to the Bank of Hochelaga, Chateauguay Village. As the Department is informed that John O. Delorimier has disposed of his interest in the property, I wrote to the Manager of the Bank of Hochelaga on the 16th ultimo, informing him that there would be no further payments of rent under the power of attorney.

Mr. John O. Delorimier's share in the rent, as from January first, 1924, will be deposited by the Department in trust for him.

Sir:

I have your letter of the 2nd instant, with reference to general conditions at the Caughnawaga Indian Schools. The Department is pleased to note that splendid progress is being made.

I have noted that the walls in some classrooms of the Boys' School need repairing. Please ascertain the amount of plastering required and submit it for the Department's attention in June, so that the work can be undertaken during the summer holidays. I regret that nothing can be done to improve conditions at the Delorimier school, until such time as a new building and better accommodation is provided.

There are no funds available for any comprehensive activity in connection with the play grounds at both Boys' and Girls' Schools. Your recommendation that certain facilities for play be provided is receiving favourable consideration. Please have a carpenter estimate the amount and cost of materials and the labour required to purchase and erect by day labour one swing with three seats and two basketball standards at each of the Boys' and Girls' Schools.

Sir,—

I beg to inform you that on the 11th ultimo I have visited each class of the Boys' and the Girls'-School of the Caughnawaga Indian Village. The attendance was very good in spite of the cold weather and the bad roads. I am always surprised at the work accomplished in the schools here. The pupils are neat and have good behavior in general. Many of the more advanced pupils are very refined, it shows the refining influence of the Sisters who are doing excellent work in the Caughnawaga Indian Schools. I saw the semi-annual report of examinations, and Reverend Sister Superior has a right to be proud of the fine success obtained.

Summer building

The walls in some of the classes in the Boys' School would need to be repaired.

1 encl. nothing until better accomodations

Delorimier School would need to be attended to. There is water constantly in the cellar, therefore, making it a very unhealthy room both for the Teacher and the pupils. The room contained 35 pupils when I visited it, and there is no means of ventilating the room during class because the pupils are seated in the windows. The room is not at all hygienic. Better accomodations should be provided. The size of the room is about 17'x 22'x 7'6".

Sufficient

The playground at the Boys' School would need to be filled, and the fence around should be repaired. The playground at the Girls' School would also need to be levelled. I would strongly recommend amusements, such

such as swings etc., to be placed on the playgrounds of both the Girls' and the Boys' Schools, with a number of trees to beautify the grounds. I would like to see something done this year and every year until the grounds are put into some decent kind of shape. I believe it a shame to leave the surroundings of the schools so bare and crude. In fact, I think that nothing has ever been done since the buildings were erected during the years of 1910 and 1911.

- 1o - Playgrounds are in a bad condition, all holes, and always muddy; 3 or 4 carloads of cinders are necessary to fill in.
- 2o - Fence must be repaired on one side, the other side is all broken, cannot be repaired, length of grounds 180 feet.
- 3o - Water in cellar, damaged the cases of books; a few inches of cement and one coating of waterproof is recommended.
- 4o - A check valve for the pump.
- 5o - I would suggest that a sufficient space to put away the storm windows would be petitioned off in the cellar. The windows are piled one on top of the other without protection, consequently, many panes of glass need to be repaired in the Fall. About 300 sq. feet of 1" board would be required.
- 6o - Very little patching to be done on the walls (Re: Dept. File No. 5-2-5 dated April 7, 1924)
- 7o - Blackboards need a coat of liquid slating. Two need to be replaced. 2 gall. of liquid required. Size ones required are 10 x 3 feet.
- 8o - A few new curtains, several to be repaired.
- 9o - 3 benches, about 7 feet long each, recommended for the youngest during the recess.

Delorimier School.

Dimension of the class room: 31 x 16 x 7 1/2 feet;
42 pupils.

There has been about 7 inches of water in the cellar for several weeks. It is too bad that something cannot be done to better such unhealthy conditions.

The health of the teachers and pupils are being greatly injured by colds and rheumatism. If I judge from a few words Sister Superior of the Caughnawaga Schools said, I think the Reverend Mother of the Order will not allow a Sister to teach there next year.

The cottage almost opposite the Teacher's Residence is vacant and I believe it would just be suitable for two classes. The house and grounds could be rented for \$125. per annum. The grounds are large enough to be used for school and as the land extends right opposite the Boys' School, a piece or section of land could be used for the girls of the Continuation School who have no playground. They spend their recess sitting on the steps, because naturally they are not going to mix in with the boys, so they are deprived of exercise, which is very necessary and most healthy.

It is hoped that the above mentioned suggestions will be favourably taken into consideration, and that you will be prepared to commence these alterations by the last week of the month of June next.

R

Kind Sir,

I beg to remind you that the closing of the school year is near, consequently I would be grateful for the grant of One Hundred Ten (110) Dollars such as last year for the purchase of premiums for the pupils of the Caughnawaga and Saint Isidore Road Schools. Because of the extra work which the end of the school term entails, I would like to be authorized to make this outlay as soon as convenient.

Permit me also to allude to your generous offer of a gold piece to the pupils of the Second Year Commercial on the occasion of your last visit. As there are four girls only I feel like soliciting a scholarship for one, because unlike the boys, they are handicapped in not being given the advantage of a higher education. You are aware that these pupils deserve prizes and rewards for their sustained efforts and application in school work and I would like both parents and children to be pleased and satisfied at the Closing Exercises.

We have had an official visitation by the higher authorities of our Order and Reverend Mother Mary Leopoldine, Superior General, whom you met last year, has requested me to ask for an increase of salary for some of our teachers. I know you will think it reasonable because you acknowledge our unstinted labors and painstaking devotedness for our Indian charges, which same is attested by the different Government inspectors and visitors in their glowing School Reports. Some of the religious teachers, who have crowded classrooms are certainly underpaid while Miss Martin and Miss Regis have a scanty number and receive larger salaries. And may I ask why could not the Sisters of the Girls' School draw the same salary as those in charge of like Standards in the Boys' School?

Asking you to consider kindly my request while thanking you for your great interest in our welfare,

I am, dear Sir,

Very respectfully yours,

Sister Mary Rose Alma

I have to inform you that the Department will allow an expenditure of \$105.00 for the purchase of prizes for the pupils of the Caughnawaga and St. Isidore Road Indian Day Schools. This is the amount of the grant that was allowed last year. The Principal should make the purchases and you should forward properly certified accounts, in duplicate, to the Department for payment.

The Superintendent of Indian Education has promised that a special prize of a \$10 *in gold* will be presented to the best girl pupil of the second year continuation class. When the Principal and you have made a selection of the girl who is to be the recipient of this prize, you should forward a report and the Department will send you a cheque for this purpose.

Sir,—

I beg to point out that on account of repairs that are constantly required at the various schools of the Caughnawaga Indian Reserve, it become necessary to have always on hand a certain quantity of lumber in order to meet the most necessary requirements. I beg to ask your authorization for the purchase of 500 feet of 1" board which would be safely placed in one of the school cellars and used only in cases of emergency.

Your obedient servant,

DEPARTMENT OF INDIAN AFFAIRS
CANADA

Ottawa, 28th May, 1924.

Memo.

Mr. Fernier,

I think that Departmental letters of the 27th March last to Annie K. Delorimier and John O. Delorimier giving notice of the Department's intention to lease the property in question for another year commencing June 1st, 1924, as provided by the terms of the original lease, binds the Department to pay rent for a year from the 1st of June.

It appears that Annie K. Delorimier has been paid her share of the rental to December 31st, 1924, and it may be that she would be willing to release the Department from paying any rental after December 31st, 1924, if the Department should offer to give up the premises on the 30th June next. I would suggest that the Agent be asked to see if Annie K. Delorimier is willing to do this and if so to get her release in writing.

John O. Delorimier is apparently absent from the reserve and we will have to deal with him when we can get in touch with him.

Sir:

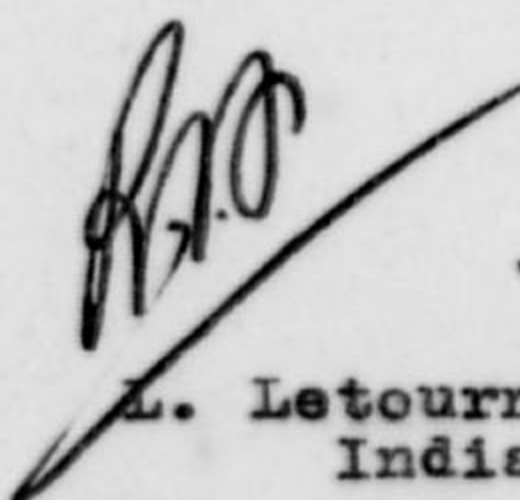

I have to inform you that the Department may make arrangements for the rental of the house across from the Sisters' residence at Caughnawaga and may use this building in place of the Delorimier property. Before taking such action, however, it would be advisable to secure a release in writing from Mrs. Annie K. Delorimier and from John O. Delorimier, if he can be located.

On March 27th, last, there was directed to Mrs. Annie K. Delorimier and to John O. Delorimier official communications giving notice of the Department's intention to lease their property for another year commencing June first, 1924. Mrs. Annie K. Delorimier has been paid her share of the rental to December 31, 1924. She will, no doubt, be willing to release the Department from paying any further rental if the Delorimier property is given up to her on the 30th proximo. Please see Mrs. Delorimier at your earliest opportunity and secure, if possible, her release in writing.

Please intimate whether you can inform me concerning the present address of Mr. John O. Delorimier.

Sir:

On March 27th, last, there was directed to you official communication No. 5-2-5, giving notice of the Department's intention to lease the property in which you have a joint share with Mrs. Annie K. Delorimier for another year commencing June first, 1924. Your share of the rent as from January first, 1924, is being deposited in trust for you by the Department. The rental up to June 30, 1924, will be paid to your Trust Account.

It is the Department's present intention to transfer the school activity from the Delorimier house at the end of next month. As we hope to give up the property to Mrs. Annie K. Delorimier and yourself at that date you will, no doubt, be willing to release the Department from the payment of further rentals. If not, please communicate with me and some adjustment will be made.

I have your letter of the 9th instant, with reference to the Delorimier property which has been leased by this Department for school purposes at Caughnawaga. I have noted that Mrs. A. K. Delorimier is not on the reserve, but that John O. Delorimier is living in the village. It will not be necessary to have formal documents prepared, releasing the Department. You should have Mr. Delorimier sign a statement to the effect that he releases the Department from the payment of further rentals, as his property is being given up on the 30th instant. When Mrs. Delorimier is available, you should have her sign a similar statement. Forward these statements as soon as each is completed.

SCHOOLS DEPT.

Dear Sir:-

Referring to your letter received February 18 th, I have to say I was very surprised to be informed that Mr. John O. DeLorimier had disposed of his interest in the property on the Caughnawaga Indian Reserve held by your Department under lease for School purposes and that the Department accordingly will be unable to make any further payment of rent to our Bank under the Power of Attorney held by us from Mr. DeLorimier.

I met Mr. DeLorimier yesterday, he is now back from a trip to United States, he said he received a letter from your Department on May 1924, and was advised you had on hand the money due for the rent of his school, and M. DeLorimier told me he is not even able to dispose of his property during his life, but only his children would be in position and in the right to sell it, consequently he wrote me a letter signed by himself to authorize your Department to make all payments you have on hand for rent and all payments to be due in the future in favor of our Bank as instructed by the Power of Attorney held presently by Your Department.

Consequently has you have a Power of Attorney and the letter attached to be justified, I hope you will give to my letter a fair attention as the Bank want to be covered from the amount still due by Mr. DeLorimier.

Yours Truly,

Rev. Sir:-

I beg to inform you that the Department agrees to contribute towards the boring of an artesian well for the combined water supply for the Mission buildings and the Girls' School at Caughnawaga an amount of \$200.00, as per your request of the 29th ultimo.

It is understood that the Department will not be called upon to pay for any other charges which might be incurred by the connecting of this new well to the present intake pipe, or for the maintenance of the part of the system between the intake and the pumping machinery.

When the Department is furnished with certified vouchers from yourself and the Indian Agent covering the total cost of this new installation the above mentioned amount will be paid to you.

Kindly acknowledge receipt of this letter and oblige.

Your obedient servant,

J. D. MCLEAN.

My dear Sir,

May I ask if the Department will allow \$105.00 as in the past, for the purchase of prizes for the pupils of the Caughnawaga and St Isidore Roman Catholic Indian Day Schools.

The pupils have worked hard and they deserve to be encouraged. The written tests I gave in March were crowned with success.

Sir,—

Je désire référer à votre lettre du 30 mai dernier relativement à la maison située vis-à-vis la résidence des Institutrices à Caughnawaga et dont il avait été question pour remplacer celle occupée jusqu'à présent sur la propriété Delorimier et appelée "Continuation School"; je viens de rencontrer Mr. C.W. Cloud, le propriétaire de la maison en question, il offre de louer à raison de \$150.00 par année avec un terrain d'une superficie d'environ 65 x 125 pieds. Les changements qu'il nous faudrait nécessairement faire se chiffrent probablement à \$500.00, de sorte que je ne crois pas avantageux pour à présent de faire ce changement de local. Cependant il faudra nécessairement faire faire quelques travaux et modifications à la bâtisse de la propriété Delorimier pour la rendre hygiénique et acceptable durant l'année scolaire prochaine.

Cette question est laissée en suspens jusqu'à ce que Mr. Chené vienne à Caughnawaga pour rencontrer de nouveau ce Mr. Cloud qui demeure vis-à-vis l'école des garçons, et décider définitivement laquelle des deux maisons devra être occupée comme école, ainsi que les modifications qui devront nécessairement être exécutées à l'une ou l'autre de ces deux bâtisses.

Sir,-

I wish to refer to your letter of the 30th of May last concerning the house situated opposite the residence of the teachers at Caughnawaga and which was mentioned to replace that occupied until now on the Delorimier property and called "Continuation School"; I have just met Mr. C. W. Cloud, the proprietor of the house in question and he offers to rent it for \$150. per year with land about 65' X 125' in superficies.

The changes which would be necessary would amount probably to \$500. so that I do not believe it would be to any advantage, for the present, to make this change. However, it will be necessary to have some repairs and changes made to the building on the Delorimier property to make it hygienic and acceptable during the next school year.

This matter will be left in abeyance until Mr. Chene comes to Caughnawaga to see Mr. Cloud again, who lives near the boys' school, and decides definitely which of the two houses shall be used as a school and also what repairs will have to be done to one or other of these buildings.

Pour faire suite à ma lettre du 3 courant, au sujet de la bâtisse pour "Continuation School" à Caughnawaga, il m'avait semblé que vous deviez venir à Caughnawaga dans la semaine commençant le 11 courant, tel qu'informé par la Socur Supérieure des écoles.

Comme il semble aussi décidé que l'enseignement se continuera dans la bâtisse de la Succession Delorimier, il faudra nécessairement y faire un peu de modifications pour rendre cette maison acceptable pour la santé des élèves ainsi que de l'institutrice. Je serais bien aise de vous rencontrer au plus tôt à Caughnawaga afin de décider quant à l'un ou l'autre des sites à occuper comme école durant l'année scolaire prochaine.

OK
Dr. Scott.

I understand that Mr. Chene is to proceed to Caughnawaga on duty, and, as no provision has been made for the special classes that were held on the Delorimier building, I feel that a decision is timely concerning the question of temporary accommodation.

The Department has received a release from John O. Delorimier in connection with the leasing of the property in which he has a joint share with Mrs. Annie K. Delorimier. On March 27th, last, Mrs. Delorimier was given notice of the Department's intention to lease the property for one year, commencing June first, 1924. She has been paid rental to December 31st, next. Mr. Indian Agent Letourneau, at our request, has written her for a release from paying any further rental. We gave up our use of the property on June 30, last.

In view of the difficulties in connection with this estate and the unsatisfactory sanitary conditions of the Delorimier house (which caused the Department to look for another building for the two classes) I wish to recommend that Mr. Chene make arrangements with Mr. C. W. Cloud, owner of a building opposite the teacher's residence, for one year's rental. He has signified willingness to rent for \$150 per annum.

Mr. Letourneau estimates the alterations and decorating to the Cloud property at \$500, but I believe that the work can be done for less. I also recommend that Mr. Chene receive your authority to undertake the alterations and decorating that are necessary for our purposes.

Sir:

I have your letter of the 8th instant, with reference to the plans for accommodating the continuation school and one junior class at the Caughnawaga R. C. Indian Day School. I have to inform you, in reply, that the Department has decided to discontinue rental of the Delorimier property and the Deputy Superintendent General has asked Mr. Chene, the Department Engineer, to arrange for the rental of the Cloud property and to put the building in condition for our purposes.

Sir,—

Conformément à vos instructions j'avais ordonné quatre (4) chars de cendres pour le nivellement des cours des écoles de Caughnawaga. Il y a probablement eu erreur dans les dispositions prises par la Cie Canadien Pacific puisque un cinquième char de cendres a été expédié aux même endroit et conditions que ceux des quatre précédents. Dans les circonstances, plutôt que de re-expédier ce char, et parcequ'un cinquième était encore nécessaire aux écoles, j'ai cru devoir l'accepter et le faire épandre dans les cours. Veuillez trouver ci-inclus un voucher No 552, pour ce 5ème char.

Je serais bien aise de recevoir le montant total de mes déboursés pour les cinq chars - \$162.50, les vouchers ont été faits et envoyés pour cette somme.

Sir,-

In accordance with your instructions I have ordered 4 cars of cinders for the levelling of the yard of the Caughnawaga Schools. There must have been an error in the shipment made by the Canadian Pacific Railway Company as the fifth car of cinders was delivered at the same place and on the conditions as the four preceding ones. Under these circumstances rather than return that car and as a fifth one was necessary at the schools I thought it was better to accept it and use the cinders in the year. Kindly find enclosed herewith voucher No. 552 for this fifth carload.

I would be thankful to receive the amount of my total disbursement for these five (5) cars - \$162.50, the vouchers were made and forwarded for that amount.

Maintenant que les réparations aux enduits des écoles du village de Caughnawaga sont terminées, il faudrait nécessairement faire le lavage des salles de classe où ces diverses réparations ont été faites, je vous prie de bien vouloir m'accorder l'autorisation de faire faire ce lavage.

Il faudrait peut-être aussi peindre les taches blanches laissées sur des murs verts, après que ces enduits furent réparés.

Le peintre qui est actuellement à repeindre les tableaux noirs des écoles du village de Caughnawaga pourrait, avec votre autorisation, donner une couche ou deux de peinture sur ces taches de plâtre.

Ottawa, August 20, 1924.

MEMORANDUM:

Mr. Williams.

Will you kindly prepare a lease agreement for the renting of a house by ~~E. M. Gled~~, an Indian of Caughnawaga, to this Department for a period of two years, and an option of renewal for another two years afterwards.

The property consists of a house and outbuildings located on lot 620 Caughnawaga Indian Reserve.

Provision should be made with the owner that he will not compel the Department to carry out any work at the expiration of the lease and that the Department will be allowed to make any changes whatsoever in the building in order to fit it for occupation as a school.

Ottawa, August 28, 1924.

Sir:

I have your letter of the 16th instant, in which you inform the Department that it will be necessary to do some cleaning in the Indian schools at Caughnawaga and to paint a few spots where plastering has been done. In reply I have to authorize you to undertake this work, on a day labour basis. The Department relies on you to keep the expense as low as possible.

The Rev. Sister Superior has asked for authority to have the typewriters examined by a repair man from the United Typewriter Company. Please inform her that her letter has been received and that the necessary work on the machines may be undertaken.

With reference to the building which the Department proposes to use in place of the Delorimier property, I have to enclose duplicate copies of the lease, which you should have Mr. James Cross sign before a witness. These should be returned to the Department for the signature of the lessee. One copy will then be sent back to you for the lessor. When Mr. Cross has signed, you may undertake the alterations, decorating and cleaning on the house to be used as a school, as outlined to you by Mr. Chene, Departmental Engineer. You should prepare a voucher in favour of Mr. Cross for \$75.00, being the rental for the first six months. A cheque in his favour will be directed to you when the lessor's copy of the lease is returned.

THIS INDENTURE made the ^{29th} day of *August*, one thousand nine hundred and twenty-four.

Between

James Cross (Sakatrenho), of Caughnawaga, in Province of Quebec, hereinafter called the lessor,

of the first part,

and

His Majesty King George the Fifth as represented by the Superintendent General of Indian Affairs, hereinafter called the lessee,

of the second part.

WITNESSETH that in consideration of the rents, covenants and agreements hereinafter reserved and contained on the part of the lessee, the lessor doth demise and lease unto the lessee and his successors all that messuage or tenement situate, lying and being in the Village of Caughnawaga, being composed of a house and lot together with all houses, outhouses, yards and other appurtenances thereto belonging and usually known as part of the parcel thereof, or as belonging thereto, and described as Lot No. 620 of the Caughnawaga Indian ~~Reserve~~ *Village*.

4150
TO HAVE AND TO HOLD the said premises unto the said lessee and his successors for and during a term of two years, to be computed from the 1st day of September, one thousand nine hundred and twenty-four, and from thenceforth next ensuing and fully to be complete and ended, yielding and paying therefor unto the said lessor his heirs and assigns the sum of one hundred and fifty dollars yearly and every year during the said term payable half-yearly in advance, the first of such payments to be made on the 1st day of September, 1924.

The lessee agrees to pay rent and to repair, reasonable wear and tear and damage by fire, lightning and tempest only excepted.

Provided that the lessee may remove his fixtures.

Provided that if by fire, lightning or tempest the property shall be destroyed or rendered unfit for the purpose for which the property has been leased, the term of the lease and the rental thereof shall immediately terminate.

The said lessor covenants with the said lessee for quiet enjoyment.

And it is expressly provided that the lessee may at his own expense make such improvements or changes in or about the premises from time to time as he may consider necessary for the proper use and enjoyment of the said premises as a school and may enclose by fence such portion of the premises as he may deem necessary for a school yard.

And it is expressly provided that the lessor shall not be required at the expiration of this lease or renewal to restore the premises to the condition in which they were at the beginning of the terms, but may leave them with such changes as may have been made for the use of the premises as a school.

R

Dear Sir:

It gives me pleasure to tell you that our schools opened with a large number of pupils. About four hundred (400) have registered. All are in the best of humor and are doing wonderfully well for the time. The children are taken up with their new Lasalle Reader; it is not surprising, it is so clear and well illustrated. They are showing the greatest interest in their work and the attendance is remarkable. What a difference with the spirit of last year!

I am enclosing a copy of the report given in this morning by Mr. Jocks.

Our four graduates are most happy in their new convent home. The higher education given to our boys and girls is a great incentive, and many are desirous of obtaining a college or convent education. I think this is the beginning of a new era in Caughnawaga.

Would you be good enough to let me know if the Department would allow about fifteen dollars more for sewing material for the girls, making it sixty-five dollars (\$65.00). Over one hundred girls are taught sewing, and needles, thimbles, scissors are easily lost or destroyed. The girls have no idea of economy, so our sewing classes are beginning by a course of mending, especially stockings; then they will receive lessons in plain sewing which I think is most practical. If my plans are not disturbed we shall have an exhibition of needlework at the end of the scholastic year.

I would furthermore ask if the same amount (\$35.00) will be granted this year for the washing of the towels for the schools.

The repairs of the new school are almost finished and we owe you many thanks for your co-operation in obtaining a more sanitary school.

Assuring you of our appreciation for the interest you take in our Indian charges, I beg to remain, dear Sir,

Very respectfully yours,

Sister Mary Rose Alma

Ottawa, September 16, 1924.

Madam:

I have your letter of the 11th instant, reporting on the opening of the R. C. School in the village of Caughnawaga. I am pleased to note that there was such a large enrolment and that the pupils are showing interest in their work.

The Department will approve of an expenditure not exceeding \$65 in the purchase of sewing material for the use of the girls and of an amount not to exceed \$35 for the washing of the towels for the schools. We are informing Mr. Agent Letourneau accordingly.

Accounts, in duplicate, for the expenditure incurred in the purchase of the sewing material and for the washing of the towels should be handed to Mr. Agent Letourneau who will certify the same and send them to the Department for payment.

Your obedient servant,

J. D. McLean,
Asst. Deputy and Secretary.

Sir:

I beg to inform you that the Department has informed Rev. Sister Mary Rose Alma, Supervising Principal of the R. C. Schools in the village of Caughnawaga, that approval is granted for an expenditure not to exceed \$65 in the purchase of sewing material for the use of the girls and also an amount not exceeding \$35 for the washing of the towels for the schools. The Reverend Sister has been requested to forward her accounts, in duplicate, covering the expenditure of the above amounts, and you will be good enough to certify the same in the usual manner and send them to the Department for payment.

Your obedient servant,

Dear Sir, -

Now, here is a different proposition that does not require money from the tribal funds. I intend to dig a well to have good clear water. It costs \$4.00 a foot. I suppose that we would get excellent water at between 50 and 70 feet. If you will pay \$200.00, I guarantee the rest of the cost, putting in of the pipes etc. The water is very bad for two or three months in the spring and after heavy rains. Besides, the ground that we put on our intake pipe is washed away every spring; even though we lowered it last year I am afraid it will freeze this year. I am sorry I made that expense, I do not intend to put any more money on that pipe. I hate to ask you to spend some more money, when you just bought us a new engine, but then, it would be too bad if we had to haul water 2 or 3 months next winter and pay for that.

O. Lacouture.

Mr. J. D. McLean
Ottawa, May 7th, 1926.

Sir:

The Department is in receipt of a communication from Rev. Sister Mary Rose Alma, Supervising Principal of the Caughnawaga R. C. Indian Schools, in which she requests that a grant to the amount of \$105.00 be allowed for the purchase of prizes or suitable gifts to be awarded to the pupils before the schools close for the coming summer holidays.

Relative to this request, I beg to say that the Department will approve of an expenditure not exceeding the above amount in the purchase of these prizes. This is the same amount as was allowed last year. Certified vouchers, in duplicate, should be forwarded from the merchants from whom the purchases are made, and these accounts you should attach to proper voucher forms, certify in the usual manner, and send to the Department for payment.

Please inform the Reverend Sister of the authority granted for the purchase of the prizes and that the above amount should not be exceeded. You can arrange with her to make the selection of the articles which she considers will be satisfactory.

MAY 15 1926

Sir,—

I beg to refer to your letter of the 10th ultimo, more particularly to its last paragraph, and to inform you that it seems impossible for me to make the contractor who did the unsatisfactory work remedy the condition of the blackboards, without cost to the Department. Some of the blackboards are entirely out of use, they would have to be replaced; others have to be repaired. May I ask you to refer to my letter of the 15th ultimo and to inform me whether I am authorized to have the 22 items therein mentioned to be performed and the necessary material purchased accordingly.

Dear Sir,-

Referring to your letter of the 20th May and previous correspondence, I beg to say that the Department received vouchers Nos. 953 and 954 amounting respectively to \$39.25 and \$35.08. Voucher No. 953 for \$39.25 will be paid when funds are available, which is likely to be some time during June. Voucher No. 954, which amounts to \$35.08 will be paid at the same time, but the cheque covering it will be drawn for \$33.23 in view of the fact that the last item (\$1.85) has not been supported by receipts for telephone charges, and, consequently, deduction to that amount has been made from the voucher.

Sir,

I beg to refer to your letter of the 7th ultimo, relative to the playground equipment for the Caughnawaga R. C. Indian Day Schools, and I wish to suggest that dirt which I imagine can be had somewhere on the Reserve, be thrown over the cinders which cover the school yards and which are dangerous in a fall when playing. Sand would be preferable most likely but more costly. I am very anxious to have the pupils enjoy these out-door sports before school closes.

I have your letter of the 3rd instant, in which you recommend that earth or sand be spread over the cinders on the playground at the Caughnawaga schools where it is proposed to erect playground equipment.

In this connection I shall be pleased if you will inform the Department as to the cost of supplying earth and levelling the yard required for this purpose. When we have full information as to the cost involved, consideration will then be given to authorizing having the work done. Your early reply will oblige,

I have your letter of the 12th instant, furnishing an estimate of the quantity of earth required to spread over the cinders on the playgrounds at the Caughnawaga Village Schools, and the approximate cost of same.

In reply I beg to say that you may arrange for the hauling and levelling of approximately 60 loads of earth on the playgrounds. This earth may be taken from the Commons, if you consider it would be satisfactory to obtain it from this source. The total cost of the hauling and levelling of the earth should not exceed your estimate of approximately \$75.

This matter should receive your early attention, and, when the work has been completed, you should forward properly certified vouchers, in duplicate, covering the expenditure incurred.

Puis-je vous demander de bien vouloir m'informer vers quelle date M. J. D. Chené, Ingénieur en charge des travaux de réparations aux écoles de Caughnawaga viendra faire une revue des divers travaux à faire nécessairement avant la prochaine ouverture des classes.

Je profite de l'occasion pour vous informer qu'il est évident de la part d'un groupe d'enfants résidents auprès de la résidence des Révérendes Soeurs Ste Anne à Caughnawaga, que ces enfants dans un but de malice et différence de croyance religieuse, se plaisent à causer des dommages à la propriété occupée par les Révérendes Soeurs, par exemple, en pliant les poteaux de fer de la clôture de l'école des garçons jusqu'à ce que cette clôture soit toute à peu près huit pouces de la surface du trottoir sur toute sa longueur, ou, en lançant des pierres sur la croix qui surmonte la bâtisse servant de résidence aux Soeurs.

MEMORANDUM:

Last May I was instructed by the Department to arrange for the repairing of the various government buildings on the Caughnawaga Indian Reserve, during the summer holidays. Indian Agent Letourneau has written inquiring as to when this work can be attended to. Will you please advise me whether the above mentioned instructions are still to be carried out. I may say for your information that the repairs are very necessary for the proper maintenance of these government buildings.

J. D. Schieffelin
DEPARTMENTAL ENGINEER.

MR. SCOTT.

The expenditure which will be incurred by the above mentioned repairs to the Indian Schools in Caughnawaga will amount to approximately \$350.00. The work will consist in the building of supports in the basement of the schools, where the beams have been cut for the installation of kaustine closets; the replacing of entrances to the schools; replacing of blackboards; painting of tin roofs which are deteriorating from rust; construction of a small wooden bridge over a ditch; and repairs to fences which are partly demolished.

Teachers' Residence,
Caughnawaga, Aug. 28, 1926.

My dear Sir,

I have been anxiously awaiting your return to explain to you the impossibility of having the sweeping done in the classrooms if we have not the articles necessary for cleaning purposes.

It is evident that the Department does not realize what a strenuous task it is to teach Iroquois children nor the many important obligations incumbent upon us. Religious, nevertheless each teacher shall take charge of the sweeping of her classroom, wardrobe and corridor, if she can have what is necessary. Economy is our motto, and you yourself have often had proofs of how much we economize. Assuredly the Department is not aware that the requisition sent in July called for articles needed for twelve classrooms with each a large wardrobe, corridors, stairs, stoops, cement walks besides the Teachers' Residence and the St. Isidore Road School, or they would not have cancelled so many items. We had a great deal of trouble to have the schools washed because no mopcloths were allowed and old pieces of cotton cloths had to be used, that with hard water is a bad combination, so poor work was the result.

Please beg the Department to allow us to buy the articles that were not granted on the letter of July 22nd, namely:

- 2 Sweeping Brushes 18 in. (hair) long handle
- 1 Wall Brush - long handle
- 2 Soap Holders for sinks at Schools
- 1 Long-handled Mop
- 4 Brooms (corn)
- 3 Dust Pans
- 4 Banister Brushes (hair)
- 10 Dry Dusters or 20 yds cheap Flannelette for dusting
- 5 Radiator Brushes.

Thanking you most sincerely for your co-operation in our Indian charges, I remain,

Respectfully yours,

Sister M. Rose Alma
Principal.

Je crois devoir vous faire remarquer que le puits artésien qui a été terminé le 24 août dernier et semble acceptable sous tous rapports, devrait maintenant être raccordé au système pour la fourniture de l'eau à l'école des filles au village de Caughnawaga.

Devons-nous attendre le retour de M. Chené à Caughnawaga pour faire cette installation ou si je devrais préparer un estimé du coût projeté pour ce raccordement?

Dear Sir,

Since your visit to Caughnawaga I have studied carefully the different points discussed concerning the new school. After consideration given to the matter, it has brought on some changes which, I know, you will approve.

1st -- To make use of the desks already in the Girls' School, Fourth Year can wait later for new single desks.

2nd -- The Continuation Class will have over forty pupils next year, fourteen will be in the Second Year and about twenty-seven shall be promoted to First Year. Therefore another room will be required in the new school, that will be five classes instead of four.

I am inclosing a copy of a rough sketch of the three schools I made for myself, thinking it may be of some use to you.

Pursuant to our conversation regarding a piece of land adjacent to our lot which you found suitable for our recreation grounds, I have written Mr. Letourneau who is to discuss the cost with Mr. Morris, the proprietor.

Thanking you most gratefully for the encouragement you gave us during your short visit, I beg to remain, dear Sir,

Memorandum:

Dr. Scott.

I wish to report on my recent visit to the Caughnawaga R. C. Indian Day School. I made a special study of the question of accommodation that is needed for this activity. At present, classes are conducted in four buildings: 1. the Girls' School; 2. the Boys' School; 3. the former Protestant School; 4. the building we are renting. As we hope to release the third mentioned building for a Protestant Day School next year and as the rented building is wholly unsuitable, I gave first attention to the best use of the accommodation in the two brick buildings, the Boys' and the Girls' Schools. Four classes can be accommodated in the Girls' building if the roof is raised. The rooms on the second floor of the Boys' School are not suitable for classroom purposes and can be used for type-writing and domestic science. The classrooms on the first floor are quite suitable. The two old buildings, therefore, look after six classes, but ten classrooms are required, as follows:

First Grade	-	2	classrooms,
Second Grade	-	2	"
Third Grade	-	2	"
Fourth Grade	-	1	classroom,
Fifth Grade	-	1	"
Sixth Grade	-	1	"
Continuation	-	1	"

This means, of course, coeducation practically throughout the whole school. It is true that there are two classrooms for each of the three first grades; but my suggestion to the Sister Superior was that they have boys and girls in each and divide the reserve so that the little children would be studying in the closest buildings.

The Sister Superior has lately written that she believes a still further classroom is necessary, due to the large increase expected in the continuation group for the academic year 1927-28. I have answered her letter, pointing out that it might be possible to organize the work so that the extra room would not be needed.

In addition to the ten classrooms, a domestic science room and a typewriting room, the school should have an auditorium. As four classrooms and an auditorium are required in the new building, this suggested to Mr. Chene a two storey building with four classrooms on one floor and an auditorium on the other. A small room might be set off as an office. When it is known exactly what accommodation is really necessary, I shall prepare another memorandum. The September enrolment and average attendance of 322 and 311, respectively, indicates that ten classrooms is the minimum accommodation required.

Madam:

I have your letter of the 13th instant, with reference to grants for sewing materials and the washing of towels at the Caughnawaga R. C. Indian Day School. The usual allowance of \$65 and \$35, respectively, for these purposes is granted for the current academic year.

I have also your letter of the 11th instant, concerning the proposed new school building. I am pleased to note that the fourth year class can make use of the desks at present in the girls' school. Concerning the extra room for the continuation class, I am of the opinion that the typewriting room and one classroom, as originally contemplated, would be sufficient accommodation if the work could be organized so that the typewriting room would be in use at all times. To add a classroom to the new building would mean such added cost that it might be necessary to eliminate certain equipment which would be very desirable. I should be grateful if you would reconsider this question with a view to making the two rooms in the boys' school (one up stairs and one down) serve the purposes of the continuation group. I note that you have a small music room on your rough sketch. To what use would you put such a room?

Your obedient servant,

Russell T. Ferrier

Monsieur, Votre visite a été si courte, je n'ai pas eu le temps de vous donner des détails qui vous seront peut-être utiles avant de faire vos plans pour notre nouvelle école. Je suis sûre que chaque classe va être assez grande pour ajouter des pupitres au besoin en plus du nombre donné par Mr Ferrier. Comme je vous le disais, il nous faudra une salle d'attente pour les élèves dans le sous-bas - ment quand il fera trop mauvais pour sortir, aussi une salle où peut-être la même pourra servir pour les enfants qui apportent leur dîner, environ vingt-cinq.

Une salle de toilette pour les sœurs, et plusieurs pour les élèves - garçons et filles. Mr Ferrier disait qu'une cabine pour chaque sex serait suffisant. C'est impossible, car la sortie durerait plus qu'une heure et nous donnons que dix minutes pour toute une école de quatre classes, et cela quand il y a au moins quatre cabines.

Un office pour moi, en bas près de l'entrée ^{principale} où les parents viendraient régler leur cas. Actuellement je suis dans un corridor où tous les enfants passent - ce n'est pas confortable ni agréable.

Langhamawa, Oct. 5th, 1926
Sir. —  Your visit was so short that I had no time to give you any details which would have been useful before starting the plans of your new school.

I am satisfied that each class room will be large enough to add a few desks above the number given by Mr. Ferris. As I told you, it will be necessary to have a meeting hall for the pupils in the basement when ~~the~~ weather will not permit them to go out, also a hall or perhaps the same one could be used by those bringing their lunch; there are about 25 of them.

A toilet room for the Sisters and several other for the pupils: boys and girls.

Mr. Ferris was stating that one stall for each sex would be sufficient. This is impossible, as they are out only 10 minutes; so that for a 4 class school it is necessary to have 4 stalls each otherwise they would have to be and one hour.

An office for myself, downstairs, near the ~~main~~ entrance, for parents to come and discuss their particular cases, is very much needed. At present, I am located in a passage where all the children have to go through and this is neither convenient nor agreeable.

Sir,—

Je crois devoir vous informer que durant une récente tempête, le vent a emporté le "coffre" sur la couverture de l'école des filles à Caughnawaga.

Aussi vous informer que la couverture de l'école des garçons fait eau en divers endroits.

Que le réservoir "sceptic tank" à la résidence des Soeurs répand de la puanteur à l'intérieur de la résidence à cause probablement des renvois de surplus qui seraient bloqués.

Qu'il manque un châssis double avec 8 vitres de 12 3/4" x 14" au coût approximatif de \$5.00 à une des classes de l'école temporaire et appelée Sacré-Cœur.

Je me permets de recommander que ces divers travaux de réparations soient exécutés le plus tôt possible vu l'approche de l'hiver.

Sir. - I have to inform you that during a recent storm, the wind blew down the "chest" on the roof of the girls' school at Caughnawaga.

I must also tell you that the roof of the boys' school leaks in several places.

That the "Septic Tank" at the Sister's residence is spreading bad odor inside of the house, most likely on account of the overflow pipe being clogged.

There is one storm window with 8 panes of glass $12\frac{3}{4} \times 14$, costing approximately \$5.⁰⁰ needed for a classroom of the temporary school called Sacred Heart.

I beg to recommend that these different repairs be made as soon as possible before winter.

Sir,—

I beg to inform you that it appears that the extension ladder and a wheelbarrow have been stolen from the cellar of the Caughnawaga Village school and it seems impossible to trace them.

These two articles are absolutely necessary for the use of the caretakers at the present time on account of the re-placing of the double-windows and the removal of coal or ashes into the different cellars.

The approximate cost of an extension ladder is \$8.00 and of a wheelbarrow \$9.00 which I beg to recommend the purchase to your approval.

I have your letter of the 30th ultimo, with reference to repairs required at the Caughnawaga R. C. Indian Day School buildings. I wish to confirm the authority given by our Mr. Chene in connection with the repairs to the roof of the boys' school and the septic tank at the teachers' residence. You are authorized to purchase one storm window, at an approximate cost of \$5.00, for the temporary school known as the Sacred Heart.

I have also your letter of the 30th ultimo, reporting that an extension ladder and wheel barrow have been stolen and it is impossible to trace them. As these articles are necessary, you may make replacement, at an approximate cost of \$17.00 for the two.

(Incls.)

Referring to your letter of the 20th instant, I return herewith the receipts which you forwarded in connection with oil and gasoline supplied the girls' school on the Caughnawaga Reserve. These receipts should be handed to the Indian Agent, Mr. Letourneau, as the Department requires him to attach them to a certified voucher before sending to the Department. The necessity for returning the receipts is regretted.

Yours truly,

F.H. Paget
Chief Accountant.

Sir,-

I beg to inform you that the Department has agreed to install an electric lighting system in both the boys' and girls' schools at Cangnamanga to replace the present system of coal oil and gasoline lamps. I am advised that the work can be performed economically by a local Indian who has been recommended by the Principal of the School. I should be glad, therefore, to obtain from this electrician a list of the materials required including the fixtures, a separate list being submitted for each building. The fixtures should be drop light fixtures of a modest type. You should also obtain from him the price which will have to be paid for the labour in connection with this work, should it be awarded to him by contract or day labour.

As you are aware the Department is contemplating installing a small pneumatic water supply system for each of the above schools. Before any decision can be taken as to the type of pump required, I should like to know the depth of the water well.

Sir:

I have your letter of the 16th instant, requesting that the walls which were recently replastered in the Caughnawaga schools be given two coats of paint in order to have them uniform in colour with the surrounding portions of the walls.

In reply I beg to say that you may arrange to have these walls given two coats of paint over the recent repairs to match the present colour of the walls. You should arrange to have this work done during the coming Christmas holidays, and in the most economical way possible. When the work has been completed, you should forward properly certified vouchers, in duplicate, covering the expenditure incurred.

I beg to inform you that we are authorizing the Sister Superior to arrange for the purchase of 4 electric irons, and to hand you the account therefor, which you should certify in the usual manner and send to the Department for payment.

Madam:

Relative to previous requests made by you to be supplied with electric irons for the use of the Reverend Sisters in their laundry work in the teachers' residence, I beg to say that, upon further consideration of this request, it has been decided to allow you to purchase 4 electric irons. While a serviceable type should be obtained, it is hoped that you will be able to purchase same at the lowest possible cost.

Please obtain itemized accounts, in duplicate, which you should hand to Mr. Agent Letourneau, who is being advised of the authority granted you to make the purchase. Mr. Letourneau will certify the account and send it to the Department for payment.

Wishing you the compliments of the Season, I am,

Sir.— I wish to inform you that on account of the repairs which were made to the plastering of walls at the Caughnawaga school, it would be necessary now to have those walls given two coats of paint so as to be of uniform colour. I would recommend having the work done during the Xmas holidays. Kindly authorize me to have the work done in the most economical way possible.

MEMORANDUM

Mr. Forster.

With regard to Doctor Scott's instructions for the installation of a domestic water supply system at the teachers' residence and the girls' school, and the wiring of the boys' and girls' schools at Caughnawaga, I beg to say that Indian Agent Letourneau was requested on the 15th instant in letter of file 5-1-5 to obtain the required information to enable the Department to purchase the necessary material and machinery for the above mentioned work. Up to the present no reply has been received to this letter, and I consider it, therefore, impossible to proceed with the wiring of the buildings during the Christmas holidays, and I would suggest that the above mentioned installations be postponed until next month when I return to the office.

Mr. Lorenzo Letourneau,
Indian Agent,
St.-Constant, Qué.

Dear Sir;---

We are pleased to submit you the following quotations for the electrical installation in the schools of Caughnawaga.

Although the upper rooms differ in the two schools the same number of lights and switches are required. Thirty-three lights and eighteen switches in each school having four classrooms, four wardrobes, two corridors, four entries, two stairways front porch, cellar and store room for books.

We shall be glad to take the contract for \$396.30 each school, all includes, with the best materials, concealed work, white opal shades special for schools, and drop chain as the difference in cost is but a trifle.

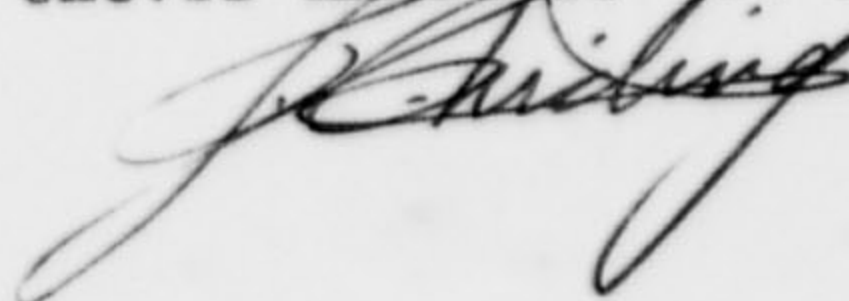

According to the inspectors of the Canadian Fire Underwriters, we are not allowed to use a drop cord in school rooms or public halls.

If you can favor us with an early reply, we can wire both buildings before the opening of school in January.

Trusting that these quotations will meet with your approval, we beg to remain, dear Sir, with the greetings of the season,

Yours very truly,

No. 5-1-5

Sir:-

I beg to acknowledge the receipt of your letter of the 15th instant regarding the proposed installation of an electric lighting system in both the boys' and Girls' schools at Caughnawaga.

In reply I beg to say that according to your instructions I have had the opportunity to locate a reliable electrician from whom we can be assured of a satisfactory installation, by contract, in both schools.

I am enclosing herewith the price submitted by Clovis Electric Coy. Limited, Montreal, which is \$396.30 for each of both boys' and girls' schools.

I believe that this is a very reasonable price and beg to recommend that this offer be approved by the Department.

(with enclosure) It is only after having been assured that the local Indian referred to in your letter could not very well undertake this work that I took upon myself to immediately look after a responsible and experienced electrician who can performed this work with a sufficient number of employees during the present school vacation, providing that this proposition meets with your immediate approval.

I beg to enclose herewith copy of an agreement made between the Department of Indian Affairs and the Missionary at Caughnawaga in the month of September 1919, permitting this Department to connect the water supply system of the girls' school to that of the Mission building. By referring to Article 7 you will note that the contract is to be in force during a period of 25 years. As you are aware the supply pipe from the Presbytery is often frozen and the Department has been compelled for this reason to provide water by some other means for this school. I would ask you, therefore, to interview the Missionary, at your convenience, to find out whether he would consent to cancelling this agreement next September. The Department would then be in a position to consider the installation of a small pneumatic water supply system, which would be more economical than the present arrangement.

In reply I have to request that you will have the Reverend Sister Superior obtain a price for the supplying of a cover for the piano, and you should then submit the same for the consideration of the Department. It is considered that a cover made of heavy cotton or duck would be satisfactory. When we have particulars as to the cost, consideration will then be given to authorizing the supplying of the cover.

Schools

My dear Sir:-

The prospects of a new school building for the next academic term has brought great joy to all. Rumors to that effect have circulated in the village and most of the people are rejoicing.

Owing to the change of site of the new building, our plans and suggestions for same cannot be carried out. Necessarily you need a clear conception of the requirements of the school before the sketch is made, so will you please allow me to submit an outline for your approbation. It is understood that it will be co-education throughout the schools.

- 1st. The Boys' School can accommodate the children of the First, Second and Third Grades, who live at the east end of the village. The extra classroom can be used for a lunch-room and a recreation room for the children on stormy days.
- 2nd. The Girls' School, if the roof is raised, can be used exclusively for the Continuation School --- Standard 7th & 8th - another class preparatory to the Quebec Academic Diploma -- a typewriting room - and a domestic-science room.
- 3rd. Six classrooms would be required in the new building for First, Second, Third, Fourth, Fifth and Sixth Grades -- besides the other rooms already mentioned on your first memorandum.
- 4th. I would suggest that the lease for the rented house across the road, which ends in August, be discontinued. Even though the new school building would not be finished for September we could organize matters to save expense of renting a house for a short period of time.

With deepest thanks for your great interest and co-operation in our Indian charges, I am, dear Sir,

Respectfully yours,

Sister Mary Rose Ahna
Principal.

OFFICE OF INDIAN AGENT

St-Constant, Que.,
April 23rd, 1927

Sir:-

I beg to inform you ^{that} the various school buildings of the village of Caughnawaga will need very few repairs at the present time, such as panes of glass, door knobs, valves for radiators. All the other minor repairs have been followed closely by each teacher, therefore, the classes are in good condition, except of course the school that is rented which is in very bad condition.

The fence in front of Boys' school is all broken.

I beg to ask your approval for the purchase of knobs etc., and the janitor can perform that work before school closes.

Teachers' residence:-

It would be necessary to have the verandah and railing painted during this summer. About four gallons of paint would be required. The roof is leaking. The plastered walls are crumbling in several rooms.

I also beg your authorization to purchase about 300 sq. feet of lumber to repair the stable near the teachers' residence.

Sir:

I have your letter of the 23rd instant, informing the Department of the repairs that will be required to the various school buildings in the Village of Caughnawaga.

In reply I beg to say that you may purchase the door knobs, panes of glass and valves for radiators, and you should arrange with the janitor to perform the necessary work in having them installed. You may also purchase the paint required and arrange to have the verandah and railing of the teachers' residence painted during the coming summer. We note that about 4 gallons of paint will be required for this purpose. You may also purchase and have delivered the 300' of lumber required to repair the stable, and arrange to have the repairs to this building and also the painting of the verandah and railing of the teachers' residence carried out.

No unnecessary expense should be incurred, and you should forward properly certified vouchers, in duplicate, covering all of the above authorized expenditures.

Relative to the repairs to the fence in front of the boys' school, I beg to say that any repairs required can stand over, as it is likely there will be other fencing required in connection with the lots on which the Department intends to erect the new school building this coming summer.

Relative to the repairs required to the roof of the teachers' residence and to the plaster in several rooms, I beg to say that you should draw this matter to the attention of Mr. Chene on the occasion of his next visit to Caughnawaga.

Sir:-

I beg to ask you whether the Department has finally decided the question as to the advisability to have a second story placed up on the Girls' school building into the Village of Caughnawaga.

In this connection, I beg to refer to your letter dated the 22nd December last - Dept-File No. 5-1-5 - by which I had been authorized to have the walls which were replastered to be given two coats of paint over the recent repairs. This work was to be performed at an approximate cost of \$135.00 has not yet been done.

Under will arrange

In case that the proposed construction of a second story would be carried out by the Department, it would therefore be advisable to have the closing exercises of the schools for the coming summer holidays to take place on or about the 17th of June. These exercises would then take place in a rather private way. The only distribution of prizes that would be required for the graduates would approximately cost \$20.00, instead of a sum of \$105.00 as the previous year, making a total saving of \$220.00.

Furthermore, I am informed that a few of the Reverend Sisters presently teaching at the various schools of Caughnawaga are just preparing their examination for a Higher Grade, which is to take place on the 18th and the 20th of June next.

Sir:

I have your letter of the 30th ultimo, relative to the supplying of a few necessary tools for the use of the janitor of the Caughnawaga Village Schools in making minor repairs to the school building and teachers' residence.

In reply I beg to say that you may arrange for the purchase of a jack-plane, mitre box, wrench, and a few other tools, which should not exceed approximately \$10. These tools should be kept with the other Government supplies and the janitor should see that they are well cared for and are not mislaid or stolen.

Relative to the building of a second story on the girls' building and the giving of two coats of paint over the recent repairs, I beg to say that Mr. Chene will make the necessary arrangements for this work and will also carry out any improvements considered advisable.

You may incur an expenditure not exceeding approximately \$20 in the purchase of prizes to be distributed to the graduates at the closing exercises of the schools for the coming summer holidays.

[Handwritten signature]
Please forward properly certified vouchers, in duplicate, covering the cost of the tools supplied the janitor and for the prizes.

May 17, 1927.

Memorandum:

Mr. Ferrier.

I have just had an interview with the Superior of the Caughnawaga Schools concerning the proposed erection of the Central School on the Caughnawaga Indian Reserve, and beg to say that the plans which were prepared to meet the requirements of the building of the type and dimensions to provide the necessary accommodation will cost about \$42,000.00.

The drawings as prepared provide for an assembly hall with a stage, etc., which, owing to its construction, cannot be turned into class rooms in the future.

I would like to be advised whether the sewerage system is to be included in the contract for this building or if separate prices are to be invited at a later date.

*Mr. Cheue:-
I suggest tenders
for completed building +
alternative tenders with auditorium
and basement prepared for
plantering. No plumbing for
+ sewerage could also be for
alternative price.

Dear Sir:-

I understand that you are about to build a new school for the boys at Naughnawaga. Without wishing in any way to intrude in your plans, let me suggest that at least one extra class is needed. Sister May Rita, with 51 registered, and 48 present, has too large a number for efficient work.

The Protestant Separate School is in existence and I think, to stay, so, in all justice and charity, cleaner and more ample quarters should be provided.

Your humble servant,

Caughnawaga, May 21, 1927

My dear Sir,

Please pardon me if I trouble you again concerning the money for prizes. After a full day's search trying to get each graduate a prize, I found that the meagre amount I asked for (\$20.00) was not sufficient. I should be very grateful if you allowed me as much more if possible.

The news of no prizes given, except to the pupils of the Continuation School has caused a little commotion, so with that small additional amount, I could purchase prizes for the pupil of each class, who has obtained the highest marks during the scholastic year.

Hoping you will find my request reasonable, I am, my dear Sir,

Yours very cordially,
Sister Mary Rose Alma.

Madam:-

Replying to your letter of the 21st instant, I beg to inform you that you may incur an extra expenditure of \$20 in the purchase of prizes or other gifts for the pupils of the Caughnawaga R.C. Village Schools. This will make a total amount of \$40 which you can expend for this purpose.

Please obtain accounts, in duplicate, and hand them to Mr. Agent Letourneau, who will certify same and send them to the Department for payment. Please inform the Agent of the authority granted you for the expenditure.

Your obedient servant,

J. D. McLEAN

My dear Sir,

The Gold Piece so graciously offered each year by the Department, to the girl of the Continuation Class who has obtained the highest marks during the academic year, has been won by Viola Jocks.

We all rejoice with her; her constant application has been crowned with success.

Thanking you for your encouragement, I am, dear Sir,

Yours respectfully,

WE live in an age of Rapid Change and Speed, the exacting requirements of which show themselves particularly in the school field.

The problem of the educator is a severe one and he must resort to every aid for his teaching staff, which will prevent waste and promote efficiency.

No single school equipment has ever accomplished more in this direction than STANDARD ELECTRIC TIME SERVICE, for it produces the following marked improvements in any school. First, it provides a uniform, accurate time system throughout the building. Second, it automatically rings the program bells on predetermined schedules, exactly synchronized with the clock system. Third, it promotes punctuality and individual efficiency on the part of both pupils and teachers.

A Standard Electric Time System is an excellent investment for any school, in fact it is really an essential for the proper conduct of a school, under present conditions.

The Standard Combination Equipment has been perfected for the purpose of furnishing schools and colleges with a complete, practical system cover-

ing not only electric time and program systems, but a simple, reliable telephone service and effective fire alarm as well. All of this equipment is operated from one common storage battery which is automatically kept charged by the master clock itself. This Combination Equipment provides a school with the most complete equipment at minimum first cost as well as little upkeep expense. There is one further advantage in the Standard Combination Equipment in the guarantee which covers the system as a complete unit with no divided responsibility.

The importance of having one manufacturer furnish and install, guarantee and service a complete equipment of this kind, cannot be over-estimated. It is one of the main reasons why "Standard" is the pre-dominant choice of Architects, Engineers and School Officials.

All Standard Equipment has been perfected as a result of nearly a half century's experience and is designed to satisfactorily meet the most exacting school requirements.

You Can Depend on "Standard."

One of our Sales Engineers will gladly look over your requirements and furnish information and specifications on a practical equipment for your needs. This service is gratis, whether you purchase or not.

Gentlemen:

We understand that you will soon be receiving
tenders for a school at Caughnawaga, Quebec.

We as Manufacturers of Electric Clock Systems
having many systems in the Cities of Montreal and Ottawa
will be very pleased to submit a proposition to you for
Electric Clocks throughout this building,

Our clocks are used extensively in your City, and
The Dominion Astronomical Observatory have been using our
Secondary clocks for many years, as have also The Department
of Public Works in many of your local buildings.

Our equipment is made at Montreal and is absolutely
guaranteed, and we look forward to hearing from you at your
convenience.

Yours very truly,

MEMORANDUM:

Mr. Scott.

There is at present a well boring machine boring an artesian well at the Caughnawaga Indian Hospital. This well, I understand, will be completed in a day or so, and I would suggest that the Department take advantage of the machinery being on hand to have an artesian well bored on the site of the proposed new Central School, which is being erected a short distance from the hospital.

Prices submitted by the contractor are very reasonable, and the work of the contractor for the building will be facilitated greatly if water is available on the site of the work.

We are not quite certain of the correct interpretation of the clause in the first alternative, referring to Plumbing Fixtures, but our alternative price includes the roughing in work, furnishing the fixtures, but we have omitted the labor of installing them.

We hope that you will find this tender satisfactory, and we can assure you that our organization is capable of handling the work, having executed several school buildings of this nature in the Eastern Townships.

Dear Sir:

Re: New Central School - Caughnawaga, P.Q.

Please find attached tender and some letters of reference. We have also had charge of the building of the new Technical School at Shawinigan Falls; also have constructed work for the School Commission at Three Rivers, P.Q. and would refer you to Mr. Arthur Betty, M.P., President, Three Rivers School Commission.

We have a good organization of experienced foremen and plant and if awarded the contract we are positive we can give you or your representatives entire satisfaction.

Trusting to receive the favour of your valued order, we beg to remain,

Respectfully yours,

June 21, 1927.

MEMORANDUM:

Mr. Scott.

Tenders were receivable at noon of the 20th instant, for the construction of the new Central School at Caughnawaga, and the following tenders, made on the regular forms in accordance with the requirements of the advertisement, were submitted. The tenders contained two separate prices, one for the complete erection of the proposed building, and the second one provided for the finishing of the ground floor only, where the class rooms are located, the basement and the first floor to be completed on the outside only, as described in detail in the specification.

Name of Contractor,	Price for Complete building.	Alternative Price.
Bremner Norris & Co., Montreal,	\$56,594.00	\$50,349.00
Durancan & Durancan, Montreal,	\$56,500.00	\$43,700.00
Newton Construction Co., Sherbrooke,	\$52,300.00	\$46,799.00
LaFlamme & LaFlamme, Shawinigan Falls,	\$48,600.00	\$43,500.00
A. LaCroix, St. Lambert,	\$48,355.00	\$42,633.00
MacKenzie & Genest, Hull,	\$44,847.00	No alternative price

The cost of the building was estimated to amount to \$42,000.00. Should funds not be available to award a contract to the lowest tenderer, I would suggest that the contractors be requested to submit a new tender for the construction and completion of the first two stories only, with a temporary flat roof. The third story which provides for an assembly hall only could be erected next year or later, and the material forming the temporary roof could be used again in the construction of the permanent gable roof. If you approve of this suggestion special forms of tender could be sent for the purpose and revised prices obtained in the course of six to ten days. This arrangement will, in my opinion, bring the expenditure close to the amount appropriated for this building.

I may add that it should be taken into consideration that the water and sewerage system will be installed this year. The source of supply for the water system will be from an artesian well, and will probably cost in the neighborhood of \$400.00, whereas the sewerage system will be quite expensive. It will consist of a vitrified sewer pipe line extending from the building to the St. Lawrence river and the system

will be costly on account of the nature of the ground, which is solid rock. This work can be performed later in the season either by day labour, employing Indians or by contract.

As already mentioned a building of smaller dimensions than that under consideration will not meet the requirements of the increased attendance at the schools on this reserve.

Sir,-

I wish to acknowledge receipt of your letter of the 17th instant, together with a cheque amounting to \$25.00 to pay for a set of plans and specifications for the proposed new school to be erected on the Caughnawaga Indian Reserve.

In reply I beg to say that the tenders for this building closed on the 20th instant, and it is too late now to submit any price for this work. I am for this reason returning herewith your cheque, and would ask you to acknowledge receipt of this letter.

Certified to be a true copy of a Minute of a Meeting of the Committee
of the Privy Council, approved by His Excellency the Governor
General on the

30TH JUNE 1927

5-1-15-
The Committee of the Privy Council have had
before them a report, dated June 23rd, 1927, from the
Superintendent General of Indian Affairs, stating that,
the same being necessary, tenders were called for the
proposed new Central School at Caughnawaga, in the
Province of Quebec, the same to be receivable at noon
of the 20th June, and that the following tenders were
received, together with the required deposit security:

Bremner Norris and Company, Montreal, \$56,594
Duranceau and Duranceau, Montreal, 56,500
Newton Construction Co., Sherbrooke, P.Q. 52,300
LaFlamme and LaFlamme, Shawinigan Falls, P.Q. 48,600
A. LaCroix, St. Lambert, P.Q., 48,355
MacKenzie and Genest, Ottawa, Ont., 44,847

Looped
The Engineer of the Department of Indian
Affairs has reported that the lowest of the above tenders,
namely that of Messrs. MacKenzie and Genest of Ottawa,
Ont., is fair and reasonable.

The Minister recommends that said tender be
accepted pursuant to the requirements of Sub-section 2
of Section 36 of the Public Works Act. Funds for this
purpose are available from Parliamentary appropriation.

The Committee concur in the foregoing recom-
mendation and submit the same for approval.

ADDRESS REPLY TO THIS LETTER TO ⁷⁵² VICTORIA SQUARE

Montreal, P.Q. Canada June 30, 1927.

Chief Architect,
Department of Indian Affairs,
OTTAWA, Canada.

Dear Sir:-

We understand that you are receiving
tenders for a new Indian School to be erected at
Caughnawaga.

We would appreciate it very much indeed
if you would be kind enough to advise us, at your
early convenience, if the general contract has been
let, and if so, to whom?

We manufacture Asbestoslate at Lachine,
which is just across the river from Caughnawaga,
so that we are in a position to make economical,
rapid delivery, and Asbestoslate will give the very
maximum in satisfaction, fire safety and permanence.

Awaiting your reply, and thanking you, we
are,

Yours very truly,

Sir,-

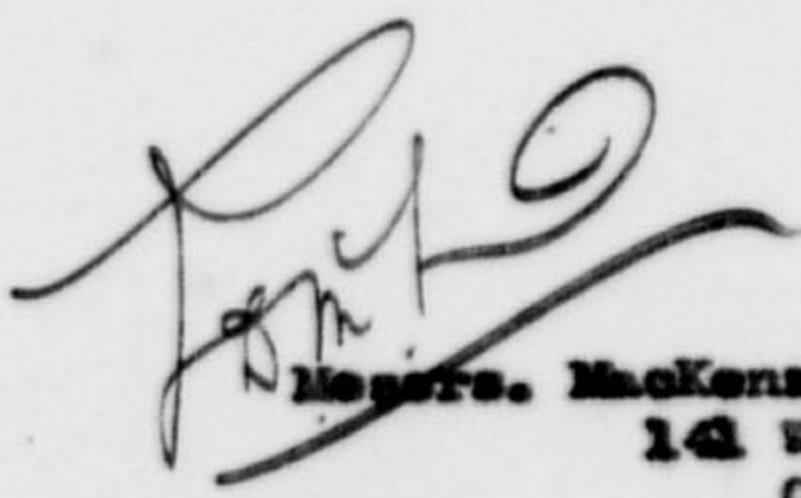

I beg to inform you that your tender of the 18th of June for the erection of the new Central Day School at Caughnawaga, amounting to \$44,847.00 has been accepted, and I am enclosing herewith contract forms in duplicate, duly filled in. These should be signed by you in the presence of a witness, and returned to the Department. After they are signed by the Deputy Superintendent General a copy will be sent you.

Copies of the plans and specifications will be furnished you upon request. I would request that you advise me by return mail when it is your intention to proceed with this work, in order that arrangements can be made to give you the exact location of the building.

I might say that it is the intention of the Department to have a building inspector supervise this work on behalf of this Department, and you will be further advised as to the name and address of this officer at a later date.

Ottawa 12th July, 1927.

Sir,-

In reply to your letter of the 8th instant, I beg to say that the voucher therein referred to which you submitted in favour of the Revd Sister Superior of the Indian Day Schools, Caughnawaga, contained certain errors, which were corrected, with the result that the cheque sent forward was drawn for \$123.15. Attached to the said voucher were two accounts made out respectively for \$44.25 and \$45.90. The first was paid as rendered. It contained a charge of \$1.50 under date the 5th April. This charge was repeated in the second account, and therefore it was disallowed. There was a mistake also under date the 22nd May in the second account. The said item, according to the receipt submitted should have been 80¢ not \$1.30. Kindly explain the matter to the Revd. Sister, and in future endeavour to see that accounts are correct before you submit them for payment.

Your obedient servant.

J.D. McLean.

NO. 5-1-5

Sir:-

I beg to refer to your letter of the 12th instant relative to voucher 1144 dated 23rd ultimo and to say that after having carefully reexamined the account submitted by the Rev. Sister Superior I am under the impression that the amount of \$125.15 as previously submitted was correct.

I beg to explain that the first account of \$44.25 contained an item under date of April 5th, viz "Trip to St-Isidore Road School - \$1.50". This charge was made for the driver, whom had been paid that sum of \$1.50. While into the second account, at the same date of April 5th, a charge of a similar amount was made by the Rev. Sister Superior as "Visitation St-Isidore Road School", which amount is her own usual fee granted by the Department in this connection.

The same thing happen under date of the 22nd May in the second account. The railway express charge shows .80¢, while the account submitted is \$1.30 because this difference of .50¢ was to pay the transportation of this article from the railway station to the teachers' residence.

Sir,-

Will you please advise me of the price which you would charge to undertake the following repairs to the Boys' and Girls' Schools in Caughnawaga, the amount for each item to be given separately.

Boys' School.

1. Reconstruction of the fences in front of the building the entire length of the lot, using four inch cedar rounded posts placed every six feet, and using same wire fencing fastened to two lines of 2 x 4 railing at top and bottom.
2. Painting of all the porches and the outside doors two coats of oil paint all over.
3. Reconstruction of the cement base of the brick piers underneath the porches.
4. Repairing of the galvanized iron roof.
5. Furnishing new gates similar to those already in place for each entrance to the school lot.
6. Adjusting all inside doors.
7. Painting of fire escapes one coat of black oil paint.

Girls' School.

1. Straightening and readjusting of fencing around school lot.
2. Painting of the fire escapes one coat of black oil paint.
3. Painting of all plastering of the first floor assembly hall, two coats on plaster which has been repaired and one coat elsewhere. Paint to be first class oil paint of colour approved by the Superior of the School.

It is intended to have the above mentioned work performed as soon as the electric wiring has been completed.

Monsieur J.D. Chéné,

Monsieur;-----

En réponse à votre lettre du 22 juillet, nous tenons à vous faire savoir que l'installation électrique des deux écoles de Caughnawaga pourrait être faite en conduit métallique et en cble métallique là où on pourrait le poser en dedans des plafonds et en dedans des murs pour les descentes de switches.

L'installation des étages supérieures pourrait faite tout en cable métallique. Le coût de cette installation serait beaucoup moindre que l'installation en moulure métallique.

Ci-inclus une liste des matériaux requis pour les deux écoles. Les deux installations sont semblables et requièrent la même quantité de matériaux.

Bien à vous,

THIS LABEL WILL BE FOUND ON EACH 100
FT. UNIT CARTON OF WIREMOLD CONDUIT.

Foreword

Up to the present time Wiremold Conduit, catalogue No. 500 and Fittings, for surface wiring, corresponding with $\frac{1}{2}$ " pipe and fittings, has met with phenomenal success in extension work requiring circuits of two and three wires.

The four wire size Wiremold Conduit, catalogue No. 700, with the new large size Fittings recently placed on the market, corresponds with $\frac{3}{4}$ " pipe and fittings. This new large size Wiremold Conduit System opens up vast new fields of wiring where circuits of four wires are required, such as factories, railroad buildings, lofts, warehouses, department stores, office-buildings, hospitals, school buildings and the like.

Rugged construction, plenty of wiring room, solid slip-joint connections and double twistouts for use with both No. 500 or No. 700 Wiremold Conduit, characterize the new large size Wiremold Conduit Fittings.

SIZE

Inside dimensions: $1\frac{3}{32}$ " high, $\frac{9}{16}$ " wide.

No. 500 Wiremold Conduit System for surface wiring is designed for extension work requiring circuits of two and short runs of three wires.

No. 500 Wiremold Conduit base is galvanized and its capping finished with special, high grade enamel of neutral tint particularly selected to blend with colorings of average walls and ceilings.

No. 500 Wiremold Conduit is furnished in standard ten foot lengths with one coupling to each length, like pipe.

No. 500 Wiremold Conduit and its accompanying fittings require no special tools of any kind for assembly and only screw driver, hack saw, (32 tooth, flexible back), and No. 600 Wiremold Bender for installation.

No. 701 REDUCING CONNECTOR

Reducing Connector is designed to connect No. 700 Wiremold Conduit with No. 500 Wiremold Conduit Fittings as shown in picture.

BASE COUPLING

One No. 501 is furnished with each length of Wiremold Conduit but extra couplings must be used where short lengths are installed.

BUSHING

No. 502 should be used wherever No. 500 Wiremold Conduit enters fittings.

CLIP

No. 503 Clip provides concealed support in middle of lengths and for lining up runs.

STRAP

No. 504 is designed for use in cases where exceptionally rigid support is required for No. 500 Wiremold Conduit.

ONE HOLE STRAP

No. 505 is designed to support No. 500 Wiremold Conduit in the middle of lengths where runs are made on concrete or tile surfaces which are hard to drill for supporting screws.

CONNECTION COVER

No. 506 is designed to cover cracks between adjoining lengths of No. 500 Wiremold Conduit which have not been cut square enough to make a good appearing joint.

GROUND COUPLING

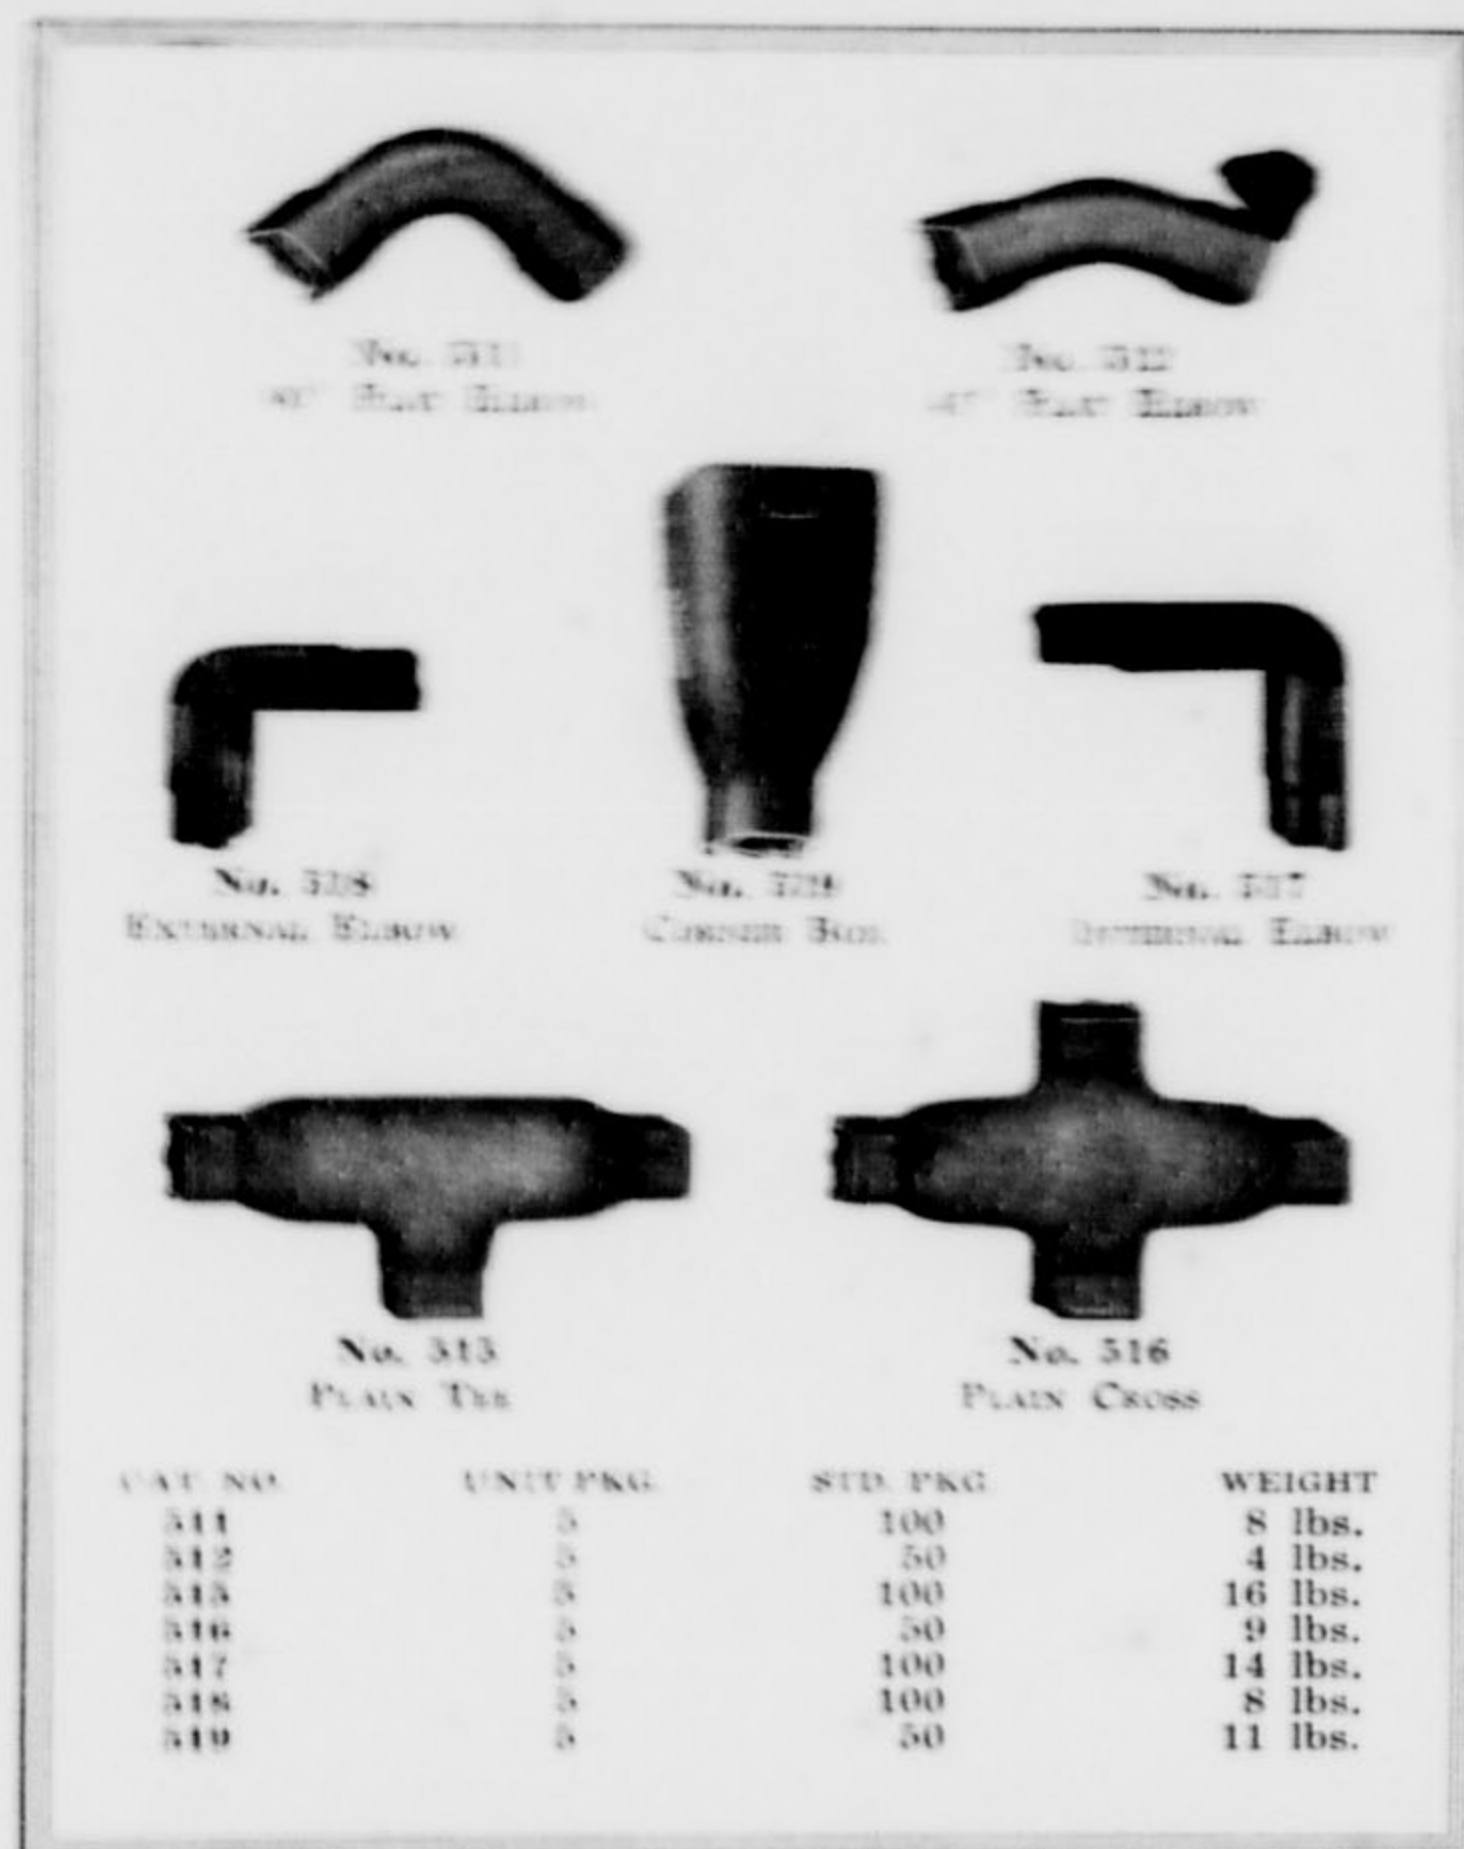

No. 509 is a standard, screwless ground coupling for Wiremold Conduit.

USE OF FITTINGS ON OPPOSITE PAGE

The Wiremold Elbows shown on the opposite page are made up of a base plate, which is provided with hole for No. 8 flat head supporting screw and tongues for coupling base with Wiremold Conduit, and a cover piece which is fastened in place by snapping its end ribs over the capping of No. 500 Wiremold Conduit.

The No. 515 Tee and No. 516 Cross shown on the opposite page, assemble with No. 500 Wiremold Conduit in the same manner as described above for the Elbows.

The No. 519 Corner Box has been designed to provide in a single fitting, for most of the many corner combinations necessary where No. 500 Wiremold Conduit runs up the sidewall and must be turned and run close up in the corner on the ceiling or vice versa.

Fig. 1 for example, shows No. 519 used to form a "twisted elbow;" Fig. 2 used as a "twisted tee;" Fig. 3 as still another form of "twisted tee" and Fig. 4 as a "twisted cross"—these being but a few of the many combinations possible with this fitting.

USE OF FITTINGS ON OPPOSITE PAGE

Wiremold Elbows shown on the opposite page are made up of a base plate, which is provided with hole for No. 8 flat head supporting screw and tongues for coupling base with Wiremold Conduit, and a cover piece which is fastened in place by snapping its end ribs over the capping of No. 500 Wiremold Conduit.

The No. 515 Tee and No. 516 Cross shown on the opposite page, assemble with No. 500 Wiremold Conduit in the same manner as described above for the Elbows.

The No. 519 Corner Box has been designed to provide in a single fitting, for most of the many corner combinations necessary where No. 500 Wiremold Conduit runs up the sidewall and must be turned and run close up in the corner on the ceiling or vice versa.

Fig. 1 for example, shows No. 519 used to form a "twisted elbow;" Fig. 2 used as a "twisted tee;" Fig. 3 as still another form of "twisted tee" and Fig. 4 as a "twisted cross"—these being but a few of the many combinations possible with this fitting.

Contact Block

ONE PIECE ROSETTE

No. 521 is an all steel rosette in which drop cords must be spliced to circuit wires as no contact block is provided for the purpose.

TWO PIECE ROSETTE

No. 522 is the same as No. 521 except that it is equipped with contact block having terminals for tapping cords from circuit wires.

1/8" FIXTURE ROSETTE

No. 523 is the same as No. 521 One Piece Rosette save that it is equipped with a high grade insulating bushing which is tapped for 1/8" fixture stems. It is made in 1/8" only.

COMBINATION ROSETTE

No. 524 is an all steel rosette and is provided with (1) a fiber insulating washer designed to hang heavy drop cords up to No. 12 reinforced, and (2) a special chase nipple with locknut which may be used to hang either 3/8" or 1/2" fixtures as the nipple is tapped inside for standard 3/8" thread and provided with standard 1/2" thread on the outside.

CONTACT BLOCK

For use with Nos. 521, 522, 523 and 524 Fittings.

NOTE: The four fittings listed on this page are all mounted on the standard 2 1/2" Wiremold base plate and are interchangeable. Any one of them may be removed after installation and any other substituted without disturbing the outlet.

RECEPTACLE BASE

No. 525 is an all steel receptacle base equipped with a ready-to-wire tap block and a standard fluted or wrinkled ring, so that any standard socket body, ceiling pull switch or similar Schedule B device designed to fit fluted or wrinkled socket caps may be mounted upon it.

KEYLESS RECEPTACLE

No. 526 is an all steel keyless receptacle of standard Edison type equipped with a special, easy-to-wire keyless socket interior and a standard thread on shell to take "Uno" and other types of shade holders.

ATTACHMENT PLUG

No. 527 is made up of a steel housing in which is mounted a standard, easy-to-wire, 10 amp. attachment plug base with Double T slots which permit the use of plug caps having either tandem or parallel blades.

NOTE: The three fittings listed on this page are all mounted on the standard 2 1/2" Wiremold base plate and are interchangeable. Any one of them may be removed after installation and any other substituted without disturbing the outlet.

2 1/4" BLANK COVER

No. 531

No. 531 is designed for use as a blank cover for boxes No. 532 or 533 when they are used as pull boxes or junction boxes but as it is provided with a 7/8" knockout it may also be used to hang light pendant fixtures with large stems or drop cords.

2 1/2" OUTLET BOX

No. 532

No. 532 is designed primarily as a base for standard 5 ampere snap or tumbler switches but may also be used as a junction or pull box and for mounting various concealed base wall sockets, rosettes and similar fittings, bases of which do not exceed 2 1/2" in diameter.

3" OUTLET BOX

No. 533

No. 533 is designed primarily as a base for standard 10 ampere snap or tumbler switches but like No. 532 may also be used as a junction or pull box or for mounting various concealed base wall sockets, ceiling pull switches and similar fittings, bases of which do not exceed 3" in diameter.

No. 532 and 533 are 5/8" deep inside and are equipped with one 7/8" knockout in the center of the base plate.

4" BLANK COVER

No. 536

No. 536 is for use with boxes No. 537 and 538 where they are used as junction or pull boxes or for hanging 1/2" fixture or drop cords, as it is provided with 7/8" knockout.

4 3/4" EXTENSION BOX

No. 537

No. 537 is for use in extending with No. 500 Wiremold Conduit from existing pipe outlets, its base plate being arranged with special slots for the purpose and both its base plate and cover split so that it may be installed at old fixture outlets without taking the fixture down.

4 3/4" FIXTURE BOX

No. 538

No. 538 is primarily designed for use in hanging fixtures but is also equipped with screw holes in its cover that permit almost any device which may be hung on a 3 1/4" or 4" round conduit box to be mounted on No. 538 as well. In addition to four twistouts for No. 500 Wiremold Conduit entrance, No. 538 has four holes for fixture studs and five knockouts for 1/2" conduit in its base plate, arranged as in standard 4" round conduit boxes.

ROUND CANOPY RING

No. 542

No. 542 is for use with either No. 537 or 538 when fixtures having canopies larger than 4 1/2" are hung on either of these two boxes as it provides an extension base for canopies up to 6 1/4" in diameter.

Nos. 537 and 538 are 5/8" deep inside.

**No. 700
WIREMOLD CONDUIT**

Inside dimensions, $1\frac{1}{32}$ " high, $\frac{9}{16}$ " wide.

No. 700 Wiremold Conduit System for surface wiring is designed for use in large installations requiring circuits of four wires, such as factories, railroad buildings, lofts, warehouses, department stores, office buildings, hospitals, school buildings and the like. Is also ideal for signal and call systems.

No. 700 Wiremold Conduit is rolled from high grade sheet steel and is so finished that the portion which lays against the surface wired over is galvanized, while the section visible after installation is finished in a neutral tone enamel that will blend with any color scheme and act as a ground coat for graining or staining. Also covers with one coat of flat white.

No. 700 Wiremold Conduit is furnished in standard ten foot lengths with one coupling to each length, like pipe.

No. 700 Wiremold Conduit and its accompanying fittings require no special tools of any kind for assembly and only screw driver, hack saw, (32 tooth, flexible back), and No. 600 Wiremold Bender for installation.

NOTE: The new large size fittings listed on the following pages are equipped with double twistouts making it possible to use them interchangeably with No. 500 or No. 700 Wiremold Conduit.

CAT. NO.	UNIT PKG.	WEIGHT
700	100 ft.	36 lbs.

Wiremold Conduit is installed exactly like pipe, except that a simple, patented "slip joint" is used for coupling lengths and for coupling with fittings, rather than the threaded coupling required for pipe.

Wiremold Conduit is furnished with one coupling with each length, as shown in Fig. 1.

To connect lengths of Wiremold Conduit, first push the coupling part way out of the end of Wiremold Conduit and fasten the coupling to the ceiling or wall as shown in Fig. 2.

Slip the next length of Wiremold Conduit over the edges of coupling, as shown in Fig. 3, below, thus providing a concealed coupling and firm support for Wiremold Conduit at the end of lengths.

FIG. 1

FIG. 2

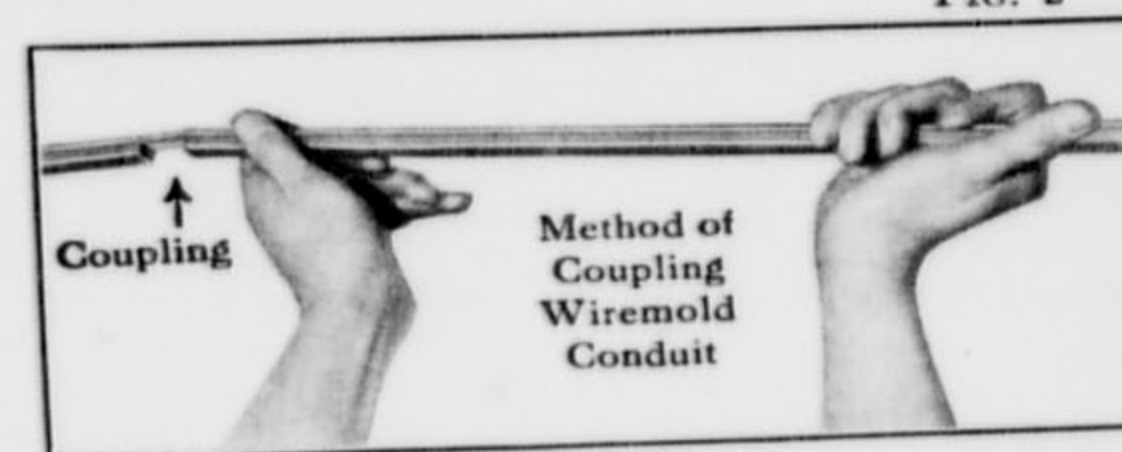

FIG. 3

Wiremold Conduit is now being produced with its curled edges extended, to grip firmly the tongues of Wiremold Fittings and to make this same simple, "slip joint" connection.

BASE COUPLING

One No. 5701 is furnished with each length of No. 700 Wiremold Conduit but extra couplings must be used where short lengths are installed.

BUSHING

No. 702 Bushing should be used to protect wires where No. 700 Wiremold Conduit enters fittings.

CLIP

No. 5703 Clip provides concealed support in middle of lengths and for lining up runs.

ONE OR TWO HOLE STRAP

No. 704 One or Two Hole Strap is of the rugged type and is designed for use with No. 700 Wiremold Conduit. As it comes from the factory it is for use as a Two Hole Strap where rigid support is required and by breaking off the scored leg it may be used as a One Hole Strap.

GROUND COUPLING

No. 5709 is a standard, screwless ground coupling for Wiremold Conduit and is installed as illustrated on opposite page.

INTERNAL ELBOW

Nos. 5711-17-18 Elbows consist of base plates provided with tongues for slip joint connections with No. 500 or No. 700 Wiremold Conduit and cover pieces as shown. The cover pieces just as they come from the factory will fit No. 500 Wiremold Conduit, and by breaking off the crescent-shaped twistouts will fit No. 700 Wiremold Conduit. The covers are fastened into place by snapping their curls over the capping of No. 500 or No. 700 Wiremold Conduit. These elbows are designed for use as "pull boxes." Wires cannot be fished around them with their covers in place.

USE OF FITTINGS ON OPPOSITE PAGE

To install fittings listed on opposite page, first assemble coupling tongues in their base plates with No. 500 or No. 700 Wiremold Conduit as shown in Fig. 1,—making sure that coupling tongue goes *outside* the base of Wiremold Conduit.

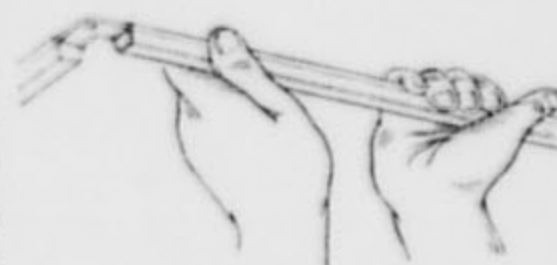

FIG. 1

Second, after fastening the base plate to the wall with wood screw or toggle bolt, push in or fish in the wires, as shown in Fig. 2.

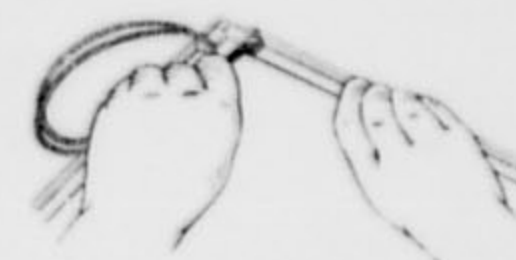

FIG. 2

Third, snap on the cover as it comes from the factory for use with No. 500 Wiremold Conduit or, break off the crescent shaped twistouts in the ends for use with No. 700 Wiremold Conduit.

FIG. 3

Do not put covers on any of these fittings until wiring is completed.

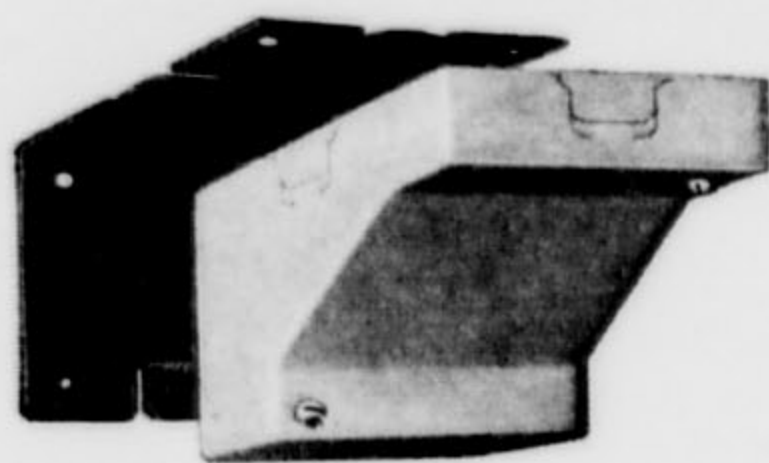

NOTE: No. 5711 elbow cover will not fit old No. 511 base, as cover is not interchangeable.

The covers only of Nos. 5717 and 5718 Elbows can frequently be used to advantage in breaking around beams or from sidewall to ceiling, as described on page 44.

No. 5728
UTILITY BOX

No. 5728 is designed to provide in a single fitting, with abundant splice room, for many uses, namely: "tee," "cross," "junction box," "rosette" for drop cords and fixtures, and is especially useful for show-window lighting, show cases, parallel circuit runs and narrow dimension places.

No. 5728 Utility Box has a base with two holes for No. 8 flat head supporting screws and a knockout for $\frac{1}{2}$ " pipe or BX connector, also four tongues for slip joint connections with both No. 500 or No. 700 Wiremold Conduit. The cover piece has four double twistouts for use with both No. 500 or No. 700 Wiremold Conduit. In addition the cover has a $\frac{3}{8}$ " knockout in which there is a $1\frac{3}{32}$ " flanged hole with a plug for use as a junction box and by pushing out the plug may be used as a rosette for drop cords. By breaking out the knockout for $\frac{1}{2}$ " pipe or BX connector and using any standard adapter it may be used to hang either $\frac{3}{8}$ " or $\frac{1}{2}$ " fixtures.

No. 5731

2 1/4" BLANK COVER

No. 5731 is designed for use with No. 5733 Box when used as a pull or junction box or for hanging light pendant fixtures with large stems, as it is provided with a 1/2" pipe knockout.

3" OUTLET BOX

Outside dimensions: Diameter, 3 inches. Height, 1 inch.

Device screw spacing: 1 15/32", 1 5/8", 1 23/32", 1 27/32" centers.

Holes are arranged so that Tumbler Switches will operate vertically.

Cover has four double twistouts, making it possible to use this fitting with both No. 500 or No. 700 Wiremold Conduit.

No. 5733 is designed primarily as a base for all types of standard 5 or 10 ampere switches, but may also be used as a pull or junction box or for mounting various wall sockets for concealed base receptacles and rosettes, ceiling pull switches and similar fittings, bases of which do not exceed 3 inches in diameter.

No. 5733

4" BLANK COVER

No. 5736 is for use with boxes Nos. 5737, 5738 and 5739 where they are used as pull or junction boxes or for hanging 1/2" fixtures or drop cords, as it is provided with a 1/2" pipe knockout.

BOX CONNECTOR

PIPE COUPLING

No. 5781 and 5781-A are for use to couple No. 500 or No. 700 Wiremold Conduit to fittings having knockouts for $\frac{1}{2}$ " and $\frac{3}{4}$ " pipe.

No. 5782 and 5782-A are for use in coupling No. 500 or No. 700 Wiremold Conduit to $\frac{1}{2}$ " or $\frac{3}{4}$ " pipe.

No. 5785

COMBINATION CONNECTOR

No. 5785 base has a tongue at one end for slip joint connection with No. 500 or No. 700 Wiremold Conduit and a knockout in the bottom and opposite or upright end for $\frac{1}{2}$ -inch pipe or BX connector and a cover piece as shown. The cover piece just as it comes from the factory will fit No. 500 Wiremold Conduit and by breaking off the crescent shaped twistout will fit No. 700 Wiremold Conduit. The cover is fastened into place by snapping its curls in the one end over the capping of No. 500 or No. 700 Wiremold Conduit and locking the slots in the opposite end into the lugs of its base plate.

USE OF FITTINGS ON OPPOSITE PAGE

No. 5781, 5781-A, 5782 and 5782-A have tongues at one end for slip joint connections with No. 500 or No. 700 Wiremold Conduit, and just as they come from the factory will fit No. 500 Wiremold Conduit and breaking off the twistout in the end by driving it through the fitting with a screw-driver, will fit No. 700 Wiremold Conduit.

No. 5785 is designed to provide in a single fitting, with abundant splice room for coupling Wiremold Conduit with runs of $\frac{1}{2}$ " pipe, as shown in Fig. 1; metallic flexible conduit or armored cable as shown in Fig. 2; conduit boxes, conduit type fittings, safety switch cabinets as shown in Fig. 3; and similar devices having $\frac{1}{2}$ " knockouts or threaded hubs.

Fig. 4 shows the use of No. 5785 in making elbow connections where circuits are run along the ceiling in Wiremold Conduit and must pass to the floor above in $\frac{1}{2}$ " pipe.

Taps may also be made from the back of No. 5785 with armored cables, by using a squeeze connector in the back in the same way shown in Fig. 2.

NO. 600 WIREMOLD BENDER

NET PRICE UNIT PKG. STD. PKG. WEIGHT
\$2.00 1 10 25

Handle is Not Furnished with this Tool. Use about 2' length of pipe.

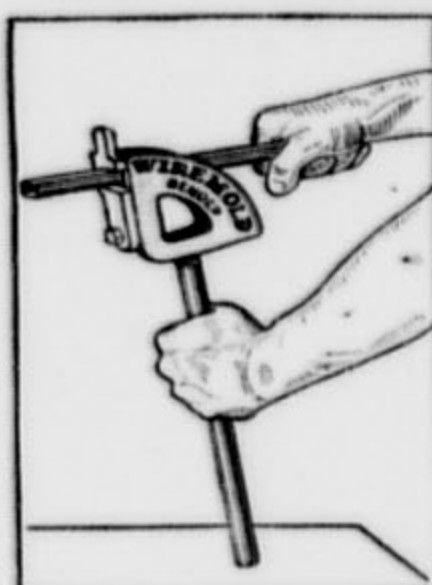

Fig. 1

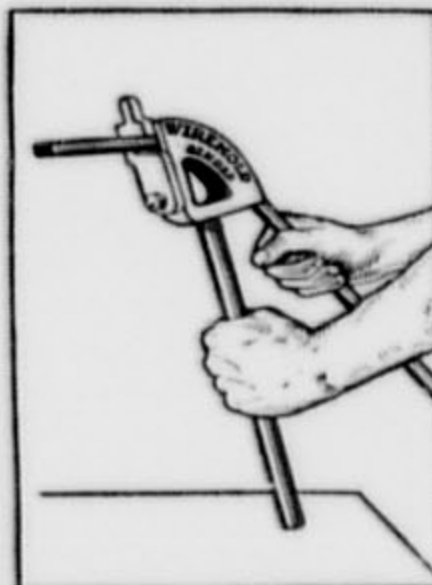

Fig. 2

Fig. 3

To make an internal bend or offset with Wiremold Bender, put Wiremold Conduit into the tool as shown in Fig. 1 above, apply pressure close to the tool as in Fig. 2, and finish bend as in Fig. 3. External bends or offsets are made in same manner by simply reversing position of Wiremold Conduit in Bender.

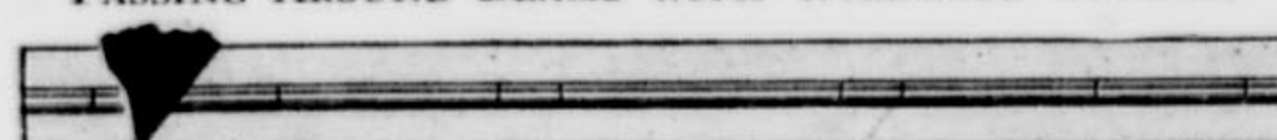

Fig. 4 shows how bends or offsets may be made in the middle of a length of Wiremold Conduit with Wiremold Bender on floor using foot support and applying pressure close to tool as indicated by arrow in circle.

No. 600 Wiremold Bender is a small hand tool with which Wiremold Conduit may be easily offset or bent on radii down to 3" without reducing the raceway.

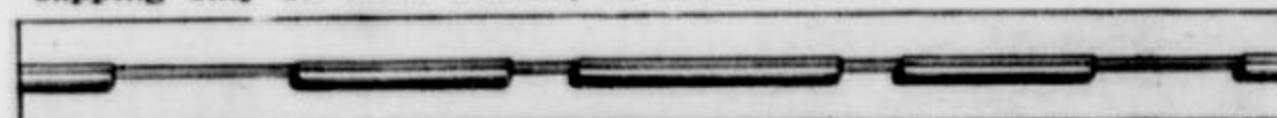

Fig. 4

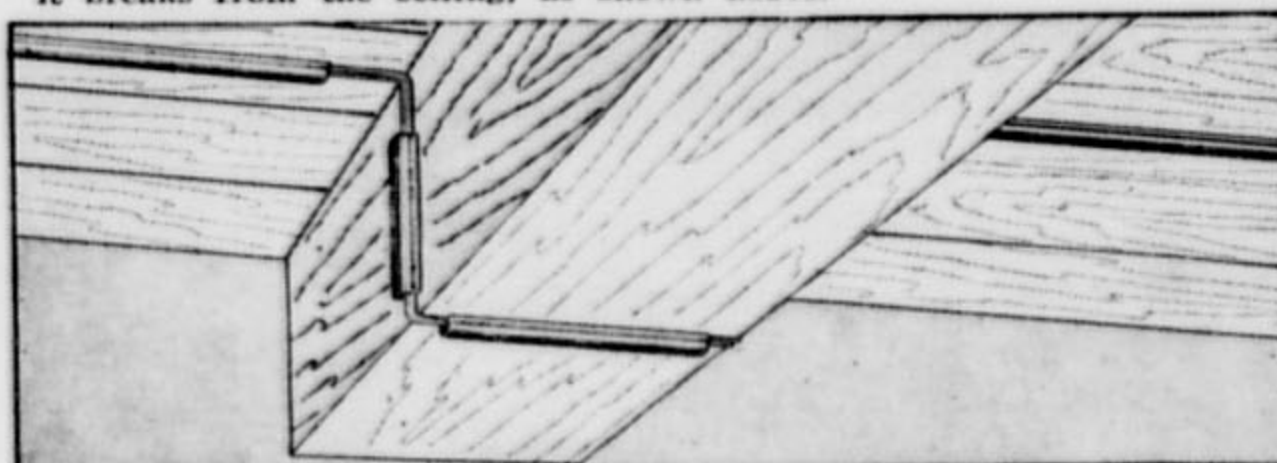

PASSING AROUND BEAMS WITH WIREMOLD CONDUIT

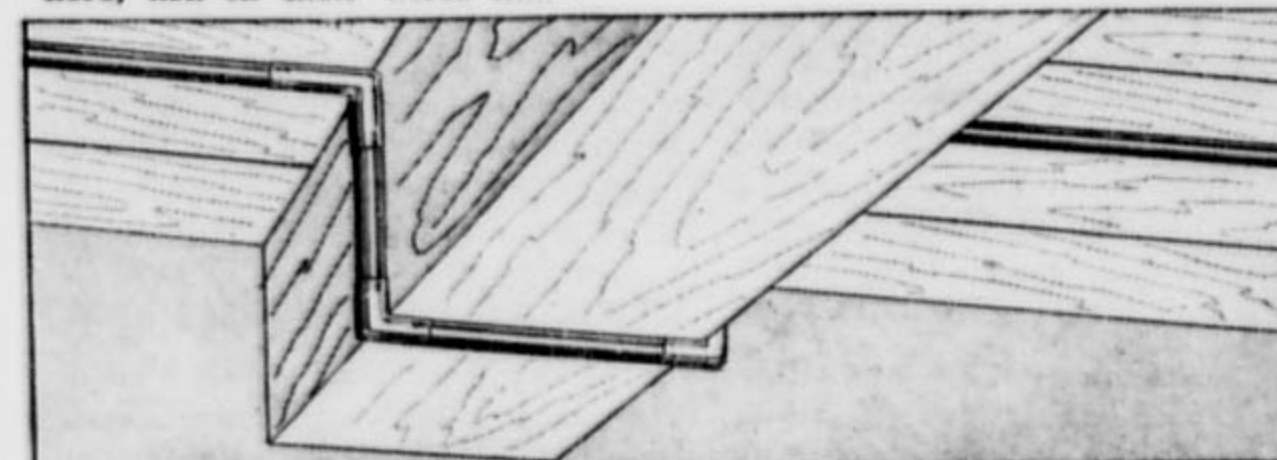

Many wiremen pass around beams with Wiremold Conduit by marking off the face and depth of beams on a length and slotting the capping only on these centers, as shown above.

They take out two 1 1/2" sections of capping where Wiremold Conduit is to break around the bottom of the beam, and two 4" sections where it breaks from the ceiling, as shown above.

They then bend the base to form it up to the beam, as is shown here, fish in their wires and—

Snap on the covers of External and Internal Elbows, as indicated above. This method can also be used for quickly forming single external or internal elbows.

TO SUPPORT WIREMOLD CONDUIT AND FITTINGS

On Wood Surfaces:

Use Nos. 503 or 5703 Clip for supporting both No. 500 or No. 700 Wiremold Conduit. Run a chalk line and install clips to line up runs and to support Wiremold Conduit where there is no heavy vibration. On jobs where rigid support is required use either No. 504 Two Hole Supporting Strap or No. 505 One Hole Strap for No. 500 Wiremold Conduit and No. 704 One or Two Hole Strap for No. 700 Wiremold Conduit.

On Wood Lath and Plaster:

Use No. 505 One Hole Strap for No. 500 Wiremold Conduit and No. 704 One or Two Hole Strap for No. 700 Wiremold Conduit, using No. 8 flat head wood screws in installing.

On Metal Lath and Metal Ceilings:

Use No. 505 One Hole Strap for No. 500 Wiremold Conduit and No. 704 One or Two Hole Strap for No. 700 Wiremold Conduit, and install with any standard make toggle bolt.

On Brick, Concrete, Tile, Stone or Marble Surfaces:

Use No. 505 One Hole Strap for No. 500 Wiremold Conduit and No. 704 One or Two Hole Strap for No. 700 Wiremold Conduit, and install with Brush Nail Expansion Bolt or any similar bolt or shield.

45

WIREMOLD ENAMEL

The enamel used in finishing the top of Wiremold Conduit and the covers of all its fittings is unusually tough and will withstand all ordinary handling, including bending, without chipping or peeling off.

There are, however, occasional jobs where it is advisable to retouch tool marks and other minor abrasions or to finish the bases of snap switches and similar fittings to match the buff color of Wiremold Conduit.

Half pint cans of the same high grade buff colored enamel used for the finishing of Wiremold Conduit, but of the proper consistency to be brushed on, have therefore been added to the line for the convenience of users.

Brushes are not furnished with these cans but the use of a brush about an inch wide is recommended for best results.

Memorandum

Mr. McLean.

Quotations have been received from the following firms for the furnishing of electric materials required for the installation of the electric lighting system in the girls' and boys' school at Caughnawaga. Three of the quotations submitted are complete, two of them have not quoted on the total amounts as requested. The tenders received are as follows,-

McDonald and Wilson,	\$445.37
Northern Electric Co.	\$443.46
Clovis Electric Co.,	\$382.63
Canadian General Electric Co.	No total given.
Union Electric Co.	No total given.

I beg to recommend that the order be placed with the Clovis Electric Co. who have submitted the lowest quotation. As previously instructed in your memorandum of June 10, the work is to be performed by day labour by Mr. Clovis Needing of Montreal, with whom I have already made arrangements as to the manner in which his work is to be carried out. Mr. Needing is to employ another electrician and the wages agreed upon will be 90 cents per working hour. This price includes travelling expenses and board.

DEPARTMENTAL ENGINEER.

THE NEW YORK CENTRAL RAILROAD COMPANY

Malone, N.Y., Sept. 30, 1925.
file 80 A-1

Mr. O. Fortin,
#1914 Boulevard Rosemont,
Montreal, P. Q.

Dear Sir:-

This Company desires to have a well drilled at the dwelling occupied by its Section Foreman at Adirondack Jct. This dwelling is located between Kanawaki golf course and the Canadian Pacific railroad station at Adirondack Jct. at a point approximately 1600' south of the station and east of the New York Central tracks. This building is stencilled #473. The above will enable you to identify the building and its location.

It is our understanding that your price for drilling a well with a 6" galvanized casing is \$4.50 per foot, the above price to include labor and material. If our understanding is correct and you care to undertake the work at the above price, please so state in your reply and advise when it would be possible for you to proceed with the work and after you have received further authority from us.

Kindly furnish as prompt a reply as possible.

Yours truly,

E. J. Jenkins
Supervisor of B&B.

RECORDS
Translation

Montreal, Aug 1st 1927

Sir.

The tender I sent you is for \$4.⁰⁰ per foot when my men are boarded and \$4.⁵⁰ when not boarded, for a 6 in. well. It is Miss Dumont who sent for me. The well cost me more than \$2.⁰⁰ per foot to drill, without counting the charge for my machine which has cost me \$7500.⁰⁰ I drilled 158 ft. in the rock, it took me 10 days and 10 nights. I did my best, it was interfering with the digging of the cellar.

I come from Le Rock of St. Asphize to drill this well and I have to return there, this makes 125 miles return.

(sgd) O. Fortin

Montreal, Aug 1st 1927

Your superintendant did not make me start at the right place; I started to drill and Mr. McKenzie told me it was not the right place. They had me change place and I had to move away just the same as if the well was completed. I will not send my account at present, I shall wait for your answer. The broke several pieces of my machine while blasting.

Memorandum:

Dr. Scott.

The work at the new Central School is now progressing rapidly and in view of the depth of the boiler room in the basement the drainage system will have to be given immediate attention. Owing to the nature of the ground, which is solid rock, and the lack of ditches in the neighborhood of the school lot, it will be necessary to construct a sewer line from the building as far as the St. Lawrence River, a distance of about 575 feet. The proposed sewerage system would consist in the laying of six inch vitrified drain pipe with an outlet in a cess pool, built of dry masonry, close to the embankment on the shore of the St. Lawrence River, similar to that already in operation for the hospital and the girls' school. As the excavation will be mostly done in solid rock, the cost of the work will amount to about \$3,500.00. I beg, therefore, to recommend that authorization be given to obtain prices from the contractors in order that the completion of the basement will not be delayed owing to the lack of proper drainage.

Dear Sir:-

Re Sheathing Caughnawaga School

We have been offered by a local lumber firm who have an extra stock of 7/8th 1925 cut of lumber, planed on one face and two edges, a considerable quantity at a very low price. We could economize on same about \$4. per thousand feet B.M. on this order. The lumber is also of a very fine quality and very dry, whereas the local lumber of 1925 cut has not been weathered the same.

We would kindly ask you to allow us to substitute the lumber mentioned above for the material specified in the plan.

Trusting you will give this matter your kind and immediate attention, we beg to remain,

Dear Sir:-

Not being in love with the village of Caughnawaga as there is no place to accommodate our families, housing conditions being very poor, we would be willing to rush completion of the school by installation of electric lights for night-work, and increase our organization so as to complete the work before the time allotted in our contract. We anticipate we could do this work by the means suggested above, one month sooner than the time specified, and would estimate this extra cost would be, approximately, \$45. per day.

Would you kindly give this matter your attention regarding a bonus to cover same.

Trusting you will give the matter your kind and considerate attention, we beg to remain,

I am in receipt of your letter of the
thirteenth of August requesting that t. and g. dressed lumber
which is specified for the inside and outside of the
exterior walls of the new central school at Gaughnawaga
be substituted by lumber plain on one face and on the

In reply I regret to say that it is
not considered advisable to allow this change to be
made, as it would not be fair to the other contractors
who submitted tenders for this building.

I beg to acknowledge receipt of your letter of the 1st of August addressed to Mr. Chene of this Department, and your account for the drilling of an artesian well for the Central School. I understand from the above mentioned officer that you were notified through Mr. Guerin, the Inspector on the work, that the Department would consent to entrust this work to you on the specified understanding that you were to be paid at the rate of \$2.00 per foot for the first hundred feet, and \$4.00 per foot for the remaining depth, plus fifty cents per foot, should the board of the men be paid by you.

The Department is not aware of any contradictory instructions having been given you which would justify the charging of the set price of \$4.50 for the entire depth of the well. I would, therefore, ask you to submit new accounts in accordance with the prices agreed upon when the work was authorized.

I beg to inform you that your quotation amounting to \$382.63 for the furnishing of electrical materials for the installation of electric lighting system at the boys' and girls' school at Caughnawaga has been accepted. I would ask you, therefore, to arrange for the delivery of all the materials with the least possible delay, and to proceed with the installation in the manner agreed upon with Mr. Chene, Departmental Engineer, when making an inspection of the buildings in company with Mr. Clovis Hiding, the President of the Company. It is understood that the wages to be paid are not to exceed (90) ninety cents per working hour, this price to include your travelling expenses, board, etc.

Before proceeding with the work it will be necessary that you advise Indian Agent Latourneau, of St. Constant, in order that the goods supplied can be checked, and the accounts for same verified and certified to by him.

Rev. Sister Mary Rose Alma is to act as supervisor. It is expected that you will carry out the work as speedily as possible, and that no additional materials will be supplied or work performed without written authority from the Department.

Madam,-

The Department has requested Mr. Clovis Niding, of the Clovis Electric Company, of Montreal, to proceed at once with the installation of an electric lighting system in the boys' and girls' school at Caughnawaga. As the work is being performed by day labour, may I request that you keep the time of the electricians employed on the above mentioned work, and see that it is carried out as economically as possible, as the funds are limited for this installation.

I may say that the number and location of the outlets for the lights and switches and the type of fixtures were decided upon when an inspection of the building was made by Mr. Chene in company with Mr. Niding.

I am enclosing herewith a copy of the materials which are to be supplied by that company, and would ask you to see that no substitutions are made and that the goods are delivered as per the order.

Dear Mr. Foran,-

I beg to advise you that a new Central School is now in course of erection at the Caughnawaga Indian Agency, Que., and we will require the services of an Inspector of Construction to supervise the building operations until completion of the work. We thought at first that it would be possible to have the work performed by having an Inspector spend a few days each week at the school, but we find that it is necessary that someone be continuously there. It is expected that the work will not be concluded until about the end of November. Mr. M. Guerin, of Caughnawaga, is acting in a temporary capacity at the present time.

Incl.

I am inclosing herewith a requisition, and would ask that you take the necessary action to fill the position. We propose to pay \$5.00 a day and travelling expenses. If advertised applications should be asked from residents of Laprairie, St. Constant and St. Isidore.

Dear Sister Mary Rose Alma:

Pursuant to our conversation of yesterday, I have to request that you will make the best arrangements possible for the use of the Cloud house for a few months for school purposes. You should also approach Mr. Indian Agent Letourneau with a view to assisting in this connection and for the purpose of learning whether he could allow his office to be used for one classroom. A half-day system for the classes that are using these two buildings should be instituted until such time as the new central school is ready for occupation.

I consider it advisable to postpone the proposed re-grouping along co-educational lines of the Indian classes. This action should be taken immediately prior to the occupation of the new central school. At that time, I shall be glad to proceed to Caughnawaga to co-operate with you in the matter.

Yours very truly,

Russell T. Ferrier,
Supt. of Indian Education.

Sir:-

In view of the temporary installation of three divisions of the R.C. Indian Day School, I beg to inform you that it would be necessary to have the prison thoroughly cleaned and disinfected in order to use it as a temporary Indian Agent's office. The present Agent's office, I understand from the Reverend Sister Superior is to be occupied as one of the temporary class-rooms.

I am also informed by the Reverend Sister that the Cloud building is to be rented by the Department for another term of one year. Therefore, I beg to ask your authorization to have these temporary places cleaned, the desks removed into them and also to have the necessary amount of coal hauled from the teachers' residence into these temporary places before the re-opening of the various schools.

MEMORANDUM

Mr. Paget -

When Mr. Guerin was appointed as inspector of the new central school on the Caughnawaga reserve we did not apply to the Commission for appointment as it was considered that it might be possible to satisfactorily oversee the work in short inspections and keep the total time of employment within a period of thirty days. As the work advanced it was found that it would be necessary to have an inspector permanently on the job and we have asked the Civil Service to appoint someone to this position. Meanwhile there would appear to be no reason why we should not pay Mr. Guerin up to thirty days at \$5.00 a day without a certificate from the Commission.

With reference to the contents of the accompanying memorandum from the Minister's office, I beg to say that there should be no objection to permitting the use of 8"x16"x $\frac{1}{4}$ " asbestos shingle, instead of the 9"x18"x $\frac{1}{4}$ " which are the dimensions specified for the roofing of the Caughnawaga Central School, Que., providing that the type, texture, and appearance of the asbestos shingles as offered by the Asbestos Manufacturing Company, Ltd., are identical with those specified, that is, of different shades and with rough edges to imitate ordinary slate shingles, in order to give this roof the desired appearance as originally planned by the Department.

I cannot in this case recommend any change in the type of asbestos shingle for this roof, owing to its shape and construction. A shingle of a uniform colour will not produce the desired effect. I shall, however, in future be glad to specify the materials as fabricated by the Asbestos Manufacturing Co. Ltd., as often and whenever possible.

Re: Convent of Sisters of St. Ann, Caughnawaga, Que.

Dear Sir:-

Upon the request of the Mother Superior, I called at this institution to-day and investigated the possibilities of installing a Dry Room in the laundry.

You undoubtedly know that this laundry is very small and that it has a very low ceiling which are not helping the location of a Dry Room.

After measuring, I would recommend that a Four Draw Metal Dry Room be installed and which would take, with the drawers pulled out a floor space of approximately 10' long or, with the drawers closed up 5' long. This, steam heated, would give the Sisters very good results and, as they have no steam, it would also require a small boiler to supply the heat to this dry room which steam boiler I would recommend to be placed near the furnace.

We beg to quote you f.o.b. our factory, Toronto, Ont., exclusive of Government Sales Tax, 2% for cash thirty days or net sixty days from date of invoice on:-

One-No. 1504, 4 Draw "Scientific" Clothes Dryer.....	\$365.00
One-5 H.P. Full Length Tubular Vertical Boiler, Working Pressure 125 lbs., supplied with Boiler are Grate Bars and Bearers, Smoke Hood, (No Stack), Safety Valve, Steam Gauge, Syphon and Water Gauge, Try Cock, Blow Off Cock, Feed and Check Valves and Tube Scraper.....	\$355.00
Extra for Injector for above Boiler.....	36.00

In may perhaps prove difficult to place a Vertical Boiler in this Basement, and you may have to resort to an Horizontal type Boiler which would mean more expense and brick work, therefore, our advocating the vertical type boiler even if a small cut has to be made in the floor to set the boiler lower.

My dear Sir,

As per your orders I sent for Mr. Relacom of the Canadian Laundry Co. concerning a Dry Room, in the cellar of the Residence. He found he was against a hard proposition. Nevertheless he studied the question from all points of view and came to the conclusion that a Four Drawer Metal Dry Room could be installed. Under the best conditions, I consider that \$750.00 is a very costly investment for such an installment, without being assured of satisfaction.

OK
[Handwritten initials]
Your suggestion of having the washing done at a laundry would be much more economical. I have looked into the matter and we can have our washing done in our Lachine Laundry for twenty dollars (\$20.00) a month, including transportation on the Lachine side.

Hoping this will meet with your approval, I am, dear Sir,

yours respectfully,

Sister M. Rose Alma
Principal.

Madam: -

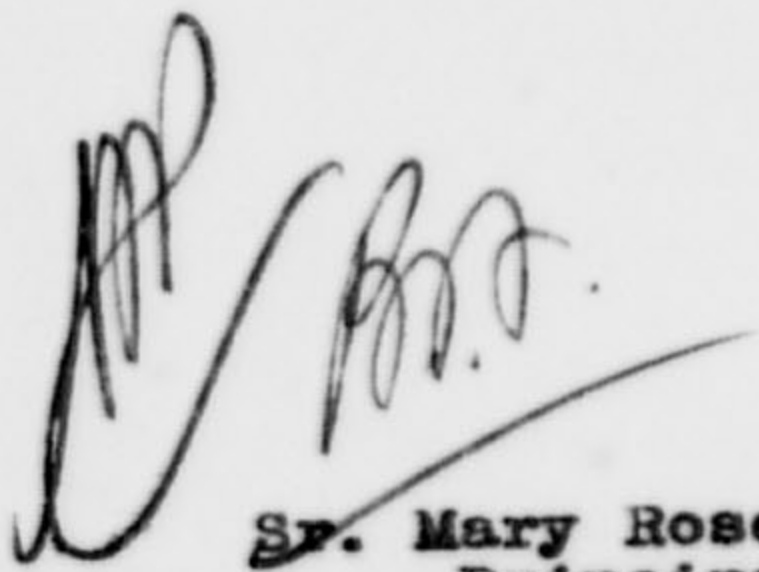

In reply to your letter of the 25th instant, I beg to say that, at the present time, the Department is not prepared to consider an expenditure of \$750 in installing a dry room in the cellar of the teachers' residence at Caughnawaga.

Your suggestion of having the washing done at a cost of \$20 a month is approved and Mr. Agent Letourneau is being so informed.

Your obedient servant,

A. F. MacKenzie.

Act Under
Ottawa, August 31st, 1927.

Sir,-

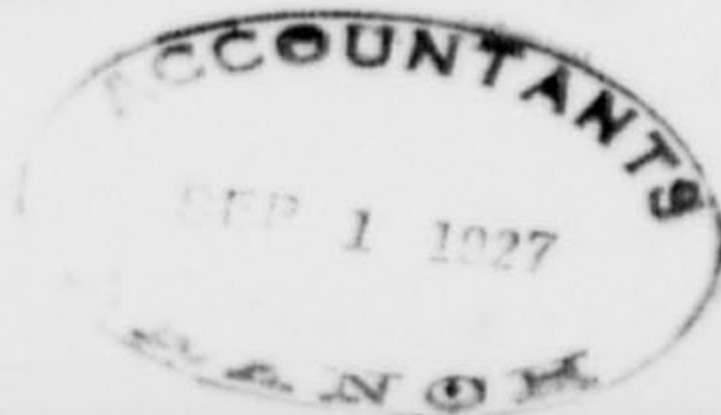

On instructions from the Department, Sister Mary Rose Alma, Principal of the Caughnawaga R.C. School, had a representative of the Canadian Laundry Co. visit the school in connection with installing a dry room in the cellar of the teachers' residence. The price quoted by this company, namely, \$750., is considered too high and the Department is not prepared to authorize this expenditure at the present time.

The Reverend Principal suggests that she be permitted to have the laundry done at Lachine at a cost of \$20 a month, including transportation on the Lachine side. She is being informed that this arrangement is approved and you should regularly submit the usual vouchers for this expenditure.

Your obedient servant,

A. F. Mackenzie

Dear Sir,-

In reply to your letter of the 24th ultimo, I beg to say that Voucher No 1154, therein referred to, which was in favour of the Sisters of Ste Anne, Lachine, and which was made out for \$39.80, the amount of their account, dated the 21st June, was paid on the 5th July by official cheque No 1253 which was drawn for that amount. The cheque was cashed and has been returned to the Department of Finance, where it has been examined. It is apparent therefore that the Sisters are in error in stating that it was drawn for \$35.86.

MEMORANDUM

The Honourable Charles Stewart.

With further reference to the memorandum of the 25th ultimo concerning the type of asbestos shingle specified for the roofing of the Caughnawaga Central School, now being erected by this Department at Caughnawaga, Que., I beg to quote hereunder the item of the specification relating to this part of the building, Article 17 - specifications page 42,-

17
"Asbestos Shingles.- The roofing to be made of asbestos shingles colour blend of various colours, laid horizontally and exposed 8" x 9" to the weather and composed of 60% conglomerate brown, 20% of natural grey and 20% Indian red, laid according to the methods and instructions furnished by the manufacturers. The shingles to be nailed to the wooden roof with copper storm and galvanized iron nails, two pounds per square at the minimum. The weight per hundred shingles shall be not less than 320 lbs. "

The Department has no objection to permitting the use of a shingle of a different dimension, providing that it will be of the same texture, colour and finish as that described in the above mentioned Article.

Sirs,-

ARL

I am advised by Messrs. MacKenzie and Genest, contractors for the new Central School at Caughnawaga, that they have placed with your company an order for the delivery of steel posts and beams required in the above mentioned construction. As it is important that this building be completed with the least possible delay, I would appreciate it very much if you could arrange to fill this order in the course of next week, as the work is now held up on account of the lack of these sections.

Dear Sir:-

We are informed that you are constructing a building which will be completed soon. Have you thought of how you will provide for hot water in this new construction?

We are manufacturers of one of the greatest novelties on the Canadian Market. It consists in a hot water tank or reservoir heated by electricity, which has for object to actually replace the gas heater and other methods used for providing hot water for domestic and other purposes. A reason why our Electric Thermos Tank is interesting to any person desiring "home comfort", is that once the water in the tank has been heated, it keeps hot for 50 HOURS, at a temperature above that required for baths, and this without any additional cost of electricity.

This will seem rather inconceivable to you; as you know this is one of the greatest domestic necessities, which has not been and cannot be obtained up to this date, with the existant known facilities but which is incorporated in our new system of heating water which we are offering to builders.

We wish to call your attention to the fact that the only place you can obtain our "system", is here at our plant, as it is our intention to eliminate all intermediaries, so that our clients will benefit therefrom.

Should you be interested, as we feel sure, to have us install one of our Electric Thermos Tanks, we would advise you to give your order fifteen days in advance, in order that you may be assured of the prompt delivery, and thus avoid delays. We may say, that we have been upon the market, for only a short time, and that orders are coming in rapidly. It is therefore urgent that you should place your order immediately.

Our prices vary from \$35.00 up.

Very truly yours,

THERMO TANK ELECTRIC SYSTEM LTD.

Memorandum:

The Minister's Office.

The choice of the roofing for the new Central School at Caughnawaga was left as usual to the discretion of the officer who had charge of the preparation of the plans and specifications. To improve the appearance of the building he considered it advisable to choose a type of asbestos shingle of various colours with a rough edge to imitate slate roofing. These shingles are more expensive than those of a uniform colour, which, however, would not give the same results as the colour blend type. However, as mentioned in a previous memorandum regarding this matter the Department does not wish to favour any particular manufacturer and any make of shingle which will comply with the requirements of the specifications will be accepted.

For Mr. Gault

MEMORANDUM

Mr. McLean.

With reference to the contents of the accompanying memorandum from the Minister's office, I beg to say that there should be no objection to permitting the use of 8"x16"x $\frac{1}{4}$ " asbestos shingle, instead of the 9"x18"x $\frac{1}{4}$ " which are the dimensions specified for the roofing of the Caughnawaga Central School, Que., providing that the type, texture, and appearance of the asbestos shingles as offered by the Asbestos Manufacturing Company, Ltd., are identical with those specified, that is, of different shades and with rough edges to imitate ordinary slate shingles, in order to give this roof the desired appearance as originally planned by the Department.

I cannot in this case recommend any change in the type of asbestos shingle for this roof, owing to its shape and construction. A shingle of a uniform colour will not produce the desired effect. I shall, however, in future be glad to specify the materials as fabricated by the Asbestos Manufacturing Co. Ltd., as often and whenever possible.

Memorandum:

Mr. McLean.

The following is an extract from a letter which has been received here regarding the Asbestos Manufacturing Co. Ltd. of Quebec,-

"A school is being erected by the Dept. of Indian Affairs, at Caughnawaga, on the roof of which Indian Red Asbestos Shingles, 9" by 18", 1 1/4" thick have been specified. As this size of 9" by 18" is manufactured by the one firm in Canada, Johns-Manville Co. Limited, my firm Asbestos Manufacturing Co. Limited, is barred the job.

What we make is Indian Red 8" by 16" 1 1/4" thick shingles, which is considered a more suitable article for our climate, in this that it resists better to the frost than the larger shingles.

Would you kindly get me the authorization from the Department of Indian Affairs for the contractor to use my shingles 8" by 16" instead of 9" by 18".

Will you kindly let me know if this can be arranged so that this Company will have an opportunity of selling their shingles to the successful contractor.

Dear Sir: -

We beg to acknowledge receipt of your letter awarding us the contract for repairs boys schools. we sincerely thank you. we now are proceeding with the work. - Referring to article I of your letter re-turning the posts, due to the fact that the price quoted for the posts is very low, we can hardly do same for \$128.50 including turning. The turning would cost for 36 posts @ .75 per post making total of 27⁰⁰ Extra, Re-painting at cost of \$10⁰⁰ you will realize Sir that the labor only will be more than \$10⁰⁰ applying two coats of good Paint over approximately 800 square feet and twice would be 1600 sq. ft. Sir:

I have your letter of the 14th instant, relative to the request of the Rev. Sister Superior of the Roman Catholic Day Schools at Caughnawaga to have inter-telephone communication installed between the teachers' residence and the girls' and boys' school.

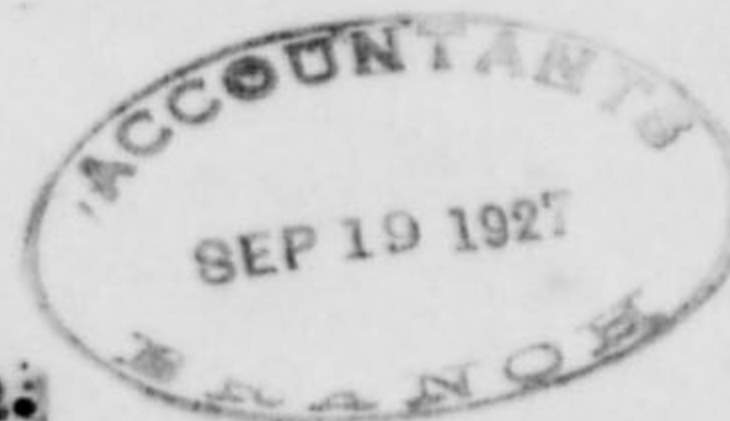

In this connection I have to request that you will have the electrician who is at present working on the new school submit an estimate of the cost of installing the necessary wires, etc., for the telephones. Sirs,-

I am in receipt of your letter of the 2nd instant concerning the price to be paid you for various repairs already authorized to be made by you at the boys' and girls' schools at Caughnawaga, in accordance with letter of August 25th.

roc

In reply I beg to say that it is advisable that the cedar fence posts be turned and painted. The Department will allow you an additional amount of \$57.00 for this work. An amount of \$15.00 will also be allowed you for the repairing of the five steel gates at the boys' school. When this work is completed I would ask you to advise the Sister Superior in order that she might make an inspection of it and certify to the accounts which should be made in duplicate on the regular voucher forms for that purpose.

Memorandum:

Honourable Charles Stewart

With reference to your memorandum of the 22nd ultimo concerning the type of asbestos shingles specified for the roofing of the Caughnawaga Central School, now being erected by this Department at Caughnawaga, Que., I beg to quote hereunder the item of the specification relating to this part of the building, Article 17-specifications page 42.-

"Asbestos Shingles,- The roofing to be made of asbestos shingles colour blend of various colours, laid horizontally and exposed 8"x 9" to the weather and composed of 60% conglomerate brown, 20% of natural grey and 20% Indian red, laid according to the methods and instructions furnished by the manufacturers. The shingles to be nailed to the wooden roof with copper storm and galvanized iron nails, two pounds per square at the minimum. The weight per hundred shingles shall be not less than 320 lbs. "

The choice of the roofing for this School was left as usual to the discretion of the officer who had charge of the preparation of the plans and specifications. To improve the appearance of the building he considered it advisable to choose a type of asbestos shingle of various colours with a rough edge to imitate slate roofing. Shingles of uniform colour would not give the same results as the Colour-Blend.

With regard to size - There should be no objection to permitting the use of 8" x 16" x $\frac{1}{4}$ " asbestos shingle, instead of the 9" x 18" x $\frac{1}{4}$ " which are the dimensions specified for the roofing of the Caughnawaga Central School, providing that the type, texture and appearance of the asbestos shingles as offered by the Asbestos Manufacturing Company Limited are identical with those specified, that is, of different shades and with rough edges to imitate ordinary slate shingles, in order to give this roof the desired appearance as originally planned by the Department.

I cannot, however, recommend any change in the type of asbestos shingle for the roof of the Caughnawaga Central School, owing to its shape and construction.

The Department has just received samples of brick from the National Brick Co. of Laprairie Ltd., one of which is marked buff rustic pink and sold by Messrs. Lepailleur Freres of Lachine. According to the pricelist submitted by this company a brick similar to the above mentioned sample is being sold at \$25.00 per thousand, sales tax included, fob plant, plus cartage price of \$3.50 per thousand direct to site of work. Before making any decision as to the choice of brick for the veneering of the Central School, as provided for in the specifications for this work, I would like to know whether you are familiar with the above mentioned brick, which would be acceptable to the Department, providing there are no extra charges.

Dear Sir:-

As requested by Messrs. Lepailleur Freres we take pleasure in quoting you on the following brick for Caughnawaga delivery:

Buff Rustic Pink	\$25.00	per thousand,	sales tax included,	F.O.B.our plant
Buff Rustic Shade #109	34.00	"	"	"
Buff Rustic #216 Mixed	34.00	"	"	"
Buff Vertical Pinks	25.00	"	"	"
Buff Vertical Shade #109	35.00	"	"	"

The above prices are subject to 5% discount if paid on or before the tenth of the month following shipment.

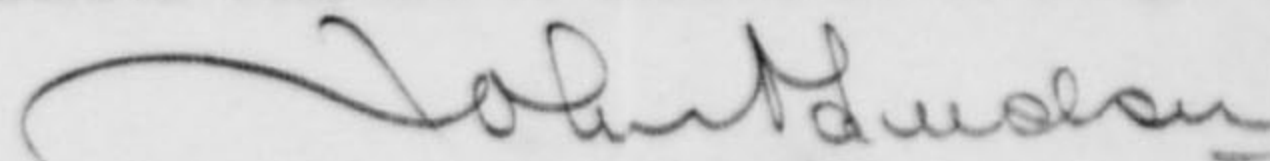

We have been successful enough to secure a price for the cartage of this brick by truck from our plant at Laprairie direct to Caughnawaga of \$3.50 per thousand. This means of conveyance of course is much better than that of by rail as Adirondack Junction is the closest railway point to Caughnawaga and this is only on the C.P.R. The above brick quoted are all manufactured at Laprairie which is only on the C.N.R. and if shipped by rail it would be necessary to ship C.N. & C.P. which would make a very high freight rate.

We have sent you by express prepaid samples of brick above quoted.

Trusting you will find these satisfactory and that you will see your way clear to using our product, we are

I was over to see the contractors today and they informed me that they understood that several submissions had been obtained for this equipment.

We wish to inform you that up to the time of writing we have not received the official form to make our submission on and we might mention that the Myers Pumps, which we handle, are the best quality of the different makes now on the market.

We would therefore appreciate the opportunity of tendering on this equipment and trust that you will be good enough to mail us an official form, which we will fill out and submit to you without delay.

Dear Sir,-

I beg to acknowledge the receipt of the application for the position Inspector of Construction under this Department which you forwarded to the Honourable the Minister. In reply I have to say that, as the closing date of the competition for this position was the 14th instant and you applied for it after the applications had been considered by the Civil Service Commission, I regret very much that you are too late to be included in the competition.

Yours truly,

Gentlemen:-

As per our promise made when submitting our quotation for a pump for Caughnawaga, we are transmitting you herewith a typed copy of said quotation. Our number two and our special quotation were brought about by an examination of the well and a discussion as to its depth, with the gentleman in charge of the construction of the school...

The men at work on the building have no more than a ten foot length of pipe into the well and with a small hand pump are drawing all the water necessary to their work. This is sufficient proof that a shallow well pump is amply sufficient to supply all the water necessary for the school. Thanking you for the privilege you have given us of quoting and hoping to have the occasion of serving you further, we beg you to believe us,

Gentlemen:-

We are attaching hereto your inquiry for deep well water plant required for the new Central School at Caughnawaga Indian Village.

Our deep well home water plant, completely automatic, with 70 gallon fully galvanized tank, and 3/4 HP single phase, 110 volt, 60 cycle motor, is fully illustrated and described on page 12, of bulletin H2630, which you have in your possession. The motor is housed in a protected well ventilated frame; double pole automatic control switch; air compressor attachment driven from the cross head of the pump; base acts as an oil reservoir so that all working parts are oiled automatically when the pump is in operation; fresh water feature supplied and the pump is capable of giving you the minimum capacity of 160 gallons per hour. The motor is vertically ball bearing, coupled flexibly to the worm shaft. The worm runs in roller bearings, the lower bearings taking the entire thrust, no thrust being taken by the bearings of the motor. Worm and worm shaft are machined from a single piece of alloy steel and a phosphor bronze worm gear is securely bolted to a flange which is forged as an integral part of the crankshaft.

We had one of our engineers in Montreal go out to the school and look over the proposition. He reports that the building is not yet up and our price given in the tender is for installation if the plumbing is brought to the basement. This does not include taking the wires from outside to the basement or fitting the outlet of the tank to the plumbing any further than the cellar, but does include the installation of the cylinders, pump rod, connections between the pump and the tank, and connections from the tank to the plumbing as stated above. This also does not include any concrete foundations that may be required. If it is necessary to make a foundation whether with good wood or "I" beams, there will be an extra cost of \$20.00.

I beg to advise you that as a result of the competition recently held by the Civil Service Commission you have been appointed Inspector of Construction for the Caughnawaga Indian school work, at a salary of \$5.00 a day, plus an allowance of \$1.50 per diem for travelling or living expenses. Kindly proceed to Caughnawaga on Tuesday morning, next, to meet the Engineer of this Department, who will be there and who will give you full instructions as to the work you are to be called upon to perform. It will be well for you on your arrival in Caughnawaga to report to the Indian Agent, Mr. Letourneau, who has been instructed to meet Mr. Chene there on Tuesday.

Yours truly,

HO

Dear Sir,-

9756
I beg to advise you that as a result of the competition recently held by the Civil Service Commission Mr. J. A. Barsalou, of Laprairie, Que., has been appointed Inspector of Construction for the work on the Caughnawaga Indian school, his salary to be at the rate of \$5.00 a day. Mr. Barsalou has today been advised of his appointment and instructed to report at Caughnawaga on Tuesday, next, when it is expected that Mr. Chene, Engineer of this Department, will be there to meet him and to give him full instructions with reference to the work. It is desired that you be there to meet Mr. Chene, to discuss with him the work to be carried out on the reserve.

HS
We have written to Mr. Guerin, advising him of Mr. Barsalou's appointment and instructing him to hand over to you the plans, specifications, drawings, etc., on the discontinuance of his services, these to be given to Mr. Barsalou when he assumes the duties of the position. Kindly advise me the date he does so.

Yours truly,

John McLeod
Acting Deputy Superintendent General.

Re-Artesian Well at Caughnawaga

Dear Sir:-

Your letter of the 13th inst., addressed to our client, Mr. Fortin, has been to us with the necessary instructions.

The contract which Mr. Fortin made was as follows:- \$2.50 per foot to enlarge 110 ft. of well from 4 to 6 inches and the balance at \$4.50 if his men were not boarded and .50¢ that is \$4.00 if his men were boarded. For the school well, it is a new well of six inches, the price was \$4.50 per foot and \$4.00 if his men were boarded. The men were not boarded. Therefore the amount due Mr. Fortin is \$4.50.

Hoping that the matter will be settled without delay, we remain,

Yours very truly

39 Years of Achievement in Fine Office Equipment Manufacturing

Across the span of its thirty-nine years the production of office equipment combining the highest degree of utility, appearance and quality has been the aim and the accomplishment of "OFFICE SPECIALTY". With the growth of our manufacturing organization, which now is the largest of its kind in the British Empire, has been developed a Sales and Service Organization extending from Coast to Coast.

We are the only manufacturer in Canada making a complete line of Wood and Steel Office Equipment and Paper Filing Supplies. Whether your problem concerns the filing of letters, orders, invoices, the development of an effective stock, purchase,

sales or other record, or the layout of your office, stockroom or vault for the most effective results, you can readily avail yourself of our vast fund of up-to-date information and our planning service merely by summoning a representative from our nearest office.

Note the complete line of office equipment we manufacture in our own factories at Newmarket, Ontario, on the pages following. WE MAKE WHAT WE SELL AND GUARANTEE WHAT WE MAKE. Buying direct from the maker thus assures you of complete and permanent satisfaction. Bear in mind our address and Company name that you may not be confused when seeking our products and service.

"OFFICE SPECIALTY" Office Equipment

Desks

The use of Wood or Steel Desks is in the main a matter of choice. "Office Specialty" stands ready to supply the varying needs in this respect. The Efficiency Desk in Wood or Steel holds a fund of information. "NewSteel" Desks offer permanent satisfaction. Over thirty different types of quality Wood Desks are available to choose from. There is a style for every need.

Chairs

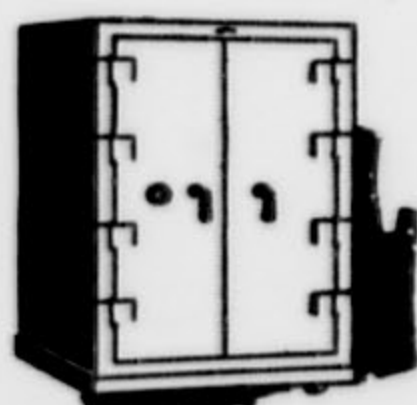

"Give me a comfortable chair and half the day's battles are won," quotes one successful business man. "Office Specialty" Chairs are built for comfort. There is a complete range of styles to meet the needs of the most exacting business man. Everything from deluxe board-room chairs to utility office chairs.

Files

Protection — capacity — economy—which of these three questions are uppermost in the mind of the purchaser of Filing Cabinets? "Office Specialty" can answer all three. "FIRE-WALL" Files offer 250% greater protection from fire. "Hercules" Files offer extra filing capacity. "NewSteel" is the lowest priced file sold in Canada. Steel Counter Files will turn waste counter space into valuable filing space.

Safes

Even in fireproof buildings, costly fires do frequently occur — somebody tosses a match into a waste basket or a fire breaks out in the building next door. "Office Specialty" Safes have been known to come through the severest of actual fire tests with the contents intact. When "Office Specialty" Safes are bought, permanent protection is assured. Made in Canada—in various styles and sizes. Descriptive literature gladly furnished on any of the items

"OFFICE SPECIALTY" Filing Systems

Orderliness and "Office Specialty" Steel Shelving are synonymous. The sturdy "Hercules" Shelving will withstand the heaviest usage in the warehouse or factory stock-room. "STOCK-WARE" Steel Shelving is admirably suited to the office, vault or stock-room. Any desired arrangement of shelves with or without doors can be effected.

Shelving

To-day employees demand a rightful privacy and security for their personal apparel and belongings. Lockers are an essential part of the equipment in every office and factory. "NewSteel" Lockers meet the most exacting requirements as to security, ventilation and ability to stand the strain of everyday use.

Lockers

When Card Record information is required immediately, where information must be accurately kept, where charting is done right on the card, there you will most assuredly find "Office Specialty"—ACME Visible Equipment is used. There are twelve superior points featured in the "Office Specialty"—ACME Visible System. Investigate this system.

Visible Card Equipment

"Office Specialty" are card specialists. Our service starts with the analysis of record-keeping problems and the supplying of a type of card and of equipment that will assure maximum results with least expenditure. In all details of our Record Card production—in quality of stock and character of printing—complete satisfaction is assured.

Sir:-

I beg to point out that owing to the quite large amount of documents relating to the general administration of the Caughnawaga Indian Day Schools it become difficult for the Reverend Sister Superior to have a proper classification of the numerous letters, accounts etc., without the use of a Filing Cabinet, for which I beg your authorization to purchase at the cost of \$28.50 as shown in the herein enclosed offer.

I may say that it would also be necessary to add another sum of approximately \$7. for the purchase of folders and Index that are to be placed in this filing cabinet.

Replying to your letter of the 21st instant, I beg to say that as instructed by the Department I have interviewed Mr. Moise Guerin, Inspector of Works at the new Central School, Caughnawaga.

Mr. Guerin states that on about the 20th July last he has made the following arrangements with Mr. Fortin for the boring of an artesian well for the Department, viz: the first 110 feet of boring were to be at the cost of \$2.00 per foot; the following boring were to be at the cost of \$4.00 per foot and the well being acceptable by Mr. Guerin at a dept of 158 feet, the amount to be paid in favour of Fortin is 110 feet at \$2.00 and 48 feet at \$4.00, a total amount of \$412.00. When these arrangements were made between Guerin and Fortin, the latter found them acceptable and he added that he was going to proceed to work immediately. This artesian well is of six inches diameter as requested by Guerin who is prepared to certify that the dept of the well is of 158 feet.

Memorandum:

OK
OC *W. Scott.*

Two urinals are required for the boys' lavatory at the new Central School at Caughnawaga, Que. I did not provide for these fixtures in the plumbing specification for the reason that the Superior wanted to make a choice of the type which would be most suitable for this building. I had an interview yesterday with the Superior and it was considered that a white porcelain fixture with automatic fan spreader would be satisfactory. This could be purchased from any local plumbing dealer in Montreal at a cost of \$100.00 each. The plan provides for the installation of two of these urinals, but the Superior would like to have four. I do not believe that the Department would be justified in granting this additional expenditure, and I would therefore recommend that the order for two urinals be placed with the firm of Crane Limited, who are supplying the contractors with all the other plumbing fixtures. Piping for the installation of additional urinals might be put in now, before the cement floor of the Building is completed.

Dear Sirs-

In reply to enquiry in your letter of the 23rd instant, regarding official cheque No 2533 for \$170.45 sent you recently, I beg to say it was issued in payment of your account dated the 24th August, which was rendered at \$178.83. The first item in the account should be \$14.40 not \$14.00, and the addition of the account was incorrect.

Yours truly.

United Power Company, Limited.

APPLICATION FOR ELECTRIC SERVICE.

Subject to the terms and conditions of this application which refers to the service herein applied for, and subject to the Rules and Regulations endorsed on the back hereof and made to form part hereof, the subscriber, hereinafter called the "Consumer" or "client", authorizes and requests the United Power Company, Limited, its successors and assigns, hereinafter called the "Company", to furnish its service enumerated below to the Consumer at the premises mentioned below or such other premises on the Company's system applying similar service to which the Consumer may from time to time remove during the period mentioned or any renewal or continuation thereof as provided.

The Consumer agrees to pay to the Company weekly, monthly or bimonthly (at the Company's option) at the Company's office, within ten days of the date of its accounts for electricity consumed, as measured by meter or meters to be installed by the Company in Consumer's premises, at the rates and on the basis and subject to the rebates hereinafter provided, if accounts are paid within ten days of their date.

In the event of any service being used for a period of three (3) consecutive months, at any time or at any premises, without any account being rendered therefor, the Consumer agrees to notify the Company of the fact in writing.

GENERAL CONDITIONS

1. Should any meter fail to register accurately the Company may at its option, charge for the service supplied during the time over which such failure extends either on the basis of the consumption during the term immediately succeeding the period of alleged inaccurate registration or on the basis of the consumption during the corresponding period in the previous year or the value of the service supplied as established by evidence.

2. No changes in or additions to the installation shall be made by the Consumer after the same has been connected with the Company's service, and no similar service shall be installed or connected in the premises other than that furnished by the Company without its written consent.

If at any time during the term of this contract the Consumer requires additional service in or about the premises, it is hereby agreed the Consumer shall take such additional service from the Company.

3. The Company shall, in the supply of the service contracted for, make use of recognized standard apparatus and appliances but shall incur no liability for damage to person or property caused in any manner whatsoever by reason of its service being connected with the Consumer's premises whether through failure of any of its apparatus or otherwise.

4. The Company does not guarantee a constant supply of electricity and shall not be liable for any damages to the Consumer in consequence of its failure to supply the same at any time or times.

5. In case the Company cancels this contract or discontinues its service or is through the fault of the Consumer prevented from supplying service according to the provisions of this contract, then there shall forthwith become due and payable as stipulated damages the sum of twenty-five (25) cents per month for each sixty (60) watt lamp or the equivalent thereof covered by this contract for each month and fraction of a month of the unexpired term of the same.

6. This contract shall be transferred to and continued at any new location where Consumer may move to from time to time. In the event of such location not being in the immediate vicinity of Company's established system, the Company has the option to cancel any part of this contract which is applicable to any branch of its service which it cannot supply.

7. The Consumer agrees to procure all permits necessary from third parties to enable the Company to supply its service.

8. When accepted, the terms and conditions of this application shall constitute a contract between the Company and the Consumer which, shall continue in force after the period mentioned below from year to year until terminated by notice in writing by either party given at least one month before the expiration of the period mentioned below or of any yearly term thereafter, subject, in the case of notice by the Consumer, to the provisions of paragraph 5 hereof.

In the event of the consumer vacating the premises to which service is being supplied, written notice of such vacation shall be given to the Company, failing which the Consumer shall remain liable for any further service used in the premises vacated, until such written notice shall have been given.

9. No representations, promises or agreements shall be binding upon the Company unless the same shall have been incorporated herein.

DEMANDE DE SERVICE D'ELECTRICITE

Conformément aux termes et aux conditions générales de cette demande, laquelle a trait aux utilités ci-après énumérées, et d'après les règlements mentionnés au verso, formant partie de cette demande, le signataire, ci-après dénommé l'abonné, autorise et requiert la Compagnie United Power Company, Limited, ses successeurs et ayants cause, désignés sous le nom de "fournisseur", de fournir son service au local ci-après mentionné ou en tout autre local pouvant être successivement occupé par l'abonné, à condition que ces divers immeubles soient situés à proximité des réseaux déjà établis par le fournisseur pour utilités similaires, et cela durant toute la période ci-après stipulée, durant tout renouvellement ou toute prolongation de terme par tacite reconduction.

Les factures pour énergie électrique utilisée sont émises hebdomadairement, mensuellement ou tous les deux mois, au gré du fournisseur, et sont basées sur les indications du ou des compteurs installés chez l'abonné par le fournisseur, d'après le tarif et selon les actes stipulés du contrat; l'abonné s'engage à les acquitter dans les dix jours de leur émission au bureau du fournisseur et il a droit à l'escompte ci-après mentionné lorsqu'il les acquitte dans ce laps de temps.

L'abonné s'engage à prévenir le fournisseur par écrit au cas où une utilité lui serait fournie, à une époque ou en un local queiconque, durant une période consécutive de trois mois sans qu'une facture soit émise à cet effet.

CONDITIONS GENERALES

1. Lorsqu'un compteur cesse de fonctionner normalement le fournisseur peut, à son gré, exiger le paiement des utilités fournies durant la période d'indication inexacte en se basant sur la quantité enregistrée soit durant le terme précédant immédiatement la période d'indication inexacte ou durant la période correspondante de l'année précédente, soit d'après la valeur de la matière fournie telle qu'établie par preuve.

2. L'abonné s'engage à ne pas modifier son installation après que celle-ci aura été reliée au réseau du fournisseur, à ne permettre qu'aucune utilité similaire à celles fournies par le fournisseur ne soit introduite ou utilisée dans le dit local, sans l'autorisation écrite du fournisseur.

Si l'abonné a besoin de service supplémentaire pendant la période de ce contrat, il s'engage à prendre ce surplus du fournisseur.

3. Dans la livraison des utilités commandées, le fournisseur ne doit employer ou fournir que des appareils reconnus de qualité officielle. Il ne peut être tenu responsable du préjudice causé à la personne ou aux biens du fait que ses réseaux sont raccordés aux locaux de l'abonné, à la suite du bris d'un de ses appareils ou de toute autre façon.

4. Le fournisseur ne garantit pas une continuité de service, et n'est pas responsable du préjudice que peut subir l'abonné par suite d'interruption.

5. Si le fournisseur annule le présent contrat, cesse de fournir son service ou ne peut, par la faute de l'abonné, le fournir conformément aux dispositions du contrat, il devient immédiatement dû et payable au fournisseur, à titre de dommages conventionnels, pour chaque lampe de soixante (60) watts ou l'équivalent prévu par le contrat, la somme de vingt-cinq (25) cents pour chaque mois ou fraction de mois de la période non expirée de ce contrat.

6. Ce contrat s'applique à tout nouveau local où l'abonné s'établit. Cependant la Compagnie a le droit d'annuler toute partie du présent contrat se rapportant à une utilité qu'elle ne peut fournir à l'abonné en un local nouvellement occupé, lorsque ce dernier n'est pas dans le voisinage immédiat des réseaux de la Compagnie.

7. L'abonné s'engage à obtenir des tierces parties tous les permis nécessaires pour que le fournisseur puisse établir son service.

8. Après acceptation, les clauses de cette demande constituent, entre le fournisseur et l'abonné, un contrat, se continuant d'année en année après l'expiration du terme ci-après stipulé. Ce contrat est résiliable par l'un des contractants par avis écrit adressé à l'autre au moins un mois avant l'expiration de la période originale, ou, par la suite, avant l'expiration de chaque terme annuel. Cependant, si cet avis est donné par l'abonné, il sera sujet aux dispositions de la clause 5 des conditions générales.

Si l'abonné évacue le local où le service est fourni, il doit en aviser la Compagnie par écrit, à défaut de ce faire, l'abonné est responsable pour tout service subséquent utilisé au local évacué, jusqu'à ce qu'un tel avis par écrit soit parvenu au fournisseur.

9. Nulle représentation, promesse ou convention, autres que celles formulées dans ce contrat, n'engage le fournisseur.

Signature and acceptance. The foregoing is signed by the undersigned after reading and receiving copy of same (including the rules and regulations endorsed on the back hereof) and is subject to the Company's acceptance by letter addressed to the Consumer within thirty days or by making connections at the point of delivery. The Parties hereto, hereby elect domicile for all the purposes of this contract at Montreal, P.Q.

Signature et acceptation. L'abonné reconnaît avoir signé ce contrat après en avoir pris connaissance ainsi que des règlements énumérés au verso et en avoir reçu une duplicata. L'acceptation du fournisseur peut se faire par lettre adressée à l'abonné, dans les trente jours ou résulter du raccord de ses fils ou de ses tuyaux, au point de livraison, à ceux à l'usage de l'abonné. Les Parties contractantes déclarent par les présentes élire domicile à Montréal, P.Q., pour toutes les fins de ce contrat.

MEMORANDUM:

Mr. Carrier.

With reference to Rev. Father Lacouture's request in his communication of the 29th ultimo hereunder, that an amount of \$200. be granted as the Department's share towards the cost of boring a water well on the shore of the St. Lawrence River in front of the Mission building to provide a reliable water supply for both the Mission buildings and the government schools at Caughnawaga, I beg to concur with the explanation given by him, and to recommend that whenever funds are available the Department should take advantage of the offer just made by the Missionary, as this would probably settle the question of maintenance of the intake pipe for several years.

Mr. Father Lacouture wanted an answer before leaving the office, this was the reason why the matter was brought to Mr. McLean's attention.

Sir,-

I have to request that you make an inspection of the work in connection with the erection of the new Central School at Caughnawaga on your regular office days on the reserve. This course is considered necessary on account of the difficulty in securing the services of a building Inspector, and the present stage of the work does not require any technical knowledge of the contractors' work.

The nature of your duties will be described to you by the Departmental Engineer, when he next visits the site of the work. They will consist mainly in ascertaining that the different parts of the building are being erected in accordance with the plans and specifications and advising the Department as to the progress of the work when required. It is understood that Mr. Chene is to make a weekly inspection of the above mentioned building.

Memorandum.

Dr. Scott.

When the contract for the erection of the new school at Caughnawaga was let some time ago, a Mr. Moses Guerin was appointed Inspector on the recommendation of the local Member. It was thought at that time that with inspections at intervals, the work might be properly looked after and the necessity of advertising the position obviated. Experience, however, proved that Mr. Guerin was not altogether competent and as a result it was decided to ask the Civil Service Commission to make an appointment. They advertised the position and as a result a Mr. Bersailou of Laprairie was appointed. He has advised the Agent that he is unable to accept the appointment. The work is well advanced. The roof will be on the building by the end of this week and I think, in view of the fact that the qualifications of the other applicants were very doubtful, it would be better to arrange to have Mr. Chene make weekly inspections from this time out. Mr. Letourneau is quite willing to visit the work ~~daily~~ and report progress. This, with a thorough inspection by Mr. Chene, should be quite satisfactory in view of the progress that has been made up to date as indicated above.

The Department of Indian Affairs,
Office of the Purchasing Agent,
Ottawa, Ontario.

Gentlemen:-

We are herewith attaching your tender form on a shallow well water system and wish to advise that our plant fully answers your specifications.

The reason, we in the first place quoted on a deep well outfit, was on account of the fact that when our engineer visited Caughnawaga, looking over the proposition, he found the well pipe 6" diameter but the point he was not able to determine was if the supply in the well would maintain a level not exceeding 22 to 24 feet from the top.

Our installation charge does not include any boring through the cellar walls, or floors, or plumbing. The pipes will have to be brought to the basement.

You will find out within a week whether the water drops too low for this shallow well pump and if this is found to be the case we will then allow you full credit for same and supply you with a deep well outfit.

We trust we may be successful in securing this business and thanking you, we remain.

Yours very truly,

Dear Sir:

We understand from Mr H.A. Byron of 306 Monmouth Ave, Montreal, who claims he has the electric contract for the wiring of the new school at Caughnawaga, now in course of construction, that you intend to install an electric cooking range of about 70 Amps capacity, also a large number of lights.

As it would be necessary in this case to purchase a new transformer, which may take 2 months for delivery, we should be glad to know your intentions, that is to say the number and capacity of lamps to be installed, also of the electric ranges, if any.

We would recommend the wiring for electric ranges, pumps and for other small motors, if any, to be arranged for a special meter in order that you can benefit a special rate for same.

Oct. 3, 1927.

Memorandum:

Dr. Scott.

Last July I was advised by Miss Dumont of the Caughnawaga Hospital that a well boring apparatus was available on the reserve and that an artesian well had just been completed at the hospital at a price of \$2.00 per foot for the first hundred feet and \$4.00 per foot for the remaining depth plus an allowance of fifty cents per foot for the board of the men. With your approval on June 18th instructions were given to Mr. O. Fortin, the well contractor, by the Inspector of Works to proceed with the boring of the well at the new Central School at Caughnawaga, on the same terms as those paid to him at the Hospital. The contractor went ahead with the work and submitted an account for a well 158 feet deep, at \$4.50 per foot, explaining that the amount paid by Miss Dumont at the rate mentioned above was for the enlarging or reborings of an old well, and the deepening of it, and that the current price charged by him for the boring of a six inch artesian well in rock was \$4.00 per foot for the entire depth plus an allowance of fifty cents per foot for the boarding of his men. Up to date I have refused to certify to his account, which amounts to \$711.00 for the reason that the contractor proceeded with the work without the Department's authority as to the change in the terms of payment, namely from \$2.00 to \$4.00, and he was advised accordingly by letter of the 13th of August last.

The Department was requested on 15th of Sept. by the law firm of Perron, Taschereau, Vallee, Genest & Perron, of Montreal to reconsider the payment of this account, and I have ascertained that the price asked for by Mr. Fortin is regular and that he would be entitled to the \$4.50 per lined foot for the entire depth of the well, this being the price paid throughout the locality for this kind of work.

Before going any further with the matter, I would like to know whether his account may be given consideration or if negotiations should be entered into with his lawyers, as mentioned in the accompanying letter.

With further reference to your letter of the 15th ultimo concerning the payment of an account due by this Department to Mr. O. Fortin, 1876 Rosemont Blvd. Montreal, for the boring of an artesian well at the Central School at Camphnawaga, Quebec, I beg to say that this contractor was authorized by Mr. Guerin of St. Constant, who was the Inspector on the above mentioned school, that the Department would consent to entrust him with the boring of this well at the price specified, namely, \$2.00 per foot for the first hundred feet, and \$4.00 per foot for the remaining depth until water was reached plus an allowance of 50 cents per foot for the board of the men. The Department did not give Mr. Fortin any other instructions than those above mentioned, and I am advised that he proceeded with the work without considering whether we would agree to authorize the work at the price now claimed by him. I may add for your information that the above mentioned facts have been confirmed by the Inspector of Works in a communication just received from the Indian Agent, Mr. Letourneau, copy of which is enclosed herewith.

Mr. Fortin was requested on August 13th to submit revised accounts in accordance with the prices agreed upon when the work was authorized, in order that payment might be given immediate consideration.

I am requested by Rev. Ottawa, October 12, 1927.

Sir:

I have your letter of the 8th instant, relative to the request of the Rev. Sister Superior of the Caughnawaga R. C. Schools to have the electric signal bell reinstalled between the teachers' residence and that of the janitor, Mr. Albany Robert.

In reply I beg to say that you may arrange to have this signal bell installed. It is noted that you estimate the cost to be approximately \$15. When the work is completed, please forward a properly certified voucher, in duplicate, in the usual manner, covering the cost. The installation of this bell should receive your early attention.

Sir:-

I am requested by the Reverend Sister Superior of the R.C. Indian Day Schools to ask you whether the account of \$178.83 from Dupuis Freres Ltd., forwarded to the Department with voucher No. 1130 dated 29th August last was erroneously made, a Departmental Cheque having been received for a sum of \$170.43 by the above Company.

I am also requested to refer to voucher 1194 dated 21st ultimo for an amount of \$103.44 in favour of Rev. Sister Superior of which an Official cheque No. 2736 to the amount of \$100.23 was received.

Dear Sir,-

In reply to your letter of the 8th instant, I may say there were mistakes in the account therein referred to from the firm of Dupuis Freres Limited. The errors were corrected, and a cheque covering the amount due went forward, and the matter was explained to the Accountant of the firm by letter of the 27th September.

Voucher No 1194 mentioned by you was paid at \$100.28, which was the correct amount. There was an error in the charge of of \$4.71 made ~~by~~ F.W. Woolworth. The charge should have been \$1.55, a difference of \$3.16.

Yours truly.

Sir:-

I believe it be my duty to inform the Department of the recent breaking into the Caughnawaga Village Schools and teachers' residence at night by unknown persons. At the teachers' residence it only occurred into the back yards during the night of the 4th instant. During the night of 24th September last the windows of the Girls' school were forced open and the different things at the interior were upset but nothing has been taken away. The same thing happen during the night of the 10th instant into the temporary class-room, formerly Indian Agent's-Office were the doors and windows have been broken.

I beg to suggest that Constable Jocks be notified by the Department to keep a closer inspection over the Government buildings at Caughnawaga.

ADDRESS REPLY TO THIS LETTER TO 752 VICTORIA SQUARE

Montreal, P.Q. Canada October 17, 1927.

Mr. J.D. Chéné, Architect,
Department of Indian Affairs,
OTTAWA, Ont.

Dear Sir:-

We are sending by this mail a small sample of "Asbestoslate" Blackboard as manufactured by us. You will notice that the Board is a solid black throughout, that it has a very fine writing surface, so that it permits of easy writing, and the color cannot change.

We would appreciate it very much indeed if you would consider "Asbestoslate" for the new School being erected at Caughnawaga, Que. We have shown samples to Mr. Mackenzie the General Contractor, who is erecting that School, and he is very favorable to using it.

We are in a position to make very prompt shipment of "Asbestoslate" Blackboard, at a most economical price, and would appreciate it very much indeed if you would consider it for the School above mentioned.

The following is a list of some of the Department Schools to which we have shipped "Asbestoslate" Blackboard, and we believe it is giving the very maximum in satisfaction.

Yours very truly,

Dear Sir:-

In regard of sectionment of petitions in Boy school Caughnawaga, we have examined the basement, and joists we find out. in changing the stair in the cellar there has been one or two supporting joist. has been cut out. and also two joists are very weak. We will suggest to put 3 or 4 joists to put in with a piece of 6"x6" or 6"x8" Heavy web High Beam put in underneath joists and supported on Cement Buttment. and 8"x8" wooden Post.

The reason why we have to put 6"x6" or 6"x8" High Beam is because one post will have to set back about 2 feet 6 inches. on account of cellar entrance

This will cost approximately. \$116.00

I am sending you, under separate cover, blue print copy of a plan for the proposed sewerage system for the new Central School, and I would request that you obtain from the contractors, MacKensie and Genest, a tender for the construction of this drain, in accordance with the plans and specifications. It should be understood that the work, if granted to them, is to be proceeded with immediately and completed before the 1st of December. Prices should be sent to this Department before the middle of next week, as it is the intention of the Department to obtain competitive prices should their tender be too high.

Incl.

I beg to acknowledge the receipt of letter of the 25th instant, your File IA-IA7-3001, and in reply I am returning herewith the rider which was attached to the certificate in favour of Mr. J. A. Barsalou as Inspector of Construction, Caughnawaga Indian school. In this connection I have to say that when Mr. Barsalou was advised of his appointment he informed the Indian Agent that he would be unable to accept. The work was well advanced and we arranged here to have the Departmental Engineer make weekly inspections, together with the Indian Agent, until the work is concluded.

Yours very truly,

Sir,-

Referring to my letter of the 20th instant, concerning the jointing of the brick veneering for the Central School at Caughnawaga, I beg to say that the Department will not insist on these being of the raked type, as this was not particularly specified, and the contractor would charge an extra for this kind of jointing. The contractor has been informed that 1/8" flush joint will be acceptable instead of that above mentioned.

I wish to bring to your attention the last article in the brick work specification, with reference to the finishing of the jointing in the interior facing of the veneering, to which I would ask you to pay special attention.

Sir,-

See
I beg to request that, upon your next inspection of the new Central School at Caughnawaga, that you notify the contractors that the angle bracing of the roof trusses, as shown on the plans, are to be built in immediately, in order to ensure a better rigidity of the roof, as provided for in the specifications, and the Department will rely on you to see that this is completed in a thoroughly satisfactory manner and with the least possible delay.

It is desired that you obtain from the contractors an insurance policy covering the cost of the amount of work already performed on the building, also a certificate of inspection from the Quebec Bureau of Electrical Inspectors for the wiring just completed on the above mentioned building, as required by the specifications. The interim receipt, at least, for the insurance policy should be forwarded to the Department by return mail.

The accompanying accounts from Crane Ltd., for the furnishing of two solid porcelain urinal stalls should be examined and if the goods have been delivered in good order the accounts should be certified to by you and returned here for payment.

MEMORANDUM:

Referring to my memorandum of the 5th of August last, concerning the necessity of constructing a sewerage system from the new Central School, as far as the St. Lawrence River, at an estimated cost of \$3,500, I beg to say that a tender was obtained with your approval, from the contractors, Messrs. MacKenzie & Genest, for the above mentioned work, at a cost of \$4,497.00. The reason for the difference in the tendered price and my estimate is due to the fact that it was subsequently found advisable that the outlet of the sewer line be extended 45 feet into the St. Lawrence river, and placed to a depth of six feet underneath the lowest water level. It was also found upon the boring of testing wells that the excavation would have to be made in solid rock throughout.

As weather conditions are becoming unfavourable for this kind of work, I would recommend that the contractors be requested to undertake it at their tendered price. The Schools Branch have already stated that their are funds available to cover this expenditure.

Honourable Charles Stewart.

It is necessary to construct a sewerage system from the new Central School on the Caughnawaga Reserve to the St. Lawrence River. A tender on this work was received from Messrs. MacKenzie & Genest who are the contractors for the building. The amount of their tender is \$4,497.00. The drain will be about 620 feet in length and the excavation will have to be made in solid rock throughout. As the season is advancing and the weather becoming unfavourable for this kind of work, I would recommend that the contractors be requested to undertake it. Funds are available to cover this expenditure.

Mr. 5-1-5

Sir:-

I beg to acknowledge the receipt of your letter of the 4th instant and to inform you that as instructed I have, yesterday, requested the contractors of the new Central School at Caughnawaga to have the angle bracing of the roof trusses built in immediately, in order to ensure a better rigidity of the roof.

They have replied that these angle bracing will not be built in until the entire completion of the asbestos roofing when a better levelling of the whole roof will be adjusted.

then

The constructors where just arranging for an insurance policy covering the cost of the amount of work already performed on the building. I have been told by one of the contractors that they will attend with the least possible delay, after its completion, to the inspection from the Quebec Bureau of Electrical Inspectors for the wiring on the above mentioned building.

As to the accounts from Crane Ltd., I beg to say that the articles have not yet been brought on the school site. When delivered, if the goods are in good order I will certified these accounts, as instructed.

I beg to inform you that when I last visited the boys' school at Caughnawaga, I noticed that some of the partitions were sinking, and upon investigation I found this to be due to a number of joists having been cut and left without any support. This was done at the time that the caustine chemical closet was installed in the basement of this school for the use of the teachers.

To remedy this condition I would suggest the erection of a number of additional joists supported on a steel beam on cast iron posts. This would cost about \$90.00. I beg to ask your approval of this expenditure, and I may say that the work could be done by the contractors for the new Central School, who are in a position to attend to this kind of work.

Lachine, 31 Octobre, 1927

Couvent Ste Anne,
Rev. Sr. Supérieure
Caughnawaga,
Que.,

Madame:-

Conformément à votre demande verbale lors de notre entrevue de ces jours derniers, je désire vous confirmer les détails qui vous ont été donnés au sujet d'un système téléphonique devant être installé entre notre établissement et une des écoles sous votre surveillance située à environ 300 pieds de distance de l'établissement ou est notre téléphone actuel.

Comme je vous le faisais remarquer, il faudrait que vous obteniez une permission écrite du Président de la Cie de lumière afin de nous permettre d'y affixer nos fils dans la rue transversale pour rejoindre l'école en question et au cas où cette permission ne pourrait être obtenue, il faudrait naturellement l'installation de deux poteaux de dimensions suffisantes, et ce à vos frais.

Cette question de supports pour nos fils dans cette rue étant réglée, il y aurait l'installation des instruments et des deux fils établissant la connection, pour lesquels nous vous chargerions le coût total d'installation, lequel, sur demande, je pourrai vous fournir plus juste, si cela était absolument nécessaire.

Le loyer mensuel pour l'usage et l'entretien d'un système de téléphone semblable serait de \$3.14 par mois pour deux instruments devant être placés sur le mur.

Si ces conditions étaient acceptées, nous ferions tout en notre possible pour tâcher d'hâter l'installation.

Bien à vous,
J. C. Potvin,
Gérant.

Sir,

I beg to inform you that your quotation of the 13th of September for the furnishing of an automatic pneumatic water supply system for the new School now being erected at Caughnawaga, including a deep well pump has been accepted, and you may arrange for shipment of the above mentioned machinery as early as convenient, with the exception of the steel pressure tank for which a deduction should be made from the price quoted.

Shipment should be made to L. Letourneau, Adirondack Junction, freight prepaid, and it will be necessary that you notify the Department and Mr. Letourneau at his address at St. Constant, Que., a few days before delivery is to be made.

I may say that after giving further consideration to the proposed water supply system it has been considered that at least a 300 gallon tank should be provided, and I would ask you to kindly furnish me with a price for a steel tank of this capacity, galvanized inside only, f.o.b. Pursuant to your request made personally to this Department last week for the payment of some wages due you for the carting of gravel to level the roadway along the water pipe-line leading to the girls' school, Caughnawaga, some three years ago, I regret to say that there is no record of this service on behalf of the Department. I shall, however, give the matter further consideration if you will furnish me with a detailed statement giving the exact date of your employment, the name of the foreman in charge of the work, and all other information which you think will enable the Department to ascertain your right to the payment of \$7.20, which I understand is the amount claimed.

Re. 5-1-5 Dated November 18 /27

Sir,

I have received a letter from the Department about the school and Teachers' residence being entered by persons unknown. I wish to state that one night about a month ago (While the electricians were still working at the Girls School) I was notified by an Indian that there was a light at the School, this was about two o'clock in the morning so I went immediately to the Girls School and I saw the lights in the Second class, I tried all the doors to see where I could get in to investigate as I did not have time to go to the Teachers to get the key owing to the lateness of the night, I tried the cellar door, all the doors on the ground floor were locked, I went up the fire escape and tried the door there and found the door also locked, I came down the fire escape and I tried the windows on the class that connect with the fire escape there I found the window unlocked, I went in and looked all over down to the basement and upstairs, there was nothing suspicious or anything out ^{of} the way, only thing I found ^{is} that I could not turn the switch off to the Second Class lights; I had to take the main switch off before I was able to put the lights off. I blame ^{defective} the switch was the cause of lights being turned on, I was not told nor did I learn of anything being stolen, nor did I see any thing out of the way while there myself. As for the Teachers residence this is the ^{is} first time that I ever heard of of having ever being entered, it ^{is} ~~was~~ a surprise ^{to me} as The Sister Superior has never mentioned to me.

Sir:-

I beg to refer to your letter of the 18th instant, addressed to the Constable Jocks, Caughnawaga, relative to the supposed breaking in the Village schools and the teachers' residence, and to inform you that after the clear explanations given by the constable, it appears that the entering into the schools at night might have only been imagined. However, I have advise the constable to keep on with careful attention around the schools at night.

I enclose herewith his letter of explanation which seem quite satisfactory.

Sirs,-

Low
J.P.
R.R.

I beg to inform you that this Department will not assume any responsibility whatsoever for any delay, damages, or accidents, resulting from the existence of water in any part of the basement of the new Central School which you are now erecting, at Caughnawaga, Que. I consider that it was your duty to take in time the necessary precautions to prevent the admission of water into the above mentioned building, before the advent of rainy and cold weather, such as the closing of the sewer outlet and the artesian well, which you have taken advantage of for your own convenience since its completion. It is unquestionable that you have had ample time since the boring of the well to lay a concrete floor in the basement, entirely waterproof, as provided for by the specifications. Kindly, therefore, undertake at once the necessary work for the drainage of this part of the basement at your own expense, and keep the entire building suitably heated from now until its final completion and acceptance by the Department, as required by the specifications, - (Articles 14, 24, & 27 of the General Conditions, also Article 5 under Excavation and Grading.)

I am furthermore advised that the work is progressing very slowly, the roofing not being completed nor the brick veneering which should have been started several weeks ago, when weather conditions were more favourable. It is evident that the building will not be ready for inspection on the date stipulated in your contract, and that the delay will be the cause of serious inconvenience and expense to the Department. I would ask you, for this reason, to give the matter your most serious consideration as to whether the Department can expect the transfer of this building by the end of this year.

I may say that the Department has arranged for the payment of the coke already furnished at the building, (2 tons) this upon the recommendation of our Engineer, also for the rental of a pumping outfit for a period not longer than six days, if so required, this being granted in order to assist you to remedy the present conditions, and allow the heating system to be put in operation with the least possible delay. It should be understood that no other expenses will be paid for by the Department, and the Inspector of Works and the Departmental Engineer are being advised to this effect.

Kindly inform the Department by return mail whether you have made the necessary arrangements for the completion of the drainage system for the building for the date set forth in my letter of instructions authorizing this work.

Sirs,-

I have to request that you build, in the ceiling of one of the classrooms in the new Central School, where indicated by the Departmental Engineer on his last inspection of this building, one circular opening, having a clear diameter of four feet six inches. It is intended to use this opening for the installation of a cast iron spiral stair at a later date.

JS

The Department is advised that the jointing of the brick veneering of the above mentioned building is not being made in accordance with the specifications, the joints not being filled entirely between the brick, and not trowelled level with the veneering of the brick wall. I am giving instructions to the Inspector of Works, Mr. Letourneau, to insist on the jointing being done in accordance with the specifications and to suspend the work if his instructions are not carried out.

Sir:-

I beg to refer to your letter of the 21st ultimo relative to the construction of the sewerage system for the new Central School at Caughnawaga and to inform you that apart of an average dept of two feet of earth taken out of the surface of the solid rock on almost the entire lenght of the specified work, the contractors, Messrs. MacKenzie & Genest have not at all proceeded with this work since nearly ten days.

I have inspected this work yesterday and no one was at work. I have tried to interview the contractors in its connection but I have been informed that they were absent from Caughnawaga.

Your obedient servant,

Joseph Bourgeois

Sir:-

I beg to acknowledge receipt of your letter of the 29th ultimo together with a copy of another that you have addressed to Messrs. MacKenzie & Genest, with reference to the heating and drainage of the new Central School at Caughnawaga.

In reply I beg to inform you that while visiting the Caughnawaga Indian Reserve, yesterday, I have made a thoroughly inspection of the building under construction and I have noticed that apart of the brick veneering not being quite carried out to the specifications, the outside joints not being filled in few case on the eastern side of the building, because of the incompetency of two bricklayers, I have been informed by the man in charge of this work that more competent workers are to be replaced them.

(according to)

Note: Because of the absence of the contractors, I have been unable to ascertain whether they have or not received your letter.

The interior work is proceeded with quite satisfactorily.

The water level into the basement seems to be at the same height as it was about two weeks ago.

Sir:-

In reply to yours of November the 29th regarding responsibility for water in Basement of the new Central school Caughnawaga, according to your letter you consider that it was our duty to take necessary precaution to prevent the admission of water into the basement. We would like you kindly to take note that our sewer outlet was close and also the cement floor in the basement as been finish since October 12th, and for the Artisian well was not a part of our contract nor was no benefit to us as your letter state we took advantage off as we drew our water from river for our concrete, as for as capping or plugging the artisian well we had no authority to do so. Kindly take note that this water did not come in from the well in the day, it start in on a sunday night November the 13th. Kindly take note that we notify your engeneer Mr J. D. of the well, as we would not be responsible for delay or damage done from same, and he advise us to open the mouth of drain and proceed to pump it out which after we found was going to cost the Department too much as you would have to keep a pump day and night, and after having pump 4 days we find out that the same water was backing through the rock which we notify your engeneer of same as we were not responsible in any one way or the other, as the sewer was not constructed from the building.

Kindly take note that the furnaces were in and the heating system could have been completed if it was not for this water from the well.

As it is now your engeneer arrange with us to supply coke to keep this water from freezing till such time, as this water goes down if we supply temporary furnaces.

Kindly take note, as to your letter of the 17th inst. advising us to go ahead with sewer for Central school we advise your engeneer Mr J D Chene that this work would take at least six to eight weeks with fair weather at this time of the year we started this work immediately and we have got in so far to date two days on account of rainy weather, as the surrounding of the sewer at the present time is covered with water

and as it is solid rock it will take sometime before its finish we expect it will run the middle of January to the 1st of February.

Referring to your same letter re-Brick veneering not been started several weeks ago kindly take note to your letter of October the 5th when we were ready to start brick you advise us to lay this bricks with a rake joint which was not in the specifications $3/8$ " deep, we reply to same stating it would cost an extra, which we got no reply til November the 1st in which time the Department delayed us Twenty five days. we would like you to let us know how we could start several weeks ago when the Department had not decided what they want it, which through us in the rainy wheater when we could off had the brickwork completed.

Kindly take note that the roof has been finished for sometime outside of certain portion that cannot be done till after brickwork is finished, as it has to be flash up to brickwork as this is Asbestos shingles and not wooden shingles, as if there is any delay in the building being not finish at the date stipulated we considered it is the Department's fault as we were awarded the contract on July the 9th and could not

The various amounts mentioned in the account of Messrs. MacKenzie and Genest, contractors of Caughnawaga, were agreed upon before the work was started, when an inspection of the school buildings was made by me in company with the agent.

A detailed list of the work to be performed for each amount mentioned in the accompanying statement was first submitted to the contractors, in order to obtain a fixed price, before authorizing any of the work, which was mostly in the form of repairs. It would have been difficult, therefore, to give an accurate description of it, but should it be necessary to give more particulars I shall try to indicate them on new vouchers.

Sir,-

I am in receipt of your letter of the third of December, advising me of the progress of the work at the Central School, Caughnawaga, and I beg to advise you that the various questions referred to in your last communication were dealt with by the Departmental Engineer, when making a inspection of the work last weekend.

I have to request that when you next visit the building to see that the angle bracing of the rafters, shown on section plan, above the ceiling of the first floor is entirely built in, as already mentioned in a previous communication, and not to allow under any circumstances the plastering to be proceeded with on this story until this work is satisfactorily completed.

It should also be understood with the contractors that if the construction of the drainage system for the above mentioned school is not resumed early in the course of this week, that the Department will immediately undertake itself to carry out this work in accordance with the requirements of the General Conditions of the Specifications. Kindly, therefore, advise them to that effect.

Sir,-

Upon the last inspection of the Central School at Caughnawaga by the Departmental Engineer it was noticed that the joints of the stone masonry were not made, and that the concrete work of the entrances was not satisfactorily completed. I have to request that, owing to the advanced season, you advise the contractors that it is the wish of the Department that this work be left over until next spring, when weather conditions will be suitable for this kind of work. This applies also to cleaning and washing of the brick veneering and the finishing coat of paint for the outside woodwork.

Kindly acknowledge receipt of this letter and advise me if the contractors carry out these instructions.

re: progress of the work at
the new Central School.

I beg to inform you that the contractors Mac-kenzie & Genest are at work for the construction of the drainage system for the above mentioned school. The work, however, is proceeding very slowly. Yesterday, they had three men at work for the drilling of about 25 holes that are already bored to an average depth of four feet into the solid rock, a length of approximately 100 feet from the river side. Needless to say the this kind of work is proceeded with very slowly.

Referring to your letter of the 1st instant to the Contractors, I beg to inform you that the circular opening, referred to therein, has not yet been made by them.

The brick laying on the outside walls is also proceeded with very slowly on account of the severe temperature. I have noticed that the joints are not always properly made in accordance with the specifications. This is also probably due to the severe temperature during last week.

The second coat of the plastering into the concert hall is now completed.

There is about 12 inches deep of water yet into the boiler room.

An Indian by the name of Angus Phillips of Caughnawaga has applied to this Department for payment of \$7.20 for wages due him for the carting of gravel to level the roadway along the water pipe line leading to the girls' school, from the Mission building, at the time that the water pipe was thawed out some three years ago. He claims to have worked two days, under the supervision of Peter Viano, who omitted his name from the pay list. In view of the explanation given by him I would ask you to interview him personally, and prepare the necessary vouchers covering this amount, and forward same to the Department for consideration.
